NOTICE TO MARINERS.

HIS Excellency the Governor directs the republication, for general information, from the Hobart Town Gazette of the following memorandum respecting

the Light-house which has recently been erected on Deal Island, Kent's Group, in Bass's Straits.

By his Excellency's Command,
E. DEAS THOMSON.

The Light-house on Deal Island, forming one of the cluster of Islands, called "Kent's Group," in Bass's Straits, latitude 39° 29' south, longitude 147° 21 east, having now been erected, a light is burning and will continue from sun-set until sun-rise.

The Light-house is erected on a hill 900 feet above high-water mark.

The supporting column is 46 feet in height.

The upper part of the column (like all the Light-houses within the Government of Van Diemen's Land) is coloured red, and the lower part, white.

The lower part of the column is built of granite, each block worked to a mould.

The cornice and blocking are 6 feet high of freestone.

The lantern is 7 feet high, having a revolving catoptric light with 21 lamps and patent pipes, smoke consumers, working in three groups, each group containing 7 lamps with reflectors, and revolves round once in 5 minutes, showing 50 seconds of light, and 50 seconds of darkness.

The light may be seen 13 leagues, has been set by cross bearings at a distance of 12 leagues, and is visible all round the compass, unless the light be intercepted by being close in with any of the surrounding Islands.
