No. 20.]

FRIDAY, APRIL 8.

[1853.

Colonial Secretary's Office,
Melbourne, 5th April, 1853.

GOLD REGULATIONS.

HIS Excellency the Lieutenant Governor, with the advice of the Executive Council, has been pleased to authorize the promulgation of the following Regulations, subject to such alterations as His Excellency, by the advice of the Legislative Council, may hereafter prescribe, for the occupation of the Gold Fields; and to direct that all Regulations previously published respecting the issue of Licenses shall be cancelled, with the exception of those provisions which are embodied in the Regulations of this date.

LICENSES.

1. No person will be permitted to dig or search for Gold unless he shall have provided himself with a valid License or Lease, which shall be issued to him according to the stipulations hereinafter annexed.

2. The ordinary License Fee shall be at the rate of Thirty Shillings per month for each License, and shall be paid in advance.
No. 20.—APRIL 8TH, 1853.—1.

3. Licenses shall be issued by the Commissioners of the Gold Fields, and shall be produced on demand of any person duly authorized by the Government.

4. The size of the claim which each Licensee shall guarantee to the Licensee is twelve feet square (one hundred and forty-four square feet), and all disputes concerning claims shall be decided by the Commissioner of the Gold Fields or his deputies.

5. No Licensee will be allowed to reserve his claim, or leave it unoccupied during his absence, without shewing satisfactory cause to the Commissioner or his deputies.

6. Sluice Washing will be permitted to Licensees, at running streams; but the privilege shall determine when the stream may cease to flow, and no sluice washing will be allowed except by special sanction of the Commissioner or his deputies, who will guard against conferring the privilege in places where the permanent supply of water may be injured by the operation of sluice washing.

7. Licenses will be withheld from such persons as may not be able to produce proof that they have been duly discharged from their last place of service.

8. No Licenses or Leases will be granted to enable the Licensee to interfere with a permanent supply of water which may be necessary for

the public use; and of this necessity the Commissioner or his deputies shall judge.

9. No Licensees or Lessees shall be permitted to undermine in the immediate vicinity of a road or thoroughfare, and the Commissioner or his deputies are empowered to decide as to the permissible proximity of a claim to a road.

10. Excepting such cases as are specially provided for otherwise by these Regulations, a monthly License of Thirty Shillings, payable in advance, will be demanded at the Gold Fields from all persons connected with the search for Gold.

11. Persons arriving at a Gold Field after the 24th of any month, may at once obtain from the Commissioner a License for the ensuing month, and such License shall be looked upon as valid for the ensuing month, the name of which shall be written or printed in full upon the License, together with the actual date of issue.

COMPANIES' LEASES.

12. Leases of blocks of ground at the Gold Fields shall be of five years' duration on alluvial diggings; of twenty-one years' duration on claims taken for the sole purpose of extracting Gold from quartz.

13. A Royalty of five per cent will be charged upon all Gold extracted by Lessees of tracts of land at the Gold Fields.

14. The maximum area of land to be leased to Companies will be one hundred and sixty acres; the length of the block being in no case greater than half a mile, and the width being in no case more than half a mile. The area leased on a quartz claim will be half a mile in length of the vein, with one hundred yards on each side of it.

15. The area comprised within blocks leased will not necessarily be square or oblong; but the whole area shall be bounded by straight lines, in order to ensure facility of measurement and easy adjudication of boundaries. A claim embracing any gully or watercourse, may be composed of several parallelograms or rectangular blocks, of which the side lines on each bank may occasionally abut closely on the creek, and may in the succeeding parallelogram be further removed; but each parallelogram shall be contiguous to another, in order that from any given corner pin, the length of each side line being known, the whole claim may be re-measured, if re-measurement should be required.

16. Leases on alluvial diggings will only be granted on lands which have been worked, or partially worked, in the ordinary method by Licensees.

17. Companies will be permitted to build or erect their works on land contiguous to their leased claims, on special application to the Commissioner; but such additional land shall in no case be worked by Companies with a view to obtain Gold.

18. Leases will not be granted to Companies where it may be the opinion of the Commissioner that it would be prejudicial to the public interests, to give to the Companies the sole and

unrestricted use of the water comprised within the area applied for.

19. A Company failing to commence work within six months of the date of issue of its Lease, will forfeit its claim.

20. The actual working of leased lands will be insisted on. Thirty men, or the equivalent to the labor of thirty men, must be employed on each alluvial claim; and ten men, or the equivalent to their labor, must be employed on quartz claims. Failure to comply with this regulation will cause a claim to lapse after three months.

21. Companies obtaining Leases shall enter into bonds to work the auriferous soil thoroughly, and to leave no valuable earth behind. Whether they prefer to work in longitudinal cuttings, or transversely, or in lines radiating from the centre of the claims, they will be compelled to test the claim fairly if they work it at all, and to clear away the auriferous deposit to the bottom or rock.

22. No existing claims shall be interfered with in granting Leases to Companies.

23. The servants of a Company paying the stipulated Royalty will not be liable to pay the Monthly License Fee. They will be provided with special tickets on parchment, bearing the joint stamp of the Company and the Government; and these tickets shall be taken from books, of which the butts shall form a counterpart to the tickets issued.

The names of all the servants of the Company shall be communicated to the Commissioner of the District, at such periods as he may direct.

If a servant of a Company leave its service, his exemption ticket shall be returned to the Company, to be by the Company transferred to another servant, whose name shall be endorsed on the ticket, or to be handed over to the Government.

24. An exemption ticket will in no case be a security for the bearer, except upon or in the vicinity of the works of the Company by which the ticket shall be issued.

25. All tickets, when no longer required for use, shall be surrendered to the Government, and a charge of Thirty Shillings will be made for each missing ticket.

26. Tickets need not be carried on the person upon the premises leased to the Company.

27. Applications for Leases of lands, whether for alluvial digging or quartz crushing, shall be made in writing to the Chief Commissioner for the Gold Fields, and shall be accompanied by a deposit of £100, to be looked upon as Royalty paid in advance, and a like sum will be deducted from the first ensuing gross payment due to the Government.

28. One day in each month shall be fixed upon for the opening of applications for Leases: and two applications for the same spot, opened on the same day, shall be held to be contemporaneous. If only one application be received, the applicant shall be entitled to a Lease on the conditions stated by the Government, in accordance with these Regulations. If two or more contemporaneous applications shall be received, the applicants shall receive notice of the clashing of their claims,

and shall be invited to send in tenders accompanied by a bonus, and the Government will then award the Lease to the highest bidder.

29. If the application of one Company trench on the ground applied for contemporaneously by another Company, the Commissioner shall immediately report the fact to both applicants, and shall give notice of the day on which he will examine the matter, and decide concerning the boundaries; after which, fresh applications will be received from each Company previously applying.

30. No Leases shall be transferable without arrangement with the Government.

31. Applicants for Leases shall be bound to prove the existence of the Company represented, and shall find satisfactory sureties for the fulfilment of the various conditions of the Lease.

32. Leases shall contain the usual covenants and conditions in favor of the Crown.

33. It will be provided by express stipulation in each Lease that Lessees shall afford free access to all persons acting on the part of the Government, to inspect the books and works of a

Company; to be present at the extraction of Gold; and, if necessary, to reside on the premises of the Company.

CO-OPERATIVE COMPANIES' LEASES.

34. To co-operative Companies, not desirous to undertake the working of so large an area as one hundred and sixty acres, lots of five acres of ground, previously worked or partially worked in the ordinary manner, will be leased, on the payment, monthly, in advance, of twenty Licenses of Thirty Shillings each, together with the ordinary License Fee for each laborer who may be employed over and above the number twenty.

35. Effectual working of such claims will be insisted upon as in the larger claims, and applications must be sent in writing in the same manner as has been above described.

By His Excellency's Command,

W. LONSDALE.

UNCLAIMED LETTERS.

No. 3. General Post Office,
Melbourne, 31st March, 1853.

LIST of Letters lying at this Office unclaimed, accumulated since the publication of the last List.

NOTE:—*Parties applying for advertised Letters, are particularly requested to state the Number and Date of the List in which they may have observed their Names, as such reference will materially facilitate delivery.*
