Where a reduction calculated under the provisions of the **Local Authorities Superannuation Act 1958** is less than the reduction obtained from the above table the reduction obtained from that Act will apply.

Table 3  
Disability Pension Reduction

1. The percentage reduction is calculated by deducting from 100 the figure shown under the appropriate Medical Class for the age last birthday of the contributor at the date of becoming a Disability Beneficiary.

2. If the contributor was classified Class 2B, Class 2C, Class 2D or Class 3 under the **Local Authorities Superannuation Act 1958** and had been a member of the scheme for less than 4 years and was under the age of 55 at the time he became a Disability Beneficiary the reduction will be 100%.

3. If the contributor was classified Class 2B, Class 2C, Class 2D or Class 3 under the **Local Authorities Superannuation Act 1958** and had been a member of the scheme for less than 2 years and had attained the age of 55 at the date he became a Disability Beneficiary the reduction will be 100%.

4. Where the percentage from the Table, or in consequence of the operation of paragraphs (2) and (3) is zero the contributor will be entitled to an additional lump sum payment of 8.75% of adjusted final salary multiplied by the number of days the contributor was a member of the scheme and divided by 365.
