## Notes.

---

In the Tables of Urban Population, 33, 40, and 44, some of the Towns, and some parts and suburbs of Government Townships, are of private formation; but it has not been thought necessary to distinguish them.

Several Towns, possessing only a trifling population, are inserted in Tables 33, 40, and 44, in consequence of their having been formerly so shown, or for the sake of future comparison of their present state with their expected advancement.

The contents of the Population Tables for Cities, Towns, and Villages (25, 40, and 43-4), are comprehended as component parts of the contents shown in the Abstracts for the Counties, (1 to 8 and 42); the Police Districts, (9 to 16); and Parishes, (17 to 24); in which such Towns are situated.

The difference (in Tables 8, 16, 24, 32, 40,) between the sum of Slated and Shingled Houses, and the total number of Houses in any District, is made up of Houses covered with Bark or Thatch and Houses not roofed in. The difference between the total number of Houses and the sum of houses constructed of Brick or Stone and of Wood, consists of Houses formed of Bark, or other inferior material.
