PROCLAMATION.

By His Excellency Sir Charles Augustus Fitz Roy, Knight Companion of the Royal Hanoverian Guelphic Order, Captain-General and Governor in-Chief of the Territory of New South Wales and its Dependencies, and Vice Admiral of the same, &c., &c., &c.

WHEREAS by an Act or Ordinance of the Governor and Legislative Council, passed in the second year of the Reign of Her Majesty Queen Victoria, intituled, "An Act for regulating the Police in the Towns of Parramatta, Windsor, Maitland, Bathurst, and other Towns respectively, and for the removing and preventing nuisances and obstructions, and for the better alignment of streets therein," it was amongst other things enacted, that whenever the Governor or Acting Governor for the time being, should deem it expedient to extend the said Act to any other Towns in the said Colony, it should and might be lawful for the said Governor or Acting Governor for the time being, to declare the same by Proclamation: Now therefore, I, the Governor, in pursuance of the power and au-

thority so vested in me, by the said recited Act, do, by this my Proclamation, hereby direct that the provisions of the said Act, as amended by a certain other Act of the said Governor and Council passed in the eleventh year of Her said Majesty's Reign, intituled, "An Act to amend an Act for regulating the Police in the Towns of Parramatta, Windsor, Maitland, Bathurst, and other Towns respectively, and for the removing and preventing nuisances and obstructions, and for the better alignment of streets therein," be extended to the Town of Belfast, in the County of Villiers, and District of Port Phillip.

Given under my Hand and Seal at Government House Sydney, this thirty-first day of May, in the Year of our Lord one thousand eight hundred and fifty-one, and in the fourteenth year of Her Majesty's Reign.

(L.S.) CHS. A. FITZ ROY.  
By His Excellency's Command,  
E. DEAS THOMSON.  
GOD SAVE THE QUEEN.

Colonial Secretary's Office,  
Sydney, 6th June, 1851.

NOTICE TO MARINERS.

HIS Excellency the Governor directs the publication, for general information, of the following letter and translations of its enclosures, from Her Majesty's Consul at Tahiti, communicating the rectified positions of the Island of Toobouai and six of the Paumotu or Low Islands, as ascertained by recent Surveys of French Hydrographers.

By His Excellency's Command,  
E. DEAS THOMSON.

PUBLIC OFFICE VICTORIA

British Consulate, Tahiti, March 15, 1851.

Sir,—As Vessels from New South Wales frequently pass amongst the Islands in this neighbourhood, many of which (particularly of the Paumotu Group,) appear to be very incorrectly laid down on the Charts, I do myself the honor of transmitting to your Excellency herewith, the copies of two letters which I have received from the French Commissioner at this place, communicating the rectified positions of the Island of Toobouai and six of the Paumotu or Low Islands, as ascertained by recent Surveys of French Hydrographers.

I have the honor to be, Sir,  
 Your Excellency's most obedient humble servant,  
 His Excellency the Governor, G. C. MILLER.  
 of New South Wales, &c., &c., &c., H. M. Consul.  
 Sydney.

Papeete, (Tahiti,) 12th January, 1851.

(Translation.)  
 Sir,—On terminating his hydrographic operations, M. Delamarche, the Hydrographic Surveyor, addressed to me the following observation.

The Island of Toobouai is erroneously placed on the existing charts.  
 The Flagstaff, situated about the middle of the north extremity of the Island, is in  $23^{\circ} 21' 45''$  south latitude, and in  $151^{\circ} 55' 44''$  longitude west of Paris. ( $149^{\circ} 35' 23''$  west from Greenwich.)

The variation is  $9^{\circ} 38' 10''$  N. E.

The anchorage, situated at the termination of the reef, at about 2,500 metres, [2,700 yards,] from the Flagstaff, bearing S.  $\frac{1}{4}$  E. true, is very bad, for the bottom being of coral, vessels are liable to drive or lose their anchors, and there is no shelter whatever; smaller vessels can however be conveniently anchored near the shore. As there are pilots, it would not be prudent to dispense with them.

These remarks being of importance to Navigators, I have the honor without delay to bring them under your notice, and to inform you, that I have also caused them to be made known in France, and to all our Consuls in these seas.

I have the honor to be, &c.,  
 (Signed) BONARD.  
 H. B. M. Consul, Commissary of the French Republic, at the Society Islands.  
 Papeete.

Papeete, (Tahiti,) 12th February, 1851.

(Translation.)  
 Sir,—The hydrographic labours performed, in pursuance of my orders, in October, 1850, by M. Delamarche and by Captain Gizolme, have, amongst other results led to the detection of very considerable inaccuracies in the positions which the existing Charts give to the Islands of the Pomotou Group Mani, Vahé, Rurick and Vliégen. As these Islands are situated in a track much frequented by vessels coming to Tahiti from the northward, and are not to be discerned until one is (so to speak) actually upon them, I consider that it will be useful to make known to Navigators their exact position.

I have the honor to communicate to you the subjoined table relative to them:—

	Latitude South.		Longitude West from Paris*	Longitude West from Greenwich†
