## MISCELLANEOUS.

## CITY COUNCIL OF MELBOURNE.

WHEREAS by an Act of the Governor and Legislative Council of New South Wales, 14 Victoria No. 20, intitled, *An Act for regulating the formation, drainage, and repair of streets, courts, and alleys on private property within the city of Melbourne*, it is amongst other things enacted, that where any street, court or alley, on private property in the city of Melbourne shall not be, or shall not have been, sufficiently paved, flagged, macadamized, levelled, drained, and sewered, or otherwise completed or repaired to the satisfaction of the council of the said city, it shall be lawful for the said council at any time, and from time to time, by any order under the hand of the Mayor or Town Clerk of the said city for the time being respectively, to order that any such street, court or alley, or any part thereof, shall be freed from obstruction, paved, flagged, macadamized, levelled, drained and sewered, or otherwise completed or repaired, in such manner and within such time as to the said council may appear expedient, and thereupon the owners of the tenements adjoining or abutting upon such street, court or alley, on each side thereof, shall in such manner and within such time as shall be expressed in such order, at their respective costs, charges, and expenses, remove all obstructions, and well and sufficiently pave, flag and macadamize, level, drain and sewer, or otherwise complete or repair so much of the said street, court or alley, to the centre thereof, as may be opposite to and co-extensive with their respective tenements, adjoining or abutting on such streets, courts, or alleys respectively:

And whereas the street, court, or alley enumerated in the schedule to the order annexed marked A has not been sufficiently paved, flagged, macadamized, levelled, drained, and sewered, or otherwise completed or repaired, to the satisfaction of the council of the city of Melbourne:

Be it now ordered by the council of this the said city, that the street, court, or alley enumerated in the schedule to this order annexed, marked A, shall within ten days from the date of this order's coming into operation be freed from obstruction, paved, flagged, macadamized, levelled, drained, and sewered, in such manner as is expressed in the schedule to this order annexed, and marked B; and it is hereby notified to the owners respectively of the tenements adjoining or abutting on the street, court, or alley enumerated in the schedule to this order annexed, marked A, that if they or any of them shall neglect or omit to remove the obstructions, and pave, flag, macadamize, level, drain, and sewer, or otherwise complete and repair the street, court, or alley on which their respective tenements adjoin or abut, in the manner and within the time expressed in this order, then the council of the said city will remove all obstructions in the said street, court, or alley, and pave, flag, macadamize, level, drain, sewer, and otherwise complete or repair the same, or such parts there-

of as shall not have been so done pursuant to this order, and will thereupon ascertain, determine, and charge such respective owners with their several proportionate part of the costs, charges, and expenses thereof, according to and co-extensive with their respective tenements adjoining or abutting on such street, court, or alley, having regard in such apportionment to the state and condition of the pavement, flagging, macadamizing, levelling, draining, and sewerage in which such street, court, or alley respectively, or any part thereof, shall or may be at the time of making this order.

Made and passed by the council of the city of Melbourne, this tenth day of March, 1862.

E. G. FITZGIBBON,  
Town Clerk.

#### Schedule A, referred to in this Order.

Street, court, or alley ordered to be freed from obstruction, paved, flagged, macadamized, levelled, drained, and sewered:—

No.	Locality.	Block.	Allotments.
1	North side of Little Bourke street to Lonsdale street	Gipps Ward, 23	12 and 13.

#### Schedule B, referred to in this Order.

Manner in which the streets, courts, and alleys enumerated in Schedule A, referred to in this order, are ordered to be freed from obstruction, paved, flagged, macadamized, levelled, drained, and sewered:—

The natural soil is to be reduced or made up, as the case may require, so that the longitudinal section of the whole right-of-way shall in no part have an inclination of less than 1 in 120, and where practicable the entire length is to form one incline. In laying on any stuff it is to spread in layers of not more than 1 foot thick. The transverse section of the right-of-way is to show a roadway whose crown shall be 1 inch above the kerbs of the footways, and in the fall from the crown of the waterchannels is to be at the rate of 1 in 25.

On either side of the roadway there is to be a waterchannel 18 inches wide, consisting of two rows of bluestone pitchers, 9 inches deep and not less than 9 inches by 14 inches on the surface, with upright sides, set in loam and rammed with a rammer weighing 40 lbs., so as to subside 4 inches.

The bottom of the channel is to be 7 inches below the top of the kerbs.

On either side of the roadway there is also to be a footway not more than 3 feet wide, and these are to be separated from the roadway by a red gum plank or kerb 10 inches by 3 inches, set on edge and fastened with 5-inch spikes to piles 4 inches by 4 inches of red gum, 3 feet long, driven into the soil.

The footways are to be covered with a coat of gravel 3 inches thick, and the surface is to fall towards the channel at the rate of 1 in 10. The roadway is to be covered with a coat of broken metal, broken to a 24-inch gauge and laid on 7 inches thick at the channels and 8 inches at the crown, and this, when necessary, is to be covered with a coat of loam 14 inch thick.

Whenever private entrances lead from the rights-of-way they are to be paved to the full width with bluestone pitchers, in the same manner as the channels. Paving is to be extended from the channels towards the line of houses or fences, so as to cross the entire footway.

The whole of the work must be done under the inspection and subject to the approval of the City Surveyor, who is authorized to order any deviation from these general principles which the particulars of any case may require.
