WARRNAMBOOL (SHIRE) PLANNING SCHEME

Notice of Amendment to a Planning Scheme
Amendment L11

The Shire of Warrnambool has prepared Amendment L11 to the Local Section of the Warrnambool (Shire) Planning Scheme.

The amendment proposes to:

Delete Chapters Two and Three;

Insert a new Chapter Two comprising:

detailed zonings and controls over land use, development, subdivision and the conduct of works around the Tower Hill and Koroit areas. The detailed zones include controls over rural, commercial, industrial, rural residential and residential uses and developments, controls over the use and development of public land, Crown land and reserved land, and provisions for special uses associated with religious, institutional and community organisations;

a new Rural B Zone increasing the general minimum lot size from 16

hectares to 40 hectares, together with the introduction of tenement controls over subdivision and the erection of houses. The zone requirements are consistent between Chapters One and Two;

a new Rural D Zone formulated specifically for the fertile rural land around Koroit and Tower Hill. The new zone provides for a minimum lot size of 10 hectares, together with the introduction of tenement controls over the erection of houses. Owing to the high fertility of the land and the relatively small minimum lot size of 10 hectares, the zone does not provide for the excision of small house sites;

a new Industrial 2 Zone (light industry), the requirements of which will also be inserted into Chapter One to create the same requirements for the use development of land for light industry in both chapters;

special overlay controls for land influenced by main roads, highways, the crater at Tower Hill and land which contains identified historic buildings, objects or sites;

special provisions for the use and development of public land by public authorities or other persons;

special planning requirements regarding specific uses such as motels, unit developments, dog breeding and boarding kennels, advertising signs, and extractive industry and mining;

new and revised definitions of uses and developments to provide clearer interpretations and remove existing interpretive anomalies;

Replace the Rural B Zone in Chapter One with new plain English requirements consistent with those of Chapter Two;

Replace the Rural A Zone in Chapter One with new plain English requirements and subdivision and tenement controls consistent with those of the Rural B Zone;

Replace the Light Industrial Zone in Chapter One with new plain English requirements consistent with those of Chapter Two;

Replace the definitions contained in Schedule 1 to Chapter One with the new and upgraded plain english definitions proposed in Schedule 1 of Chapter Two;

Insert consequential amendments to uses and purposes listed in the various tables to the zones in Chapter One to maintain consistency with the new definitions introduced into Schedule 1;

Insert other consequential amendments to uses and purposes listed in the various tables to the zones in Chapter One to maintain as much consistency as possible with the requirements of Chapter Two.

**Environment Protection Act 1970
REGULATORY IMPACT STATEMENT
Environment Protection (Scheduled Premises
and Exemptions) Regulations 1994**

In accordance with the provisions of the Subordinate Legislation Act 1962 notice is given of the proposal to make the abovementioned Regulations.

The proposed Regulations are made under the powers of the Environment Protection Act 1970 and are a remake of the current Environment Protection (Scheduled Premises and Exemptions) Regulations 1984 which will cease operation on 31 December 1994.

A Regulatory Impact Statement has been prepared in respect of the proposed Regulations.

The objective of the proposed Regulations is to provide an efficient and effective mechanism to ensure appropriate management of premises with the potential for significant environmental impact. The proposed Regulations have a simpler format compared to the existing Regulations and will slightly reduce the number of existing licences. They will also ensure continued effective administration of works approvals and licences by EPA and maintain existing environmental safeguards.

The Regulatory Impact Statement concludes that the proposed Regulations are appropriate, that the benefits outweigh the costs and that other possible alternatives would be less effective.

Copies of the Regulatory Impact Statement and proposed Regulations can be obtained from the Customer Service and Information Centre, Ground Floor, 477 Collins Street, Melbourne 3000. Tel. (03) 628 5622 or Fax (03) 628 5391.

Comments are invited on the Regulatory Impact Statement and should be lodged with EPA, GPO Box 4395QQ, Melbourne 3001, by 7 October 1994.

**Environment Protection Act 1970
REGULATORY IMPACT STATEMENT
Environment Protection (Fees) (Amendment)
Regulations 1994**

In accordance with the provisions of the Subordinate Legislation Act 1962, notice is given of the proposal to amend the above mentioned Regulations.

The proposed amendments to the Regulations are made under the power of the Environment Protection Act 1970 and amend the Environment Protection (Fees) Regulations 1991. The current transitional arrangements for licence fee increases expire on 5 November 1994. Accredited licences are now eligible to a fee reduction.

A Regulatory Impact Statement has been prepared in respect of the proposed Regulations.

The objectives of the proposed amendments to the Environment Protection (Fees) Regulations 1991 are to provide a further period

2500 G 37 15 September 1994

of adjustment for the implementation of full licence fees and also to set the fee reduction for companies who obtain an accredited licence.

The Regulatory Impact Statement concludes that the proposed amendments are superior to the alternatives available and will support the competitiveness of Victorian industry during the current phase of economic recovery.

Copies of the Regulatory Impact Statement and proposed Regulations can be obtained from the Customer Service and Information Centre, Ground Floor, 477 Collins Street, Melbourne 3000. Telephone (03) 628 5622 or Fax (03) 628 5391.

Comments are invited on the Regulatory Impact Statement and should be lodged with EPA, GPO Box 4395QQ, Melbourne 3001, by Friday, 7 October 1994.
