NOTICE OF INDEXED BENEFIT LEVELS AND OTHER AMOUNTS IN ACCORDANCE WITH SECTION 100 OF THE ACCIDENT COMPENSATION ACT 1985

Section 100 (1) of the **Accident Compensation Act 1985** stipulates that amounts in Part IV and in section 5A of the Act are varied on 1 July in each year in line with the movement in the average weekly earnings for all employees in Victoria between the two previous December quarters, using the latest figures published by the Australian Statistician as at 15 June following the previous December quarter. Weekly payments are indexed on the anniversary of the entitlement to weekly payments as detailed in Section 100 (2) of the Act.

Section 100 (3A) of the Act ensures that an amount is not reduced through the indexation process. This section provides that where there is a reduction in average weekly earnings over the relevant period, the amount being indexed is not reduced, but there will be an offset against future indexation increases.

The average weekly earnings for all employees during the December quarters of 1991 and 1992 reduced from \$512.00 to \$504.80. In accordance with section 100 (3A), amounts were therefore not reduced at 1 July 1993.

In order to calculate the amount of the offset against a future increase, it is necessary to apply the reduction which would have taken effect were it not for section 100 (3A) and then apply the subsequent increase to the reduced amounts.

The average weekly earnings for all employees during the December quarters of 1992 and 1993 increased from \$504.80 to \$527.00.
