## Office of the Regulator-General Act 1994 NOTICE OF DETERMINATION

On 28 October 1996 the Office of the Regulator-General determined that the Pool Rules that apply to Victoria's electricity industry be amended to allow for the introduction of de-averaged distribution loss factors in respect of non-franchise customers which acquire electricity from a retailer other than the retail arm of their host distribution business.

The determination takes effect from 1 July 1996.

The de-averaged distribution loss factors—

- differentiate between (lower) short line and (higher) long line loss factors in a distribution business' distribution network;
- represent a move to more accurate reflection of the costs in supplying individual customers; and
- provide more efficient economic signals for investment and consumption decisions.

A copy of the Office's paper recommending that the determination be made and the determination may be obtained from the Office of the Regulator-General by phoning 03 9651 3916 or by facsimile to 03 9651 3688.

ROBIN C DAVEY  
Regulator-General

The amendment comes into operation on the date this notice is published in the Government Gazette.

The amendment exempts urgent and essential works at Webb Dock resulting from the development of the City Link Project from the requirement to obtain a planning permit. The amendment also sets out the conditions under which the works must be carried out.

A copy of the amendment can be inspected, free of charge, during office hours, at the Department of Infrastructure, Ground Floor, 477 Collins Street Melbourne and at the offices of the Melbourne City Council, Development Planning Branch, 6th Floor, Council House 200 Little Collins Street, Melbourne.

ADRIAN SALMON

Co-ordinator, Amendment Services  
Local Government, Planning and  
Market Information Services Division
