5. If the claim is an alluvial prospecting claim not in the bed of a creek or river, and gold in payable quantities is found therein at a depth exceeding forty feet, he shall, within forty-eight hours after such discovery, give notice thereof, in writing, to the surveyor, together with such information as will enable the surveyor to find the claim on which the discovery has been made.

Printed forms of tender may be obtained from the Government Storekeeper, Melbourne, or of the officer in charge of the police at each station, by whom also any information or explanation will be afforded to persons tendering.

The tenders for each station will be accepted or rejected separately.

Tenders may be for either of the supplies required, oats, bran, hay, or straw, only, and if all be included in one tender it will be accepted for one article only if advisable.

Contractors will be allowed to deliver a two months' supply on the 1st February, a six months' supply on the 1st April for a winter's stock, and the remainder on the 1st October, subject to the provisions contained in clause 2, Conditions of Contract.

The price must be per ton for hay and straw, and per bushel for oats and bran, including delivery at the stations and all charges; bags to be returned when empty.

The net weight only, after deducting the tare, is to be charged. No bond will be required if the whole supply in value will not exceed £150, but if more, no tender will be entertained unless accompanied by a certificate from two responsible persons that they are willing to become bound as sureties for the due fulfilment of the contract in one-third the estimated cost of the entire supply at the station tendered for; and in the event of the tender being accepted, the bond must be executed within twenty days, failing which the contract may be again advertised or another tender accepted.

The names and addresses of the tenderers, and of their proposed sureties, must be stated at full length.

All tenders must be enclosed in a separate envelope, marked "Tender for —" (as the case may be), and deposited in the Tender Box at the Government Stores, King street; or, if sent by post, they must be addressed to the Government Storekeeper, Melbourne.

The Government will not necessarily accept the lowest or any tender.

The decision of the Government will be made known on or before the 17th January, 1862.

#### CONDITIONS.

1. The hay to be eaten, good, sound, and sweet; the straw to be wheaten, and both to be in all respects of the best quality; oats (colonial grown) and bran also to be sound and sweet and of the best description.

2. The supplies to be delivered on the requisition of the officer in charge of the district or station, the quantities stated in the schedule being, however, only approximative, and it must be understood that the Government will draw either more or less than stated. The excess over the estimate will, however, in no case exceed 50 per cent.

3. The contracts entered into under this notice are not to be considered as being infringed or vitiated by any contracts made by the military commissariat.

4. The forage when delivered must be accompanied by an invoice of quantity, showing the gross weight, the tare, and the net weight (this should be on the back of the requisition or order), which, when signed by the officer in charge of the station for the net quantity received, will be returned to the contractor, and by him rendered in support of his account.

5. Each contractor will be required to prepare his own account, monthly, in the prescribed form, and on presentation thereof to the officer in charge of the station or district, it will be forwarded for payment at the Treasury, Melbourne, or the Pay Office of the district, as may be indicated on the account.

6. Should forage duly ordered under these contracts not be delivered within forty-eight hours from a reasonable time to be fixed on the order, it will be competent for the department, should circumstances require it, to purchase the same at the risk of the contractor, from whose account any expense over and above the contract price is to be deducted.

7. In the event of a difference of opinion between the contractor and the officer receiving the forage, as to quality of the same, it is to be decided by a board of survey, composed of persons named by the head of a department, and the decision of the board to be considered final.

8. If the board shall decide that the forage is not of a proper quality, it must be immediately replaced by the contractor, failing which it will be procured elsewhere, and the extra cost, if any, will be charged as in clause 6.

9. When a board of survey cannot be conveniently assembled, or when from some other cause injury would accrue either to the public service or to the contractor by waiting for a board of survey, the officer in charge will have the power to reject such supplies as are obviously of inferior quality, it being understood that he will be responsible to the Government for so doing; and the contractor must take back the rejected forage and supply good in its stead, failing which it will be obtained by the officer requiring it, and the expense will be charged as in clause 6.

10. A repetition of irregularity in the quantity or quality of the forage, or of delay in delivering or replacing it when required, will subject the contractor, upon report from the Government Storekeeper, to such mulct, not exceeding one-fourth of the monthly account, as the Government may direct. It will also be in the power of the Government, upon such repetition, to terminate the contract forthwith.

11. It will be competent for the Government Storekeeper on behalf of the Government, or for the contractor on his own behalf, to terminate the contract, by giving in writing a notice of three full calendar months to that effect, it being understood that such notice only can be given from the first day of a month, and provided that no such notice can be given before the 30th April, 1862.

Chief Secretary's Office,  
Melbourne, 6th December, 1861.

The quantity required at Melbourne will be not less than twenty tons, and at Geelong nine tons daily on the average of the year.

No. 180.—DECEMBER 13, 1861.—3.

The coal is to be delivered at such part of the station ground as may be pointed out, in bags, each containing 1½ cwt. net, weighed at the expense of the contractor; separate rates are to be stated for daily delivery, and for delivery in bulk, not bagged, from time to time, the contract for each station being separate.

Should the contract be taken for delivery daily, the bags will be returned to the contractor on the day following.

The coal must be either Australian Agricultural Company's or of other description to be approved by the Government. Tenderers to specify the description of coal they propose to supply.

Further particulars may be obtained from the Government Storekeeper, Melbourne, the Superintendent of the Locomotive Department at Williamstown, or the Foreman of Locomotives at Geelong.

No tender can be entertained unless accompanied by a certificate from two responsible persons that they are willing to become bound as sureties each in the sum of £500 for due fulfilment of the contract; and the bond must be executed within five days of acceptance, failing which the contract may be again advertised or another tender accepted.

Tenders, endorsed, "Tender for Coal, Railways," are to be deposited in the box at the Government Stores, or addressed to the Government Storekeeper, Melbourne.

The Government will not necessarily accept the lowest or any tender.

The decision of the Government will be made known on or before the 21st December, 1861.

#### CONDITIONS.

1. The coal is to be the very best of its kind, and must be either screened before delivery over a screen with bars at least one inch apart and ten feet long, set to an angle of forty-five degrees to the ground level, or handpicked so as to be of the same size as if screened in the above manner, and be quite free from shale or other impurities.

2. The orders will be issued by an officer of the Railway Department, if the contract be for delivery daily, and should an order not be complied with within twenty-four hours it will be competent for the local officer who ordered to purchase at the contractor's risk. Should the contract be taken for supplies in bulk the Government Storekeeper will issue orders, and one month from date of order will be allowed for completing delivery, failing which the coal will be obtained by the Government Storekeeper at the contractor's risk.

3. Coal when delivered is to be accompanied by the order, which will be received by the officer receiving the supply, and must be rendered with the contractor's account.

4. The contractor will be required to prepare his own account monthly on the prescribed form, and present the same in a complete state, signed by the officer receiving the supply, to the Government Storekeeper for payment, at the Treasury, or at a district pay office, as the case may be.

5. In the event of a difference of opinion between the contractor and the officer receiving the supply as to the quality, the same is to be decided by a board of survey, composed of persons named by the engineer-in-chief of railways, and the decision of the board is to be final.

6. If the delay necessary for obtaining the decision of a board of survey should be detrimental to the public service, the engineer-in-chief, or officer in charge at the station, will have the power to reject coal which is obviously of inferior quality, it being understood that he will be responsible to the Government for so doing, and the contractor must take back the rejected coal and supply good in its stead, failing which it will be procured elsewhere, and the extra expense charged as in clause 2.

7. A repetition of irregularity in the quantity or quality of the supplies, or delay in delivering or replacing them when required, will subject the contractor to such mulct, not exceeding Fifty pounds, as the Government may direct. It will also be in the power of the Government to terminate the contract forthwith.

8. It will be competent for the contractor, or for the Government Storekeeper on behalf of the Government, to terminate the contract by giving in writing a notice of three calendar months, it being understood that such notice can be given only from the first day of a month.

## AVOCA MUNICIPALITY.

FIFTH HALF-YEARLY REPORT, ENDING 30TH OCTOBER, 1861.

THE Council have held 25 meetings during the half-year, at which the attendance of members was as follows:—Councillor W. Barnett (chairman), 19; Councillor Boyce, 16; Councillor Pearson, 16; Councillor Thoeneman, 15; Councillor Wiltshire, 13; Councillor Trevethick, 10; and Councillor Goodshaw, 9.

Applications were made to the Government for the following purposes, and with the results opposite each expressed:—

1. Opening the Powder Magazine.—Granted.
2. Cutting a portion of High street, and altering culverts in Bridport street.—Promised, and tenders called for.
3. Altering hours for arrival and departure of mails from and to Melbourne.—Granted.
4. Reduction of price of land.—Granted.
5. For plants and shrubs for Baths Reserve.—Granted.
6. For 1st and 2nd moiety of grant-in-aid.—Granted.
7. For £2000 to be placed on the estimates for Avoca, Moombabel, Redbank, and Navarre roads.—This application is still under consideration of Government.
8. For the establishment of a Court of General Sessions at Avoca.—Promised.

With reference to the Court of General Sessions, this establishment was prayed for so long ago as 1860, when the council were informed that no suitable buildings were available for the purpose, and that the Government would not provide them.

To meet this objection, the council erected a town hall of greater capacity than the present indispensable municipal requirements, and offered its use to the Government for general session purposes; and with the view of urging this suggestion two members of the council were deputed to visit Melbourne, and having done so, they obtained from the Honorable the Attorney General, R. D. Ireland, Esq., a promise that the court should be established forthwith.

The proclamation of the court was from some cause delayed until that honorable gentleman retired from office, and the council at once resumed their application to his successor, the Hon. B. C. Aspinall, who has been so good as to assure the council his predecessor's promise should be carried into effect.

The council consider it their duty to here record their sense of obligation to J. M. Grant, Esq., M.L.A., and B. G. Davies, Esq., M.L.A., for their ready and most valuable assistance in all matters in which their aid has been solicited.

The council much regret that in consequence of their feeling called upon to erect the town hall, they have been unable to undertake any other public works of importance during the last half-year.

W. BARNETT,  
Chairman of the Council.

Town Clerk.
