This General Dimension Permit only applies to six axle "articulated livestock vehicles" as defined below and subject to the conditions specified in Parts 2, 3 and 4.

1.2 DEFINITIONS

In this schedule -

"articulated livestock vehicle" means an articulated vehicle designed to carry livestock in a stock crate and consisting of a prime mover with a tandem axle group towards the rear and a semi-trailer with a tri-axle group towards the rear which complies with the vehicle specifications in 4.2.3 (d) to (i).

"articulated vehicle" means a vehicle consisting of a prime mover and a semi-trailer.

"axle width" is the width between the extreme contact points with the road surface of the outer tyres on an axle.

Victoria Government Gazette

"livestock" means cattle, sheep, pigs and goats, but not horses.

"owner" means the owner of the prime mover or the semi-trailer or both.

"prime mover" means a motor vehicle which is constructed, designed or adapted for connecting to a semi-trailer.

"semi-trailer" means a vehicle without its own motive power which is capable of being drawn by a prime mover in such a way that it is attached to and horizontally pivoted on the prime mover by imposition on it, on or in front of the rear axle of the prime mover, so that the semi-trailer is free to turn relative to the prime mover when the prime mover is rounding a curve and so that part of the mass of the semi-trailer and any load carried on it is borne by the prime mover.

"tandem axle group" means 2 consecutive axles—

(a) the centres of which are not less than 1 metre and not more than 2 metres apart; and

(b) which relate to each other through a suspension which uniformly shares load to each wheel.

"tri-axle group" means 3 consecutive axles—

VICTORIA

Notice of Preparation of a Regulatory Impact
Statement

Notice is given in accordance with the provisions of the *Subordinate Legislation Act 1962*, of a proposal to make regulations to be known as the Transfer of Land (Fees) Regulations 1991.

The objective of these regulations is to increase fees under the *Transfer of Land Act 1958* to provide additional funds to accelerate the computerisation of the Land Titles Office.

In addition to the fee increase of 6% allowed for in the budget for 1991-92, a further fee of \$10 will be charged on each transfer lodged after the regulations are made. This will raise approximately \$7.6 million over five years.

A Regulatory Impact Statement has been prepared in accordance with the provisions of the *Subordinate Legislation Act 1962*.

The statement advises that fees can only be prescribed by regulation, details costs and benefits to government and customers of accelerating the computerisation of the office, and investigates alternative ways of achieving the objective of the regulations.

Comments and submissions are invited from interested members of the public. Three weeks has been allowed from the date of this advertisement for comments to be made.

Copies of the Regulatory Impact Statement are available from the Customer Services Branch, Land Titles Office, 283 Queen Street, Melbourne, Telephone (03) 603 5444. Notice of Approval of Amendment
Amendment S10

The Minister for Planning and Housing has approved this amendment to the regional or local section of each planning scheme.

The amendment varies the provisions relating to subdivisions which change the common boundary between two lots. It provides that a permit is not required for a subdivision which realigns the boundary between two lots if the zone does not provide for a minimum lot size and dimensions, in certain circumstances.

The intention of the permit exemption is to provide for minor building encroachments and other small boundary adjustments. The amendment will ensure that the schemes have provisions consistent with that intention.

Notice of Amendment
Amendment S9

This amendment has been prepared by the Minister for Planning and Housing and includes changes to the State section of all Planning Schemes in Victoria.

The amendment makes sure that permit applications concerning land in a water supply catchment area, proclaimed under the *Soil Conservation and Land Utilisation Act 1958* and which provides water to a domestic water supply, are referred to the authority responsible for ensuring the quality of the water supply. Water quality could be significantly degraded by the inappropriate use or development of land and it is appropriate for the relevant water supply authority to be a referral authority for permit applications concerning land in catchment areas.

The controls of the schemes are not altered.
