ENVIRONMENT EFFECTS STATEMENT AND
PLANNING SCHEME AMENDMENTS

COMMENTS INVITED BY
28 FEBRUARY 1990

PROPOSED WESTERN RING ROAD
LAVERTON NORTH TO
TULLAMARINE

Environment Effects Act 1978

**ENVIRONMENT EFFECTS
STATEMENT**

VIC ROADS has been investigating the location and form of the Western Ring Road (WRR) from Laverton North to Tullamarine and has prepared the Environment Effects Statement (EES). The project will improve road access within the western suburbs and link major radial routes including Princes Freeway, Western Highway, Calder Freeway and Tullamarine Freeway.

The preferred location for the WRR is generally along the existing proposed main road reservation for F3-F5 included in the planning schemes of the Cities of Werribee, Sunshine and Keilor. The main changes to the current reservation are proposed at:

- Ardeer, where the proposed reservation is located west of Ardeer rather than alongside the SEC transmission lines.
- Albion North, where the reservation at Furlong Road is proposed 20 m further from nearby houses.
- East Keilor, where it is proposed to reserve additional land for an interchange between the WRR and the Calder Freeway.
- East Keilor, where a new link road is proposed between Keilor Park Drive and Millcara Road.
- Tullamarine, where a new link road to Melbourne Airport is proposed.

Planning and Environment Act 1987
