**MISCELLANEOUS.**

In reviewing their proceedings for the past half-year, the council consider they have much reason to congratulate the ratepayers upon the extensive public works which have been completed satisfactorily. The plank footpaths and stone kerbing of the Main and Victoria roads have now been tested sufficiently to prove their durability and comfort. The formation of Peel, Eureka, Barkly and Humffray streets, will, it is expected, prove a great boon to the inhabitants, and a strong inducement to those desirous of obtaining permanent locations to make extensive improvements upon the defined lines of survey. It is, however, to be regretted that the factious opposition of another local body should have delayed the council from laying off other equally important lines of communication, which would not only facilitate the passage of traffic, but considerably increase the municipal revenue, for it is apparent (judging from the results shown since the completion of the streets before referred to) that the frontages would be taken possession of speedily, substantial buildings erected, and the assessment, in consequence, materially augmented.

The council, in their last report had occasion to allude to the dilatoriness of the Government as regards the drainage of the main Geelong road through this municipality. The apathy then complained of had been maintained until very recently, when, after repeated applications and remonstrances, the cutting of the main channel was commenced, but immediately abandoned, owing to the obstructiveness of several mining companies and their representative body.

The consequence was that during the first heavy rainfall the properties of freeholders on the Main road to the amount of several thousand pounds was destroyed in one night.

The chamber of commerce, mining board and municipal council have applied since then for a commission of enquiry to be appointed to report upon the necessity of drainage, and the means to be adopted for that purpose; but no intimation has been received to the effect that this request will be acceded to.

The council had an interview with the Chief Secretary on the occasion of his visit to Ballaarat, and brought under his notice, in detail, the pressing wants of the district. Mr. O'Shanassy promised that those matters under his control should have prompt consideration, and that the attention of the President of the Board of Land and Works should be directed to such grievances as had reference to that department.

Competitive designs having been called for a building to contain Town Hall, Police Court, Mechanics' Institute, Public Library, &c. (the cost of which is estimated at £10,000), the first prize, £100, was awarded to Mr. Christopher Porter, Geelong; and the second, of £50, to Mr. Richard Lambeth, of Melbourne.

The site of the proposed building being occupied at present by two places of worship, belonging respectively to the Wesleyans and Hebrews, the Government have declined to proclaim it until an arrangement for their removal had been entered into with these congregations.

A deputation from the council waited upon the Vice-President of the Board of Land and Works and the Engineer-in-Chief in support of a memorial from the ratepayers, praying for the establishment of the railway terminus in the Eastern Municipality, when they were informed that although the eligibility of the proposed site was fully appreciated, it was deemed premature to decide upon it at present.

A permanent water supply for the use of the inhabitants has continued to engross much of the council's attention. Several sources have been suggested from time to time, but the only one of these at all feasible was that from the German Swamp. On this the necessary surveys and calculations were made, and it was found that nearly £50,000 would be required to carry out the scheme, and that, when completed, it would possess no advantage over the more inexpensive supply from the Wendouree Swamp. The difficulties which stood in the way of proving our right to the free use of the waters of the Wendouree have at length been removed, and a select committee of the Assembly has sat and taken evidence on the subject. Although it would be premature to anticipate the nature of the committee's report, still the preponderance of evidence in favor of the Eastern Municipality leaves little room to doubt that the report will recommend to the House of Assembly all that we have long contended for.

RICHARD BELFORD, Chairman,  
 JAMES MULHOLLAND, Town Clerk.
