**CROWN LANDS BEYOND THE
SETTLED DISTRICTS.**

(TRANSFER OF RUNS.)

WITH reference to the Notice of 1st January, 1848, headed "Transfer of Runs," in which it is provided, that, "in consideration of the delay that must necessarily take place in the issue of Leases of Runs, demanded under the 11th section of chapter II of her Majesty's Order in Council, of the 9th March, 1847, any licensed occupant who, after having demanded his Lease, may desire to part with his interest in the same, will be allowed to have the Lease made out in favour of any person recommended by the Commissioner of the District, on making written application, in the manner in the said Notice prescribed, but that, in this case, the original applicant will be debarred from all further claim to the Lease the right of which will be thenceforth held to be vested in the person in whose favour he requested that it should issue." His Excellency the Governor, with the advice of the Executive Council, directs it to be notified, that, in all cases in which Claimants of Leases of Runs shall have alienated their right thereto, under the provisions of the Notice above cited, the Licenses for such Runs for the ensuing year will be issued, not to the persons who previously held them, but to the proposed transferees.

By His Excellency's Command,
E. DEAS THOMSON

**CROWN LANDS BEYOND THE
SETTLED DISTRICTS.**

(RENEWAL OF PASTURAGE LICENSES.)

HIS Excellency the Governor, with the advice of the Executive Council, directs it to be notified for general information, that the state of the Survey not yet admitting of the issue of Leases for Runs beyond the Settled Districts, all

existing licenses for the occupation of Crown Lands so situated, will be renewed for the ensuing year, commencing on the 1st July next, on the same terms as Licenses have been granted for the now current year, subject of course, to the adjustment of the License Fee according to the quantity of Stock returned by the Commissioner as depastured on every such Run.

2. Adverting to the 5th section of chapter II. of Her Majesty's Order in Council, dated 9th March, 1847, which declares that Leases of Runs issued thereunder will be absolutely and indefeasibly forfeited if the stipulated Rent be not paid within the time therein prescribed, his Excellency the Governor desires it to be distinctly understood, that claims to Leases will, in like manner, be held to have become forfeited and void, if the licenses for the continued occupation, for the ensuing year, of the Lands for which Leases are sought, shall not have been taken out within the time fixed by the present Notice, namely, between the 1st day of July, and the 30th day of September next.

3. If, within the year commencing the 1st July next, the Government shall be in a position to grant Leases of Runs under Her Majesty's Order in Council, any Licensee under this Notice who may obtain a Lease, will receive credit in the payment of his first year's rent, for so much of the amount paid for his License as may be proportionate to the unexpired part of the term for which the license was granted.

4. The present Regulation does not, however, extend to lands which have been brought by the Order in Council within the settled class, but which have hitherto been held under Squatting Licenses for pastoral purposes. The occupants of such lands will be enabled to obtain leases for the same, on the terms prescribed in sections 22, 23, and 24 of the Notice of 29th March last.

By His Excellency's Command,
E. DEAS THOMSON.

22. Lands which have been brought by the Order in Council within the settled class, but which have been hitherto held under Squatting Licenses for pastoral purposes, will be let to the present licensed occupants thereof, on yearly lease, at the fixed rent of One Pound per Section, so long as they shall not be required for sale or for any public purpose, or be applied for on lease by any holder of purchased land in the immediate neighbourhood. But whenever any holder of purchased land in the immediate neighbourhood shall either put forward his claim to the number of sections which he may be entitled to rent under the pre-emptive right conferred by clause 16 of these Regulations, or shall make application for a Lease of any additional sections to be offered for sale by auction, such sections will not be relet to the previous occupant, but will be withdrawn from his holding, in order that they may be demised to the person claiming the exercise of his pre-emptive right respecting them, or be let by auction, as the case may be. In respect, however, to any sections thus taken out of the previous occupant's holding, in order that the leases of them may be offered for sale, such previous occupant will be allowed to continue to use them for pastoral purposes until the day of sale, and in the event of their not being then purchased, to renew his lease for the current year at the rate above mentioned.

23. Any lot of land within the meaning of the preceding clause, which may not have been chartered in sections in the Surveyor General's Office, will be let, until so chartered, to the present licensed occupant thereof in one block, the amount of rent being determined by the computed number of sections therein contained, according to an estimate to be submitted by the occupant, and approved by the Surveyor General, or the Surveyor in charge at Melbourne, accordingly as the lands may be situated in the Sydney or the Port Phillip District.

24. Of the class of Lands referred to in clause 22, no sections containing valuable improvements, nor any of the sections contiguous thereto, will, for the present, be open to Lease under these Regulations, to any other person than the present licensed occupants thereof.

Colonial Secretary's Office,
Sydney, 26th June, 1848.

CLAIMS TO LEASES OF CROWN
LAND

BEYOND THE SETTLED DISTRICTS.
MURRAY DISTRICT.

HIS Excellency the Governor directs it to be notified for the information of all persons interested, that in pursuance of Her Majesty's Order in Council, of 9th March, 1847, the under-mentioned persons have demanded Leases of the several Runs of Crown Land, particularised in connexion with their respective names.

Persons who object to any of these claims, either wholly or in part, should lodge Caveats at this Office within two months from the present date, specifying the Lands to which their objections extend, and the grounds on which their objections are based.

It is to be distinctly understood, that the government does not pledge itself to the issue of a Lease in any case until due enquiry has been made into the validity of the claim, and whether or not it may be necessary to reserve any portion of the Land claimed, for any of the public purposes contemplated in the Order in Council.

By his Excellency's Command,
C. J. LA TROBE.

Estimated area—25,000 acres

Estimated grazing capabilities—800 head of cattle

Bounded on the west by the Oxley, or Mitta Mitta River, on the north by a lagoon 11¼ miles from the Yabbaa stockyard, at this lagoon a tree is marked, and this is David Wilson's southern boundary; on the south by a high stony ridge of hills, almost precipitous on the bank of the river, (this is the southern boundary of Messrs Lockhart and Clarke, and here a tree is marked by both parties); on the east by a high and almost inaccessible range of mountains. The river frontage is about 7 miles. The average breadth of run from the river to the height which cattle feed on, the eastern mountains, is about 1½ mile. There are two Creeks—which take their source from these mountains; the first is the Spring Creek, the second the Bull's Head. There is feeding ground for 7 miles in the Spring Creek, and its average width is 1¼ miles. The Bull's Head Creek is 8 miles long, and half a mile broad. There is also a creek called the Dry Creek, three quarters of a mile within the south boundary, and although very precipitous, contains some feeding ground.
