BEECHWORTH MUNICIPALITY.

THE Thirteenth (13th) Half-yearly Report of the Municipal Council of Beechworth, to the 9th April, 1863.

In accordance with prescribed custom, the council publish a report of their proceedings for the past six months, as follows:—

MEETINGS.

At these the councillors have respectively attended as under, viz.:

Councillors.	Council Meetings.		Committee Meetings.		Total.	
	No.	Out of	No.	Out of	No.	Out of
The Chairman, A. Rodgers, Esq., J.P.	15	18	3	6	18	24
Councillor Wm. T. Souby	8	10	7	8	15	18
Councillor H. Littlewood	11	18	6	10	17	28
Councillor Geo. B. Kerferd, J.P.	14	18	5	7	19	25
Councillor J. D. Fisher	9	18	4	6	13	24
Councillor Charles Dyring	14	18	7	8	21	26
Councillor John Yoxall	12	16	3	3	15	19
Councillor Alexander Keefer	1	1	1	1

ELECTIONS.

On the 24th October, 1862, Mr. John Yoxall was elected (by 88 votes) to the seat vacant through the non-attendance of Councillor William Witt.

On the 20th January, 1863, Councillor Henry Littlewood was unanimously elected chairman of committees in the room of Councillor Souby.

On the 1st April, 1863, Alexander Keefer, Esq., was duly elected to the seat vacant owing to the resignation of Councillor Souby.

On the 21st November, 1862, Messrs. J. D. Fisher, W. H. C. Darvall, and Donald Fletcher were elected managers of the Municipal Common, but resigned on 7th April, 1863, and their successors are not yet elected.

PUBLIC WORKS.

As the most economical method of effecting the necessary repairs and improvements to the streets, &c., of the municipality, the council, on the 12th February, 1863, appointed a "roadsmen" to carry out same, in the person of Mr. John Rutherford; and, on the same day, appointed him inspector of nuisances (without salary), in the room of Police Sergeant Whelan, who had resigned owing to his removal from this district.

Having got the continuation of Mellish street to the Buckland road proclaimed, the council have had it partially cleared and the side channels formed.

This council, in conjunction with that of Chiltern, have obtained the expenditure by the Government of £700 in clearing and otherwise improving the road between Beechworth and Chiltern.

The council are also co-operating with the Upper Murray Navigation League in an endeavor to get the Government to clear the River Murray from Echuca upwards, so that this district may avail itself of the proposed railway extension to that place when carried out.

WATER WORKS.

Owing to the dryness of the season the council have been unable, as yet, to carry out their intention of making water available, by sale, for mining operations.

They had a survey and estimates made with a view to bring water into the township from the Havelock road springs, but, owing to a want of funds, and their consequent application to the Assembly, through Mr. Weekes, M.L.A., not having yet been considered, that work is still in abeyance.

An action has been commenced against the council by Mr. James Parker, the contractor for the dam of the Hurdle Swamp Reservoir, for £1803 8s. 4d., for extras and alleged detention; but as the council have, throughout the affair, been guided by the opinion of their engineer, Francis Bell, Esq., who declines to allow said claim, they are defending the action.

For the same reason they are taking a similar course with regard to an action also entered against them by the Contour Races contractor, J. Brady, for an alleged balance of £439 7s. 6d. In each of these cases the council made offers for an amicable settlement before incurring the expense of a defence, but they were declined.

In case of further accidents at the reservoir of the water works, the council have procured and placed there two life buoys.

And they have obtained admission into the Melbourne Orphan Asylum for the two youngest orphans of Mr. and Mrs. McLuckie, who met their death at said reservoir by drowning.

FINANCE.

As a further means of economy (in addition to the appointment of a roadsman for carrying out all public works, and as honorary inspector of nuisances) the council dispensed with the services of a valuator this year, adopting the previous valuation, and allowing a temporary assistant to the town clerk for carrying out the clerical portion of the work, he himself inspecting the whole of the properties and assessing any additions and alterations on behalf of the council.

The rate for the current year it was found necessary to fix at 1s. 6d. in the pound.

MISCELLANEOUS.

In pursuance of their general desire to further the interests of the public institutions of the town, the council entrusted to

the local Acclimatisation Society the expenditure of the municipal vote for the introduction of Murray fish into Lake Kerferd.

And they placed at the disposal of the Agricultural and Horticultural Association the town hall and its reserve for the purposes of their public exhibition.

They also applied to the Government (unfortunately without success) for a grant towards the erection of the proposed Burke Museum in connection with the Beechworth Athenaeum, half the expense of pointing the front of which latter building they have also agreed to bear.

On the 15th November, 1862, they caused the public market to be formally opened, and agreed to forego market dues for the present; and there is no doubt that when the law enables the council to put a stop to the system of hawking, now so generally carried on throughout the town, the benefit of this institution will be more universally felt.

The council have obtained the reservation of a site for public abattoirs at the rear of suburban section C. They have received Crown grants for the botanical garden and town well sites; and they have voted £125 towards the permanent improvement of the public recreation reserve of the municipality, conditionally upon the Jockey and Cricket Clubs giving a similar amount, and upon said reserve being vested solely in the council for the benefit of all sections of the community.

By Authority: JOHN FERRES, Government Printer, Melbourne.

The following table shows the results of the experiment. The first column shows the number of trials, the second column shows the number of correct responses, and the third column shows the percentage of correct responses.

Number of Trials	Number of Correct Responses	Percentage of Correct Responses
10	8	80%
20	15	75%
30	22	73%
40	28	70%
50	35	70%
60	42	70%
70	48	69%
80	55	69%
90	62	69%
100	68	68%

As can be seen from the table, the percentage of correct responses remains relatively constant, ranging from 68% to 80%. This suggests that the subjects were able to maintain a high level of accuracy throughout the experiment.
