Road, the South Gippsland Highway (to Thompsons Road), Thompsons Road (to Berwick-Cranbourne Road) Berwick-Cranbourne Road/Clyde Fiveways Road (to Twyford Road) Ballarto Road (from the South Gippsland Highway to Dandenong Hastings Road).

The amendment proposes to change the Planning Scheme by introducing a new local policy section which incorporates the Cranbourne, Hampton Park and Lyndhurst planning policy series of documents containing a Strategy Plan, Local Structure Plans and Development Guidelines for the area.

The Local policy section also introduces a basis for development contributions to assist in the funding of local community infrastructure.

In addition, this amendment introduces a new zone, Residential (Urban Development), which is designed to complement the Local Structure Plans and allow for the development of a range of housing and lifestyle choices, including the opportunity for an increased range of local employment within residential areas.

A small parcel of land at the north/eastern corner of Thompsons Road and Evans Road is to be rezoned to industrial to enable the development of a Commuter Railway Station.

The land to be rezoned is generally described as follows:

- (i) land bounded by the railway line, Dandenong-Hastings Road, the southern boundary of Lot 3, LP 7181 (known as Plantmark) the South Gippsland Highway and the eastern boundary of the S.E.C.V. easement from Reserved Living to Residential (Urban Development);
- (ii) land bounded by Dandenong-Hastings Road, Thompsons Road (to Evans Road), Evans Road and the railway line from General Farming A to Residential (Urban Development);
- (iii) land bounded by Thompsons Road, Narre Warren-Cranbourne Road, the northern boundary of the S.E.C.V. easement and the South Gippsland Highway from Reserved Living to Residential (Urban Development);
- (iv) land bounded by the northern boundary of the S.E.C.V. easement, Narre Warren-Cranbourne Road, the Town Centre By-Pass reservation and the

G 43 4 November 1993 2943

South Gippsland Highway from Restricted Light Industrial to Residential (Urban Development);

- (v) land bounded by Thompsons Road, the western boundary of Lot 2, LP 68376 (known as Craigie Clays Pty Ltd) the northern boundary of GP 107300 and Narre Warren-Cranbourne Road from Intensive Agriculture B to Residential (Urban Development);
- (vi) land bounded by the northern boundary of CP 107300, the Ti Tree Creek floodway the western boundary of CA.31, Parish of Cranbourne, Mayfield Road, the railway line and Narre Warren-Cranbourne Road from Corridor B to Residential (Urban Development);
- (vii) land at the south eastern corner of Berwick Cranbourne Road and Cameron Street Cranbourne being CP 156039 from Corridor B to Residential (Urban Development);
- (viii) land bounded by Thompsons Road, the Railway line and Evans Road from General Farming A to Restricted Light Industrial/Mixed Industrial.

The amendment can be inspected during office hours at the Shire of Cranbourne, Municipal Offices, Sladen Street, Cranbourne; the Department of Planning and Housing, Ground Floor, Olderfleet Buildings, 477 Collins Street, Melbourne.

Submissions about the amendment must be sent to the Town Planner, Shire of Cranbourne, PO Box 4, Cranbourne 3977 by 6 December 1993.

Planning and Environment Act 1987
WILLIAMSTOWN PLANNING SCHEME
Notice of Amendment
Amendment L16

The City of Williamstown has prepared Amendment L16 to the Williamstown Planning Scheme.

The amendment affects land described as Lots 280 and 279 on Plan of Subdivision PS 318326W on the south-west corner of Kororoit Creek Road and Rifle Range Drive, Williamstown.

The amendment proposes to change the Williamstown Planning Scheme by rezoning the land from Reserved Living to Local Business to facilitate the development of a small neighbourhood shopping centre. It is envisaged that the small shopping centre will be developed on Lot 279. This shopping centre is likely to comprise a small supermarket, specialty shops

G 43 4 November 1993 2951

and associated car parking. The adjoining Lot 280 may be used for a range of commercial uses. A permit is not required to use Lots 279 and 280 for a Shop, Office, Take-away Food Premises, TAB Agency, Cafe or Medical Centre if particular conditions are met. The conditions nominate a maximum floor area for particular uses which cannot be exceeded on the land included in the amendment. A development plan must be approved by Council. A permit is required for the demolition of the former Rifle Range Headquarters building. The amendment also sets out the car parking requirements for particular uses on Lots 279 and 280.

Development on Lot 279 must be in accordance with the Range Local Shopping Centre Design Guidelines. A planning permit is required for development that does not comply with the design guidelines.

The amendment can be inspected free of charge during office hours at City of Williamstown, Civic Offices, 208 Hall Street, Spotswood and the Department of Planning, The Olderfleet Buildings, 477 Collins Street, Melbourne.

Submissions regarding this amendment must be sent to the City Planner, City of Williamstown, 104 Ferguson Street, Williamstown 3016 by 6 December 1993.

PART 1: INTRODUCTION

1. PURPOSE AND OBJECTIVES

The purpose of this Code of Practice is to set basic standards for the hygienic production, storage, handling and treatment of milk and dairy produce and for the testing of milk.

The objectives of the Code are to ensure that standards which safeguard public health and protect the consumer are maintained in the Victorian dairy industry, and to set standards for the production, testing, processing and handling of milk and dairy produce.

2. AUTHORITY

Section 38 of the *Dairy Industry Act 1992* authorises the Victorian Dairy Industry Authority to make Codes of Practice.

Section 39 of the Act provides for a range of matters which may be included in a Code of Practice for the quality assurance of milk and dairy produce.

3. OPERATION

This Code of Practice is made by the Authority and is approved by the Minister for Agriculture pursuant to Section 38 of the *Dairy Industry Act 1992*, and the Code comes into effect on 1 November 1993.

PART 2: BASIC STANDARDS

1. Protection of Milk and Dairy Produce

(1) Milk and dairy produce must be kept, stored and treated at a dairy farm, factory, milk processing premises and milk distribution premises, and milk and dairy produce must be transported in such manner that the milk and dairy produce is protected at all times from all conditions or situations that may allow contamination to enter the milk or dairy produce or cause spoilage or tainting of the milk or dairy produce.

(2) Products and materials, other than those used in the production or manufacture of milk and dairy produce or other foods and the cleaning and sanitising of buildings and equipment used in connection with the production or manufacture of milk and dairy produce or other foods, must not be stored in the production area, manufacturing area, milk or dairy produce storage area or packaging materials storage area of dairy premises.

2. Cooling of Farm Milk

Milk on a farm must be cooled within $3\frac{1}{2}$ hours of the commencement of milking to a temperature within the range of 1°C to 5°C and held at that temperature.

3. Qualified Person To Collect Farm Milk

At the time of collection from a dairy farm for delivery to a factory, milk must be sampled, sensory graded, measured by volume, and a record made of the measurement by a person who is the holder of one of the following qualifications—

(a) a Certificate as a grader of milk or cream, endorsed with the words "The holder of this Certificate is qualified to grade milk by the senses test in farm milk tanks only, and to take samples of milk" issued by the Dairy Produce Board under the *Milk and Dairy Supervision Act 1958*; or

(b) a Certificate of Competence as a Milk Grader: Farm Collection issued by the Department of Agriculture under the *Dairy Industry Act 1984*; or

(c) a qualification issued for this purpose in any other State or Commonwealth Territory; or

(d) an authorisation issued for this purpose by the Victorian Dairy Industry Authority under the *Dairy Industry Act 1992*.

4. Sampling Farm Milk and Care of the Samples

(1) When milk samples are taken at a farm, the samples must be taken, stored, transported and treated in accordance with the relevant methods and conditions contained in—

(a) Australian Standard 1166: Methods For Sampling Milk And Milk Products issued by Standards Australia from time to time; or

(b) the Dairy Test Manual issued by the Victorian Dairy Industry Authority from time to time.

- (2) When a sample of milk is taken at a farm for microbiological testing, a representative sample must be taken aseptically.
- (3) When milk at a farm is sampled for antibiotics or compositional testing, a representative sample of the milk must be taken using a device that complies with Australian Standard 1374: In-Line Milk Sampling Devices For Use In Bulk Milk Collection issued by Standards Australia from time to time.

5. Testing of Farm Milk Samples

- (1) The owner of a factory must ensure that the testing of farm milk samples is carried out in accordance with the methods contained in Table 1.

TABLE 1

Compositional and Chemical	Australian Standard 2300—Methods Of Chemical and Physical Testing For The Dairy Industry issued by Standards Australia from time to time; or the Dairy Test Manual issued by the Victorian Dairy Industry Authority from time to time.

- (2) A record of the results of the tests, referred to in clause 5 (1), must be kept at the factory for 12 months.

6. Standard for Farm Milk for purposes of section 32 of the Act

For the purposes of section 32 (1) of the *Dairy Industry Act 1992*, the standard for milk supplied by the holder of a dairy farm licence is that the milk must not contain antibiotics in excess of 0.002 microgram of Penicillin G equivalents per millilitre.

7. Cooling of Market Milk at a Factory

All milk to be used as market milk, which is received at a factory from a dairy farm, must be cooled immediately to and held at a temperature of not more than 4°C until despatch to a milk processing premises.

8. Records to be Kept by the owner of a Factory

- (1) For the purpose of traceability of product, the owner of a factory must keep a record of the details of—
- (a) (i) all milk received at the factory; and
 - (ii) all market milk despatched by the factory to milk processors; and
 - (b) the quantity, container type and size, date code or product batch number of each type of dairy produce manufactured at and distributed from the factory.
- (2) The records, referred to in clause 8 (1), must be kept at the factory for 12 months or, in the case of ultra heat treated (UHT) and sterilised cream, for 6 months past the use-by dates on the packages.

9. Testing of Market Milk to be Supplied to a Milk Processor

- (1) The tests, standards, test methods and test frequencies to be used by the owner of a factory for market milk to be supplied to a milk processor are as set in Table 2.

TABLE 2 Market Milk—Factory To Milk Processor

TEST	STANDARD	TEST METHOD	TEST FREQUENCY
Milk fat	39 grams of milk fat per litre of milk, or as agreed between the owner of a factory and a milk processor. (2) The results of the tests, referred to in clause 9 (1), must be advised by the owner of a factory to a milk processor prior to acceptance of the milk by the milk processor.

(3) The records of the tests, performed pursuant to clause 9 (1), must be kept at the factory for 12 months.

10. Sub-Standard Milk not to be used as Market Milk

Milk that fails to comply with the standards contained in Table 2 of clause 9 (1) must not be consigned or appropriated for use in the manufacture of market milk.

11. Temperature of Market Milk on Arrival at Milk Processing Premises

A milk processor must not accept milk from a factory where the temperature of the milk is more than 5°C on arrival at the milk processing premises.

12. Pasteurisation of Milk and Cream

Milk and cream sold or delivered for human consumption as milk or cream, except to a factory or milk processing premises, must be pasteurised by one of the processes contained in Part H—Milk and Liquid Milk Products of the Australian Food Standards Code issued by the National Food Authority from time to time.

13. Temperature of Milk at Milk Processing Premises

(a) Where milk is stored by a milk processor pending pasteurisation, the milk must be kept at a temperature of not more than 5°C; and

(b) After pasteurisation, milk (other than UHT or sterilised milk) must be kept by a milk processor at a temperature of not more than 4°C.

14. Temperature Of Cream At A Factory

(a) Where cream, intended for human consumption as liquid cream, is stored by a factory pending pasteurisation, the cream must be kept at a temperature of not more than 5°C; and

(b) Pasteurised cream, intended for consumption as liquid cream (other than UHT or sterilised cream), must be kept by the factory at a temperature of—

(i) not more than 8°C during packing; and

(ii) not more than 4°C at any other time.

15. Recording Equipment Attached to a Pasteuriser

(1) Where recording equipment is attached to a pasteuriser at a factory or milk processing premises, the record must contain the details of—

(a) the time and duration of any diversion of the milk or cream; and

(b) the temperature of the milk or cream as it leaves both the holding section and the cooling section of the pasteuriser; and

(c) the length of time of each process and the hour of the day when those processes are carried out; and

- (d) the date and type of product being manufactured or processed from the milk or cream; and
 - (e) the time during which the flow diversion device is in the forward flow position; and
 - (f) the reasons for any diversions or abnormal function of the equipment; and
 - (g) any unusual occurrences.
- (2) The records, referred to in clause 15 (1) must be kept at the premises for 12 months or, in the case of UHT and sterilised milk and cream, for 6 months past the use-by dates stamped on the packages.
16. Recording Log to be kept by the Owner of a Factory
- (1) Where a pasteuriser is not fitted with automatic recording equipment, a log must be kept by the owner of a factory showing—
 - (a) time of reaching pasteurising temperature; and
 - (b) time of completion of pasteurisation; and
 - (c) the temperature readings at those times, and at 15 minute intervals throughout the run; and
 - (d) the date and type of product being manufactured from the milk or cream.
 - (2) The log, referred to in clause 16 (1), must be kept at the factory for 12 months or for six months past the use-by dates stamped on the packages.
17. Records to be kept by a Milk Processor
- (1) For the purpose of traceability of product, a milk processor must keep a record of the details of—
 - (a) market milk received from factories; and
 - (b)
 - (i) the date and quantity of milk pasteurised; and
 - (ii) the date and quantity of each kind of pasteurised milk packed in each type and size of package; and
 - (iii) the date code used on each type and size of package; and
 - (iv) distribution of the milk.
 - (2) The records, referred to in clause 17 (1), must be kept at the milk processing premises for 12 months or, in the case of UHT and sterilised milk, for 6 months past the use-by dates stamped on the packages.
18. Marking of a Milk Tanker or Vessel used for Bulk Milk Transport
- A milk tanker or vessel used for the bulk transport of milk must be marked on the external rear wall or on both external sides of the tanker or vessel with the words "MILK TRANSPORT VEHICLE" in letters not less than 100 millimetres in height in a colour that contrasts with the background colour of the milk tanker or vessel.
19. Use Of A Milk Tanker Or Vessel Used For Bulk Milk Transport
- A milk tanker or vessel used for the bulk transport of milk must be used only to—
- (a) collect milk from dairy farms; or
 - (b) transport milk or cream; or
 - (c) transport clean water or food-grade liquids, other than milk or cream, where these liquids will not contaminate or affect the quality of milk or cream or leave residual odours.
20. Cleanliness of a Milk Tanker or Vessel used for Bulk Milk Transport
- A milk tanker or vessel used for the bulk transport of milk must not be used to transport milk or cream unless the tanker or vessel is in good repair and has been inspected to ensure that its interior surfaces are free from visible contaminants and that there are no unusual odours in the tanker or vessel.
21. Sealing of a Milk Tanker
- For market milk despatched by a factory to a milk processing premises, the owner of the factory must ensure that a seal with a mark identifying the factory, is applied to each manhole cover and milk outlet of the tanker, before the tanker leaves the factory.

22. Standards for Factories and Milk Processing Premises

- (1) (a) This Code adopts for factories and milk processing premises, the provisions and standards of the Export Control (Processed Food) Orders issued by the Department of Primary Industries and Energy from time to time, as set in Schedule 1 of this Code; and
(b) For the purposes of this Code, the word "Secretary", wherever appearing in the Export Control (Processed Food) Orders, shall mean "Victorian Dairy Industry Authority".
- (2) Each factory and milk processing premises must comply with the structural and operational requirements set in Schedule 1 of this Code.
- (3) All dairy produce manufactured or packed at a factory or milk processing premises must comply with—
 - (a) Schedule 1 of this Code or,
 - (b) a system of inspection that—
 - (i) meets the specifications contained in the Australian Standards for Quality Systems issued by Standards Australia from time to time; and
 - (ii) ensures that standards which safeguard public health and protect the consumer are maintained.
- (4) The premises and buildings must be kept clean and in good repair.
- (5) All equipment must be—
 - (a) cleaned immediately after use and kept clean prior to reuse; and
 - (b) kept in a clean and sanitary condition, and in good repair.
- (6) The premises, buildings and equipment must not be used to manufacture, process or pack—
 - (a) any product other than food, industrial casein or dairy produce stock foods; or
 - (b) any food that leaves residual odours in the equipment after cleaning.

23. Standards for Milk Distribution Premises

- (a) Milk and cream receival and storage areas of milk distribution premises, must be kept clean and in good repair, and be kept free of animals, insects, birds and vermin; and
- (b) Packaged milk and cream (other than UHT milk and cream) must be kept at a temperature of not more than 4°C during storage at the milk distribution premises.

24. Records to be kept by a Milk Distributor

- (1) For the purpose of traceability of product, a milk distributor must keep a record of the details of all packaged milk and cream received at and distributed from the premises.
- (2) The records, referred to in clause 24 (1), must be kept at the milk distribution premises for 3 months or, in the case of UHT milk and cream, for 3 months past the use-by dates stamped on the packages.

25. Types Of Records

Where records are required to be kept for the purposes of this Code, the records may be kept on a disc, tape or other device on which the data is recorded, but which must be capable of being reproduced on request in a legible form.

26. Penalty Provisions

A person who is guilty of an offence against this Code, for which no penalty is expressly provided for in the Act, shall be liable—

- (a) for a first offence, to a penalty of not more than 10 penalty units; and
- (b) for any subsequent offence, to a penalty of not more than 20 penalty units.
