EXEMPTION

Application No. 45 of 1997

The Anti-Discrimination Tribunal pursuant to Section 83 (5) (a) (ii) of the **Equal Opportunity Act 1995** ("the Act") has considered an application pursuant to Section 83 of the Act by Marjorie Oke Rooming House for Women Inc. The application for exemption is to enable the applicant to provide accommodation for women only.

Upon reading the material tendered in support of this application the Tribunal is satisfied that it is appropriate to grant an exemption from Sections 42, 49, 50, 100 and 195 of the Act to enable the applicant to provide accommodation for women only.

In granting this exemption the Tribunal noted:

- The applicant provides accommodation for women only, generally over 18 years of age. The applicant also has four rooms in a separate building for mothers with one or two children, 12 years and under.
- The house is owned by the Office of Housing and leased under a Head Lease Agreement. It is intended for low-income people. Under the rental formula of the Office of Housing, there is a maximum income which prospective tenants may receive in order to be eligible.
- Accommodation is offered on a medium to long term basis for women meeting Office of Housing income eligibility.
- For women, housing problems are exacerbated by their over-representation amongst those living in poverty. Women as a group are disadvantaged by receiving a lower income than men which leads to greater difficulty in paying housing costs.
- The Office of Housing is aware that this rooming house is intended as a women's only rooming house.

The Tribunal grants an exemption from the operation of Sections 42, 49, 50, 100 and 195 of the **Equal Opportunity Act 1995**, to enable the applicant to provide accommodation for women only, this exemption to remain in force until 23 July 2000.

EXEMPTION
Application No. 47 of 1997

The Anti-Discrimination Tribunal pursuant to Section 83 (5) (a) (ii) of the **Equal Opportunity Act 1995** ("the Act") has considered an application pursuant to Section 83 of the Act by Drysdale Plains Pty Ltd trading as Victory Blinds. The application for exemption is to enable the applicant to advertise for and employ female installers.

Upon reading the material tendered in support of this application, the Tribunal is satisfied that it is appropriate to grant an exemption from Sections 13, 100 and 195 of the Act to enable the applicant to advertise for and employ female installers.

In granting this exemption the Tribunal noted:

- The main purpose of the Applicants is Retail Sales and Installation of window coverings.
- At present the applicant employs 16 male installers throughout Australia and the employing of a female installer will help to correct the gender imbalance.
- The offer of a female installer to the applicant's customers would be a great service as some of the applicant's customers are elderly people, single mothers, children at home waiting for the installer and people who have had bad experiences with the opposite sex.

The Tribunal grants an exemption from the operation of Sections 13, 100 and 195 of the **Equal Opportunity Act 1995** to enable the applicant to advertise for and employ a female installer, this exemption to remain in force until 23 July 2000.

SCHEDULE 1

EVAPORATION LOSSES AND INTERNAL SPILLS

1. Evaporation Losses

Evaporation losses from—

- (a) Lake Narracan are calculated using the formula

$$e = A \times E \times 0.01 \times (s1/s)$$

(b) the Blue Rock Reservoir are calculated using the formula

$$e = A \times E \times 0.01 \times (s1/s)$$

where e = evaporation loss in ML

s = volume of water in ML in either Lake Narracan or Blue Rock Reservoir as appropriate

A = surface area in hectares corresponding to s

E = pan evaporation in mm

$s1$ = volume of water in ML in the Authority's share of Lake Narracan or Blue Rock Reservoir as appropriate

2. Internal Spills

The amount of internal spill cannot exceed a volume equal to the amount by which the other entitlement holder's storage is below its full share. Any internal spill is to be redistributed in proportion to the inflow shares of those Authorities whose shares of storage capacity are not full.

3. Storage Accounts

The storage accounts maintained by the Storage Operator will be adjusted for—

- (i) the share of inflow apportioned to the Authority;
- (ii) any internal spill;
- (iii) any release directed by the Authority to meet its water supply requirements including any allowances for in-transit losses; and
- (iv) any allowance for the Authority's share of evaporation losses or seepage losses from the storage.
