*Subordinate Legislation Act 1962*  
RURAL WATER CORPORATION  
Water (Lake Eildon Recreational Area)  
(Houseboats) (Amendment) Regulations 1992  
Regulatory Impact Statement

Notice is given of the proposal to make the above regulations.

The prime objective of the regulations is to ensure the more efficient allocation of public sector resources through the reduction of Government subsidy for private houseboat owners on Lake Eildon.

The regulations will—

1. prescribe annual licence fees for owners of houseboats on Lake Eildon; and
2. prescribe application, inspection and transfer fees in respect of houseboats.

A Regulatory Impact Statement has been prepared in accordance with the *Subordinate Legislation Act 1962*.

The results of the statement are as follows:

1. The major cost impact will be on the groups using the services, who will be required to pay a greater proportion of the cost of providing the service.
2. Adopting any of the major alternatives will result in either a greater economic loss to the State or an increased burden on houseboat owners.

Copies of the regulatory impact statement are available from Ms Pauline Matters, Land/Water Planning, Rural Water Corporation, 590 Orrong Road, Armadale 3143. Telephone (03) 508 2600. Fax (03) 508 2380.

SHIRE OF HASTINGS

Notice of Amendment to a Planning Scheme  
Amendment L78

The Shire of Hastings has prepared Amendment L78 to the Hastings Planning Scheme.

The amendment affects land at 99 Grants Road, Somerville. The land is owned by Melbourne Water and has been reserved for the purposes of a storage depot for a number of years. Melbourne Water has advised that the land is now surplus to their needs.

The land is considered unsuitable for rezoning to either a residential or industrial use due to the extensive areas of industrially zoned land immediately to the south.

The amendment therefore proposed to rezone the land from Public Purposes 3 (Mornington Peninsula and District Water Board) to Intensive Farming. The proposed new zone would be consistent with the existing zoning to the north and east, and would assist in maintaining a rural buffer between Somerville and areas to the north.

It is also proposed to introduce the Streamline Policy over the watercourse which runs through the land to protect remnant indigenous vegetation.

The amendment can be inspected at the Shire Offices, Marine Parade, Hastings; the Department of Planning and Housing, 33-39 High Street, Cranbourne; and the Department of Planning and Housing, The Olderfleet Buildings, 477 Collins Street, Melbourne.

Submissions about the amendment must be sent to the Manager—Planning and Development, Shire of Hastings, PO Box 55, Hastings 3915 by 12 October 1992.

SHIRE OF HASTINGS

Notice of Amendment to a Planning Scheme  
Amendment L49

The Shire of Hastings has prepared Amendment L49 to the Hastings Planning Scheme.

SHIRE OF HUNTLY

Local Law No. 6—Environment  
Notice of Proposed Local Law

The amendment affects land at the corner of Bayview Road and Long Island Drive, Hastings (part of No. 33 Cemetery Drive). It includes an existing large warehouse and associated buildings and works which are used by Transwest Haulage Industry and BHP Trading Services Division. This plant sorts and recycles different grades of steel produced in the steel manufacturing process at the adjoining BHP/Lysaghts Steel Complex. The plant therefore qualifies as a "Support Industry" and "Port Warehouse" as defined in the Hastings Planning Scheme.

The proposed amendment will introduce a site specific control into Schedule 6 of the Hastings Planning Scheme to allow the continued use and development of the site by Transwest Haulage, BHP Materials Trading Pty. Ltd., and Lysaghts Steel Coil Division. This control will include a Site Development Plan (SDP) showing the location and size of all buildings and works, and appropriate conditions to control the standard of development. It will allow Council to approve minor additions and works to the plan from time to time. Until now, the site has been included on the BHP SDP. It is now considered appropriate for the site to be included on its own SDP to provide certainty for the continued operation and development of the site.

The existing development has operated for a number of years and is compatible with the industries surrounding it. The standard of development is good with adequate landscaping and visual screening to most boundaries. In this context, the proposed amendment formalises an existing use and therefore will not have any significant social, economic or environmental effects.

The amendment can be inspected at the Shire Offices, Marine Parade, Hastings; the Department of Planning and Housing, 33-39 High Street, Cranbourne; and the Department of Planning and Housing, The Olderfleet Buildings, 477 Collins Street, Melbourne.

Submissions about the amendment must be sent to the Manager—Planning and Development, Shire of Hastings, PO Box 55, Hastings 3915 by 12 October 1992.

The Council of the Shire of Huntly proposes to make a Local Law in order to satisfy the following objectives:

1. To provide a safe and healthy environment in which the residents of the municipal district enjoy a quality of life that meets the general expectations of the community.
2. To prohibit, regulate and control activities which may be dangerous or unsafe or detrimental to the quality of life in the environment of the municipal district.
3. To facilitate the provision of general public services, health and other community services, property services, recreational and cultural services, and other services in a way which enhances the environment and quality of life in the municipal district.
4. To control nuisances and noise, odour and smoke emissions, and other discharges to the environment which may adversely affect the enjoyment of life within the municipal district or the health, safety and welfare of persons within the municipal district.
5. In a way which is consistent with, and in furtherance of, the objectives specified in paragraphs 1-4 of this clause to prohibit, regulate and control activities and circumstances associated with—
  - (a) smoke emission, particularly emission from burning material and from chimneys;
  - (b) dangerous and unsightly land;
  - (c) advertising and bill posting;
  - (d) camping and temporary dwellings;
  - (e) circuses, carnivals and festivals;
  - (f) disposal of waste including behaviour associated with tips.
6. To provide for the peace order and good government of the municipal district.
7. To provide for the administration of the Council's powers and functions.

The proposed Local Law provides regulatory mechanisms to implement these objectives. Among these mechanisms is a requirement that permits be obtained for certain activities. Standards are provided for the Council to consider in determining whether or not to grant permits. The Local Law also provides penalties for breaches of the Local Law.

2694 G 35 9 September 1992

A copy of the proposed Local Law can be obtained from the Shire Office, Midland Highway, Huntly. Any person affected by the proposed Local Law may make a submission to the Council. Submissions received by the Council within 14 days of the publication of this notice will be considered by the Council in accordance with section 223 of the *Local Government Act 1989*. Any person requesting that he or she be heard in support of a written submission is entitled to appear before a meeting of the Council either personally or through a person acting on his or her behalf and will be notified of the time and date of the hearing. The meeting to consider the Local Law will be held on 14 October 1992.

SHIRE OF MELTON  
Proposed Local Laws

Notice is hereby given that Council intends to make Local Laws which are titled:

- Local Law 1: Meeting Procedure
- Local Law 7: Streets and Roads (General Regulations)
- Local Law 8: Environmental Health (Refuse Disposal)
- Local Law 9: Environmental Health (Animals and Birds)

The proposed Meeting Procedure Local Law provides for—

- (i) regulation of the use of the common seal;
- (ii) prohibiting unauthorised use of the common seal or any device resembling the common seal;
- (iii) regulating proceedings for the election of the Mayor and Chairpersons of various committees;
- (iv) regulating proceedings at Council meetings, special committee meetings, advisory committee meetings, and other meetings conducted by or on behalf of Council where Council has resolved that the provisions of this Local Law are to apply.

The proposed Environmental Health (Animals and Birds) Local Law provides for—

Regulation of the keeping of dogs, cats, other animals, domestic birds, poultry, other birds, bees, rodents and reptiles on land of not more

*Victoria Government Gazette*

than 2 ha in area. Land of greater areas is not regulated by this proposed Local Law with the exception of Clause 23 which relates to noise and smell from animals.

It is based closely on the existing By-Law No. 64 with respect to restrictions on the places that animals can be kept and would repeal By-Law No. 64.

The proposed Environmental Health (Refuse Disposal) provides for—

- (i) the use and control of receptacles for the deposit and collection of refuse and rubbish;
- (ii) the size and shape of materials to be used in the construction of such receptacles; and
- (iii) prevention and regulation of deposit of refuse and rubbish upon streets and other lands and placed under the control of Council.

It allows for both 240 and 140 litre mobile refuse bins to be collected as well as conventional bins of up to 70 litre capacity.

It would not prevent the placement of recyclable materials out for collection by Council's contractor.

It would also aim to regulate the placement of large waste containers commonly called "skips" on public places by requiring a permit to be issued.

This would repeal Clauses 201, 202, 203, 204 and 205 of our existing Local Laws which deal with refuse collection.

The proposed Streets and Roads (General Regulations) provides for—

Regulation of the use of Council land areas such as roads, streets and pavements and covers areas of the *Local Government Act 1958* which is progressively being repealed.

This Local Law would revoke Clauses 300–305 (inclusive) of the Local Laws by Council on 18 June 1992.

Copies of the proposed Local Laws are available on enquiry at the Civic Centre during office hours. Any person affected by this proposal may make a written submission to Council under section 223 of the *Local Government Act 1989*. Such submissions should be submitted within 14 days of this notice.

Any person making a written submission may request to be heard in person or by a person acting on his or her behalf in support of their

submission by appearing before the Council at a meeting scheduled to be held on Monday, 5 October 1992.

MEDIA RELEASE  
For Immediate Release  
We Wear Roads Shortfall

Country people will once again bear the brunt of the Federal Government's decision to apply the majority of its road funds to national highways and arterial roads.

The recently announced Commonwealth Budget shows that the overall increase in road funding allocations is 23.3 per cent. The Budget provides an additional \$10 million for roads with a poor safety record (Black Spots) bringing this year's allocation to \$70 million. The local road network will receive an increase of just 2.9 per cent.

"Basically, what this means is that local roads have maintained funding at the same real levels as last year", said Local Government Road Funding Committee Secretary, Mr Keith Godridge.

"From a practical point of view, for most Councils in the Central Gippsland region, this will do little to alleviate the backlog of reconstruction and improvement programs that have been growing over the past decade."

It is estimated that a typical rural municipality in Victoria now has at least \$2 million worth of backlogged projects for which there is no funding.

Roads closed due to unsafe bridges, landslips and untrafficable surfaces are becoming more and more commonplace in the region.

"Not only do these closures affect residents", said Mr Godridge, "but they also add to the costs of commercial operators through added wear and tear and through having to use different, and often longer routes, to reach their destinations."

"The Government talks of allocating money to roads of economic significance. The truth is that every commodity that comes out of this region is, at some stage, carried by a truck, along our local roads.

"If that is not economic significance I'd like to know what is."

Mr Godridge said that country regions of Victoria like Gippsland were growing in popularity among tourists and that many visitors liked to get off the beaten track.

"Unfortunately, they are often unprepared for the road conditions they encounter in Gippsland and we have many more visitor accidents than we should."
