Planning and Environment Act 1987
NOTICE OF AMENDMENT TO FLINDERS
PLANNING SCHEME

The Shire of Flinders has prepared Amendment L120 to the Flinders Planning Scheme.

1. Introduction

The purpose of this amendment is to allow for the use and development of the Heronswood site located at 105 Latrobe Parade, Dromana in a manner compatible with its continued preservation, maintenance and enhancement as a heritage building of significance. The proposed planning controls allow for a select number of

2316 G 39 29 September 1994

uses to operate from the site in accordance with a development plan prepared to the satisfaction of the responsible authority. The majority of Metropolitan planning schemes permit a level of flexibility similar to that envisaged by the subject amendment. This amendment is consistent with the general suggestion in the Shire of Flinders Heritage Study which recognises the need to facilitate the retention and enhancement of historic properties.

2. Background

Amendment L120 has been prepared in response to the need to allow for the current and future development of the Heronswood site in a manner which does not detract from its intrinsic heritage values and protects the amenity of the site and adjoining land. The Heronswood homestead is classified by the National Trust. Heronswood was built between 1871 and 1876 to a design by Edward La Trobe Bateman.

3. Intent of this Amendment

The intent of the amendment is to provide for a number of uses which are otherwise prohibited in the Hillside Residential zone (which affects the subject land and surrounding land). The proposed uses are considered compatible with the historic significance and integrity of the site and which may be approved where such use(s) will facilitate the continued heritage conservation of the site. The amendment will allow for the use of the site as a wholesale/retail plant nursery in association with a mail order garden club and ancillary garden education centre and tearooms.

The planning objective of the amendment is to recognise the need to allow for select commercial and recreational uses to operate from the site, which ultimately assist the owners in maintaining and enhancing the heritage values of the Heronswood historic buildings and gardens.

It is considered that the amendment will assist in the preservation of Heronswood as a heritage site and control the development and use of the site in a manner sympathetic to the heritage values of the site, its amenity and the amenity of the surrounding area. There will be no detrimental, social or economic effects of this amendment.

The amendment can be inspected at the Shire of Flinders, Besgrove Street, Rosebud or at the Department of Planning and Development, Olderfleet Buildings, 477 Collins Street, Melbourne.

Victoria Government Gazette

Submissions about this amendment must be sent to the Chief Executive, Shire of Flinders, Locked Bag 1000, Rosebud 3939 and received by 4.30 p.m. Wednesday, 26 October 1994.

DEPARTMENT OF CONSERVATION AND NATURAL RESOURCES

Rosedale Floodplain Management Study

I, Charles Geoffrey Coleman, Minister for Natural Resources, have agreed that an investigation in relation to water management be carried out for the Shire of Rosedale, and that a community-based committee be appointed under section 214 of the Water Act 1989.

In March 1993 the Rural Water Corporation completed a flood investigation (Stage 1 study) to assess the nature of flooding from the Latrobe River and Blind Joe Creek at Rosedale. The flood investigation estimated 1 in 100 year flood levels and concluded that parts of Rosedale township were liable to flooding from both the

Victoria Government Gazette

Latrobe River and Blind Joe Creek. The report also made a number of preliminary suggestions for possible flood mitigation options.

In July 1994 Rosedale Shire Council resolved to undertake a Stage 2 study to assess possible flood mitigation options and to recommend a floodplain management strategy for Rosedale township. The strategy may include both structural works and non-structural measures, such as land use planning, flood warning and flood action plans. Council will fully fund the Stage 2 study and has chosen engineering consultants Gutteridge Haskins and Davey to carry out the necessary investigations.

The Study area covers the Rosedale township urban area and is bounded by the Latrobe River to the north, Williams Road to the south, Mill Lane to the east and Wykes Road to the West.

A community-based committee will co-ordinate the flood study and provide a forum for ongoing public consultation throughout the study. The committee will be made up of representative land owners in the Study area, public statutory bodies and other relevant interests. Representation on the committee has been determined in consultation between Rosedale Shire Council and the Department of Conservation and Natural Resources.

When the flood investigation has been completed, the Committee will prepare a water management scheme for public exhibition under section 215 of the *Water Act 1989*.

Conservation objectives

5. (1) The general conservation objectives of this Order are—

- (a) the objectives in section 4 (1) (a) to (e) of the **Flora and Fauna Guarantee Act 1988**; and
- (b) to ensure that, across the forest block, each species and sub-species of protected flora that is taken under this Order and the community of which the flora is a member or part is retained in a state that is no less viable at the end of the taking and any related rehabilitation work than it was before the taking occurred.

(2) The specific conservation objectives of this Order are to ensure that, beyond the short-term changes associated with the taking and any related rehabilitation work—

- (a) at each point of disturbance including each individual worksite and access route but not including permanent clearings such as permanent roads, the species mix that occurred there prior to the taking is retained or restored; and

- (b) across the forest block, the taking and any related rehabilitation work result in no decrease in the abundance of any rare or threatened flora; and
- (c) across the forest block, there is no decrease in the genetic diversity of any species indigenous to the area; and
- (d) there is no increase in the distribution or abundance of organisms, including plants animals and pathogens, that are not indigenous to the area; and
- (e) across the forest block, the habitat characteristics that existed prior to the commencement of the taking are maintained by ensuring that factors such as the hydrological conditions, soil and geomorphological conditions and vegetation structure are not materially altered; and
- (f) animals that are part of the community of which the protected flora is a member or part are not disturbed in a way which could threaten their reproduction or long term presence in the area.

Authority to take protected flora where mining is the subject of an EES

6. The Governor in Council authorises any person who undertakes authorised mining works which have been the subject of an Environment Effects Statement to take protected flora other than tree-ferns, grasstrees and sphagnum moss for sale, if the taking is as a result of or incidental to the carrying out of those works, and if—

- (a) the Environment Effects Statement has been carried out under any directions of and guidelines for the preparation of such statements issued by the Minister administering the **Environment Effects Act 1978**; and
- (b) any matters required to be investigated were so investigated and the Minister administering the **Flora and Fauna Guarantee Act 1988** had the opportunity to comment on any matters investigated including making submissions to a panel (if any) appointed under section 9 of the **Environment Effects Act 1978**; and
- (c) the views of the Minister administering the **Flora and Fauna Guarantee Act 1988** are considered by the Minister administering the **Mineral Resources Development Act 1990** prior to

2340 G 39 29 September 1994

approving any authority to commence work under the **Mineral Resources Development Act 1990**.

Authority to take protected flora—private land

7. (1) The Governor in Council authorises any person who undertakes authorised mining works on private land to take protected flora from that land as a result of or incidental to the carrying out of those works, except as provided for in sub-clauses (2) and (3).

(2) Sub-clause (1) does not authorise a person to take protected flora if that flora is tree-ferns, grasstrees or sphagnum moss taken for sale.

(3) Sub-clause (1) does not authorise a person to take protected flora if the flora is—

- (a) taken from a critical habitat declared under section 20 of the Act; or
- (b) a member of a species or community listed in Schedule 2 of the Act and if the activity is mining, drilling, trenching, costeaning, bulk sampling or roadmaking and if the landholder objects to the taking;

unless the works have been the subject of an Environment Effects Statement in accordance with Clause 6.

Authority to take protected flora—restricted Crown land

8. (1) The Governor in Council authorises any person who undertakes authorised mining works on restricted Crown land to take protected flora from that land as a result of or incidental to the carrying out of those works, if the Minister administering the **Crown Land (Reserves) Act 1978** or the Minister administering the **Forests Act 1958** has given consent to access the restricted Crown land (as required under section 44 of the **Mineral Resources Development Act 1990**), and before giving that consent has considered the objectives of this Order and section 48 (4) of the Act, except as provided for in sub-clauses (2) and (3).

(2) Sub-clause (1) does not authorise a person to take protected flora if that flora is tree-ferns, grasstrees, or sphagnum moss taken for sale.

9. (1) The Governor in Council authorises any person who undertakes authorised mining works on unrestricted Crown land or freehold land owned by a public authority to take protected flora from that land as a result of or incidental to the carrying out of those works, except as provided for in sub-clauses (2) and (3).

(2) Sub-clause (1) does not authorise a person to take protected flora if that flora is tree-ferns, grasstrees, or sphagnum moss taken for sale.

(3) Sub-clause (1) does not authorise a person to take protected flora if the flora is—

- (a) taken from a critical habitat declared under section 20 of the Act; or
- (b) a member of a species or community listed in Schedule 2 of the Act, and if the activity is mining, drilling, trenching, costeaning, bulk sampling or roadmaking;

unless the works have been the subject of an Environment Effects Statement in accordance with Clause 6.

Terms and conditions

10. A person authorised under clauses 6, 7, 8 or 9 to take protected flora must—

- (a) plan and execute the taking and any related rehabilitation work in such a way that it is reasonable to expect that the conservation objectives of this Order will be achieved; and
- (b) undertake rehabilitation work in accordance with licence conditions.

Note: Where the taking of flora requires an authorisation under the Act but is not authorised by this Order, the taking may be authorised by a permit or licence under section 48 of the Act.

**ADMINISTRATOR TO WANDIN SPRINGS
INC. KNOWN AS WANDIN SPRINGS
PRIVATE TRAINING CENTRE**

Whereas—

1. By Order in Council dated 5 October 1993, published in the Government Gazette on 7 October 1993 and made pursuant to section 25 of the **Intellectually Disabled Persons' Services Act 1986** ("the Act"), the Governor in Council appointed David Leonard Hampel as part-time Administrator of Wandin Springs Private Training Centre for a period of six months from the date of the Order in Council.

Victoria Government Gazette

G 39 29 September 1994 2341

2. Section 25 (1) of the Act provides that the Governor in Council may appoint an administrator to a registered residential service on the recommendation of the Minister. Section 25 (5) of the Act provides that where an administrator has been appointed the Governor in Council may at any time if the Governor in Council thinks fit declare that the administrator ceases to be the administrator and the committee of management is to be re-established. There is no apparent power in section 25 to limit or place any conditions upon the appointment of an administrator under the Act. As a consequence it appears that the part of the Order in Council specifying the period of appointment as six months was in excess of the power of appointment.

3. By virtue of section 22 (1) (b) of the Interpretation of Legislation Act 1984 the remainder of the Order in Council was not otherwise affected.

4. It is considered desirable to confirm the appointment made by the Order in Council so as to remove any uncertainty as to the status or validity of the appointment.

The Governor in Council pursuant to all enabling powers hereby confirms that the provision of the Order in Council dated 5 October 1993 published in the Government Gazette on 7 October 1993 and made pursuant to section 25 of the Intellectually Disabled Persons' Services Act 1986, specifying the period of appointment as six months, was of no effect and that the remainder of the Order in Council not being affected David Leonard Hampel was appointed as part-time Administrator of Wandin Springs Inc. known as Wandin Springs Private Training Centre until further Order.
