Subordinate Legislation Act 1994
REGULATORY IMPACT STATEMENT
Amendment to Road Safety (Procedures)
Regulations

Notice is given in accordance with Section 11 of the **Subordinate Legislation Act 1994** that a Regulatory Impact Statement (RIS) has been prepared in relation to regulations to facilitate the use of two laser speed measuring instruments, the LTI 20.20 Marksman AT and the Prolaser 11 Model Auslaser to detect vehicles exceeding the speed limit. These units have been found by independent testing laboratories to meet the requirements for laser safety for public use as set out by the most recent standards.

Police are introducing laser speed measuring instruments for speed enforcement. Laser speed measuring instruments are not subject to some of the factors that can interfere with radar speed measuring instruments, and can thus more easily be used on multi lane roads with heavy traffic, and roads with trams. The Regulatory Impact Statement establishes that introducing laser speed measuring devices is the most cost effective method of ensuring compliance with speed limits on such roads. Laser speed measuring instruments are in use in all other Australian States.

Unless police are to be required to prove that the particular instrument used is accurate every time they appear in court, regulations are necessary to provide that readings taken on a prescribed instrument that has been tested and sealed within the previous 12 months shall be taken to be accurate unless proved otherwise. Similar provisions apply to radar guns and speed cameras.

Public comments are invited on the RIS and accompanying regulations. Copies may be obtained by telephoning (03) 9854 2336.

Written submissions will be received at the following address up to 5.00 p.m. on Friday, 2 August 1996: The Manager, Road User Behaviour, Roads Corporation, 4th Floor, 60 Denmark Street, Kew, Victoria 3101. All submissions will be treated as public documents.

Any enquiries regarding the content of the RIS should be directed to David South (03) 9854 2705.

ROAD SAFETY (PROCEDURES) (SIGN

Notice of Decision

I, Geoffrey Ronald Craige, Minister for Roads and Ports, give notice under Section 12 of the **Subordinate Legislation Act 1994**. I have decided that the proposed Road Safety (Procedures) (Sign Penalties) Regulations 1996 be made.

A Regulatory Impact Statement was prepared and advertised inviting public comment and submissions. Only one submission was received; it supported the proposed changes.

Subordinate Legislation Act 1994
PROPOSED DENTAL TECHNICIANS
(ADVANCED DENTAL TECHNICIANS)
REGULATIONS 1996

Notice is given as required by Section 11 of the **Subordinate Legislation Act 1994** of the proposed making of the Dental Technicians (Advanced Dental Technicians) Regulations 1996.

The proposed regulations, which are to be made under the **Dental Technicians Act 1972**, will replace the Advanced Dental Technicians Regulations 1985.

They will—

- (a) allow the Board to raise fees sufficient to meet the administration of those provisions of the Dental Technicians Act which relate to the licensing of advanced dental technicians;
- (b) prevent advanced dental technicians from advertising in a manner contrary to the public interest; and
- (c) prescribe such matters the purpose of which is to improve the overall administration of the Act.

A regulatory impact statement has been prepared in accordance with the requirements of the Subordinate Legislation Act.

The statement discusses the nature and extent of the problem to be addressed by the proposed regulations, their potential impact and possible alternatives.

It concludes that the potential benefits of the proposed statutory rule will outweigh the potential costs.
