PETITION FOR MUNICIPAL INSTITUTIONS.

SOUTH YARRA.

IN pursuance of the Act of Council 18 Victoria No. 15, His Excellency the Governor, with the advice of the Executive Council, has directed the publication of the substance and prayer of a petition to His Excellency, hereinafter set forth, signed by three hundred and six householders and ratepayers of South Yarra, in the county of Bourke.

By His Excellency's Command,

WILLIAM C. HAINES.

B.4713.

The petitioners state that the locality of South Yarra is within the municipal district of Prahran, and that but a small portion of the municipal rates levied on the property in South Yarra has been applied to local improvements; in short, that the municipal council have almost ignored it, not having metalled or formed the roads, nor removed the rubbish from them, and that horses, cattle, pigs, goats, &c., are allowed to roam at large and commit depredations.

That South Yarra is too remote from Prahran to admit of the petitioners sharing the benefits attending municipal institutions, such as a Post Office, facilities for extinguishing fires, a Mechanics' Institute, &c., &c., and that the requirements of South Yarra, differing from those of Prahran, will be better fulfilled by residents than by strangers interested only in the improvement of distant localities contiguous to their own properties.

That the municipal council of Prahran are about to borrow £8000 on mortgage of the rates, that the properties of the petitioners have been rated for 1857 at 1s. in the pound on a rack rental, and they fear that it will be necessary to levy a yearly rate of 2s. in the pound until such loan be repaid.

That the only improvement by aid of such loan contemplated in South Yarra will consist in making and metalling a short piece of road called Yarra street, a work of little if any benefit to the petitioners, but serviceable to the Prahran municipal council for hauling stones over to make roads distant from South Yarra, and that the formation of the Melbourne and Suburban Railway will obviate the necessity for such a road.

That the majority of the petitioners consented to be included within the municipal district of Prahran upon the distinct understanding that the lowest possible rate only would be assessed, and that the council should not borrow money except with the approval of the ratepayers, signified at a public meeting convened for the purpose, which meeting has not been convened.

That the present rateable property within South Yarra is nearly, if not quite, as valuable as that of the whole municipal district was at the time of its constitution.

Lastly, the petitioners state that the area of the proposed municipal district does not exceed nine square miles, that it contains more than three hundred householders or ratepayers, and that it is bounded on the north by the River Yarra Yarra, on the east by the Kooyong road, on the south by the centre of the Commercial road, and on the west by the centre of the Punt road, as delineated on a plan which accompanies the petition.

And the petitioners pray as follows:—

"Your petitioners therefore most humbly pray that Your Excellency will be pleased to declare the locality comprised within the boundaries hereinbefore defined a municipal district, by the name of the South Yarra Municipality, or by such other name as Your Excellency may think fit, under the Act of the 18th Victoria No. 15, intituled, "An Act for the Establishment of Municipal Institutions in Victoria," and that for such purpose Your Excellency will, if necessary, vary and alter the present boundaries of the municipal district of Prahran: And that Your Excellency will not consent to the borrowing of eight thousand pounds by the municipality of Prahran, until the

locality in which your petitioners reside has been proclaimed a separate municipality."

PARTICULARS.

On Monday, 15th June, one of two miners working in an abandoned gully called Paddy's Gully, a mile and a half from Avoca, found the head of a European female at the bottom of a

hole. The head was fractured in two places. It had been severed from the trunk by a sharp instrument. At the top of the forehead there is a bullet hole. The teeth are entire, except two, which are decayed. Some reddish brown hair lay beside the head. The deceased is supposed to have been about 30 years of age, and to have been dead about three months or more.

In a neighbouring hole had been previously found a tarpaulin or a canvas fly covered with blood: it appears to be a dray cover. The skeleton was found on an open piece of ground near the Four Mile Flat (on Mr. Bradshaw's run): it is destitute of the head, and otherwise incomplete. An American axe, rusted with blood, with a straight handle of iron bark, lay alongside the skeleton.

The murder appears to have been committed while the parties were camped for the night, and the head was carried four miles from the trunk in a direction leading up the country towards Avoca.
