SAILING DIRECTIONS—CAPE TOWN.

IN compliance with the desire of the Government of the Cape of Good Hope, His Excellency the GOVERNOR has been pleased to direct the publication of the following amended instructions for entering, during the Night, the port of Cape Town, rendered necessary by the erection of a new Light House on the MOUILLE POINT.

*By His Excellency's Command,
E. DEAS THOMSON.*

INSTRUCTIONS for entering Table Bay by Night, by the Plan constructed on the observations made by H. M. S. *Leven*, November, 1825. The Bearings mentioned in these Instructions are all by Compass, or Magnetic.

1st.—To enter Table Bay from the northward, meaning to pass outside of Robben Island, a Ship should keep the Light to eastward of south—9 degrees east, or about south and by east, until she get soundings under 20 fathoms, at a little more than a mile from the Light House; she may then steer east south-east, or east and by south, not to come under 10 or 12 fathoms until the Light bears west south-west, she may then steer for the Anchorage, and may anchor in from 7 to 6 fathoms, as soon as the Lights are shutting in behind the Lion's Tail. This track leads about a mile clear of danger on Green Point; but a Ship need not approach it so near, if she have, by seeing Robben Island, ascertained by its bearings, that she is clear of the Whale Rock, in which case she may round it at a greater distance from Green Point, if desirable, but the soundings in that case will not alone be a sure guide.

2nd.—In coming from the south-west, a Ship should not get less than 40 fathoms before the Light bears south-east, or east south-east, nor less than 20 fathoms before it bears south and by east, when the preceding directions may be followed.

From the northward—inside of Robben Island—the Light should be kept about south-west and by

south, until a Ship have passed that Island; in doing which she may have some casts from 8 to 6 fathoms; and when on that course the Water deepens to 11 or 12 fathoms, she may steer for the Anchorage by the Plan as before directed.

In beating round Green Point, a Ship should never shoal her water under 11 or 12 fathoms, until she have brought the Light to bear west south-west as before stated.

In beating between Robben Island and the Main, to enter Table Bay, the soundings may be taken from the Island as it shoals to very regularly. In standing towards the Main, it appears prudent to tack at the first cast of the Lead after the Water shoalens.

In these directions it is taken for granted, that a Ship will always keep her Leads going.

By Day, or when the Shores or Surf can be seen, or indeed under any circumstances, the Plan ought to be a sufficient guide.

There are two Lights at the Light House, which are in one about S.W. and by W.; these appear to be of no other use than to assure the Navigator which is the Light House, if he should see other Lights. We have seen Lights clearly off deck at 16 miles distance; but they will not make clear as two Lights until within 6 or 7 miles to the Westward of them; and from the Northward one Light only will be seen.

(Signed) W. F. W. OWEN,
Captain of H. M. Ship Leven.

A Light House having been erected on the Mouille Point, with a Lenticular Light of the 4th class, for the better guidance of Vessels entering Table Bay during the Night, the following Instructions are appended to the Instructions by Captain Owen, R. N. :—

In standing in from the S. W., a Ship should not pass the Lights on Green Point nearer than a mile—nor should the course be altered from the eastward to the southward, with the intention of steering for the anchorage,—nor should the Ship be brought into less than 14 or 15 fathoms water, before the Lights on Green Point bear S. W. by W. $\frac{1}{2}$ W. (they will then be in one,) when the

Light on the Mouille Point will instantly be seen, (and not before) bearing nearly S. by W. A Ship may then alter the course from the eastward, and steer S. S. E. for the centre of the anchorage, and anchor whenever the lights on Green Point are shut in, (by Sand-hills, near the Mouille) and the Light on the Mouille Point bears N. W. distant about a mile, in from 6 to 8 fathoms water. Vessels of light draft of water may steer S. by E. $\frac{1}{2}$ E. for the anchorage, and anchor with the Mouille Light, bearing N. W. by N. in from 4 to 5 fathoms of water.

The Ship's distance from the Shore, when the Light on Mouille appears, may be readily ascertained by the bearings of the two Light Houses, and the distance between them, which is 1,215 yards—the perpendicular height of the Mouille Light above high water mark is 40 feet.

In coming in from the northward (inside Robben Island,) the Lights on Green Point will appear in one, (or nearly so,) and the Light on the Mouille Point will also be seen—the distance between the Light Houses being as above mentioned. The directions by Captain Owen, and the appended directions, will be a sufficient guide to the anchorage.

It is earnestly recommended to strangers not to attempt to beat into Table Bay at night, in squally or thick weather. The strictest attention should be paid to the soundings, and the leads kept constantly going. The plan of the Bay by Captain Owen, (upon which the instructions are founded,) should also be at hand for reference.

(Signed) J. BANCE, Port Captain.

By Command of His Excellency Sir GEORGE T. NAPIER, K. C. B., Governor, Vice-Admiral, and Commander in Chief of the Colony of the Cape of Good Hope and its Dependencies, &c.

(Signed) J. MOORE CRAIG,
Acting Secretary to Government.

N.B.—The Light on the Mouille Point will be lighted from and after the 1st day of July next.
Cape Town, 1st March, 1842.

TO THE HEIRS OF THE CHILDREN OF THE LATE MR. HOWEY.

THE Heirs of the Children of the late Mr. Henry Howey, who were lost (or supposed to be lost) whilst proceeding to Port Phillip in the schooner 'Sarah,' about four years ago, are hereby informed that, on application to this Office, they may hear of something to their advantage.

E. DEAS THOMSON.

Colonial Secretary's Office,
Sydney, 18th June, 1842.

CONVEYANCE BY WATER.

TENDERS will be received at this Office, at Twelve o'clock, on Monday, the 27th June next, from persons willing to Contract for the conveyance of Cabin and Steerage Passengers, Troops, Prisoners, and Stores, for the Colonial Government,

from Sydney to Hobart Town, during the present year.

The Tenders must state the rate for each Cabin Passenger, and for each Steerage Passenger, Soldier, or Prisoner, with or without the supply of the established rations for each; as well as the rate per ton measurement for Stores.

Payment will be made at Sydney by Quarterly Bills, on the production of the Receipts and Certificates from the proper Officer, of the due performance of the services required.

The Parties tendering, or their Agents, are requested to attend at this Office at the time of opening the Tenders.

Further particulars may be obtained at the Office of the Harbour Master.

By His Excellency's Command,
E. DEAS THOMSON.

Colonial Secretary's Office,
Sydney, 26th May, 1842.

THE Contractor for furnishing Supplies, &c., for the Colonial Service, in the Districts of Patrick's Plains, Merton and Muswellbrook, Scone and Murrurundi, having, according to agreement, received three months' notice that his Contracts will terminate on the 31st August next:—Notice is hereby given, that Tenders will be received until Monday, the 11th of July next, at Twelve o'clock, for furnishing, from the 1st September to the 31st December, 1842, both days inclusive, the required Supplies, the particulars of which, and the conditions of the Contracts, are specified in the Notice from this Office, dated 15th September, 1841.

The terms at which the present Contracts were accepted, will be found detailed in the Government Gazette of the 24th December, 1841, No. 105.

Persons tendering, or their Agents, are requested to attend at this Office on the day appointed for opening the Tenders.

By His Excellency's Command,
E. DEAS THOMSON.
