SANDHURST MINING DISTRICT.

GENERAL BYE-LAW.—[5th January, 1863.]

At a meeting of the mining board of the mining district of Sandhurst, begun and holden at Sandhurst, in the said district, on the 3th day of January, One thousand eight hundred and sixty-three, it is ordained by the said board as follows, that is to say:—

1. *Regulations of local courts and former bye-laws of mining boards repealed.*—Whereas it is expedient that the bye-laws enacted by the mining board of the mining district of Sandhurst should be revised and amended, the said bye-laws are hereby repealed, and the following bye-laws substituted in lieu thereof, excepting an enactment made by the said board for prescribing the mode in which the validity of disputed elections shall be decided; and excepting also the bye-laws or standing orders regulating the proceedings at meetings of the Sandhurst Mining Board, dated the twenty-first day of May, One thousand eight hundred and fifty-nine; and excepting also a frontage system bye-law, made and passed by the said board on the 25th day of July, One thousand eight hundred and sixty-two, and gazetted on the twenty-sixth day of August, One thousand eight hundred and sixty-two; and also a bye-law to regulate the drainage of sludge and water in the Heathcote division of the Sandhurst mining district, made and passed by the said board on the thirty-first day of July, One thousand eight hundred and sixty-two, and gazetted on the twenty-sixth day of August, One thousand eight hundred and sixty-two; and excepting also a bye-law to regulate the drainage of sludge in the Sandhurst division of the Sandhurst mining district, made and passed on the fifteenth day of November, One thousand eight hundred and sixty, and gazetted on the eighteenth day of January, One thousand eight hundred and sixty-one; together with an addition to the same, made and passed by the said board on the twenty-seventh day of September, One thousand eight hundred and sixty-one, and gazetted on the twenty-fifth day of October, One thousand eight hundred and sixty-one; also an amendment to the same, made and passed on the fifteenth day of September, One thousand eight hundred and sixty-two, and gazetted on the thirtieth day of September, One thousand eight hundred and sixty-two; and further also excepting those portions of such bye-laws, heretofore enacted by any local courts or mining board of the said district, as it may be necessary to retain for the purpose of deciding any dispute respecting the boundaries of claims occupied before this bye-law shall have come into force; and also further provided, that nothing herein contained shall in any manner affect any right, title, or interest existing at the time when this bye-law shall come into force.

2. *Construction of words and terms.*—For the purpose of this bye-law, and any other or others that may be subsequently made, the word "miner" shall also be construed to mean any holder of a miner's right; and the word "machine" to mean any engine, mill, or other apparatus (not being a trough or puddling table) used in mining or for the purpose of separating gold from any other substance; and throughout these bye-laws every word and term used in the singular number or masculine gender only shall be construed equally to imply and include the plural number, and females as well as males, unless there be something in the context repugnant to such construction; and the word "warden" shall mean one of Her Majesty's wardens in and for the colony, or in and for any district thereof; and "payable quartz" shall mean that which shall yield a return after the expense of procuring and crushing twenty tons, irrespective of sinking a shaft or putting in drives, or levels, or assessments for pumping; and the words "mining board registrar" and "registrar" shall mean any officer or officers to be appointed under the 24th Victoria No. 115 to carry out this bye-law.

3. *Rules and regulations for mining partnerships.*—In any mining partnership or company formed for the purpose of extracting gold from any claim held under miners' rights, where the rules and regulations of said company shall not otherwise provide, or where the said company shall not have any rules and regulations in writing, the rights and privileges of the several members shall be held and enjoyed subject to the following rules and regulations:—

The decision of any number of shareholders representing or holding three-fourths of the shares of the company shall (subject to any bye-law made or hereafter to be made by this Board) be final on all questions relating to the working of the mine, or the amount of money to be paid by each member into the funds of the company for the purpose of carrying on the works, or for the erection of machinery, or for draining purposes: Provided that each member shall be liable to pay a share of the expenses, and shall be entitled to receive a share of the profits of the company proportionate to the value of the share held by him.

When any call of money shall have been made by a majority, as aforesaid, of the members of any company, for any of the purposes aforesaid, every member shall forthwith pay unto the person appointed to receive the same his part or proportion thereof, and every call shall become due twenty-four hours after the same shall have been made.

When any member shall make default in payment of any such call for the space of fourteen days next after such call shall have become due, a meeting of the company shall be called in the same manner as the meetings of said company have heretofore usually been called; and notice of such meeting, in the form and to the effect hereinafter provided, shall be delivered to the defaulting member, or advertised three clear days in one or more newspapers circulating or published in the division in which the claim is situated, before the time of holding such meeting; and such notice shall be signed by the manager or other presiding member of the company. And when said meeting shall be held; if the said defaulting member shall not in the meantime have paid up all arrears due by him, and shall not be present, or being present shall not then pay up the amount due, a majority of the members then present having paid up all arrears may declare

the share or shares of the said defaulting member to be forfeited, and without any further notice to the defaulter; and the said share or shares, with all right, title, or interest to or in any capital, machinery, or other property of the company, shall be forfeited: Provided always that when any share or shares have been declared by the said shareholders forfeited, such share or shares shall be put up for sale by public auction, of which previous notice shall be given, on at least three succeeding days, in some newspaper published and circulating in the division, or if there be no such newspaper, then in two newspapers circulating in the district where the claim is situated, and shall at such sale be sold to the highest bidder; and the proceeds of such sale, after payment of the expenses thereof, shall, so far as they will extend, be appropriated in liquidation of the debt due to the company on such share or shares; and after payment of the expenses of such sale, and of the call or calls due on such share or shares, the surplus, if any, shall be delivered to the former owner of said share or shares, on his executing to the said company and the shareholders thereof a release of all claims in respect thereof.

The following is the notice referred to:—

To A. B. (the defaulter). 186
Sir,—You are requested to take notice that a meeting of the Company, of which you are a shareholder, will be held at _____, on the _____ day of _____, 186 _____, at which you are requested to attend.

You are indebted to the company, for calls now due over fourteen days, in the sum of £ _____ and unless that sum is paid at or before said meeting, your share (or shares) will be forfeited.

C. D.,
Manager.

GENERAL CLAUSES.

4. *Claims to be properly marked.*—All claims taken up or occupied under this bye-law shall be marked as follows, that is to say:—In alluvial ground, the claim shall be marked by substantial pegs standing at each corner of the claim, at least one foot above the surface of the ground; and all quartz claims shall be marked by substantial posts, at least three inches in thickness, and standing three feet above the surface, and in addition an angular trench, at least six inches in depth and three feet in length, to be cut at each corner of the claim; and all such posts and trenches shall be maintained free from any rubbish or soil, so as to be really observed.

5. *Work to be done on claim when marked off.*—All claims marked off under this bye-law shall be in full work within forty-eight hours from the time of marking, unless where the contrary is provided in any clause hereinafter following; and any claim not in full work with the number of men defined by this bye-law within such time shall be deemed to be abandoned.

6. *Preparatory work in claims.*—Any miner employed in making necessary preparation for the working of any claim, or employed in the erection of machinery in connection with the same, shall be deemed as working upon the claim.

7. *Walls.*—No wall shall be allowed between any two claims; but if a wall shall be necessary, it shall be lawful for the warden of the division to prescribe and from time to time to vary the extent and thickness of any wall which may be necessary, and also the same in equal proportions from the claims of the several parties who may be benefited by such wall being allowed. And no person shall mine into, remove, or damage any wall which shall have been left by agreement between the parties, or which may have been prescribed as aforesaid to be left, unless by permission of said warden.

8. *Air passages may be made.*—When air passages are required between one claim and another, it shall be lawful for the warden, on being appealed to by the owner of any claims so situated, to compel any adjoining claim owner to perform whatever amount of work he may deem equitable and requisite for the due ventilation of such claim or claims.

9. *Machines not to be placed on workable ground.*—No race, dam, dam-bank, machine, roadway, water-hole, or water, shall be made, placed, formed, or collected upon auriferous ground, nor in such a position as to prevent or hinder any miner from taking out auriferous earth, quartz, or other substance; and the owner of any such race, dam, dam-bank, machine, water-hole, or water, so situated, shall be compelled to move the same: Provided always that no such owner shall be compelled to remove the same until compensation for such removal shall have been paid or tendered to him by the miner or miners seeking to enforce such removal, and the amount of compensation to be determined by the warden.

10. *Forfeiture of claims.*—No claims shall be declared forfeited by any holder of a miner's right on the ground that such claim was not properly marked, or for any act or omission for which a penalty is provided; but any claim may be declared to be forfeited (in addition to any other causes of forfeiture or presumptive abandonment in this bye-law contained) on the ground that the same has not, in proportion to the time of occupation by him, been fairly worked by such owner, or that the claim has been left unworked for a longer period than ninety-six consecutive hours, or that less than the minimum number of men required by this bye-law have been employed thereon; but herein it shall be competent for such owner to bring forward as a reasonable plea in excuse, absence caused by the sickness of himself and family: Provided that no claim shall be liable to forfeiture during any period for which drainage assessment is being paid in a *bond fide* manner, although the owner thereof may neglect to work such claim in accordance with this bye-law.

11. *Claims not forfeited by neglect of hired workmen.*—No miner holding a claim or portion thereof, or share or interest therein, who employs hired labor to work the same, shall be

deemed to have forfeited or abandoned his right, title, or interest in the same through any neglect, absence, or omission on the part of any workman thereon employed by him: Provided always that if after seven days' notice in writing of such neglect, absence, or omission being given to such miner, either personally or by leaving the same at his last known place of residence, such neglect, absence, or omission is continued, such miner shall be deemed to have abandoned his claim, or portion of claim, or share or interest therein, as the case may be.

12. *Warning before blasting.*—Ten minutes previous to the discharge of any blast of gunpowder or other explosive substance within fifty (50) feet from the surface of the ground, due notice of such discharge shall be given by the persons who shall have prepared or caused such explosion, to all other persons working, residing, or passing within a distance of one hundred (100) yards from the place of such discharge.

13. *Pegs, posts, and all mining plant and easements protected.*—No person shall remove, injure, destroy, or deface any posts, pegs, logs, fence, notices, or any mining plant of whatsoever description, without permission from the owner of the claim on which they may be situated.

14. *Duplicates of forms, &c.*—For the purposes of this by-law, all printed forms, schedules, or other documents appertaining to them, shall be issued in duplicate, one copy of which shall be filed in the proper office, and the other retained by the person requiring them.

15. *Shafts shall be made safe for the public.*—Any miner who may sink a shaft or make an excavation upon his claim in search of auriferous quartz shall substantially fence in such shaft or excavation to the height of at least four (4) feet, and maintain the same during his occupancy of such claim. Any miner working in alluvial ground a claim within twenty (20) feet of any public road or ordinary crossing-place shall enclose any shaft or excavation which he shall make upon such claim by an embankment or other fence at least four (4) feet in height so as to afford thereby a reasonable security against accidents to passengers; and no miner shall when he abandons his claim destroy or remove any such fence or embankment, or portion thereof.

16. *Quartz workings.*—Any one or more miners shall be entitled to hold more than one claim on any line of reef, but such claim shall not exceed eighty (80) yards in length by a width at right angles to the supposed line of reef of one hundred and fifty (150) yards, and all the quartz or other auriferous rock lying within or beneath the boundaries of any such claim shall be the property of the owners or holders thereof: Provided the right to any such claim shall not be taken to include a right to any alluvial deposits that may exist within the boundaries of the same except as is hereinafter provided: Provided further that not less than two miners or workmen shall be kept regularly employed upon or at work in connection with each such claim.

17. *Prospecting.*—When any miner may be desirous of searching for any new lode or vein of quartz, or the continuation of any discovered vein, he shall be entitled to mark off and occupy a claim two hundred (200) yards in length on the supposed line of reef by a width at right angles to said line of one hundred and fifty (150) yards. Provided the end boundary of such claim be not within the distance of four hundred and forty (440) yards from the nearest end boundary of any claim occupied on the supposed line: Provided further that any claim taken up under this clause shall be worked in a *bond fide* manner during the ordinary hours of labor for a period of twelve months, or in default the extent of said claim beyond an ordinary claim shall be deemed to be abandoned: Provided also that the occupant of any such increased claim shall within seven days after the marking thereof report the particulars to the mining board surveyor of the division or subdivision wherein the said claim is situated: Provided also that within seven days after the discovery of any payable auriferous lode or vein of quartz, the owner or occupier of said claim shall give notice of such discovery to such mining board surveyor aforesaid, and any miner neglecting to give such notice within seven days of such discovery shall forfeit his right to such extended claim: And further, on the discovery of any new line of reef, or of the continuation of any known existing line of reef as aforesaid, the said occupant shall defray the expense of surveying the same with the view of laying down the definite bearing of the said reef, and any such claim shall be surveyed and registered as required by the other provisions of this by-law relating to the survey and registration of quartz claims.

18. *Temporary amalgamation of quartz claims.*—It shall be lawful for the owners of any number of adjoining claims on the same line or supposed line of reef, the length of which said claims taken together shall not exceed two hundred and forty (240) yards, to amalgamate such claims temporarily, for the purpose of mining in search of any lode or supposed lode, at their joint expense and under their joint management, until the discovery of a payable auriferous lode shall be effected; and under the aforesaid circumstances, and until such discovery, the *bond fide* working of any one of such amalgamated claims shall be deemed a legal working of the whole of them. And it shall be lawful for any owner of a claim to hold the same unworked if he shall pay in to the miners nearest (at the time of such arrangements), and mining in search upon the same line or supposed line, a weekly money contribution or an equivalent. But the owner of any claim or claims amalgamated or contributed for, and so held unworked, shall be bound to work the same in a *bond fide* manner within one month from the day upon which any payable auriferous lode shall have been struck, or said contribution ceased to be paid, or from the day on which such mining in search ceased to be carried on in a *bond fide* manner: Provided that the hereinbefore named contribution money shall be deemed to be only an advance, and the same, or a just proportion of the same, shall be returnable

should payable quartz be struck; and that the owner of the claim whereupon is the prospecting shaft shall make use of said shaft as a working shaft, but not otherwise. And the proprietors of any shaft upon such amalgamated claims, or the owners of any prospecting shaft receiving any such contribution, shall post up at such shaft, and at all times maintain, a ticket containing a list legibly written of the number of such claims amalgamated or paying in, the length of each claim respectively, and the names of the owners thereof. And the miners working at any such shaft shall in addition at all times give such information respecting any contributing claim as shall be required of them by any authorised miner; and the owner of the claim to which such contributions are paid, or in which the work is carried on, shall immediately after such amalgamation lodge with the registrar of the division wherein the said amalgamated claims are situated, a memorial in the form of schedule B hereunto annexed, and shall pay to the registrar therewith the sum of Two shillings and sixpence for every claim included in such amalgamation: Provided however, that it shall not be lawful for any claimholder to let his claim stand unworked under this clause, so as in any manner to interfere with any by-law enacted by the mining board for the drainage of wet reefs.

19. *Exemption of quartz claims.*—The owner of any quartz claim in which six months' *bond fide* work or upwards has been done, shall be entitled to be exempted from working the same for a period of six months from the date on which such *bond fide* work ceased; and the owner of any claim which has been in *bond fide* work for any period less than six months, and not less than one month, shall be entitled to similar exemption for a length of time equal to that during which his claim was in work: Provided that the said owner shall, within three days of the commencement of such period of exemption, lodge with the registrar of the division wherein the claim is situated an application in the form contained in schedule C hereunto annexed, and headed "Exemption Certificate," and the registrar shall thereupon issue to the aforesaid owner a duplicate of certificate; and further, it shall be lawful for any such owner as aforesaid, at the termination of the time named in his exemption certificate, to make application to the warden to have the time extended for a further period equal to that originally given in any such certificate, and the warden may, at his discretion, authorise the registrar to issue to aforesaid owner a certificate in the form of schedule K hereunto annexed, and headed "Extended Exemption Certificate," but previous to such authority being given, or to any such extended certificate being issued, the aforesaid owner shall serve or cause to be served on the owners of the two quartz claims on the same line nearest to his own a printed notice of application for extended exemption, according to the form contained in schedule L annexed; and should there be only one claim as aforesaid in occupation, or should the owners of any of the two nearest be absent and not to be found, then the service of the notice upon the owners of the next nearest claim on the same or any other line, or should there be only one quartz claim in occupation within one-quarter of a mile from the claim for which exemption is sought, service of the notice upon the owners of such claims as are occupied, and in default of a sufficient number upon the miners residing nearest to such claim as aforesaid, shall be sufficient; and the aforesaid owner shall, if required by any person on whom such notice is served, go and point out to him the exact boundaries of the claim for which exemption is sought; and every person upon whom such notice is served in accordance with this by-law shall insert in writing on the back thereof, and in the manner therein prescribed, the date on which it was served on him, and his approval or disapproval of such extended exemption being granted; and until the expiration of three clear days from the day on which the notice was served on the miners adjoining, during which period any miner whatever may enter his objection to the issue of the certificate, and until all and every such objection has been heard and overruled by any warden or warden and assessors, no extended exemption certificate shall be granted to such owner; and such owner shall also truly answer all such questions as are prescribed on the face of the certificate of exemption and sign the same; and whenever any miner has obtained any certificate as aforesaid, he shall, for the information of all other persons, securely fix and at all times maintain, somewhere within the boundaries of the claim for which exemption has been given, a piece of board, at all times visible, with the letter E if exemption only, and the letters EB if extended exemption, and the number and date of the certificate legibly painted thereon: Provided that any certificate as aforesaid shall not exempt the owner thereof from any liability to pay drainage assessment under any of the by-laws of this board: Provided also that if it shall come to the knowledge of the warden that an exemption certificate, or an extended exemption certificate, has been issued upon false representations, it shall be competent for such warden, in his discretion, to cancel any such certificate; and if upon notice to the holder that such certificate is cancelled he does not proceed to work the claim within four days, such warden may declare it to be forfeited. The fees to be paid to the registrar are, for exemption certificate (5s.) Five shillings, for extended exemption certificate Two shillings and sixpence.

20. *Claims may be declared forfeited.*—It shall be lawful for the warden, on application being made by any miner, to declare the right, title, and interest of any other minor to or in a quartz claim forfeited on the ground that the same has not been fairly worked during his term of occupancy, or that the same has been left unworked for a greater length of time than is permitted by the clause of this by-law, and in the event of the same being declared forfeited the warden shall then put the applicant in full possession of said forfeited claim: Provided that when a claim is declared forfeited it shall be lawful for the warden to have any road, shaft, drives, timber, mining plant or other materials absolutely beneficial to the applicant, valued, and that the amount of said valuation (if any), together with the costs of estimating such value, shall be paid within

forty-eight hours to the original owner, and such payment shall be a condition precedent to putting the applicant in possession of such claim.

21. *Claims may be abandoned.*—Any quartz claim unworked for six calendar months from the date on which *bond fide* work ceased in such claim; or from the date of expiration of period of exemption, shall be deemed abandoned, and the same may be taken possession of by any duly authorised miner without being called upon to pay any compensation, or to give any notice whatever to previous owner; and no such previous owner shall have any right or title to any claim on account of previous ownership, if such right be not claimed within six months from the date on which *bond fide* work ceased, or from the expiration as aforesaid of period of exemption.

22. *Amalgamated claims, or when manual labor is found to be inadequate.*—It shall be lawful for the owners of any number of adjacent quartz claims which cannot be worked by manual labor, and the length of which in the aggregate shall not exceed three hundred and twenty (320) yards, and that have been worked two hundred and twenty (220) feet below the surface, or to the original water level, to amalgamate their claims into one area, which shall be called a working area, so that such amalgamated claims may be worked from one main shaft and drives, and the working of any one of such amalgamated claims shall be considered equivalent to working the whole of said claims: Provided always that there shall be one miner employed to every eighty (80) lineal yards contained within such area as herein mentioned: Provided also that said miners are employed for the benefit of all the claims within the said area, such an amalgamation as aforesaid shall not in any way invalidate or interfere with any right, title, or interest of any claimholders or part claimholders that may have existed prior to its formation, unless by special agreement. But no working area shall be considered legally formed until a survey and plan have been made, showing the boundaries of all the claims proposed to be amalgamated within said area, and said plan shall have been signed by the warden of the division wherein said area is situated; but it shall not be lawful for the said warden to sign said plan unless it be accompanied by a request for him to do so, signed by the majority of the shareholders in each of the claims shown on said plan and proposed to be amalgamated. And further the warden may allow the owners of any claim to withdraw the same from any working area three months after they have given to the warden and to the manager of the area notice of their intention to do so; provided that the said claimholders have paid their share of all the expenses incurred, and of all the expenses they have agreed to incur by the execution of any work that has been done, or any work that they have consented to have done, for the benefit of the whole of the said area; but the withdrawal of any claim from any working area shall not deprive the owners of the claims, which have not been withdrawn, from the free use of any shafts or drives in the said withdrawn claims that may have been made at the joint expense of the claimholders within the said area.

The plans of all working areas shall be left in charge of the warden of the division, who shall certify the withdrawal of any claim by writing across the face of said claim as shown on said deposited plan.

23. *Claims to be registered.*—Every owner or part owner of a claim held by "miners' right" shall cause his or their interest in the same to be registered in a book to be kept for that purpose by the mining registrar; and no miner shall be deemed to be legally in possession of any claim or share in any claim until such claim or share as aforesaid has been so registered; and no transfer made of any claim, or share in any claim, by transfers, though in legal possession, shall be deemed a legal transfer, unless such transfer has been duly registered by the registrar of the division in which the claims sought to be transferred is situated; and when any claim, or share in any claim, has been transferred, and the transfer duly registered, the registrar shall certify the same by signing his name across the face of the transfer ticket, and affixing the day and date; and for the duties named in this clause the registrar shall receive the following fees:—

	s.	d.
Registering a claim	2	6
Ditto, share in do.	1	0
Ditto, transfer of do.	2	6
Ditto, share in claim	1	6

All claims to be numbered consecutively as they are registered, and the registrar shall issue to each applicant for registration a certificate in the form set forth in schedule I, and shall keep a duplicate copy of the same: Provided that this clause shall not apply to claims taken up prior to the passing of these by-laws until one month after they have become law.

SURVEY OF QUARTZ CLAIMS.

24. *For defining and fixing the boundaries of quartz claims.*—The owners of any quartz claims held prior to the passing of these by-laws, and the owners of any quartz claim taken up after the passing of these by-laws, shall, for the better identification of their respective claims, cause the same to be surveyed by the mining board surveyor, who shall make a plan of the same, showing the area and boundaries, and shall connect each claim with some fixed point; and the said surveyor shall issue to the owner whose claims he has surveyed a sketch or duplicate of the plans made; and the said owner shall pay to the aforesaid surveyor the sum of Ten shillings, together with travelling expenses, as is allowed in clause 27, in connection with other surveys. And each mining board surveyor shall make, and always maintain at the registrar's office, a plan of each line of reef within his division, or within such portion of a division as may be allotted to him, on a scale not less than twenty yards to the inch; and such plans shall be called office plans, and shall be kept in conspicuous places in the registrar's office, and shall at all times be accessible for inspection by the

public; and, in the event of no objection being raised by any miner, the said surveyor shall enter such survey in the office plan to which it respectively belongs fourteen (14) days after such survey has been made. And further, the said surveyor shall, at the time of making any such survey as aforesaid, afford every facility for adjoining claimholders to ascertain whether any encroachment is being made; and any miner deeming that an encroachment has been made may lodge an objection with the warden against the survey, and shall lodge a copy of such objection with the registrar of the division; but no such objection shall hold good unless made within fourteen (14) days after the survey has been made. And no survey objected to shall be entered on the office plan until all objections made have been heard and set aside by the warden; and the fact of any such claim surveyed as aforesaid being entered on any such office plan shall be deemed good and conclusive evidence that such claim, with such boundaries as are therein set forth, was at the time of survey legally in possession of the aforesaid owner, unless direct evidence can be brought showing that mistakes have occurred. And in the event of any such owner being desirous of having his boundaries altered, he may mark off his claim temporarily in such altered form as he may require, and shall within three days thereafter lodge with the registrar an application for a re-survey, signed by a majority of his partners, together with a further fee of Ten shillings, as aforesaid; and when such re-survey shall have been made, and the alterations entered on the office plan, as aforesaid, the boundaries shown in such survey shall be deemed the boundaries of such claim, whether all the partners have assented to such alteration being made or not.

ALLUVIAL.

25. *Extent of ordinary block claims.*—The extent of ground which miners shall be entitled to mark off and hold as claims shall be as follows, namely:—

	Feet.	Feet.	Sq. feet.
One miner shall be entitled to	85	× 35	or area of 1,225
Two	50	× 50	2,500
Three	60	× 60	3,600
Four	70	× 70	4,900
Five	80	× 80	6,400
Six	85	× 85	7,225
Seven	95	× 95	9,025
Eight	100	× 100	10,000

But whenever the extent of sinking shall exceed fifty feet, the extent of ground for—

	Feet.	Feet.	Sq. feet.
Two men, shall be	70	× 70	or an area of 4,900
Three	85	× 85	7,225
Four	100	× 100	10,000

26. *Form of claim on alluvial ground.*—As far as practicable all claims shall be marked off in a rectangular form, the length of the same in any case not to exceed twice the breadth.

27. *Prospecting claims.*—The extent of claims which miners prospecting on new alluvial ground, or in old workings for lost leads, may mark off and hold, shall be as follows:—

One miner 50 yards in length	Feet.	Feet.	Sq. feet.
Two	75	× 75	5,625
Four	100	× 100	10,000
Six	125	× 125	15,625
Eight	150	× 150	22,500

with a reserved width in all cases of two hundred (200) yards: Provided at the time of marking off any such claim the nearest boundary of the same be distant not less than two hundred and fifty (250) yards from any alluvial ground, either old or new, then held and being worked by any miner; and any miner or miners holding a prospecting claim shall, upon the discovery of gold, notify the same to the surveyor of the division wherein said claim is situated, within three days after such discovery has been made; and upon the discovery of payable gold and within six days of such discovery shall notify the same to the surveyor of the division wherein said claim is situated, by delivering to him or leaving at his office a notice in the form or to the effect set out in schedule D hereunto annexed, and shall therewith deposit with said surveyor the sum of One pound five shillings (£1 5s.) sterling, together with Two shillings for every mile of distance exceeding three between said claim and the nearest warden's office; and as soon thereafter as may be the said surveyor shall proceed to survey the prospecting claim, and shall reduce the width of the same as the owner may direct to one hundred (100) yards, the surface shall then be open for occupation in ordinary block claims by any other miners; and said surveyor shall make a complete survey thereof and deliver a description and tracing of the same to the owner, who shall within six (6) days thereafter lodge said plan in the office of the registrar of the division, together with a memorial on parchment, in the form or to the effect set out in schedule E hereunto annexed, and shall therewith pay to the said registrar the sum of Two pounds (£2): Provided that on neglect to comply with any of the above conditions being proved, the excess of ground beyond an ordinary claim shall be deemed to be abandoned, and any other miner may be put in possession thereof, subject to the other provisions of this bye-law as to the extent of claim to be held by such miner.

28. *Extended claims.*—Where in an alluvial claim the nature of the ground and the proposed mode of working is such that a very expensive race, or cutting, or work, or timbering, or machinery, is necessary, the owner thereof may mark out and occupy as a portion of his claim such additional area of adjacent unoccupied ground as the warden may deem an equivalent for the extra expense: Provided that such extended area shall not, in any case exceed ten thousand (10,000) square yards; and immediately after such extension the owner of said claim shall cause the same to be surveyed by the mining board surveyor of the division wherein the same may be situated, who shall connect said claim with some fixed point, and shall deliver to said owner a plan of said claim; and for such survey and plan

the surveyor shall be entitled to receive the sum of One pound five shillings, together with Two shillings per mile for every mile of distance over three miles from the warden's office nearest said claim; and the owners of said claim shall cause a memorial, in the form or to the effect set forth in schedule F, to be written on parchment, and, together with the plan aforesaid, delivered to the mining registrar of the division wherein said claim may be situated, within seven days after said survey, and shall forthwith pay to the said registrar the sum of Five shillings.

29. *Adjoining claims may be amalgamated.*—The owners of any number of adjoining claims may by writing, under their respective heads, amalgamate the same for the more economical working thereof; and immediately upon the execution of the said writing, the owners of the said amalgamated claim shall cause the same to be surveyed by the mining board surveyor of the division where the same may be situated, who shall connect said claim with some fixed point, and shall deliver to said owners a plan of said claim; and for such survey and plan the surveyor shall be entitled to receive the sum of Ten shillings for each claim up to and including five claims, beyond which the fee shall be such as may be agreed between the parties, together with Two shillings per mile for every mile of distance over three miles from the warden's office nearest said claim; and the owners of said claim shall cause a memorial in the form or to the effect set out in schedule A, to be written upon parchment, and, together with the plan aforesaid, delivered to the mining registrar of the division wherein said claim may be situated within seven days after such survey, and therewith pay to such registrar the sum of Five shillings; and from and after the delivery of the said memorial and plan as aforesaid, said claims so amalgamated may be held and worked as one claim: Provided that unless a number of men equal to one-half of the full number necessary to hold said claims severally shall be employed in connection with said amalgamated claim, such amalgamation shall be null and void.

30. *Co-operative claims.*—It shall be lawful for any number of owners of adjacent claims to combine together in the use of steam machinery for the working of previously worked alluvial ground, and to hold any quantity of such ground not exceeding twenty acres: Provided however that when the horse-power of the steam engine or engines used on such claim shall not amount to fifteen horse-power, such claim shall not exceed ten acres: Provided also that any such owner of adjacent claims, not employing at least five horse-power, shall not be entitled to hold more than five acres: And provided that in all such claims at least one man to every acre shall be constantly employed during the ordinary working hours: Provided that in all such cases claims shall be taken possession of only upon being first laid out, surveyed, and reported to the warden, by a mining board surveyor, and the expenses of such survey shall be defrayed by the applicant.

31. *Creek claims.*—Any miner desirous to work the bed of any creek shall be entitled to mark off and occupy not more than two hundred and forty (240) lineal feet on the said creek (except as otherwise provided in this bye-law regarding prospecting and other extended claims); and for each sixty (60) feet in length of said claim, there shall be at least one man kept constantly at work on or in connection with the working of said claim; and when any miner shall sink in search of gold on any creek at a distance of four hundred (400) yards from the nearest boundary of the nearest creek claim on the said creek, he shall be entitled to mark off and occupy a claim not exceeding in length four hundred and eighty (480) feet; and for each one hundred and twenty (120) lineal feet in length of said prospecting claim there shall be at least one man kept constantly at work at or in connection with the working of said claim. And when any miner shall sink in search of gold at a distance of one mile from the nearest boundary of the nearest creek claim in any creek, or shall sink in search of gold on any creek whereon no work has been or is being done, he shall be entitled to mark off and hold nine hundred and sixty (960) lineal feet on said creek; and for each two hundred and forty (240) feet in length of said claim there shall be at least one man kept constantly at work on or in connection with the working of said claim; and any such claim, until the boundaries of the creek have been determined, as hereinafter mentioned, shall extend for one hundred (100) yards on each side of the centre of the creek at every point; and within seven days of the marking out of any such claim, the owner shall give notice thereof in writing to the mining surveyor of the division wherein the same is situated, who shall forthwith proceed to survey the said claim; and after having surveyed the said claim, the said surveyor shall deliver a tracing and written description thereof to the owner, who shall lodge said tracing, together with a memorial in the form of schedule E, and the mining registrar of the division wherein said claim is situated. And the owner of said claim shall pay to the said surveyor, on applying to have said survey made, the sum of Twenty-five (25) shillings, and Two (2) shillings per mile for every mile of distance over three from the nearest warden's office to said claim, and shall with said memorial pay to said registrar the sum of Ten shillings if an ordinary claim, and Two pounds if a prospecting claim.

32. *Exempted alluvial claims.*—The owner of any alluvial claim held under this bye-law, and in which a shaft sixty feet in depth has been sunk, not being a puddler's claim, shall be exempted from working the same for a period of one month from the date at which *bona fide* work ceased: Provided that the owner of such claim shall post up a notice upon a substantial post upon a conspicuous part of said claim, stating that said claim is under exemption, and that he shall immediately acquaint the mining board registrar of the division of the cessation of work, and pay to him the sum of Two shillings and sixpence; and the said registrar shall keep a record of the same open to the public, and the said owner shall include in such notice the number and date of such record of exemption.

33. *Claim may be taken up over termination of drive.*—When any miner shall sink and drive in alluvial ground in search of gold, and discover any deposit or lead of gold, he shall, if the ground be unoccupied over the place where such deposit or lead is situated, be entitled to mark off his claim over or in advance of the termination of the drive; and should such discovery of gold be a discovery within the meaning of clause 26 of this bye-law, he may also occupy such additional quantity of ground as this bye-law may on that account authorise him to hold; and the miner exploring in such manner shall enjoy the use of the drive and shaft from which such exploration shall have been made, and such a thickness of wall around both shaft and drive as may be necessary for its preservation: Provided that if the said miner shall sink any new shaft within the boundaries of the claim taken up, he shall be deemed to have abandoned all claim to the shaft and drive first made: Provided further that in the event of any other miner occupying the ground in which the aforesaid shaft and drive are situated, and wishing to use or interfere with the same, may make application to the warden for permission to sink a new shaft for the discoverer, in lieu of the shaft and drive aforesaid, and the warden may at discretion grant such permission, and the completion of such new shaft to his satisfaction shall entitle the applicant to be put in possession of the shaft and drive first owned by the discoverer.

34. *Puddling and cement crushing.*—In all partially worked alluvial ground any one or more miners, where horse machinery is employed, shall be allowed to claim and occupy one acre of ground, exclusive of the site for his or their mill, &c., and where steam machinery is employed, three acres; and further, the owner or owners of any such claim, and being entitled to a greater area of ground than that which shall be contained in his or their said claim, and adjacent to his or their machine, may hold elsewhere additional ground in one block: Provided however that both blocks taken together shall not exceed the extent of claim to which miners are entitled under this clause; and the working of any portion of the full quantity of ground marked off by any such miner or miners shall be deemed a working of the whole, and all cement contained within the boundaries of such claims shall be the property of the holders thereof.

35. *Dams, machines, &c., authorised.*—Any miner about to form a dam, well, or water-hole, or to erect a puddling machine, shall first obtain the authority of a registrar: Provided that the said miner shall first personally serve on the owners of two machines or registered dams nearest to the site applied for, or upon the person in charge of such machines, a written notice of such application, in the form prescribed in schedule G annexed to this bye-law, provided such machines are not over half a mile distant from the site so applied for. And the applicant shall, if required by any person upon whom such notice is served, go to and point out to such person the exact site for which application has been made; and any person to whom such application is tendered, if tendered in accordance with this bye-law, shall insert in writing on the back of said notice, and in the manner therein prescribed, the date on which it was served upon him, and his approval or his disapproval of the grant of such authority as aforesaid to the applicant; and until the expiration of three clear days from the day on which the service of the notice was completed, and until such objection (if any) has been heard and overruled, such authority shall not be granted to the applicant to make, nor shall he make or commence to make, any dam, well, or water-hole, or erect any machine as aforesaid in that place.

36. *Sites of dams, &c., to be surveyed.*—No person shall obtain the grant of a site for a puddling mill, dam, or casements therewith connected, save upon the report and survey made to the registrar by a mining board surveyor and his (the said registrar) approval of the same, and upon payment to the said surveyor of a fee of Twenty-five shillings, with an additional charge of Two shillings per mile for each mile distant over three miles from the nearest warden's office, as travelling expenses to the surveyor; and the said surveyor shall see that a notice has been received by at least two owners of mills or registered dams, in accordance with clause 32, before making the survey, and shall give a copy of his report and plans of said site to the applicant, and also the said surveyor shall, on making such plan, connect the site of the proposed mill with some point so as to secure its identity.

37. *Claims, when exempted.*—When any miner is engaged in the erection of steam or horse machinery for puddling or crushing cement, it shall be competent for him to mark off the claim which he proposes to occupy in connection with such machinery, and said claim shall be deemed his claim to all intents and purposes, but he shall duly work it within two months after the so marking it off; and when any miner having any such claim shall have, notwithstanding proper precautions on his part, his supply of water exhausted, he shall not be liable to forfeit such claim, or any portion thereof, and such miner may hold the same unworked for a period not exceeding twelve weeks in twelve months: Provided, however, that he shall post up a notice on a conspicuous part of the claim, and also record the particulars of the same at the office of the registrar of the division, in accordance with schedule H annexed to this bye-law.

ROADS AND BRIDGES.

38. *Breadth of roadway.*—In all cases where such width may be necessary, a miner may occupy a breadth of eighteen feet of ground for any necessary roadway. But if a miner shall mark out a greater breadth of ground than shall be necessary for the purpose of a roadway, it shall be lawful for any authorised officer to order the said roadway to be reduced, and the same shall be reduced in conformity with the instructions of said officer.

39. *Changing a road.*—If any miner desires to change the direction of any private road, he shall, for a period of three days previous to such change, affix a notice of such his desire in a conspicuous place in such road, and shall also acquaint the

warden of such his desire, and thereupon, if the warden shall approve of such alteration, the same may be made by the miner.

40. *Warden to authorise the making of crossing-places.*—When any two or more miners are desirous of forming a road or bridge, or crossing-place over or across any gully, creek, reef, or claim, they shall be at liberty to do so, provided that the consent of a warden shall have been previously obtained, and the exact line of such road or crossing-place fixed by him: Provided, however, that no such road or crossing-place shall be authorised to be made over or through any mining claim unless compensation for damage or loss shall be immediately paid or tendered to the owner thereof; and provided further that such road, bridge, or crossing-place, shall be of a breadth, where practicable, of not less than fifteen feet, and be so constructed that no injury shall accrue to any drain, creek, or culvert passing under it.

41. *Protection of private roads.*—No person shall dig within the distance of five (5) feet from the nearest wheel track of any private road used for mining purposes, nor drive underneath the same unless the drive shall be more than ten (10) feet beneath the surface of the road, nor shall any person interfere in any way with any such road.

42. *Machines, &c., not to be too close to roads.*—No puddling or crushing machine of any description shall be placed within the distance of fifteen (15) feet from the edge of any road or crossing-place in use.

WATER, SLUDGE, ETC.

43. *Sludge and water to be kept off roads.*—No person shall allow any water or sludge flowing from his mill, dam, or machine, to run or spread over any road, footpath, or crossing-place in common use, unless the same shall be in an authorised drain.

44. *Dams, &c., to be properly made.*—When any person shall receive authority under this bye-law to make any water-hole or dam, he shall excavate the earth to the depth of twelve feet, unless the bed-rock lies nearer to the surface, in which latter case the said dam or water-hole shall be excavated to the rock; and he shall, when required to do the same by the warden, cast up embankments or cut such escape drains in connection with the said dam as may be directed by the warden of the district.

45. *Dams not to be made near reefs.*—No water-hole, race, or dam, shall be made by any miner within the distance of twenty (20) yards from the line of any quartz workings; and the removal, alteration, or drainage of any race, water-hole, or dam respectively, which is proved to discharge water into any under quartz workings, may be directed, such removal, alteration, or drainage, to be made on payment of such sum of money as the warden may deem equitable, to be paid by the person benefited to the owner of the said water-hole or dam; and any such removal or alteration of any such race or dam shall be effected in such manner as may be directed by the warden of the district.

46. *Water not to be taken from dams.*—No person shall, without the consent of the owner thereof, take away or make use of any water which may be in any duly authorised water-hole or dam, except for domestic purposes: Provided, however, that it shall be lawful for any person to take water from any dam or water-hole when such dam or water-hole shall have been (under the provisions of this bye-law) unused for the purposes intended for a period of three months.

47. *Forfeiture of puddling dams, &c., by neglect to use them.*—The owner or occupier of any dam, well, water-hole, or site of machine, neglecting or discontinuing the use of the same for the period of six months, except in the case of the want of water, shall thereby forfeit all right, title, and interest therein.

48. *Puddlers not to pump water from other miners.*—No puddler or person shall pump, take away, or damage any water which may be in any unregistered water-hole or excavation of any kind, if any other miner shall be at work at such water-hole or excavation and require the water for puddling purposes, unless such puddler or other person shall have previously obtained the consent of such miner, or the authority of an authorised officer.

49. *Machines, &c., obstructing certain creeks.*—It shall not be lawful for any person to hold or place any machine, dam, water-hole, bank, washing stuff, or building of any kind, so as to impede the passage of water or sludge in any channel or creek within the district in which mining operations are carried on, or within the distance of fifteen (15) feet from the edge of any channel or creek as aforesaid.

50. *Drains from machines, &c., to be made.*—The owner or occupier of any machine or claim which discharges sludge or water shall, if necessary, under the direction and subject to the approval of the superintendent of drains for the time being, make for the proper conveyance of such sludge or water to the main drain of the gully or flat in which such machine is situated, a good and sufficient drain; and every such private drain shall be excavated and made so nearly as possible to the same depth as that of the main drain into which it shall discharge and join; and when in any branch, gully there shall be no proper main drain, then such private drain shall, subject and under like direction, be made and united in the manner most convenient to the private drain of any other machines in the same gully, and the owner of such private drain shall at all times maintain the same in good order and free from obstruction.

51. *Making drains across roads, &c.*—Any person who may enjoy the use of any drain crossing any road or footpath, or who may be desirous to make any drain of any kind across any road or footpath, shall make or hold such drain only upon obtaining permission from the owner of said road or footpath, or from the warden of the division, and such drains and the bridges in connection therewith shall be constructed and kept in repair by the owner of such drains.

52. *Protection of sludge and water drains.*—No person shall in any way whatsoever interfere with any private or public sludge or water channel without the written authority of the owner or superintendent of sludge and water drains.

RESIDENCE.

53. *Residence under miner's right.*—Any holder of a miner's right may occupy for a residence, exclusive of his mining claim, the full extent of land allowed by the Act 21 Victoria No. 32, namely, twenty (20) square perches, or six hundred and five (605) superficial square yards; and the said area for residence shall be marked off, where practicable, in a rectangular form, of which the length shall not exceed twice the breadth: Provided that in the event of such holder of a miner's right having marked off such quantity of land for the purpose of residence not residing upon such land, he shall be deemed to have abandoned the same; and said miner shall mark off such residence claim by substantial posts placed and maintained three feet above the ground.

54. *Land held under business license.*—The holder of any business license shall be entitled to occupy and fence in for the purpose of residence and business the full extent of land allotted by the Act 21 Victoria No. 32, namely, twenty (20) square perches, or six hundred and five (605) superficial yards, and such area shall be taken, where practicable, in a rectangular form, the length of which shall not exceed twice the breadth: Provided, however, that when the premises of any holder of a business license shall abut upon any main road, or stand in a line with other stores or shops, he shall not be entitled to hold a greater frontage than twelve (12) yards, but a space of ground ten (10) feet in width shall, in all cases where practicable, be allowed in addition to the frontage before mentioned (even although one or more such frontages shall be held by the same person), said space of additional frontage to be left and maintained clear of all buildings and other obstructions for the purpose of carts as rights-of-way, and no person whatever shall leave or place any obstruction in said rights-of-way.

55. *Residences not to be crowded.*—No miner or holder of a business license shall erect a dwelling-house or stable, or stack any hay, washing stuff, stone, tailings, or any other thing within forty feet of any residence erected on land alienated from the Crown, or on land held for residence, or mining under miner's right, or as a residence under a business license.

EXAMINATIONS IN 1863 FOR THE CIVIL SERVICE OF INDIA.

THE Governor has directed the subjoined Circular Despatch and Regulations to be published.

By His Excellency's Command,
JOHN O'SHANASSY.

Chief Secretary's Office,
 Melbourne, 15th January, 1863. 411.

Sir,—I have the honor to transmit to you, at the request of the Civil Service Commissioners, the enclosed Regulations for an Examination of Candidates for the Civil Service of India, to be held in London in the month of June or July, 1863.

I have, &c.,
 (Signed) **NEWCASTLE.**
 Governor Sir H. Barkly,
 &c., &c., &c.

REGULATIONS.

1. In June or July, 1863, an examination of candidates will be held in London. Not less than candidates will be selected, if so many shall be found duly qualified. Of these, will be selected for the Presidency of Bengal, for that of Madras, and for that of Bombay.*—Notice will hereafter be given of the days and place of examination.

2. Any natural-born subject of Her Majesty, who shall be desirous of entering the Civil Service of India, will be entitled to be examined at such examination, provided he shall, on or before the 1st May, 1863, have transmitted to the Civil Service Commissioners, Dean's Yard, London, S.W.—

- A certificate of his birth, showing that his age on the 1st May, 1863, will be above eighteen years and under twenty-two years;
- A certificate, signed by a physician or surgeon, of his having no disease, constitutional affection, or bodily infirmity, unfitting him for the Civil Service of India;
- Satisfactory proof of good moral character;
- A statement of those of the branches of knowledge hereinafter enumerated in which he desires to be examined.

3. In any case in which a doubt may arise as to the eligibility of a candidate in respect of age, health, or character, such enquiries as may be necessary will be instituted by the Civil Service Commissioners.

4. The examination will take place only in the following branches of knowledge:—

	Marks.
English Language and Literature—	
Composition	500
English Literature and History, including that of the Laws and Constitution	1,000
	1,500
Language, Literature, and History of Greece	750
" " " " " Rome	750
" " " " " France	375
" " " " " Germany	375
" " " " " Italy	375
	1,250

Arabic Language and Literature	500
	7,375

5. The merit of the persons-examined will be estimated by marks, and the number set opposite to each branch in the pre-

* The number of appointments to be made, and the number in each Presidency, will be announced hereafter.

† It should be understood that candidates are at liberty to name at their pleasure any or all of these branches of knowledge (subject only to the restriction above mentioned as to Natural Science), and that no subjects are obligatory.

No. S.—JANUARY 20, 1863.—1.

ceding regulation denotes the greatest number of marks that can be obtained in respect of it.

6. No candidate will be allowed any marks in respect of any subject of examination unless he shall be considered to possess a competent knowledge of that subject.

7. The examination will be conducted by means of printed questions and written answers, and by *vidæ voce* examination, as may be deemed necessary.

8. The marks obtained by each candidate, in respect of each of the subjects in which he shall have been examined, will be added up, and the names of the candidates who shall have obtained a greater aggregate number of marks than any of the remaining candidates will be set forth in order of merit, and such candidates shall be deemed to be selected candidates for the Civil Service of India. They shall be permitted to choose, according to the order in which they stand, as long as a choice remains, the Presidency to which they shall be appointed.

9. In June or July, 1864, a further examination of the selected candidates will take place in the following subjects:—

	Marks.
1. { Sanskrit	500
Vernacular Languages of India (each)	350
** Each candidate may name one or two languages. If he name one only, he must name either Sanskrit or a vernacular language current in the Presidency which he has selected.	
2. The History and Geography of India	500
3. The General Principles of Jurisprudence and the Elements of Hindu and Mohammedan Law	1,000
4. Political Economy	500

In this, as in the preceding examination, the merit of the candidates examined will be estimated by marks, and the number set opposite to each subject denotes the greatest number of marks that can be obtained in respect of it. The examination will be conducted by means of printed questions and written answers, and by *vidæ voce* examination, as may be deemed necessary.

10. No candidate will be permitted to proceed to India until he shall have passed the further examination, or after he shall have attained the age of twenty-four years.

11. The selected candidates who at the further examination shall be found to have a competent knowledge of the subjects specified in regulation 9 shall be adjudged to have passed, and to be entitled to be appointed to the Civil Service of India.

12. The seniority in the Civil Service of India of the selected candidates shall be determined according to the order in which they stand on the list resulting from the further examination.

13. No person will, even after passing the further examination, be allowed to proceed to India unless he shall comply with the regulations in force, at the time, for the Civil Service of India, and shall be of sound bodily health and good moral character.—The Civil Service Commissioners will require such further evidence on these points as they may deem necessary before granting their certificate or qualification.

14. Applications from persons desirous to be admitted as candidates are to be addressed to the Secretary to the Civil Service Commissioners, Dean's Yard, London, S.W.

NOTE.—(1.) All persons appointed to the Civil Service will be required to attend at the India Office, to make the necessary arrangements for entering into covenant, and for giving a bond for £1000 jointly with two sureties, for the due fulfilment of the same. The stamps payable by civilians on their appointment amount to £3 10s.

(2.) The Secretary for State for India in Council has authorised the Civil Service Commissioners to state that, with the view of meeting the expenses to be incurred by selected candidates during the interval which must elapse before they can proceed to India, it is his intention to allow the sum of £100 to each selected candidate who shall have passed the further examination in 1864 to the satisfaction of the Commissioners, and shall have complied with such rules as may be laid down for the guidance of selected candidates.

(3.) Candidates are at liberty to send in their names and evidence of age as soon as they think fit to do so; but evidence of health and character must bear date not earlier than the 1st March, 1863.

(4.) Candidates rejected at the further examination of 1864 will in no case be allowed to present themselves for re-examination in 1865.

Printed forms of tender may be obtained from the Government Storekeeper, Melbourne, or from the officer in charge of police at each station, by whom also any information or explanation will be afforded to persons tendering.
 The tenders for each station will be accepted or rejected separately.
 Tenders may be for either of the supplies required, oats, bran, hay, or straw only, and if all be included in one tender, it will be accepted for one article only if advisable.
 As much forage as the storage will accommodate will be drawn at a time for the convenience of contractors.

The price must be per ton for hay and straw, and per bushel for oats and bran, including delivery at the stations and all charges; bags to be returned when empty.

The net weight only after deducting the tare is to be charged.

No tender will be entertained unless accompanied by a certificate from two responsible persons that they are willing to become bound as sureties for the due fulfilment of the contract in one-third the estimated cost of the entire supply at the station tendered for; and in the event of the tender being accepted, the bond must be executed within twenty days, failing which the contract may be again advertised or another tender accepted.

The names and addresses of the tenderers and of their proposed sureties must be stated at full length.

All tenders must be enclosed in a separate envelope, marked, "Tender for _____" (as the case may be), and deposited in the box at the Government Stores, King street, or if sent by post they must be addressed to the Government Storekeeper, Melbourne. The Government will not necessarily accept the lowest or any tender.

The decision of the Government will be made known by *Gazette* notice and by letter to accepted tenderers.

CONDITIONS.

1. The hay to be eaten, good, sound, and sweet; the straw to be wheaten, and both to be in all respects of the best quality; oats (colonial grown) and bran to be sound and sweet and of the best description.

2. The supplies to be delivered on the requisition of the officer in charge of the district or station, the quantities stated in schedule being, however, only approximative, and it must be understood that the Government will draw either more or less than stated. The excess over the estimate will not, however, exceed during the whole year 50 per cent. of the estimated quarterly consumption.

3. The contracts entered into under this notice are not to be considered as being infringed or vitiated by any contracts made by the military commissariat.

4. The forage, when delivered, must be accompanied by an invoice of quantity showing the gross weight the tare, and the net weight (this should be on the back of the requisition or order), which, when signed by the officer in charge of the station for the net quantity received, will be returned to the contractor, and by him rendered in support of his account.

5. Each contractor will be required to prepare his own account in the prescribed form, and on presentation thereof to the officer in charge of the station or district, it will be forwarded for payment at the Treasury, Melbourne, or the Pay Office of the District, as may be indicated by the contractor on the account.

6. Should forage duly ordered under these contracts not be delivered within forty-eight hours from a reasonable time to be fixed on the order, it will be competent for the department (should circumstances require it) to purchase the same at the risk of the contractor, from whose account any expense over and above the contract price is to be deducted.

7. In the event of a difference of opinion between the contractor and the officer receiving the forage as to quality of the same, it is to be decided by a board of survey composed of persons named by the head of a department, and the decision of the board is to be considered final.

8. If the board shall decide that the forage is not of proper quality, it must be immediately replaced by the contractor, failing which, it will be procured elsewhere, and the extra cost, if any, will be charged as in clause 6.

9. When a board of survey cannot be conveniently assembled, or when from some other cause injury would accrue either to the public service or the contractor, by waiting for a board of survey, the officer in charge will have the power to reject such supplies as are obviously of inferior quality, it being understood that he will be responsible to the Government for so doing; and the contractor must take back the rejected forage and supply good in its stead, failing which it will be obtained by the officer requiring it, and the expense will be charged as in clause 6.

10. A repetition of irregularity in the quantity or quality of the forage, or of delay in delivering or replacing it when required, will subject the contractor, upon report from the Government Storekeeper, to such mulct, not exceeding one-fourth of the monthly account, as the Government may direct. It will also be in the power of the Government, upon such repetition, to terminate the contract forthwith.

11. It will be competent for the Government Storekeeper on behalf of the Government, or for the contractor on his own behalf, to terminate the contract by giving in writing a notice of three full calendar months to that effect, it being understood that such notice only can be given from the first day of a month, and provided that no such notice can be given before the 30th June, 1863.
