**PROPOSED STATE ELECTRICITY
COMMISSION WIRING REGULATIONS**
1992

Notice of Regulatory Impact Statement

It is proposed that new Regulations be made to replace the State Electricity Commission Wiring Regulations 1988.

The objectives of the Regulations are to:

- (a) improve the safety and functional performance of electrical installations;
- (b) ensure safe working practices for the electrical industry and safety of the public by incorporating changes to the Australian Standard AS3000-1991 edition including modifications to cover local authority requirements;
- (c) assist with national uniformity of electrical wiring requirements.

A Regulatory Impact Statement has been prepared and this concludes that the proposed Regulations are the most viable means of achieving the objectives. The potential benefits to the community of adopting the proposed Regulations outweigh any disadvantages.

Copies of the Regulatory Impact Statement and proposed Regulations are available from Regulatory Division, State Electricity Commission of Victoria, Ground Floor, 475 Flinders Lane, Melbourne 3000. Telephone: (03) 691 4421.

Public comments and submissions are invited and should be sent no later than 21 days from the date of this notice to Mr I. K. Graham, Manager Regulatory, Regulatory Division, SECV, Box 2765Y GPO Melbourne 3001. Inquiries: Mr Don McKenzie, Telephone: (03) 691 4431.
