ROAD SAFETY (PROCEDURES)
(PORTABLE WEIGHING DEVICES)
REGULATIONS 1990

In accordance with the provisions of the *Subordinate Legislation Act 1962* notice is given of the proposal to make regulations to be known as the Road Safety (Procedures) (Portable Weighing Devices) Regulations 1990.

A regulatory impact statement has been prepared as required by the *Subordinate Legislation Act*.

The objective of the proposed regulations is to ensure proper enforcement of the existing mass limits on heavy vehicles through changes which will:

- make the determination of overloading using portable weighing devices consistent with that used on weighbridges;
- achieve uniformity of regulations throughout Australia relating to the way in which readings from portable weighing devices are used to ascertain the mass of vehicles. (Uniformity of regulations already exists amongst all other States and Territories in Australia).

The regulatory impact statement concludes that the proposed amendments to the Road Safety (Procedures) Regulations 1988 to change the method of determination of mass of vehicles using portable weighing devices, are the only cost effective and practicable means of achieving the objective.

Comments and submissions are invited from interested parties and should be forwarded to the Legislation Officer, Legal Services Department, 4th Floor, Roads Corporation, 60 Denmark Street, Kew 3101.

Copies of the regulatory impact statement may be obtained either by writing to the Legislation Officer at the above address or by phoning Mrs Rose Ferma on 860 2889.

Any enquiries regarding the content of the statement should be directed to Lorna Heiman on 860 2595.

The closing date for submissions is 21 days from the date of this notice.

ROAD SAFETY (TRAFFIC) REGULATIONS
1988

Exemption from Wearing Seat Belts

Regulation 1506 of the Road Safety (Traffic) Regulations 1988 provides that a person who is seated in a motor vehicle that is in motion and

2516 G 32 15 August 1990

in a seat for which a seat belt is provided must wear a seat belt but the regulation does not apply to a person who the Roads Corporation has certified is a person to whom it is impractical, undesirable or inexpedient that that provision should apply.

In accordance with that regulation, I Peter Lowe, Delegate of the Roads Corporation certify that it is impractical that Regulation 1506 (1) of the Road Safety (Traffic) Regulations 1988 should apply to a person who is driving a motor vehicle while that motor vehicle—

- (a) is operating in a shopping centre car park; and
- (b) is being used to pick up and return shopping trolleys; and
- (c) is travelling at a speed of less than 25 km/h; and
- (d) is towing a trailer.

Proposed Flora and Fauna Guarantee
Regulations 1990

A Regulatory Impact Statement has been prepared in relation to the proposed Flora and Fauna Guarantee Regulations 1990.

The objectives of these Regulations are—

- (a) to specify the criteria to be used in determining if a taxon or community or potentially threatening process is eligible to be listed in Schedule 2 or 3 of the *Flora and Fauna Guarantee Act 1988*; and
- (b) to specify the information which must be provided in a nomination under that Act; and
- (c) to specify the form of notices, applications and certificates under that Act; and
- (d) to specify the methods to be used for giving notice under that Act.

The reason for the proposed statutory rule is that the *Flora and Fauna Guarantee Act 1988* requires that Regulations be made on the above matters.

The Regulatory Impact Statement concludes that the proposed Regulations are the best means of achieving the stated objectives. The alternatives considered either made the administration of the Act unnecessarily complicated or they were insufficient to protect the interests of the public.

Victoria Government Gazette

A copy of the proposed Regulations and the Regulatory Impact Statement may be obtained from Alan Woodroffe, Executive Services Branch, 240 Victoria Parade, East Melbourne 3002. Telephone 412 4753.

Public comments and written submissions on the proposed Regulations and the Regulatory Impact Statement are invited. Written submissions will be received up to twenty-one (21) days from the date of the publication of this notice. All submissions will be treated as public documents.

EXEMPTION

Application No. 9 of 1990

On 1 August 1990 the Equal Opportunity Board considered an application pursuant to section 40 (1) of the *Equal Opportunity Act 1984* ("the Act") by Carey Baptist Grammar School for the purposes of—

(1) advertising for a female student counsellor and thereafter maintaining an on-going gender staffing balance in regard to student counsellors;

(2) advertising for applications from female students for places at the school located at 394 Barkers Road, Kew.

Upon hearing Dr R. H. Millikan, Principal, and reading the material in support of the

G 32 15 August 1990 2517

application, the Board resolved to grant the exemption sought from sections 21, 28 (1) and 59 of the Act.

In granting the exemption the Board noted—
that in certain year levels the number of females is as low as one-fifth of the student enrolment;

the imbalance of female students places them at a disadvantage through their interactions with peers and in the classroom;

the objective is to progress to an even balance of male and female students which will require curricular and role modelling changes.

The Board hereby grants an exemption from the operation of sections 21, 28 (1) and 59 of the *Equal Opportunity Act 1984* as follows:

(1) To advertise for a female student counsellor and thereafter maintaining an on-going gender staffing balance in regard to student counsellors;

(2) To advertise for applications from female students for places at the school located at 394 Barkers Road, Kew—

such exemption to expire on 1 August 1993.
