GOVERNMENT NOTICE.

THISTLES.

THE attention of the public generally and of the occupants of purchased sections in the vicinity of Melbourne more especially, is drawn to the urgent necessity of timely measures being taken to check the growth and spread of the large "Milk Thistle," of which various patches are at this time to be found scattered over the country, more particularly in the vicinity of Melbourne, and along the course of some of the confluent of the Yarra Yarra River; both within the precincts of purchased and of unsold Crown Lands. On the part of the local Government it is considered imperative at the present time to make every practicable effort to clear, and destroy the larger beds, from the unchecked growth of which, the rapid spread of the Thistle over the country may be justly apprehended; but it will be manifest that unless these efforts are seconded by the holders of private property, and lessees of the Crown, as far as practicable, and that, before the plants of the present season arrive at maturity, the hope of readily checking, and perhaps eradicating what must assuredly otherwise prove a serious evil, may be almost abandoned.

It may be pointed out that merely to cut, or mow down the flowering plant will not check the spread, as the plant will under ordinary circumstances seed, even after being uprooted; and that nothing short of grubbing out the plants below the crown of the root, and proceeding when sufficiently dry to stack and burn them, will effect the end in view.
