In accordance with the provisions of the *Subordinate Legislation Act* 1962 notice is given of the proposal to make regulations to be known as the Road Safety (Procedures) (Motor Cycles) Regulations 1993.

A Regulatory Impact Statement has been prepared as required by the Subordinate Legislation Act.

The primary objective of the proposed regulations is to provide a regulation regarding the display of "L" and "P" plates on motor cycles with which motor cyclists can readily comply by removing the requirement that such plates be displayed on the front of the motor cycle. The secondary objective is to move toward more uniform regulations between Australian States.

The Regulatory Impact Statement concludes that the proposed regulation provides the most cost effective means of achieving the objectives.
