RECALL OF "R" GRADE ELECTRICAL  
MECHANICS LICENCE

The State Electricity Commission of Victoria hereby notifies that from 1 December 1989 the "R" Grade Electrical Mechanics Licence has been superseded by the "S" Permit.

In most cases the work permitted under the "S" Grade Permit will be very similar to the previous "R" Grade Licence. In this respect, the "S" Grade Permit represents a name change only but there are new increased responsibilities for "S" Permit holders to ensure that their work complies in all respects with the SECV Wiring Regulations.

New applicants for "S" Permits will be required to undertake additional training which will be progressively introduced.

Existing holders of an "R" Grade Licence will be notified of the changeover by a letter to the address of the licence holder currently held on the Commission's Register. Holders will be then able to change the "R" licence over for an "S" Grade Permit free of charge, by attending at the office of the SECV's Registrar of Electrical Contractors with two passport photographs and appropriate picture identification such as a Driver's Licence or Passport.

As an interim measure, existing "R" Grade Licences will remain valid until 1 January 1991. Existing "R" Grade licence holders have until that time to change them over to the new "S" Grade Permit.

Further inquiries about the "S" Permit should be directed to the Office of the Registrar of

I, David Ronald White, Minister for Industry, Technology and Resources give notice under the Subordinate Legislation Act 1962 as follows:

The proposed regulations, the State Electricity Commission (Energy Efficiency Labelling) (Clothes Washers) Regulations 1990, have been the subject of a regulatory impact statement.

State Electricity Commission Act 1958  
PROPOSED APPROVAL OF ELECTRICAL  
EQUIPMENT (AMENDMENT)  
REGULATIONS 1990

It is proposed to make Regulations to amend the Approval of Electrical Equipment Regulations 1984 (the Principal Regulations) to substitute fees payable under the Principal Regulations to more closely align fees with the present costs of examination and testing of prescribed electrical equipment and to prescribe fees for examination and testing of revised categories of prescribed electrical equipment. A Regulatory Impact Statement has been prepared and this concludes that the preferred method of achieving those objectives and of providing a reasonable fee for service is to make regulations revising the fees payable for examination and testing of prescribed electrical equipment.

Comments and submissions are invited from the public and will be received up to 21 days from the publication of this advertisement. Copies of the Regulatory Impact Statement and proposed regulations are available from—

The Chairman, Electrical Approvals Board, Technical Services Department, State Electricity Commission of Victoria, Ground Floor, 475 Flinders Lane, Melbourne 3000. Telephone: 691 4460.
