## ARARAT MINING DISTRICT.

BYE-LAW (No. 4) REGULATING ALLUVIAL MINING IN THE PLEASANT CREEK AND BARRELY DIVISIONS OF THE ARARAT MINING DISTRICT.—[25th October, 1894.]

At a meeting of the Mining Board of the mining district of Ararat, begun and holden at the Mining Board Room, Ararat, in the said district, on the twenty-fifth day of October, One thousand eight hundred and sixty-four, it is ordained by the said board as follows, that is to say:—

1. *Interpretation of words and terms.*—In the interpretation of, and for the purposes of the provisions of this bye-law, the following words and terms, if not inconsistent with the context, shall have the respective meanings hereby assigned to them, that is to say:—The term "lead" shall mean the alluvial deposit or wash-dirt containing gold, running in a continuous course or occurring successively in patches; the word "miner," "person," "claimholder," "shareholder," "party" shall be construed to imply any mining party or copartnership for mining purposes; and all words and terms used in the singular number shall include the plural number.

## PROSPECTING.

2. *Interpretation clause.*—The term "prospector" shall mean any person or persons engaged in searching for or discovering any new or lost lead or deposit of gold.

3. *Marking out claims.*—Claims must be marked out by a conspicuous peg at each end (the upper and the lower), on the supposed course of the lead, and may be of any width not exceeding four hundred (400) yards, until the course of the lead be determined, when the width must be reduced in accordance with clause 4, and a peg projecting not less than three (3) feet above the surface must be placed at each corner of the claim, and in such manner that the boundary lines which meet at each peg shall form right angles with each other; such pegs shall be kept visible during the working of the claim.

4. Prospectors shall be entitled to an extent of claim as specified in the following table:—

<i>For discovering a new lead.</i>	
Not exceeding Two (2) miles and not less than Two hundred and fifty (250) yards distant from any gold workings the extent of claim shall be—	Exceeding Two (2) miles— Three hundred (300) feet by Three hundred (300) feet.
Two hundred (200) feet by Two hundred (200) feet.	

*For discovering a lost lead.*  
Two hundred (200) feet by Two hundred (200) feet.

5. *Sinking ahead on any lead.*—Any party commencing to sink not less than two hundred and fifty (250) yards distant from the nearest boundary line of any claim bottomed and at work on any lead, shall be entitled to an extended claim of one hundred and twenty (120) feet by one hundred and twenty (120) feet; such extended claims shall not be less than two hundred and fifty (250) yards apart.

6. *Prospecting claims to be registered.*—Prospectors on discovering payable gold shall, without delay, report the same to the warden, and register their claim with the registrar. Application for registration shall be made in the form set forth in schedule B annexed to this bye-law; and the registrar shall on receipt thereof immediately post a copy of the same in front of his office. Prospectors not complying with the provisions of this clause, shall only be entitled to an ordinary claim.

## GENERAL CONDITIONS.

7. *Extent of ordinary claim:—*

Dry Sinking.	Wet Sinking.	Old Workings.
No party to exceed four (4) men—thirty (30) feet by sixty (60) feet for each man.	No party to exceed eight (8) men—thirty (30) feet by sixty (60) feet for each man.	One hundred (100) feet by one hundred (100) feet for each man, number of party unlimited.

8. *Wall or neutral ground.*—A wall not less than two (2) feet nor more than three (3) feet in width of neutral ground shall be left between adjoining claims by the party last marking out, which neutral ground may be worked by either of the adjoining claimholders, provided they securely timber the same.

9. *Spare ground and oversized claims.*—Any miner may measure the surface area of any claim, and should there be too much ground therein, may take possession of the excess on whichever side of such claim he may prefer, provided the superficial area does not exceed the quantity allowed for one man.

10. *Marking off and shepherding claims.*—On the day on which any claim shall be taken possession of, not less than one-half of the shareholders must remain thereon for two consecutive hours between Nine a.m. and Noon, and on every succeeding day each shareholder in such claim must be present thereon during the time above mentioned until work is commenced, and continued in a *bona fide* manner. No share or interest in any claim being shepherded shall under any circumstances become liable to forfeiture unless through absence from such claim during the hours specified above. But no person holding a share or interest in a claim under this clause, can hold any other share or interest at the same time, unless such share or interest be represented by a miner other than himself, and in all respects in accordance with the provisions of this bye-law.

11. *Presence of partners.*—It shall not be necessary for all the members of a partnership to be present at the marking out of claims.

12. *Plurality of shares.*—Any holder of a miner's right may hold one or more shares in any number of claims, provided each and every share be fully represented by a miner holding a miner's right, unless where specially provided for by this bye-law.

13. *Disputed shares or claims.*—Any miner intending to take possession of a disputed claim, share, or interest in a claim, must mark out or otherwise claim the same, and then obtain the authority of the warden before taken further possession.

14. *Absence from claim.*—Any shareholder in a claim absenting himself from his work forty-eight (48) hours, his share or interest is liable to forfeiture, unless he provide a competent miner as his representative; and in all cases of absence of such shareholder his partner or partners can, if he or they think proper, have his place supplied by a competent miner, and such shareholder shall be responsible for any reasonable wages due to the person employed.

15. *Justifiable absence.*—Any miner whose absence from his claim is caused by illness or attendance on a sick person or court of justice, or by urgent business, shall not forfeit his share or interest during such absence, but a majority of the other shareholders may have his place supplied by a competent miner, and he shall be responsible for any reasonable wages to the miner so employed.

16. *Stabbed shafts.*—Any person removing slabs from, or taking possession of, a stabbed shaft, abandoned for a less period than twenty-one days, shall pay the owner or owners of such slabs for the value of the same. Slabs left more than twenty-one days in an abandoned shaft shall be deemed forfeited.

17. *Removal of slabs.*—When slabs are removed from a shaft it must (if necessary) be immediately filled up above the level of the water-drift by the person removing them.

18. *Horse-whims.*—Any party erecting or employing a horse-whim on any claim shall be entitled to additional ground equal to that allowed for two men for every horse so employed.

19. *Amalgamation.*—The holders of adjoining claims may amalgamate by posting, on some conspicuous place near the centre of such claims, a notice in writing containing the number of claims amalgamated and the name of each shareholder.

20. *Tunnels and tramways.*—Any miner cutting a race or tunnel, or laying down a tramway for the greater convenience of working his claim, may hold possession thereof together with his claim; provided the same shall not impede the works of any other miner, or obstruct roads in ordinary use.

21. *Timbering claims.*—Any miner neglecting to securely timber his claim, or any wall removed by him, shall be liable to adjoining claimholders for any injury that may be sustained thereby.

22. *Injury to claims.*—Any person cutting a drain into a shaft, causing injury to adjoining claims, or removing earth from around a shaft, without making a sufficient embankment to prevent people or cattle from falling therein, shall be liable to the penalty specified in clause 31.

23. *Deceased partners.*—The surviving partners of any deceased miner may hold and work his interest for the benefit of his representatives until required by them.

24. *Protection to stacked cement, tailings, &c.*—Any miner or miners wishing to retain possession of cement, tailings, or other substances, for the purpose of extracting gold therefrom, may do so by having a notice posted thereon containing the names and addresses of the owners.

25. *Sites proving auriferous.*—When the site occupied by cement, tailings, dams, tramway, or race, shall prove auriferous, the same may be mined upon, and the parties benefited shall, before commencing work thereon, compensate the owners for any injury sustained.

26. *Agreements among shareholders.*—Whatever mutual agreements and engagements may be entered into by the shareholders of any claim for the proper working thereof shall be binding upon any one taking possession of a forfeited or abandoned share or interest in such claim.

27. *Erasing notices or removing pegs.*—Any person who shall wilfully efface, alter, remove, or destroy any notice posted on a claim, or the pegs thereof, shall be liable to the penalties specified in clause 31.

28. *Claims may be held unworked.*—Claims may be held unworked while the owners are engaged erecting machinery, constructing a water-race, tunnel, tramway, or dam, or other work in connection therewith; or if by the surface flooding of claims the working thereof shall be impeded, or if the supply of water be insufficient to carry on the work of said claims, the owners of such claims may, by posting a notice to that effect, containing the names of all shareholders, in some conspicuous place on their claims, hold the same and work other claims until the flooding shall have ceased, or sufficient water shall be obtained for working the claims so held; provided that within four days after the flooding shall have ceased, or sufficient water has been obtained, work must be resumed on claims so held, or they will be liable to forfeiture.

29. *Protection to claimholders employed but not on claim.*—Claimholders employed in procuring timber, or at any work necessary in any way for forwarding work connected with their claim, shall be held in lawful possession of such claim.

30. *Holidays.*—Miners may be absent from their claims on all the following days, viz.:—Good Friday to Easter Tuesday, both inclusive; 24th December to 2nd January, both inclusive; any day on which the election of a member of the legislature or mining board of this district may take place, the day before and the day after such election; and any day proclaimed a holiday by the warden.

31. *Penalty for breach of bye-law.*—In accordance with the provisions of the Gold Fields Act, any person who shall infringe any bye-law of this mining board, shall be liable for every such offence to be fined in any sum not exceeding Ten pounds.

## WET SINKING.

32. *Interpretation clause.*—The term "wet sinking" shall mean where water occurs below the surface drift or gravel in sufficient quantities to render slabbing and baling necessary.

33. *Commencement of work.*—Claimholders within three claims of the last claim bottomed and at work in which water has been struck, shall without delay commence to sink their shaft, and must continue to do so during the usual working hours of every day until the "well" shall be completed or the claim abandoned, unless the water shall prove too heavy and work shall be suspended with the consent of the adjoining claimholders. Non-compliance with this clause shall render the claim liable to forfeiture.

34. *Shepherding.*—Any party beyond the three claims above mentioned may hold their claims unworked by fulfilling the conditions specified in clause 10.

35. *Water-baling.*—The owners of any claim neglecting or refusing to bale their fair proportion of water during the day or night, if necessary, shall render their claim liable to forfeiture.

36. *Injury to claims by not baling.*—Claimholders within three claims of any claim in which water has been struck neglecting, or refusing when requested by the holders of adjoining claims, to bale their fair proportion of water, shall be liable for any injury done thereby to adjoining claimholders.

37. *Claims may be amalgamated.*—Parties desirous of amalgamating their claims for the purpose of working them by means of machinery, must post a notice in some conspicuous place about the centre of such claims about to amalgamate, stating the number and position of the claims and the names of all the shareholders.

## WATER PRIVILEGES.

38. *Notice for water privilege.*—Any person or persons desirous of obtaining the exclusive right to a water privilege, shall post a notice in some conspicuous place on the site, in the following form:—I (or we) hereby give notice of my (or our) intention to take possession of (here specify the site) as a water privilege for mining purposes, in accordance with the bye-laws of the division relating thereto (name or names in full of the parties). A copy of the above, legibly written, must be kept posted on the site to be taken possession of seven days, and a copy lodged with the registrar of the division; and if no valid objections be made to the registrar in writing within the seven days the site may be taken possession of.

39. *Extent of dams.*—The extent of dam where machinery is used shall not exceed one hundred (100) yards square above the main embankment; where machinery is not employed the extent shall not exceed sixty (60) yards square.

40. *Sludge.*—Where machinery, either horse or steam, is employed, the owner or owners thereof shall construct a second embankment for the purpose of retaining the sludge, not more than one hundred (100) yards below the main embankment, except it can be more conveniently carried off by drainage, without injuring other persons by running into old workings or roads in ordinary use.

41. *Injury to property by dams.*—In case of any dam breaking away and injuring the property of others, the owner or owners of such dam shall be liable for any injury sustained thereby, unless it can be proved that such breaking away did not result from the faulty construction of the dam.

42. *Drains.*—When sludge or water drains run across any road in general use, a substantial bridge not less than fourteen (14) feet in width, the culvert of which must be of sufficient size to carry off the said sludge or water, must be constructed and kept in repair by the owner or owners of the claim or claims from which such sludge or water proceeds.

43. *Penalty for defiling or carting away water.*—Any person driving cattle into, or in any way defiling or carting away the water from any dam, without the consent of the owner or owners thereof, shall be liable to the penalties specified in clause 31.

44. *Forfeiture of dams.*—Any dam not commenced within seven (7) days from the date of taking possession of the site thereof, or not completed within two (2) months, shall be deemed forfeited.

45. *Water-holes reserved.*—Water-holes, reservoirs, or springs may be reserved by the warden for domestic purposes, but no monopoly of any spring or natural water-hole shall be allowed.

## WATER-RIGHTS AND PRIVILEGES FOR SLICING PURPOSES.

46. *Extent of hill and surfacing claims for slicing purposes.*—The extent of hill and surfacing claims in worked or partially worked ground, or in unworked ground, where opened and prospected by a slicing party, shall be:—

Forty (40) yards frontage.

One hundred and sixty (160) yards in length.

Three (3) men at least to be employed at each claim.

47. *Extent of claims in gullies.*—The extent of claims in gullies in worked or partially worked ground, or in unworked ground, where opened and prospected by a slicing party, shall be:—

Thirty (30) yards wide.

Two hundred and sixty (260) yards in length.

Three (3) men at least to be employed at each claim.

48. *Size of extended claims.*—Claimholders having to cut an extensive tail-race, or using expensive machinery, shall be entitled to an extended claim not exceeding four ordinary claims.

49. *Claims to be marked by pegs.*—A conspicuous peg, two (2) feet at least above the surface, shall be kept exposed at each corner of the claim.

50. *Registration of claims.*—A written notice must be given to the registrar of all claims, ordinary and extended, at whose office a registration of such claims shall be kept.

51. *Protection to claims during work.*—Claimholders employed procuring timber, or any work necessary in any way for forwarding work connected with the claim, shall be held in lawful occupation of such claim; where employed in cutting a race, they shall have protection for one claim only.

52. *Protection to claims during drought.*—During failure of the requisite supply of water, claimholders shall be entitled to suspension of work in accordance with the necessity of the case.

53. *Forfeiture of claim.*—Claims unoccupied or abandoned for seventy-two (72) hours shall be deemed forfeited, except in cases of sickness, attendance at courts of justice, public holidays, urgent business, or unless specially provided for in this bye-law; where partially unoccupied, that portion of the claim unrepresented only to be held forfeited. The original holders of the claim shall determine what portion of the claim shall be forfeited.

54. *Responsible parties.*—The person or persons in whose name a claim is registered shall be held responsible for the fulfilment of all conditions under which such claim is held, and for all and any damage resulting to other parties by the working of such claim.

55. *Notice of intention to take up a water-right.*—A written notice of intention to take up a water-right, or to shift the head of a race, shall be left with the registrar, who shall keep a copy posted and kept exposed for fourteen (14) clear days at his office before such right can be taken possession of. Any person intending to object shall leave a written notice, stating reasons for such objections, with the registrar, who shall keep a copy posted and exposed at his office seven (7) clear days before the same can be taken possession of.

56. *Gauge.*—Each water-right shall entitle the holder or holders thereof to a column of water three and a quarter (3¼) inches by twelve (12) inches, running without intermission, gauged in the following manner, that is to say:—A box six (6) feet in length and twelve (12) inches in width, with a scale of a quarter (¼) of an inch marked on the inner side at the lower end, shall be placed at the head of the race, with a fall or inclination of one (1) foot in the entire length of it, and the gauge of water as above specified (3¼ inches by 12 inches) shall be taken at the mouth of the box where the water is discharged.

57. *Priority of rights.*—In case of failure of water the junior water-right shall give way to the next preceding senior right, and so on in rotation as the supply diminishes; and six (6) clear working days after notice from the registrar such junior right-holder shall turn sufficient water down the creek from the head of his race to make up the deficiency in the gauge of the preceding right, and without further notice shall continue or increase the quantity of water so diverted, as the case may require, to keep up the gauge.

58. *Protection to races during drought.*—The race and the right to the water shall not be held forfeited by the proprietors working in other claims when the supply of water is insufficient.

59. *Protection to tail-races.*—No person taking up a claim shall approach either by sinking or driving within six (6) feet of any tail-race.

60. *Distance between races.*—Any person cutting a race so close to an existing race as thereby to cause drainage, or to the properly surveyed line of an intended race in actual and *bond fide* course of formation, thereby causing drainage or any other damage, shall be responsible to the proprietors for such damage.

61. *Damage to races.*—No person shall cut or damage any race, tail-race, dam, or reservoir constructed for sluicing purposes, or obstruct the flow of water in them, or sink or approach within six (6) feet of them without first securing them to the satisfaction of the proprietors.

62. *Keeping races in repair and making bridges.*—Proprietors of races must keep them in good repair, and make efficient bridges, where necessary, fourteen (14) feet at least in width, in places where the race crosses roads in ordinary use.

63. *Abandoned races.*—Races abandoned for two (2) months during sufficient supply of water shall be held forfeited, except in cases of justifiable absence.

64. *Heads of races may be shifted.*—All races shall have a given point specified for their head; the head, however, may be shifted, provided such shift be not above or below the head of an existing right, or to its injury or prejudice.

65. *Construction of dams, &c.*—Dams or reservoirs may be constructed for sluicing purposes where not injurious to general mining interests. #### CONDITIONS.

1. Every article to be of the very best quality and most serviceable description, and subject to approval; and should articles of any particular manufacture be ordered, the same are to be furnished at the rates set forth in the contract.

2. All orders for supplies under these contracts must issue from the Secretary of Railways, and all goods must be delivered free of charge to the Railway Stores, Williamstown, unless otherwise directed by the Secretary.

3. The contracts entered into under this notice are not to be considered as being infringed or vitiated by the importation of stores for the Government service of the Victorian Railways, or by the purchase of articles manufactured in the penal establishments.

4. The Government will not be bound to issue orders upon the contractors for the total quantities specified in the schedules, but only for such quantities as may from time to time be required.

5. Delivery, as a rule, is to be of the full quantity ordered at one time; but all deliveries must be accompanied with detailed invoices or bills of parcels in duplicate, showing quantity, rate, and value, also the number of the order for the goods, otherwise the goods will not be received.

6. In the event of supplies ordered under these contracts not being delivered within forty-eight hours, it will be competent for the Government Storekeeper, on the order of the Secretary, to purchase the same, or such articles as may be suitable for the service, at the risk of the contractor, from whose account any expense over and above the contract price will be deducted.

7. Each contractor will be required to prepare his own account monthly, in the prescribed form, and render the same to the Railway Storekeeper for certification, previously to payment at the Treasury.

8. In the event of a difference of opinion between the contractor and the head of the department requiring the supply, as to the quality, the same is to be decided by a board of survey, composed of persons named by the Government, and the decision of the board is to be considered final. Any expense incurred on account of the rejection of supplies by a board of survey will be charged to the contractor.

9. If the board shall decide that the article is not of proper quality, it must be immediately replaced by the contractor, failing which it will be procured elsewhere, and the extra expense, if any, will be charged to the contractor.

10. The Government Storekeeper will have power to reject such article or articles as are obviously of inferior character, it being understood that he will be responsible to the Government for so doing, and the contractor must take back the rejected article, and supply good in its stead, failing which it will be procured elsewhere, and the extra expense, if any, will be charged to him.

11. A repetition of irregularity in the quantity or quality of the supplies, or of delay in delivering or replacing them when required, will subject the contractor, upon report from the Government Storekeeper, to such mulct, not exceeding one-fourth the amount of the monthly account, as the Government may direct. It will also be in the power of the Government, upon such repetition, to terminate the contract forthwith.

12. It will be competent, either for the contractor on his own behalf, or for the Government Storekeeper on behalf of the Government, to terminate the contract by giving a notice in writing of three full calendar months to the opposite party; it being understood that such notice can be given only from the first day of a month, and within the period for which the contract is made.

The whole of the joints and every portion of the work must be perfectly sound and steam-tight under the full pressure of steam; and any article that shall prove at all defective, or in any way not in accordance with the patterns, drawings, or conditions of this specification, will be immediately returned to the contractor, who must take back the rejected article, and supply good in its stead, failing which it will be procured elsewhere, and the extra expense, if any, will be charged to the contractor. The whole of the threads are to be chased, or cut up in a screw-cutting lathe, and are to be of Whitworth's threads, or such other threads as may be directed, and to be true and a thoroughly good fit male and female.

6. In the event of a difference of opinion between the contractor and the head of the department requiring the supply as to the quality, the same is to be decided by a board of survey, composed of persons named by the Government, and the decision of the board is to be considered final. 8. The Locomotive Superintendent will have power to reject such article or articles as are obviously of inferior character, it being understood that he will be responsible to the Government for so doing, and the contractor must take back the rejected article, and supply good in its stead, failing which it will be procured elsewhere, and the extra expense, if any, will be charged to him.

9. 10. The contractor, under this specification, shall have no claim to execute the whole of the gun-metal or brass work that may be required by the Locomotive Branch of the Railway Department; the department reserving to itself the right either to buy or make such portions of the work as may be deemed expedient.

11. It will be competent either for the contractor on his own behalf, or for the Government Storekeeper on behalf of the Government, to terminate the contract by giving a notice in writing of three full calendar months to the opposite party; it being understood that such notice can be given only from the first day of a month, and within the period for which the contract is made.

The names of the tenderers and their proposed sureties, together with their addresses, must be stated at full length.

All tenders must be enclosed in a separate envelope, marked "Tenders for Iron Castings," and be deposited in the Tender-box at the Government Stores, King street; or, if sent by post, must be addressed to the Government Storekeeper, Melbourne.

CONDITIONS.

1. All orders for supplies under these contracts must issue from the Secretary of Railways, and all goods must be delivered free of charge to the Railway Stores, Williamstown, unless otherwise ordered by the Secretary.

2. Notwithstanding the delivery of any castings into the store and a receipt having been given for them, should such castings turn out unsound, not in accordance with pattern or instructions, or in any way whatever defective, or of different quality of iron to that ordered, they must be taken away from the Railway Store at Williamstown at the expense of the contractor, and other castings must be supplied in lieu thereof, without delay, and without additional charge.

3. Tenderers must fill in opposite to each particular item in the schedule the price at which he undertakes to execute the work, according to the specification and conditions.

4. Should the contractor, in the opinion of the Engineer-in-Chief, fail to furnish work in accordance with this specification, then, in seven days after due notice to that effect shall have been given in writing, the Government Storekeeper shall have full power to re-advertise and relet this contract to any other person the Government shall think fit; and at the expiration of seven days after such notice shall have been given to the contractor, this contract shall become null and void.

5. The contractor must furnish with each delivery detailed invoices or bills of parcels, in duplicate, showing quantity, rate, and value, also the number of the order of the goods, otherwise they will not be received. Delivery, as a rule, is to be of the full quantity ordered at one time.

6. The contractor will prepare his own account on the prescribed form, and render the same to the Railway Storekeeper for certification, previously to payment at the Treasury.

7. In the event of a difference of opinion between the contractor and the officer requiring the supply, as to the quality, the same is to be decided by a board of survey, composed of persons named by the Engineer-in-Chief, and the decision of the board is to be considered final. Any expense incurred on account of the rejection of supplies by a board of survey will be charged to the contractor.

8. If the board shall decide that the article is not of proper quality, it must be immediately replaced by the contractor, failing which it will be procured elsewhere, and the extra expense, if any, will be charged to the contractor.

9. The Locomotive Superintendent will have power to reject such article or articles as are obviously of inferior character, it being understood that he will be responsible to the Government for so doing, and the contractor must take back the rejected article, and supply good in its stead, failing which it will be procured elsewhere, and the extra expense, if any, will be charged to him.

10. Irregularity in the quantity or quality of the supplies, or delay in delivering or replacing them when required, will subject the contractor, upon report from the Locomotive Superintendent, to a penalty not exceeding Ten pounds; and it will be in the power of the Government, upon repetition of such irregularities, to terminate the contract forthwith.

11. It will be competent either for the contractor on his own behalf, or for the Government Storekeeper on behalf of the Government, to terminate the contract by giving a notice in writing of full three calendar months to the opposite party; it being understood that such notice can be given only from the first day of a month, and within the period for which the contract is made.

The estimated consumption at Melbourne, during the year, will be about 12,000 tons, and at Geelong 4000 tons.

The coal is to be delivered daily, and during such hours as may be required by the officer receiving on the coal platforms, at such part of the station-ground as may be pointed out, in bags each containing 1½ cwt. net, weighed at the expense of the contractor on the platform.

The contractor will be required at his own cost to provide a sufficient supply of coal bags to keep two days' supply upon the Melbourne and on the Geelong platforms, and the contractor will bear all loss through wear and tear of bags.

The bags will be returned to the contractor on the third day following the delivery, and a receipt must be given by the contractor or his agent, at the time of receipt of the bags, for all bags returned, and the Government hold themselves responsible only for deficiency in return of bags.

Tenderers are to specify the price for each of the following kinds of coal separately, viz.:-

Wallsend  
Australian Agricultural Company  
Minni  
Waratah  
Coal and Copper Company  
Or other New South Wales mines

Further particulars may be obtained from the Government Storekeeper, Melbourne, the Locomotive Superintendent, Melbourne, or the Loco. Foreman at Geelong.

Security will be required, to the amount of £1000, for the due fulfilment of the Melbourne, and £500 for the due fulfilment of the Geelong contract, either by debentures, bank deposit receipt, or by bond; if the latter, the tender must be accompanied by a certificate from two responsible persons that they are willing to become bound as sureties; and in either case the security must be completed within five days, failing which the contract may be again advertised and another tender accepted. Persons failing to take up their contract will be disqualified as future contractors.

Tenders, endorsed, "Tender for Coal, Railways," are to be deposited in the tender-box at the Government Stores; or, if by post, addressed to the Government Storekeeper, Melbourne.

The Government will not necessarily accept the lowest or any tender.

## CONDITIONS.

1. The coal is to be the very best of its kind, and must be either screened before delivery, over a screen with bars at least one inch apart and ten feet long, set at an angle of 45 degrees to the ground level, or hand-picked so as to be of the same size as if screened in the above manner, and be quite free from small shale or other impurities.

2. The orders will be issued by an officer of the railway department; and, should an order not be complied with within twenty-four hours, it will be competent for the local officer who ordered, to purchase at the contractor's risk.

3. Coal, when delivered, is to be accompanied by the order, which will be receipted by the officer receiving the supply, and must be rendered with the contractor's accounts.

4. The contractor will be required to prepare his own account monthly or bi-monthly on the prescribed form, and present the same in a complete state signed by the officer receiving the supply, to the Railway Storekeeper, who will send it forward for payment at the treasury, or at a district pay office, as the case may be.

5. In the event of a difference of opinion between the contractor and the officer receiving the supply as to the quality, the same is to be decided by the Engineer-in-Chief or the Locomotive Superintendent, and the decision of either is to be final.

6. The Engineer-in-Chief or officer in charge at the station will have the power to reject coal which is of inferior quality, and the contractor must take back the rejected coal and supply good in its stead, failing which it will be procured elsewhere, and the extra expense charged to the contractor.

7. A repetition of irregularity in the quality or quantity of the supplies, or delay in delivering or replacing them when required, will subject the contractor to such mulct not exceeding Fifty pounds for each case as the Government may direct. It will also be in the power of the Government to terminate the contract forthwith.

8. It will be competent for the contractor, or for the Government Storekeeper on behalf of the Government, to terminate the contract, by giving, in writing, a notice of three calendar months, it being understood that such notice can be given only from the first day of a month, and within the period for which the contract is made.

9. The contractor will not be exempt from wharfage or other import or landing rates.

In the event of any alteration of the tariff, affecting any of the items included in these contracts, the Government, or the contractor, as may be the case, must make a proportionate allowance by way of deduction from or increase of the price of the item so affected.

Tenderers must state the security proposed, whether in debentures, bank deposit receipt, cash deposit, Guarantee Society's bond, or sureties; if the latter, the tender must be accompanied by a certificate from two responsible persons that they are willing to become bound in the sum specified for due fulfilment of the contract; and such security must be completed within ten days of acceptance of the tender, failing which the contract may be again advertised, or another tender accepted.

The Government may elect to require a money surety. Tenders, endorsed, "Tender for —" (as the case may be), are to be deposited in the Box at the Government Stores, or addressed to the Government Storekeeper, Melbourne.

The Government will not necessarily accept the lowest or any tender.

CONDITIONS.

1. All the articles are to be of the best quality of the several kinds, in the best condition, and to be delivered in sound packages.

2. The flour and bread must be the produce of prime wheat, from which twenty per cent. has been extracted in bran and waste for second quality, and twelve per cent. for third quality of bread.

3. Fresh meat (except when ordered for the Lunatic Asylum free from bone) is to be supplied in such proportions as may be required, and when the quantity admits, to be delivered in fore and hind quarters alternately. When shins of beef form a portion of the supply, a fair proportion of the bone, not less than five inches, must have been cut off.

4. The supplies are to be delivered direct to the establishment entitled thereto, on the written order of the officer in charge, or at the Government Stores, on the order of the Government Storekeeper.

5. Should the contractor fail to supply any articles when required within twenty-four hours, they will be otherwise procured, and the expense over and above the contract price will be deducted from his account.

6. The contractor will be required to prepare his own account monthly, in the prescribed form, and forward the same, in a complete state, to the Government Storekeeper, for payment at the Treasury, Melbourne, or District Pay Office, as the case may be.

7. In the event of a difference of opinion between the contractor and the officer, receiving the supplies, as to the quality, the same to be decided, in cases where the article is not of a perishable nature, by a board of survey, composed of persons named by the head of the department, and the decision of the board is to be considered final; in respect to breads of first quality, a sample of the best bread ordinarily retailed to the public will be considered as a test loaf.

8. If the board shall decide that the article is not of proper quality, it must be immediately replaced by the contractor, failing which it will be procured by the person requiring it, and the expense charged as in clause 5.

9. In cases where the article is of a perishable nature, or when from some other cause injury would be sustained either by the person to whom the rations are due, or to the contractor, in waiting for a board of survey, the head of the department, or officer in charge of the station, will have power to reject such article or articles as are obviously of inferior quality, it being understood that he will be responsible to the Government for so doing, and that the contractor must take back the rejected article and supply good in its stead, failing which it will be obtained by the officer requiring it, and the expense charged as in clause 5.

10. A repetition of irregularity in the quantity or quality of the supplies, or of delay in delivery or replacing them when required, will subject the contractor, upon report of the Government Storekeeper, to such mulct, not exceeding one-fourth the amount of the monthly account, as the Government may direct; it will also be in the power of the Government to terminate the contract forthwith.

11. It will be competent for the Government Storekeeper on behalf of the Government, or the contractor on his own behalf, to terminate the contract, by giving in writing a notice of three full calendar months; it being understood that such notice can be given only from the first day of a month, and within the period for which the contract is made.

#### CONDITIONS.

1. All the articles required by this notice are to be of the best quality of their several kinds, in the best condition, and to be delivered in sound packages.

2. The flour and bread must be the produce of prime wheat, from which on ration No. 1, twenty per cent., and on those of prisoners of the Crown, twelve per cent. has been extracted in bran and waste.

3. Fresh meat (beef and mutton), when ordered for the Lunatic Asylum, to be delivered entirely free from bone, and in all other cases to be supplied in such proportions as may be required, and when the quantity admits, to be delivered in fore and hind quarters alternately. When shins of beef form a portion of the supply, a fair proportion of the bone, not less than five inches, must have been cut off.

4. When it may be necessary to substitute one article for another, the following proportions are to be observed, viz.:-

Wheaten flour, 1 lb., or	} equal to 1½ lb. of bread.
Best wheaten biscuit, 1 lb.	
Salt beef, 1 lb., or	} equal to 1 lb. fresh beef.
Mutton, 1 lb., or	
Salt pork, 10 oz.	} equal to 1 lb. of potatoes in all cases.
Onions, ½ lb., or	
Other vegetables, 2 lbs.	

In scales Nos. 3, 4, and 5, the following substitutes may be made at the discretion of the head of the department:-

In lieu of 8 oz. of meal, 6 oz. bread, ½ oz. sugar, and ½ oz. tea.

In lieu of 6 oz. of meal, 4 oz. bread, ½ oz. sugar, and ½ oz. tea.

5. The above substitutions are intended for exceptional cases, and must be made whenever it may be considered advisable by the officer authorised to draw the rations, but not otherwise. Scales Nos. 3, 4, and 5, will be drawn at Pentridge, either with or without vegetables, as the officer in charge may direct.

6. The supplies are to be delivered direct to the establishment entitled thereto, on the written order of the officer in charge, except in the case of aboriginal stations.

7. Should the contractor fail to supply any articles when required, within twenty-four hours, they will be otherwise procured, and the expense, over and above the contract price, will be deducted from his account.

8. The contractor will be required to prepare his own account monthly in the prescribed form, and to forward the same in a complete state, signed by the officer by whom it was incurred, to the Government Storekeeper for payment at the Treasury, Melbourne, or Pay Office of the district, as the case may be.

9. In the event of a difference of opinion between the contractor and the officer receiving the supplies, as to the quality, the same is to be decided, in cases where the article is not of a perishable nature, by a board of survey, composed of persons named by the head of department, and the decision of the board is to be considered final; in respect to bread of first quality, a sample of the best bread ordinarily retailed to the public, will be considered as a test loaf.

10. If the board shall decide that the article is not of proper quality it must be immediately replaced by the contractor, failing which, it will be procured by the person requiring it, and the expense charged as in clause 7.

11. In the country districts, when a board of survey cannot be conveniently assembled, and in all cases when the article is of a perishable nature, or when from some other cause injury

would be sustained either by the persons to whom the rations are due, or to the contractor, in waiting for a board of survey, the head of the department, or officer in charge of the station, will have the power to reject such article or articles as are obviously of an inferior quality, it being understood that he will be responsible to the Government for so doing, and that the contractor must take back the rejected article, and supply good in its stead, failing which it will be obtained by the officer requiring it, and the expenses will be charged as in clause 7.

12. A repetition of irregularity in the quantity or quality of the supplies, or of delay in delivering or replacing them when required, will subject the contractor, upon report of the Government Storekeeper, to such mulct not exceeding one-fourth the amount of the monthly account, as the Government may direct. It will also be in the power of the Government, upon such repetition, to terminate the contract forthwith.

13. It will be competent for the Government Storekeeper on behalf of the Government, or the contractor on his own behalf, to terminate the contract by giving in writing a notice of three full calendar months; it being understood that such notice can be given only from the first day of a month, and within the period of which the contract is made.

In case of a difference of opinion, as to quality, between the contractor and the officer receiving the supplies, the Government will appoint a board of survey, whose decision shall be final.

The contractor will be liable for any cost incurred by purchase on the part of the Government, owing either to delay in delivery or to rejection of the supply as not in terms of contract, and in case of repeated irregularities the Government may terminate the contract forthwith, and re-let the same at the contractor's risk.

All supplies, when delivered, must be accompanied by the order, which will be receipted, and must be rendered with the contractor's account.

The contractor will be required to prepare his own account monthly in the prescribed form, and present the same to the Government Storekeeper for payment at the Treasury.

It will be competent either for the contractor, on his own behalf, or for the Government Storekeeper, on behalf of the Government, to terminate the contract by giving a notice in writing to that effect of three full calendar months to the opposite party, it being understood that such notice can be given only from the first day of a month.
