LIST OF UNCLAIMED SHIP LETTERS FOR THE WEEK ENDING 21st FEBRUARY, 1857.

PARTIES applying for Letters at the General Post Office are particularly requested to give the correct number of the letter, and also the date and number of the list in which they may have observed their names, as such reference will materially facilitate delivery. Persons in the country making written applications, in addition to the number of the letter, and the date and number of the list, are requested to state where they expect their letters from, and any information which may tend to prevent an unnecessary transmission of letters.

Application to be made at the General Delivery Department, corner of Elizabeth and Bourke streets. The next List will contain all letters received by Ship up to the 28th February, 1857.

N.B.—Letters posted in any part of the Colony of Victoria are not advertised. The Lists contain only Letters received by Ship from England, Foreign Countries, and the neighbouring Colonies.

MEMORIALS, ETC., RECEIVED.

The ratepayers, inhabitants and individual parties have addressed themselves to the council on various matters, some of which have been beyond the power of the council, and others they have not thought fit to deal with at present. Regarding nuisances complained of, the council have made the needed provisions as far as possible. One memorial was for the non-removal of tents outside the town boundary, which the council had not interfered with, but merely with permanent buildings erected within the town on unsold crown lands. The demands upon the council for road making and improvements in different localities are evidently more than than the council have the means to provide for.

MEMORIALS AND CORRESPONDENCE SENT.

The council have memorialised his Excellency and addressed communications to the government departments and local authorities on many matters, among others the following:—

(a) Repeated applications for the completion of Forest street, by Market square, and the alteration of the creek line, to which nothing has yet been done, but as far back as 25th July it was promised that a sum would be placed on the Estimates for the purpose.

(b) On post office conveyances, by which it has been granted that letters posted after 5½ p.m. can be forwarded by the morning mail, and the Post Office is opened from 7½ to 8 a.m. for receiving and forwarding letters on payment of the too late fee.

Many applications for the payment of the second moiety of the grant of £7500, made by the Legislature without success, although on 29th July, the account for that payment was received from the Colonial Treasurer, with a promise of payment thereof on its return, which was immediately complied with, since when objections have continually been raised, which the council believe to be utterly beyond the law, and of a similar nature to others made demanding the collection of a shilling rate and other exigencies, which were so stoutly resisted at the first by this and several other municipalities, to the protests of which the Government then had to yield.

(c) For the erection of a powder magazine, which is now nearly completed, and expected to be soon placed at the disposal of the public, removing this dangerous deposit from the stores in the centre of the township.

Amended plan for public buildings on section 14, setting out sites for a town hall in the centre thereof, sites for the sub-treasury and gold office, and for the electric telegraph, which buildings are now being erected; sites for the use of the fire-brigade and for a mechanics institute, which are in the course of being availed of; sites for the post office and for court houses and a lock-up, for which it is understood that sums will be placed on the estimates. The council have granted a site on the section for a savings bank, and a site for a police station has been applied for.

(d) Against the nomination for the North Western Province taking place at Wyneton, that town being on the confines of an extensive district, whilst there were three large gold-field townships far more central and important and containing more electors, but granted, though the Government admitted the claims of Castlemaine in respect thereto.

(e) For the erection of a jail, for which a sum has to be placed on the estimates, and which so far progresses that a stockade is erected on the site.

For two acres for a manure depot, for one acre for a pound, granted and surveyed; also land for a cemetery has been promised, but as yet no locality fixed on.

(a) For a portion of the £500,000 proposed to be expended on roads.—Acknowledged.

(e) For the appointment of a local road board from the council.—Not granted.

(a) For the removal of telegraph posts from the centre of the footpaths.—Reply that they were placed 11 feet 9 inches from the building line, but they still remain in the middle of the pathways at several crossings.

To the resident warden for protection to two old cemeteries, one on Pennyweight Flat, one at Diamond Gully, Winter's Flat.—Accorded, and intention stated of having the same fenced in.

For repairs to the Governor's and Sheriff's bridges.—Replies received—that the same were effected; but further remonstrance thereon has been made—not yet replied to.

(b) For county court sittings every month.—Replied to that a new law on the subject would be introduced, and there is every reason to believe that monthly sittings will be accorded not only to this but the surrounding districts, as sought for by this council and in justice to all.

(c) For £300 for clearing away thistles, for £3000 for fencing and laying out the botanical gardens.—Acknowledged.

(d) For the making of the Bendigo road through Barker street instead of, as projected by the district engineer, round by the camp and along Barker's Creek.—Under consideration.

(e) For lands along Barker's Creek for park reserve, &c.—Granted, conditional on the line of railway and position of the Castlemaine station.

(c) For £20,000 for making the roads to the gold fields and other neighboring places westward.—Replied to, that next year some sums might be laid out thereon, but that now it was considered best to complete the main Mount Alexander road.

(d) For £300 for a letter carrier.—To be considered. For repairs to Campbell's Creek road.—Not yet fully replied to, nor the works done.

(d) Against the union of the offices of resident warden and police magistrate in one person.—Reply, that such was not intended, but some new arrangements thereon were contemplated by Government.

(a) On the first report of the chance of the main line of railway from Melbourne to the Murray deviating from this town, the council memorialized and received an assurance from

- (a) On proposal of the chairman.
(b) On proposal of Councillor Wheeler.
(c) On proposal of Councillor McMillan.
(d) On proposal of Councillor Paynter.
(e) On proposal of Councillor Smith.

Government that their fears and suspicions with respect to the deviation of the line from Castlemaine were groundless. The council had previously twice petitioned for the line to be made direct to this town and with the utmost speed, and the important question never required nor received pressure from without to cause it to be taken up by the council.

* For stopping the practice of building on Crown lands in the township and immediately adjoining purchased lands.—Not yet decided.

MISCELLANEOUS.

At the conference of the municipal delegates at Melbourne, Councillor Palmer ably represented the interests of this district, and several most useful resolutions were come to for the obtaining of an amended Municipal Act, and further information on the subject is now invited by the Surveyor General.

A design for the corporate seal has been approved by the Government, and is daily to be expected from Melbourne.

The council presented an address of congratulation to His Excellency on his arrival, which was courteously received and replied to.

The Health of Towns Act has been gradually and partially brought into effect. The health officer and inspector have sent in their reports containing many valuable suggestions; and this local Board, in sending their quarterly reports to the central Board, have been enabled to state that the sanitary condition of the district is generally most favorable: at the same time they must not disguise the fact that much remains to be done, especially in the more populous part of the town, to preserve this healthful condition, and that moreover much depends in this respect on the inhabitants themselves.

Advances have again been made for the opinion of the council on the subject of mining on Crown lands in the township, but they decline to interfere whilst those lands are not entirely delivered over to their control, as they have before urged that said lands should form the municipal endowment.

The Government have applied to know whether the council would wish the boundaries of the township and municipality made coterminous, but the council have declined to entertain the question, not having received sufficient information as to the reasons or motives of such a change, and unable to see clearly what might be the results.

The census commission have applied to the council, and replies were given, with such information as was required and could be given.

RATES AND APPEALS.

The assessment having been forwarded for assent and a by-law striking a rate of sixpence in the pound made, was forwarded to the Government on the 8th August, but no answer was received until the 21st October; and during that period no objection was raised nor reason given for the delay by the Government, although more than one appeal was made to them to forward it. On its return the necessary steps were taken to issue notices for the hearing of appeals, and on the 16th November, the Court of Appeal in Petty Sessions was opened by the police magistrate. There were sixty cases of appeal out of over fourteen hundred assessments, of these thirty were allowed, in some abatements of valuation being made, and others struck out in allegations of the parties that they were not proprietors of the premises. The total deductions made from the original assessment was £1640, leaving the present amount of property assessed at £63,673. The hearing of appeals was finally closed on the 10th December, thus necessarily the two months of the rate fell due together only in December, and from that time to the date of the assessment being taken, very many and great changes had taken place, as to the proprietorship and occupancy of lands and premises, consequently the cultivation has not progressed as favorably as was to be desired. Many parties too have left the municipality, and others who were not residing here are not easily to be reached, therefore a considerable deficit may be expected in the amount of rates for the past year, but all this deficit will remain a charge upon these premises and be recoverable from future occupiers or proprietors.

The town clerk was appointed to support the assessment at the Petty Sessions, and reports that the Bench did not entirely confine itself to the question of value, as the Act appears to direct. There do not appear to be any positive objections to pay the rates, except in the case of Mr. W. W. Wilson, who protests against everything almost that was done in respect thereto, and who still refuses to pay, although his appeal was finally dismissed by the Bench; and in the case of Mr. F. Taylor, who objects to pay on certain property, which he alleges to be free from or by his squatting license. There were two or three cases of plant and machinery being assessed, which were given up on its appearing that they were not strictly rateable.

PUBLIC WORKS.

The works carried into effect since last report have been the formation of drains in Mostyn street and on three sides of Market square, in Barker street, in Hargreaves street, in Urquhart street, and in Lyttleton street.

Repairing of the roadways with metal, and covering with quartz in Mostyn street, Bourke street, Hargreaves street and Urquhart street, and keeping the same in repair for three months.

Repairing tab drains at the crossings with large rubble work and covering of quartz.

* An order to this effect has since been published by the Surveyor General.

Making a roadway across the hollow in Barker street, between Campbell and Doveton streets.

The works now to be carried out and contracted for are the erection of cattle yards behind the hospital, the fencing-in of the manure depôt near the same, the erection of municipal offices on the town hall reserve.

The works proposed and resolved upon are the clearing of a part of Templeton street, the kerbing of a part of Forest street and making the footpaths; the pitching of the drains with stone in parts of Mostyn and Hargreaves streets, laying the kerbing in the same, and the roadways to be crowned with metal, the footpaths to be formed and covered with gravel; also the erection of 22 lamp posts and lamps at certain corners of streets in the town.

The works proposed and rejected have been the fencing of Market square, and the erection of lamps and lamp posts.—Adjourned for six months from 27th August last

Appropriations were made out of the funds for the erection of a market, plans of which have been approved, and for the erection of a weighbridge and house, and these can be proceeded with, it is expected, shortly.

Almost immediately after the surveyor's appointment, he proceeded to take plans of the levels of the streets from Campbell street southward with gradients to Forest street, and from Campbell street to Hunter street, with the gradient to Kennedy street. These elaborate plans of levels and gradients have yet to be sanctioned by Government, which, when obtained, the said levels will form a sound basis, not only for all future public works, but for private buildings, and will bind the Government to carry out their roadways and other works on the same basis as the municipality.

FINANCE.

Referring to the accounts of receipt and expenditure, it will be observed that there is an amount due from Government for the removal of the old cemetery, which has been approved, and the account furnished as directed: therefore the return of that sum may be daily expected. Deducting the liability for works undertaken and appropriations made, there will probably remain a surplus of the grant of £7500, of be expended in forming the streets, &c., or other public works, of near £2000. Passed in Council.
