EXHIBITION OF INDUSTRY OF ALL NATIONS.

REFERRING to the Notice dated 3rd ultimo, containing a detailed account of the arrangements made for conducting the Exhibition of the Industry of all Nations, to be held in London in 1851, His Excellency the Governor directs it to be notified, for the information of all persons in this colony, who may be desirous of forwarding articles to the Exhibition, that upon such articles being submitted to the Collector of Customs, that Officer will furnish the Exporter with a certificate, which it is believed will prevent the articles so forward being unpacked or interfered with by the Officers of Customs in London.

By His Excellency's Command,
E. DEAS THOMSON

Superintendent's Office,
Melbourne, 27th July, 1850.

GOVERNMENT NOTICE.

Occupation of Crown Lands within the Settled Districts:

REFERRING to the Government Notice, under the above heading, issued from the Superintendent's Office, and dated 1st October, 1849; the attention of both classes of occupants therein alluded to, is called to the change, which in many instances may be operated, in their position after the close of the present year; and they are reminded, that unless sufficient cause be shown for their continued temporary occupation of any section or sections, notwithstanding the claims of neighbouring holders of purchased lands, such occupation will, after the 31st December, give place to the pre-emptive right of occupation conveyed to the latter, by the 16th clause of the regulations (29th March, 1848), wherever exercised. They are further directed to apply at the Survey Office of this District, for whatever information they may require.

GOVERNMENT NOTICE.

THISTLES.

THE attention of the public generally and the occupants of purchased sections in the vicinity of Melbourne more especially, is drawn to the urgent necessity of timely measures being taken to check the growth and spread of the large "Milk Thistle," of which various patches are at this time to be found scattered over the country, more particularly in the vicinity of Melbourne, and along the course of some of the confluent of the Yarra Yarra River; both, within the precincts of purchased and of unsold Crown Lands. On the part of the local Government it is considered imperative at the present time to make every practicable effort to clear and destroy the larger beds, from the unchecked growth of which, the rapid spread of the Thistle over the country may be justly apprehended; but it will be manifest that unless these efforts are seconded by the holders of private property, and lessees of the Crown, as far as practicable, and that, before the plants of the present season arrive at maturity, the hope of readily checking, and perhaps eradicating what must assuredly otherwise prove a serious evil, may be almost abandoned.

It may be pointed out that merely to cut, or mow down the flowering plant will not check the spread, as the plant will under ordinary circumstances seed, even after being uprooted; and that nothing short of grubbing out the plants below the crown of the root, and proceeding when sufficiently dry to stack and burn them, will effect the end in view.
