PUBLIC ACCOUNTS.

IN reference to the instructions of the Lords Commissioners of Her Majesty's Treasury, regulating the future mode of keeping and rendering the Accounts of Receipt and Expenditure in certain Colonies, His Excellency the Governor has been pleased to direct the publication of the following Regulations for the guidance of Police Departments and other Offices in the Colony, and which are to take effect from and after the 1st January, 1850.

1.—The printed Estimates of the Revenue and Expenditure, laid before the Legislative Council in each year, will form the basis of the future system and plan of account; the arrangement prescribed therein is therefore to be closely followed.

2.—The Heads of Service in the accounts are to be the same as in the Estimates; every Item of Expenditure must therefore be carefully classed and arranged under its appropriate head.

The divisions of the accounts hitherto in use under the heads of "Fixed" and "Unfixed" Contingencies, are to be discontinued from the 1st of January next, and such charges only, are to be inserted under the head of "Contingencies", as are shewn and provided for in the Estimates as Office Contingencies; that is, the charges which are incidental to each separate Office Establishment.

3.—The gross amount of all Revenues collected is, in every case, to be included in the Collector's account; any charges therefore, which it may have been usual heretofore to make in the way of deduction or allowance, are to be discontinued, and every such allowance, or incidental charge, is to be accounted for as a payment under its appropriate head.

4.—All Collectors of Public Revenue are to pay over the amount of their collections to the Colonial Treasurer in Sydney or to the Sub-Treasurer in Melbourne; in Sydney and Melbourne weekly, on the 8th, 15th, and 22nd days of every month; and in the Country monthly as soon as possible after the last day of each month. On the 3rd day of the ensuing month, in the case of Collectors in Sydney and Melbourne, and on the 10th day, in the case of those in the Country, the Treasurer or Sub-Treasurer will report to His Excellency the Governor the names of such Collectors as have failed to render the accounts and make the payments at the dates above specified.

5.—In case of the Sale by Auction of any articles or other property belonging to Government, the Officer, under whose charge the sale is effected, will lose no time in paying over the amount of such sale, into the hands of the Colonial or Sub-

Treasurer, accompanied by the Auctioneer's Account in duplicate. When sales are effected by Tender, a list, in duplicate, of the Tenders received, signed by the Officer or Officers in whose presence they were opened, is to be delivered to the Colonial or Sub-Treasurer by the Officer effecting such sales, together with the full amount of the proceeds, as soon as possible after the periods fixed for the payment of the Revenue as aforesaid.

6.—In case of the collection or receipt on account of Government of any sums of an unusual or special nature, the Colonial or Sub-Treasurer will, so far as he is concerned, obtain and produce in duplicate, the most satisfactory statements or documents in his power, to show that the correct amount of such sums has been received and credited to the Public; and should any obstacles present themselves to his obtaining payment of the sums justly due, or the documents necessary to establish the accuracy of the same, he will not fail to make such representations for the assistance of the Government as the nature of each particular case may suggest as proper and necessary; stating at the same time his opinion as to the course best calculated to promote the object of his representations.

7.—Officers who collect Revenue, in Sydney and Melbourne, are to transmit to the Auditor General, monthly, on the 4th of each month, and in the Country, quarterly, on the 4th of the month succeeding each quarter, a Statement in duplicate, shewing the total amount collected under each head of receipt, within the month or quarter, and the dates of payment to the Colonial or Sub-Treasurer, supported by the Receipts of the latter for the sums paid over to him, together with the usual Vouchers in support thereof, and such other documents as, with the authority of Government, the Auditor General may require. This statement is to be declared to, before the usual competent authority, to the following effect:—I (A.B.) do solemnly and sincerely declare that this is a true and faithful account of the sums received by me as _____ from the _____ to _____, both days inclusive; and that I have paid over the whole amount to the Colonial Treasurer, (or Sub-Treasurer, as the case may be) in the proportions of each description of coin or currency specified therein; and I make this solemn declaration conscientiously believing the same to be true; and by virtue of the provisions of an act made and passed in the ninth year of the Reign of Her present Majesty, intituled, '*An Act for the more effectual abolition of Oaths and Affirmations taken and made in various Departments of the Government of New South Wales, and to substitute declarations in lieu thereof, and for the suppression of voluntary and extra judicial Oaths and Affidavits.*'

8.—On the 10th of the month the Auditor General will report to His Excellency the names of such accountants as have failed to furnish, up to the last day of the preceding month, their accounts of collections, in the form prescribed.

9.—The approved forms of the statement of revenue are to be strictly adhered to.

10.—All heads of departments and other officers entrusted with expenditure, will be furnished by the Auditor General with a statement of the heads of account under which the several services are to be classified, and also with printed forms of bills or vouchers applicable to each head of service on that account; and every bill or voucher is to be made out for its own distinct head of service, and not to include or be blended with any other services; it being necessary with a view of carrying the present system of account into effect, that, from the first application for authority to incur the expense to the final warranting by His Excellency the Governor, each service and charge should appear in their several stages, under one and the same head throughout, as defined in the annual estimate.

11.—In respect of expenditure included under the head of establishments, viz., salaries, allowances, and office contingencies, a general authority, as herein described, will be given. Previously to the termination of the year, a schedule will be transmitted to each head of department or other officer, in regard to his own immediate establishment; and each of these separate schedules will be accompanied by the authority of His Excellency the Governor for paying monthly, in the ensuing year, the salaries, allowances, and office contingencies therein enumerated. With respect to the district of Port Phillip, the necessary communications will be made by the Colonial Secretary to His Honor the Superintendent, who will issue the requisite instructions and authority to the several heads of departments resident in his district.

12.—Notice will be given whenever any appointment of a provisional or temporary nature has been approved of as a permanent addition to the establishment by

Her Majesty's government, or sanctioned by the vote of the Legislative Council, in order that the same may be inserted as a note on the schedule.

13.—In respect of all services not comprised in the authorised establishment, a special authority is to be applied for in the following manner:—

As early as the necessary expenditure for a month or a quarter can be foreseen with sufficient accuracy, the heads of the several departments, and other officers, will draw up, and transmit to the Colonial Secretary, a requisition, in strict compliance with the classified heads of service in the general estimate, of the charges for which provision is to be made in the month or quarter, shewing, by a memorandum at the foot of the requisition, what further sum may be required during the current year for the same work or service; reference is also to be made on the requisition to any correspondence which may have taken place relative to any particular item of expenditure estimated for, in order that His Excellency the Governor may have before him the means of judging the propriety of incurring the expense.

14.—The requisition, after being laid before the Governor by the Colonial Secretary, will be referred to the officer entrusted with the expenditure, accompanied by a letter of authority, describing under the proper heads, the services and charges to be defrayed, and referring to any special circumstance which may be necessary for the information of the party by whom the payment is made. Certified copies of this authority, in duplicate, are to be forwarded, with the accounts, to the Auditor General.

15.—As soon as practicable after the termination of the month or quarter, every Head of Department and other Officer, will send, in duplicate, to the Auditor General, the Abstracts and Vouchers of the charges authorised to be incurred, (as well under paragraph 11 as paragraph 13,) supported by the acquittances of the parties, as well as the Authorities and Documents relating thereto, (including Estimates for Works, Contracts, Agreements, and Tenders); the charges are to be classed and particularised under the several Heads of Service, in the same manner as in the Requisition for authority to incur the Expenditure.

16.—On receipt of the Warrant of His Excellency the Governor, the Treasurer will pay the authorised sums to Heads of Departments and to other Officers entrusted with Expenditure.

17.—In order to facilitate the payment from the Treasury, of the Police Gaol, and other Establishments in the interior, persons connected with those Establishments, will receive their pay through the Police Magistrates, Magistrates of the Bench, or Clerk of Petty Sessions, in their respective Districts, as may be specially authorised.

18.—From the 1st of January, 1850, all expenditure to be incurred for buildings, whether by contract, by purchase of materials, or for labor, is to be exclusively defrayed and accounted for under the Colonial Treasurer, by the Colonial Architect, or other officer superintending works and buildings at the seat of Government.

19.—All other parties who may have been hitherto authorised to make requisitions for buildings, works and repairs, and to bring the payments to account are henceforth entirely relieved from that duty; excepting in cases of a special nature, where His Excellency the Governor may authorise a deviation from the established Rule.

20.—For the purpose of comparing the estimated with the actual cost of all works the estimate upon which each work is undertaken is to be prepared in a prescribed form, distinguishing Labor from Materials, and also distinguishing the Items of Hire, Contract and Purchase from those provided from Public Establishments and Stores; and a return is to accompany the accounts for the year, shewing in respect of each Work or Building, the total amount of the approved Estimate, the amount, if any, expended in former years, the several amounts expended in the current year, distinguishing Purchases, Contract Work, Labor, and Materials from Public Establishments and Stores in the same form as the Estimate, and the sum remaining to be expended.

21.—In those cases in which Heads of Departments and other Officers receive advances to enable them to make payments daily or weekly for Hire or Wages, or for other Services, they are to make application for the same through the Auditor General who will take the necessary measures for placing in warrant the sum which may be deemed proper for the purpose.

No advance will be made to any Public Officer, unless he state the period

within which it is proposed to account for the appropriation of the amount which he requires; and if he fail to adjust or repay the same within such period, all payments to him of any nature whatsoever, whether salary or otherwise, will be suspended.

Every such Officer will, further be held responsible to procure from the Colonial Treasurer, a receipt for the repayment of the advance, or a certificate that it has been adjusted, a copy of which he will forward without loss of time to the Auditor General.

22.—All Bills of Particulars should clearly set forth, in the case of articles purchased, the exact dates or periods, and the places of delivery, the quantities, qualities, and prices of the several articles. They must also invariably be signed by the parties presenting them.

23.—In cases of charges for any repairs or works the expense of which is fifty pounds or upwards in amount, the Head of the Department will apply, through the Colonial Secretary, for the nomination of a Committee of competent persons to examine and report thereon; and the accounts for such charges will not be paid, unless it appears from the Report of the Committee, which must accompany the account, that the repairs or works have been completed according to the terms of the agreement, plans, or estimate, and in a good and substantial manner.

24.—On the receiving over of stores, or other articles purchased, the cost of which, at any one delivery, will amount to fifty pounds or upwards, the officer receiving them in charge will, in like manner, apply for a Committee to examine their quantities and quality. The Report of the Committee to the effect that the delivery has been made in conformity with the terms of the contract or engagement entered into for the purchase of the articles, and that they are of a fit and proper quality, must be produced with the account presented for the cost of the articles.

25.—When any payment is made to a person not able to write, the mark of such person is to be vouched by a witness, as having been made in his presence. All receipts for Allowances and Contingent Expenditure are to be vouched by at least one respectable witness, in whose presence the payment has been made. No party interested in any expenditure is to be considered a proper person to vouch for its correctness.

26.—In stating periods, the first and last day specified are both to be considered as inclusive. The amount of all salaries or allowances fixed according to a daily rate should invariably be calculated on the exact number of days contained in the period for which they are charged.

The proportion of a salary for a broken period is to be computed by multiplying the amount of the monthly or quarterly salary, according as the same is payable, monthly or quarterly, by the number of days in the broken period, and dividing by the number of days in the month or quarter.

27.—Should the accounts, transmitted for examination, be found incorrect deficient in point of vouchers or authorities, vitiated by erasure or interlineation in any essential particular, or not made up in a satisfactory form, these errors or defects will be pointed out to the Head of the Department, or other officer, from whom they are received; and, if necessary, the accounts will be returned for correction, or to be made up anew.

28.—If the payment due to any person is paid on his behalf to another, a written authority to receive the payment by the latter, on the part of the former, should be produced.

29.—The Heads of the several Departments will give every attention to the communications of the Auditor General on the subject of their accounts, and the several officers of Government will on his application, furnish him with all such documents or information connected with the public accounts, as may reasonably be required of them, and as they may have it in their power to communicate.

30.—The foregoing instructions are not, except as herein provided for, to supersede any of the former instructions now in force.

By His Excellency's Command,

E. DEAS THOMSON.

 Leases of Crown Lands, beyond
 the settled Districts.*

PORTLAND BAY DISTRICT

HIS Excellency the Governor directs it to be notified, for the information of all persons interested, that in pursuance of Her Majesty's Order in Council, of the 9th March, 1847, the undermentioned person has demanded a lease of the run of Crown Land particularized below.

Persons who object to this claim, whether wholly or in part, should lodge caveats at this Office, within two months from the present date, specifying the lands to which their objections exist, and the grounds on which their objections are based.

It is to be distinctly understood that the Government does not pledge itself to the issue of a lease in any case, until due enquiry has been made into the

validity of the claim, and whether or not it may be necessary to reserve any portion of the land claimed for any of the public purposes contemplated in the Order in Council.

It is possible that this application for lease may be found to have reference to land really situated within the settled district, and only subject to occupation under the regulations of the 29th March, 1848.

PETTY SESSIONS.—CORRESPONDENCE.

HIS Excellency the GOVERNOR desires to call the attention of the Magistracy and Clerks in the Country Districts, to the necessity for a strict observance of

the Regulation which directs that all communications to the Government from Benches of Magistrates, should be signed by the Magistrates, or one of them, on behalf of the Bench, instead of being signed, as is frequently the case, by the Clerk of Petty Sessions.

CROWN LANDS BEYOND THE SETTLED DISTRICTS.

(CORRESPONDENCE.)

HIS Excellency the GOVERNOR has directed it to be pointed out, with reference to the Government Notice of the 26th December, 1848, that all communications from Public Officers and private individuals, respecting leases or licenses of Crown Lands, assessment on Stock, Tenders for Runs, and generally on subjects connected with the occupation of Crown Lands *beyond* the Settled Districts, in the Sydney or Middle District, are to be addressed to the "Chief Commissioner of Crown Lands," at his Office, No. 356, Castle-reagh-street, north, Sydney.

2: All communications respecting Crown Lands in the southern or Port Phillip District, will continue to be addressed as heretofore, to His Honor the Superintendent of Port Phillip.

By His Excellency's command,
E. DEAS THOMSON.

Colonial Secretary's Office,

FAMILIES OF EXILES.

HER Majesty's Government having determined to defray a moiety of the expense of conveying to this Colony, the families of those married persons who arrived at Port Phillip as "Exiles" from Great Britain, His Excellency the Governor directs it to be notified, that in any case in which the exile shall place in the hands of the Local Government a sum sufficient to cover one-half the expense of conveying his wife and children to the colony, the other half will be defrayed by the Home Government.

Persons of this class, therefore, who are desirous of availing themselves of this indulgence, will make application

accordingly to His Honor the Superintendent of Port Phillip, if still resident in that district, or otherwise to the Principal Superintendent of Convicts in Sydney.

As, however, it will not be possible to predetermine the actual expense of providing passages for each such family, the applicants will be required to deposit in the colony such a sum of money as will cover one moiety of the probable expense, calculated according to the following scale, and the balance (if any) after paying a moiety of the actual expense incurred, will be returned to the parties, namely:—

	Passage Money.	Deposit.

Each child above fourteen years	18	10

CROWN LANDS BEYOND THE
 SETTLED DISTRICTS.

MEASUREMENT OF THE BOUNDARIES
 OF RUNS.

WITH reference to the Notice issued on the 28th July, 1849, His Excellency the Governor, with the

advice of the Executive Council, has been pleased to direct the issue of the following further notice respecting the Surveys of the Boundaries of Runs, for the purposes of the Leases claimed under Her Majesty's Order in Council of the 9th March, 1847,

1. The Surveyor General having reported the price of £2 per linear mile is now found to be much higher than is required to cover the expense of the measurement of the Boundaries of runs, the price is hereby reduced to *ten shillings* per linear mile, which will be charged in all cases in which it may be necessary to have recourse to measurement, in order to render the descriptions of the boundaries sufficiently complete to satisfy the rule of law, which holds any grant or other conveyance from the Crown to be absolutely null and void if the property intended to be conveyed be not described with certainty.

2. A formal survey will not be required by the Government in any case in which the claimant of a Lease shall have furnished, under the Notice of the 7th October, 1847, such a description of the boundaries of his run as will satisfy the requirements of the law above referred to, or will admit of being rendered sufficiently perfect for that purpose by explanation afforded on the spot to the Commissioner of Crown Lands, or other person employed by him to estimate the extent and grazing capabilities of the run.

3. Where no survey is made, there will, of course, be no charge, but any person who may have furnished a description sufficiently perfect to enable the Government to dispense with a survey, but who may nevertheless be desirous, for the sake of his own greater security, to obtain a technical description of his Lease, can have the boundaries of his run measured at the above stated rate, of ten shillings per linear mile.

4. The charge for measurements performed by the Surveyors employed under the direction of the Commissioners for the settlement of disputed boundaries will be the same as that fixed by this notice for other measurements, viz.—Ten shillings per linear mile; but where the descriptions furnished by the applicants are deemed sufficient for the lease, it will not be necessary that a measured survey should be made of any portion of the boundary excepting that which is immediately the subject of dispute.

5. Wherever the boundaries of a run are coincident with those of a reserve.

or with any lines which have been surveyed by the Government for a public purpose, no change on account of their measurement will be made to the Lessee.

6. In reference to a misapprehension which appears to have been entertained respecting the meaning of the Notice of the 28th July, 1849, in this particular, it is hereby explained that the Government does not intend to take a double payment for the same survey, and that, therefore, where the boundaries of two runs requiring measurement are coincident, the expense of the measurement will be divided, equally between the two parties, each being charged one-half of the fixed rate of ten shillings per mile.

By His Excellency's Command,
E. DEAS THOMSON.
