FLINDERS PLANNING SCHEME**

Notice of Amendment

The Mornington Peninsula Shire Council has prepared Amendment L142 to the Flinders Planning Scheme.

The amendment introduces an ordinance amendment which directs the variation of the restrictive covenant applying to land at 46 and 58 Howard Street, Shoreham. The covenant prohibits the erection of more than one building for residential and/or shop purposes with the usual outbuildings on the each lot and such buildings must not be constructed of any material other than weatherboard, brick, stone or concrete.

The amendment will vary the restrictive covenant contained in instrument of transfer No. 1660075 by adding at the end of the covenant the words "and provided that nothing in this covenant shall preclude the erection on each of lots 71 and 72 LP.11921 of two dwelling houses with outbuildings in addition to the dwelling house and outbuildings now erected on lot 72."

The amendment can be inspected at the Mornington Peninsula Shire Council, Besgrove Street, Rosebud or at the Department of Planning and Development, Olderfleet Buildings, 477 Collins Street, Melbourne.

Submissions about this amendment must be sent to the Chief Executive, Mornington Peninsula Shire Council, Locked Bag 1000, Rosebud 3939 and received by 4.30 p.m. Friday, 13 October 1995.

NOTICE OF AMENDMENT TO A
PLANNING SCHEME

The Indigo Shire Council has prepared Amendment L27 to the Beechworth Planning Scheme.

The amendment proposes to change the Planning Scheme to allow the transfer of entitlements to permits to erect houses from land situate in Diffey Road and Voights Fire Trail to land situate on Ressoms Lane and Wangaratta Road, Beechworth and a subdivision of the land in Ressoms Lane.

The existing Planning Scheme provides for potential house approvals:

- (a) For permits to erect three houses on Crown Allotments 6 and 7 of Section 5, Parish of Beechworth.
- (b) For permits to erect three houses on Crown Allotments 9, 10, 11, 12, 13, 14, 15 and 16 of Section 5, Parish of Beechworth.

The proposal is the transfer of two potential house approvals in (a) and one potential house approval from (b) so that potential approval to erect a house is transferred to each of Crown Allotment 1 of Section A1 Parish of Beechworth and Crown Allotment 2 of the same Section and Parish.

It is further proposed that Crown Allotment 16 Section A1 Parish of Beechworth be subdivided by the excision of a two hectare lot on the south corner of Crown Allotment 16 and that a permit be issued for the erection of a house on that two hectare lot and the erection of a house on the balance of Crown Allotment 16 and Crown Allotment 17, Section A1, Parish of Beechworth.

The amendments can be inspected at the Shire Office, Indigo Shire Council, Ford Street, Beechworth; Department of Planning and Development, Plan Inspection Section, Ground Floor, 477 Collins Street, Melbourne or at the Regional Office, Department of Planning and Development, 1 McKoy Street, Wodonga.

Submissions about the amendment must be sent to the Indigo Shire Council, Beechworth, Ford Street, Beechworth, by 16 October 1995.

Notice of Approval of Amendment
Amendment L71

The Minister for Planning has approved
Amendment L71 to the Local Section of the
Heidelberg Planning Scheme.

The amendment comes into operation on the
date this notice is published in the Government
Gazette.

The amendment introduces the Rockbeare
Park Environs Area control to land bounded by
Winstay Crescent, Waverley Avenue,
Rockbeare Grove and Rockbeare Park, Ivanhoe.
The subject land has been identified as one of the
most environmentally sensitive parts of the
Darebin Creek.

The amendment aims to protect the
Rockbeare Grove environs from inappropriate
development by requiring a planning permit for
certain new buildings and works, and some
vegetation removal in the area.

The controls will be illustrated further by a set
of design guidelines known as 'Darebin
Parklands and Rockbeare Park Environs' policy.

The amendment was changed significantly by
the Minister for Planning.

Water Act 1989

BULK ENTITLEMENT (EILDON-GOULBURN WEIR) CONVERSION ORDER 1995

The Governor in Council under the provisions of the **Water Act 1989**, makes the following Order—

1. Citation

This Order may be cited as the Bulk Entitlement (Eildon-Goulburn Weir) Conversion Order 1995.

2. Empowering Provisions

This Order is made under sections 43, 47 and 223 (4) of the **Water Act 1989**.

3. Commencement

This Order comes into operation on the date it is published in the Government Gazette.

4. Definitions

In this Order—

“Act” means the **Water Act 1989**;

“AHD” means the Australian Height Datum;

“Authority” means the Goulburn-Murray Rural Water Authority;

“domestic and stock allowance” means the amount of water made available to each holding within an irrigation district pursuant to section 222 (1) (a) of the Act;

“entitlement holder” means a person holding a bulk entitlement under the Act;

“exchange rate” means the rate, determined by the Minister, at which the security of supply varies inversely to the annual entitlement;

“GMID” means the Goulburn Murray Irrigation District;

“Goulburn Basin” means the area of land previously designated by the Australian Water Resources Council (AWRC) as Basin Number 5 in the Murray Darling Division of the AWRC Australian Continental Drainage Divisions;

“Goulburn Basin Water Accounts” means an annual report, required by the Minister, on compliance by entitlement holders and licensees, respectively, in the Goulburn Basin, with the terms of their bulk entitlements or licences;

“Goulburn Component of GMID” means that part of the GMID which can be supplied with water from the Goulburn River but not from the Murray River;

“Headworks System” means—

- (a) the water supply works of Lake Eildon, Goulburn Weir, the Stuart Murray and Cattanach Canals and Waranga Basin; and
- (b) the waterway below Lake Eildon;

“Licence” means any licence granted under Part 4 of the Act;

“Licence Volume” means the volume of water available under a licence;

“McCoy Bridge Gauging Station” means the stream gauging station, number 405232, located on the waterway where it is crossed by the Murray Valley Highway;

“other Authority” means a Water Authority other than the Authority or any other person holding a bulk entitlement granted under Division 1 or 3 of Part 4 of the Act;

“passing flows” means the flows referred to in clause 11;

“primary entitlement” means an entitlement referred to in clause 7;

“Register” means the register referred to in section 230 of the Act;

“regulated releases” means any release from Lake Eildon excluding releases made by the Storage Operator to—

- (a) comply with target filling arrangements; or
- (b) pass floodwaters; or
- (c) specifically generate electricity; or
- (d) secure the safety of the structure in emergencies;

“Resource Manager” means any person appointed by the Minister to do all or any of the following—

- (a) prepare the Goulburn Basin Water Accounts; and
- (b) monitor whether entitlement holders in the Goulburn Basin comply with the conditions of their bulk entitlements; and
- (c) direct the release of any water set aside for maintaining water quality in the Goulburn River; and
- (d) investigate and mediate disputes between entitlement holders in the Goulburn Basin; and
- (e) investigate and deal with significant unauthorised uses of water in the Goulburn Basin; and
- (f) supervise the qualification of any rights to water made by the Minister during periods of declared water shortage under section 13 of the Act;

“sales water” means the amount of water that an Authority may make available to the owner or occupier of any land that has previously received a supply, after the Authority has made provision to supply other primary entitlements;

“security of supply”* means the statistical probability of being able to supply a given volume of water in a year;

“Storage Operator” means any person appointed by the Minister to operate the Headworks System, to manage or measure the flow into the headworks system or waterway, or to do all or any of them;

“Supply by Agreement” means an agreement made under section 124 (7) of the Act;

“target filling arrangements” means operating rules to control the filling of Lake Eildon during the winter and spring months in order to mitigate flooding;

“water right” has the same meaning as in section 230 (2) (c) of the Act;

“waterway” means the Goulburn River between Lake Eildon and the River Murray, including the pools formed by, and immediately upstream of, Eildon Dam and Goulburn Weir;

“year” means the 12 months next following 1 July.

5. Conversion to a Bulk Entitlement

All of the Authority’s entitlement to water from the waterway is converted to a bulk entitlement on the conditions set out in this Order.

6. Bulk Entitlement

6.1 The Authority may take the share of flow from the waterway to supply primary entitlements up to an annual average total of 1 919 000 ML over any period of ten consecutive years.

6.2 Regulated releases from Lake Eildon over the same period must not exceed an annual average of more than 1 410 000 ML.

7. Obligations to Supply Primary Entitlements

Water taken from the waterway under this bulk entitlement must be used to supply the following primary entitlements, more fully described in Schedules 1, 2 and 3 :

- (a) domestic and stock allowances and water rights within the Goulburn Component of the GMID; and
- (b) licences supplied from the waterway; and
- (c) domestic and stock supplies within the East Loddon, West Loddon and Normanville Waterworks Districts; and
- (d) sales water; and
- (e) additional supplies; and
- (f) entitlements referred to in section 35(2), bulk entitlements granted under Division 1 or 3 of Part 4, and agreements made under section 124(7) of the Act—

in accordance with the security of supply and restriction policies set out in Schedule 4.

* See Explanatory Note on Schedule 4 accompanying the Order

8. *Transfer of Entitlement/ Adjustment of Schedules*

8.1* Subject to section 46 of the Act and sub-clause 8.2, this bulk entitlement may be transferred—

- (a) temporarily or permanently;
- (b) in whole or in part;
- (c) for any purpose, including an in-stream use of water.

8.2 The Minister may, from time to time, alter—

- (a) Schedule 1 to reflect—
 - (i) any new allocation of water right under section 229 of the Act;
 - (ii) any trading between persons holding primary entitlements;
 - (iii) any amendments to the primary entitlements required under clause 32 of Schedule 14 of the Act;
 - (iv) any conversion of an agreement made under section 124 (7) of the Act to an irrigation or associated entitlement set out in sub-clause 7 (a), (b), (c) or (d);
 - (v) alterations to the security of any primary entitlement, in accordance with exchange rates determined by the Minister;
- (b) Schedule 2 to reflect any change to bulk entitlements identified as primary entitlements.

8.3 (a) The Authority may apply to the Minister to amend all or any of the following:

- (i) the principles used to determine sales water described in Schedule 4;
 - (ii) the additional supplies described in Schedule 3;
 - (iii) any part of Schedules 4, 5 or 6;
- (b) An application under paragraph (a) must set out—
- (i) the objectives of, and reasons for the proposed amendment;
 - (ii) the results of an assessment of the likely effect of that amendment on both the security of primary entitlements and the environment.

8.4 The Minister may—

- (a) approve part or all of any application under sub-clause 8.3; or
- (b) require the Authority to—
 - (i) provide further information; and
 - (ii) re-submit the application in a different form; or
- (c) not approve the application.

9. *Share of Capacity*

9.1 The Authority, and no other person, is entitled to store water in—

- (a) Lake Eildon, up to 3 390 000 ML at full supply level of 288.90 metres AHD, subject to the target filling arrangements set out in Schedule 5; and
- (b) Goulburn Weir, up to 25 500 ML at a full supply level of 124.24 metres AHD; and
- (c) Waranga Basin, up to 411 000 ML at a full supply level of 121.36 metres AHD; and
- (d) Greens Lake, up to 32 500 ML at a full supply level of 102.20 metres AHD.

9.2 The Authority may use any water temporarily stored above full supply level for those storages listed in sub-clause 9.1 subject to the Authority directing the Storage Operator to comply with the flood operating rules for the storages.

9.3 The Authority must propose to the Minister within 12 months of the date of this Order, appropriate flood operating rules for each of the storages set out in sub-clause 9.1.

9.4 The Minister may—

- (a) approve the operating rules proposed under sub-clause 9.3; or
- (b) require the Authority to amend the proposed operating rules; or
- (c) require the Authority—
 - (i) to review the operating rules approved by the Minister if, in the Minister's opinion, these are no longer appropriate; and

* See Explanatory Note accompanying the Order

- (ii) to propose amended operating rules to the Minister; or
- (d) not approve the proposed operating rules.

10. Share of Flow

In order to meet the commitments set out in clauses 7 and 11, the Authority may :

- (a) store all the inflow into Lake Eildon from the catchment—
 - (i) subject to the constraints imposed by sub-clause 9.2 and Schedule 5; and
 - (ii) except for the passing flows specified in clause 11;
- (b) except for the passing flows specified in clause 11—
 - (i) store inflow to fill the Goulburn Weir pool to its full supply level; and
 - (ii) take all the inflow, up to a limit of 9 890 ML/d, via the Goulburn Weir offtake channels up to the maximum amounts of—
 - 3 600 ML/d for the Stuart Murray Canal; and
 - 3 690 ML/d for the Cattanach Canal; and
 - 2 600 ML/d for the East Goulburn Main Channel;
- (c) store all the inflow into Waranga Basin and Greens Lake from their catchments subject to the constraints imposed by sub-clause 9.2;
- (d) use water flowing in the Wanalta and Cornella Creeks;
- (e) use water flowing into the waterway.

11. Passing Flow

The Authority must provide the following passing flows :

- (a) a minimum flow of 120 ML/d from the Eildon Pondage Weir, or such greater flow as is required by Schedule 6; and
- (b) a minimum average weekly flow of 250 ML/d from Goulburn Weir over any seven day period, at a daily rate of no less than 200 ML/d; and
- (c) any additional flow necessary to maintain a minimum average monthly flow at the McCoy Bridge gauging station of—
 - (i) 350 ML/d for the months of November to June inclusive, at a daily rate of no less than 300 ML/d; and
 - (ii) 400 ML/d for the months of July to October inclusive, at a daily rate of no less than 350 ML/d.

12. Releases

12.1 The Authority must, subject to Schedule 4, direct the Storage Operator to release sufficient water from Eildon Pondage Weir and Goulburn Weir to supply the passing flows specified in clause 11 and the primary entitlements set out in clause 7.

12.2 The Authority must not direct the Storage Operator to release water in a way which exceeds the maximum permissible rates of change of releases from Eildon Pondage Weir and Goulburn Weir approved by the Minister.

12.3 The Authority must not direct the Storage Operator to release more water from Goulburn Weir than is required to meet the Authority's commitment to supply the passing flows specified in clause 11 and the primary entitlements unless :

- (a) releases are necessary—
 - (i) to maintain the normal operating level of the Weir; or
 - (ii) to repair or maintain the Weir; or
 - (iii) to allow work to be undertaken within the Weir pool; or
- (b) adjustments to releases are necessary to supply transfers of primary entitlements; or
- (c) releases, not exceeding 30 000 ML per year, are necessary to augment water available for use from the River Murray; or
- (d) the Resource Manager directs the Authority to direct the Storage Operator to make additional releases, not exceeding 30 000 ML per year, to maintain water quality in the waterway.

13. Calculating the Flow

For the purpose of sub-clause 6.1, the share of the flow in the waterway taken by the Authority in any year is calculated as the sum of the following:

- (a) the total annual diversions to the Stuart Murray Canal, Cattanach Canal and East Goulburn Main Channel; and
- (b) the total annual diversions by holders of primary entitlements supplied directly from the waterway; and
- (c) any release from Goulburn Weir of an amount of water recorded by the Authority and certified by the Minister, in excess of minimum flows, which is specifically made for the temporary transfer of primary entitlements to the River Murray; and
- (d) any release from Goulburn Weir of an amount of water recorded by the Authority and certified by the Minister, to augment water available for use from the River Murray.

14. Granting Water Credits

14.1 On the application of the Authority, the Minister may grant the Authority credit for any water taken from the waterway and returned to the waterway or another river or stream, against the total amount of its entitlement, as set out in this clause.

14.2 The Minister may grant credit for releases made directly to the waterway from the Authority's distribution system if—

- (a) the quality of the return flow is similar to water taken by the Authority from the waterway; and
- (b) the return flow either—
 - (i) is considered by the Minister to be useful in meeting the Authority's commitments to supply water or passing flows; or
 - (ii) facilitates operation of the Headworks System.

14.3 The Minister may, by written notice to the Authority, specify any period or periods during which the Authority may not redeem credit against its ten year entitlement, in any year.

14.4 Any credit granted under this clause expires at the end of the tenth year after it is granted.

15. Environmental Obligations

15.1 The Authority must propose to the Minister, within 12 months of the date of this Order, a program to manage the environmental effects of—

- (a) the Authority's works to take water under this bulk entitlement, including—
 - (i) the effects on the bed and banks of the waterway in the vicinity of the Authority's works; and
 - (ii) operational practices to remove silt from works; and
 - (iii) operational practices to manage the water quality in works on the waterway; and
 - (iv) operational rules to control releases from works to the waterway; and
 - (v) operational rules to manage flood flows through works on the waterway.
- (b) any increase in diversions by other Authorities under bulk entitlements supplied directly from the waterway.

15.2 The increase referred to in sub-clause 15.1 (b) is measured as the difference between the actual maximum daily and annual diversion at the date of the Order and the maximum daily and annual diversion allowed under the Authorities' bulk entitlements.

15.3 The Minister may—

- (a) approve the program proposed under sub-clause 15.1; or
- (b) require the Authority to amend the proposed program; and
- (c) require the Authority—
 - (i) to review the program approved by the Minister if, in the Minister's opinion, it is, at any time, no longer appropriate; and
 - (ii) to propose an amended program to the Minister; or
- (d) not approve the program.

15.4 The Authority, must at its cost—

- (a) implement the approved program; and
- (b) keep a record of all work undertaken under paragraph (a).

16. Metering Program

16.1 The Authority must propose to the Minister within 12 months of the date of this Order a metering program to demonstrate compliance with this bulk entitlement with respect to—

- (a) all water taken by the Authority under this bulk entitlement; and
- (b) all water referred to in paragraph (a) which is returned to the waterway by the Authority and for which it seeks credit under clause 14; and
- (c) the flow into, and the volume stored in, each or any of the storages mentioned in clause 9; and
- (d) the passing flows.

16.2 The metering program prepared under sub-clause 16.1 must include details of any agreement between the Authority and any other person for measuring and calculating instream flows or water taken.

16.3 The Minister may—

- (a) approve the program proposed under sub-clause 16.1; or
- (b) require the Authority to amend the proposed program; and
- (c) require the Authority—
 - (i) to review the program approved by the Minister if, in the Minister's opinion, it is, at any time, no longer appropriate; and
 - (ii) to propose an amended program to the Minister; or
- (d) not approve the proposed program.

16.4 The Authority must, at its cost—

- (a) implement the approved metering program; and
- (b) operate and maintain metering equipment and associated measurement structures in good condition and ensure that metering equipment is periodically re-calibrated, in accordance with any guidelines issued by the Minister; and
- (c) keep a record of all work undertaken under paragraph (b).

17. Reporting Requirements

17.1 The Authority may be required to report on all or any of the following matters, as provided in this clause:

- (a) the daily flow passing Eildon Pondage Weir and Goulburn Weir;
- (b) the daily flow passing McCoy Bridge gauging station;
- (c) the daily amount of water taken by the Authority from the waterway at each of the Goulburn Weir offtake channels;
- (d) the annual amount of water taken by the Authority from the waterway at each of the Goulburn Weir offtake channels;
- (e) the annual amount of water diverted from the waterway by primary entitlement holders who are—
 - (i) licensed under section 51 (1) (a) of the Act; or
 - (ii) other Authorities with an entitlement referred to in section 35 (2) or a bulk entitlement granted under Division 1 or 3 of Part 4 of the Act;
- (f) the daily flow into Lake Eildon and Goulburn Weir;
- (g) the amount of water in each or any of the storages mentioned in sub-clause 9.1;
- (h) any releases made to comply with the target filling arrangements set out in Schedule 5;
- (i) any credits granted under clause 14;
- (j) any temporary or permanent transfer of all or part of this bulk entitlement;
- (k) any bulk entitlement, water right or licence temporarily or permanently transferred to the Authority from this waterway or another waterway or supply system;

- (l) any water released from Goulburn Weir under sub-clauses 12.3 (b), (c) or (d);
- (m) any alteration to the primary entitlements set out in Schedules 1 and 3 made under sub-clauses 8.2 and 8.3;
- (n) the number, amount and places of origin and destination, of transfers of primary entitlements;
- (o) the annual amount supplied to primary entitlements, or any group of primary entitlements specified by the Minister;
- (p) any amendment to this bulk entitlement;
- (q) any new bulk entitlement granted to the Authority with respect to the supply of primary entitlements under this Order;
- (r) the implementation of programs approved under sub-clauses 15.3 and 16.3;
- (s) any failure by the Authority to comply with any provision of this bulk entitlement;
- (t) any existing or anticipated difficulties experienced by the Authority in complying with this bulk entitlement and any remedial action taken or proposed by the Authority.

17.2 The Minister may require the Authority to report on all or any of the matters set out in sub-clause 17.1—

- (a) in writing or in such electronic form as may be agreed between the Authority and the Minister; and
- (b) within 14 days of receiving the Minister's written request or such longer period as the Minister may determine.

17.3 The Authority must, for the period of the preceding year, report in its Annual Report on each of the matters set out in sub-clause 17.1, except—

- (a) paragraphs 17.1 (a), (b), (c) and (f) of sub-clause 17.1; and
- (b) with the approval of the Minister, any particular failure referred to in paragraph (s) of sub-clause 17.1.

17.4 The Resource Manager may require the Authority to report from time to time, on all or any of the matters set out in paragraphs (a) to (t) of sub-clause 17.1.

17.5 Any report under sub-clause 17.4 must be made—

- (a) in such form as may be agreed between the Authority and the person to whom the report is made; and
- (b) unless the Authority and that person agree otherwise—
 - (i) within 24 hours of the Authority receiving a request for a report on any matter set out in paragraphs (a) to (c) of sub-clause 17.1; or
 - (ii) within 14 days of the Authority receiving a request for a report on any matter set out in paragraphs (d) to (t) of sub-clause 17.1.

18. Water Resource Management Costs

18.1 Subject to sub-clause 19.1, the Authority must pay the Resource Manager a fair and reasonable proportion of the costs incurred by the Resource Manager to—

- (a) prepare the Goulburn Basin Water Accounts; and
- (b) monitor whether entitlement holders in the Goulburn Basin comply with the conditions of their bulk entitlements; and
- (c) direct the release of any water set aside for maintaining water quality in the waterway; and
- (d) investigate and mediate disputes between entitlement holders in the Goulburn Basin; and
- (e) investigate and deal with significant unauthorised uses of water in the Goulburn Basin; and
- (f) supervise the qualification of any rights to water made by the Minister during periods of declared water shortage under section 13 of the Act.

18.2 The proportion of the costs referred to in sub-clause 18.1 will be as determined under sub-clause 19.3.

19. Duty to Keep Accounts and Fix Proportions

19.1 The Authority is not obliged to make any payment to the Resource Manager under clause 18, unless the Resource Manager chooses to comply with the provisions of this clause relevant to that payment.

19.2 The Resource Manager must keep separate accounts of all costs and payments referred to in sub-clause 18.1.

19.3 The Resource Manager must, by 1 July in any year, determine, in respect of the ensuing year, a fair and reasonable proportion of the costs referred to in sub-clause 18.1.

19.4 Accounts required to be kept under this clause must be made available for inspection by the Authority upon request.

20. Duty to Make Payments

Any amount payable by the Authority under clause 18 must be paid in arrears, within 28 days of the Authority receiving an invoice, unless the Authority and the person to whom the amount is payable agree otherwise.

21. Data

21.1 The Minister will use the Minister's best endeavours to ensure that all hydrological and other data required by the Authority to comply with this bulk entitlement are made available to the Authority, free of charge.

21.2 The Authority must make available data collected for the purpose of the metering program and reporting under sub-clauses 16.1 and 17.1 to any person, subject to the person paying any fair and reasonable access fee imposed by the Authority, to cover the costs of making the data available.

22. Dispute Resolution

22.1 If any difference or dispute arises between the Authority, the Minister and, with their consent, the Resource Manager, the Storage Operator or any of them (the "parties") concerning the interpretation or application of this Order, which is not resolved within 14 days of it arising, any party may give written notice to the others requiring the matter to be determined by an independent expert, if it is not otherwise resolved, within 14 days of that notice.

22.2 The independent expert will be either—

- (a) a person agreed on by the parties to the difference or dispute; or
- (b) if those parties cannot agree, a person nominated by the Minister.

22.3 The independent expert must reach a conclusion on the matter within 30 days of it being referred, but has power to extend the period for reaching a conclusion on the matter by a further 30 days.

22.4 The independent expert must send a copy of the conclusion and its supporting reasons to each party to the difference or dispute.

22.5 (a) In any difference or dispute to which the Minister is a party, the independent expert must express the conclusion as a recommendation.

- (b) The Minister must consider any recommendation made under paragraph (a) before deciding to give a direction under section 307 or to take any other action under the Act in relation to the difference or dispute.

22.6 In any difference or dispute to which the Minister is not a party, any conclusion by an independent expert is final and binding on the parties.

22.7 The apportionment of the costs of and incidental to every reference, including the costs of the independent expert, shall be at the discretion of the independent expert.

Wimmera-Mallee Rural Water Authority —Wimmera-Mallee Waterworks District	Supply from the Waranga Western Channel as follows— every year (during April–May period) - up to 2 000 ML; plus every second year (May to September inclusive) - up to 24 000 ML, subject to available channel capacity.
Goulburn-Murray Rural Water Authority —Broken Creek System	Supplementary supplies from the East Goulburn Main Channel up to 40 000 ML each year (during the irrigation season from August to May inclusive).

SCHEDULE 4
Security of Primary Irrigation Entitlements

1. Domestic and Stock Allowances

The Authority must supply these entitlements every year.

2. Water Rights and Licences

2.1 Except as set out in this clause, the Authority must supply these entitlements with 97% security.

2.2 The Minister may, by reference to an appropriate computer model, modify the level of security set out in sub-clause 2.1, where the Minister is satisfied that either—

- (a) hydrological conditions have changed since February 1995; or
- (b) the estimate of security of supply, based on the irrigation development and operating rules applying on 1 November 1990, has improved.

2.3 Where the Authority is unable to supply the full water right and licence commitments, the Authority must assess and allocate the available water pro-rata to water right and licence holders, after making provision to supply other primary entitlements in accordance with section 1 of this Schedule, the restriction policies set out in the Orders listed in Schedule 2, and any agreement made under section 124 (7) of the Act.

3. Sales Water

The Authority must determine the supply of sales water each year, as previously supplied, in accordance with principles proposed by the Authority after consultation with its retail customers and approved by the Minister, and subject to the determined allocation not adversely affecting the nominated security of water right and licence entitlements specified in this Schedule.

SCHEDULE 5
Lake Eildon Target Filling Arrangements

Subject to receiving sufficient inflow, the filling of Lake Eildon each year is to be controlled to meet the target curves, presented in a graphical form, derived from the following data—

Horizontal Axis— TIME OF YEAR	Vertical Axis— TARGET STORAGE VOLUMES (ML)	
	<i>Normal Year</i>	<i>Wet Year</i>
1 May	2 800 000	2 800 000
1 June	2 810 000	2 810 000
1 July	2 860 000	2 850 000
1 August	3 020 000	2 940 000
1 September	3 250 000	3 090 000
1 October	3 380 000	3 270 000
1 November	Not applicable	3 380 000

1. The Authority must designate which of the two filling curves applies in each year.
2. The Authority must direct the Storage Operator to make releases to bring storages levels back to target, in accordance with procedures approved by the Minister.

SCHEDULE 6

Additional Passing Flows Below Eildon Pondage Weir

1. The minimum passing flow will be increased to 250 ML/d in any month when the volume of inflow to Lake Eildon during the previous 24 months exceeds the trigger flow (Vf) indicated in Table 1.
2. Whenever paragraph 1 applies, and the Secretary of the Department of Conservation and Natural Resources confirms the requirement for the release in that year, an additional passing flow, equivalent to a volume of up to 80 000 ML, must be released below Eildon Pondage Weir during November, subject to—
 - (a) the maximum release from Eildon Pondage Weir not exceeding 16 000 ML/d for a period of one day with the rate of increase or decrease of releases in accordance with the rates approved by the Minister;
 - (b) the 24 month inflow ending in the month of October exceeding Vf indicated in Table 1;
 - (c) the 12 month inflow ending in the month of October exceeding 800 000 ML;
 - (d) the maximum release being reduced where tributary flows downstream of Eildon Pondage Weir contribute to provide flow to the waterway lagoon system for a period of one day;
 - (e) the sum of the Eildon spill and releases under the target filling arrangements during the previous September or October not exceeding 100 000 ML in total for both months.

Parliamentary Committees Act 1968
TERMS OF REFERENCE FOR AN INQUIRY
INTO MEDICAL AND PUBLIC HEALTH
RESEARCH IN VICTORIA

The Governor in Council, acting under section 4F (1) of the **Parliamentary Committees Act 1968**, by this Order requires the Economic Development Committee to inquire into, consider and report to the Parliament on medical and public health research in Victoria, and in particular to—

1. review the support currently provided to medical and public health research bodies within Victoria, with particular emphasis on:

Victoria Government Gazette

- the relative roles of State and Commonwealth Governments
 - contribution by the private sector to developments in medical research
 - support through charitable organisations
 - the basis for infrastructure support provided to major medical research institutions
2. review the focus and scope of medical and health research being undertaken in Victoria and make recommendations on whether State Government funding would benefit from greater coordination and strategic direction and appropriate structures to achieve this.
 3. review the ways in which the results of medical and public health research are disseminated and applied in Victoria, and make recommendations on:
 - ways to improve linkages between research, policy and product development
 - strategies to optimise the economic and health benefits to Victoria of research undertaken in this State.

In addressing the terms of reference, the Committee should take into account the Industry Commission Report on Research and Development (1995) and initiatives of other Australian Governments.

The Governor in Council, under section 4F of the **Parliamentary Committees Act 1968**, refers the following matter to the Environment and Natural Resources Committee:

Recognising the growing concern about the impact of exotic marine species on local ecosystems and the importance of shipping trade to Victoria and having regard to efforts at the national and international levels to address this issue, to inquire into, report and make recommendations on:

- (a) Ballast water in Victoria, including the sources, movement and management of ballast water.
- (b) The recorded and potential environmental impacts of Victorian ballast water practices on coastal waters, including linkages with:
 - * the nature and distribution of exotic organisms;
 - * impacts on fishing, aquaculture, recreation and other uses of the marine environment; and
 - * information gaps and research needs resulting from the above.
- (c) Adequacy of Victorian and Commonwealth legislation to minimise the environmental impact of ballast water management.
- (d) The efficiency and effectiveness of State based measures to minimise environmental impact of ballast waters without adversely impacting on Victoria's international competitiveness.
- (e) How Victoria can most effectively influence international and national efforts to address ballast water issues and means by which this State can most effectively work with other governments on these issues.
- (f) The means by which different interests, including private or public Victorian ports, shipping companies and bodies with responsibility for coastal management, quarantine, fisheries and the environment, can co-operate effectively to develop an integrated approach to economically and environmentally sustainable management of ballast water.
