STORES AND TRANSPORT REGULATIONS.

HIS Excellency the Governor, with the advice of the Executive Council, has been pleased to direct that the following rules and regulations, relating to Stores and Transport, be observed by the several departments of Government (with the following exceptions), in lieu of all former regulations on the same subject.

Exceptions referred to.

Railway Department.
Military Store Department.
Board of Aborigines.
Board of Land and Works for carrying out Road and Bridge Works in country districts (as authorised by an Order of the Governor in Council, dated 26th June, 1865).

TENDER BOARD.

1. There shall be a Tender Board, composed of such officers as the Governor in Council shall see fit from time to time to appoint, and they shall elect from among their number a chairman and deputy chairman, who shall hold office for one year from the date of their election, which shall be subject to the approval of the Governor in Council. One or other of these officers shall preside at all meetings of the Tender Board; but in the event of their unavoidable absence, the board may at any meeting elect from among the number then present a chairman, who shall preside at such meeting.

APPOINTMENT OF SECRETARY AND INSPECTOR OF STORES.

2. There shall be an officer appointed as Secretary to the Tender Board and Inspector of Stores and Transport. He shall, in his capacity as secretary, be subordinate to the board, and shall receive his instructions through the chairman thereof.

3. There shall be appointed an Assistant Secretary, and an Assistant Inspector of Stores and Transport, who shall each in his respective capacity, act for and during the absence of the Secretary, and Inspector of Stores, &c.

DUTY OF TENDER BOARD (Clauses 4 to 10).

4. It shall be the duty of the Tender Board to ascertain from the annual estimates, to be furnished as hereinafter mentioned (Clause 23), the quantity and description of stores likely to be required for the service of the ensuing year, and to report to the Government, through the Treasurer, as to the manner in which they would recommend that the said stores should be procured, whether by annual contract or otherwise, and generally advise the Government thereon. If in the course of the year demands for goods not included in the annual contracts should be submitted from any department and approved of by the minister, it will also be the duty of the Tender Board to obtain them.

5. The board will be informed, through the Treasurer, of the decision of the Government; and action thereon shall be taken by the board without delay.

6. All advertisements calling for supplies shall contain the particulars of the supply, the period for and within which it is to be furnished, the amount of security required, with all other necessary information; and due notice shall be given of the day and hour on or before which the tenders, sealed and described as "Tenders for, &c." on the envelope, are to be sent in, after which time no tender for the same service, under the same notice, shall be received. The date when the tenders will be determined is also, if possible, to be given, and when the supplies are not to be furnished under annual contract, as much time as the nature of the case may seem to require is to be allowed between the date of the acceptance of the tenders and that on which the articles are to be delivered.

7. Tenders on being opened by the Tender Board shall be numbered consecutively, and be initialised by not less than three of the board then present. No tender shall be recognised in which the advertised conditions of contract shall have been in material points departed from so as to preclude an accurate comparison with other tenders for the same supply.

8. The days of meeting of the Tender Board, for ordinary business, shall be on Wednesday in each week, and on special occasions when called together by the secretary; but no business shall be transacted unless three members be present.

9. All tenders for supplies amounting to £50 or upwards shall be submitted by the board to the Government, through the Treasurer. The board will be guided in their recommendation by the quality of the sample, the price at which it is tendered, by the character and responsibility of the person tendering, and the sufficiency of his security. Should two tenders for a like amount be received, and one of them be recommended for acceptance, the reason for such recommendation is to be given. Whenever the lowest tender is not recommended, full reasons are to be stated. The particulars of all accepted tenders will be forwarded by the Treasurer to the Chief Secretary for publication in the *Government Gazette*, after which the tenders are to be returned to the Secretary to the Tender Board.

10. When the supply tendered for does not amount in value to the sum of £50, the acceptance or rejection of the tenders shall rest with the board (subject to these regulations so far as they shall in that case be applicable), but a schedule of particulars of all such accepted tenders shall be furnished to the Treasurer for publication in the *Government Gazette*. Should the rate named be excessive, or should no tenders be received, the board shall advise the Government, whether tenders should be again called for, the purchase be effected by the Secretary to the Tender Board, the department concerned, or otherwise.

DUTY OF SECRETARY (Clauses 11 to 15).

11. It shall be the duty of the secretary to attend all meetings of the Tender Board, to summon the members thereof whenever a special meeting may be required, (intimation of which must be sent to the Treasurer) to take notes of all proceedings of the board, and record the same in a book to be kept for that purpose, and, under the directions of the board, to prepare and cause to be inserted in one or more newspapers such advertisements as may be deemed necessary.

12. It shall also be the duty of the secretary, under the direction of the board, whenever a tender has been accepted, to enter on behalf of the Government into a contract with the tenderer for the supply tendered for, taking care that amongst the conditions of contract the following are included, viz.:-

- (a) That the supplies shall be delivered either at the offices of the department concerned or at the Transport Office, Melbourne, as may be directed by the officer ordering the supply.
- (b) That with the view to the fixing of some time and place at which delivery shall be taken of stores (or materials for works and buildings) ordered for the service of any department, the contractor, on receiving notice to deliver from the Inspector of Stores, or Inspector-General of Public Works, as the case may be, shall make delivery at the time and place indicated in such notice.
- (c) That the contractor shall, at the time of delivering the supplies, furnish his account for the same on the prescribed form to the Inspector of Stores; or, if for materials for works and buildings, to the Inspector-General of Public Works.
- (d) That the acceptance of the supplies shall be subject to the approval of the Inspector of Stores, or such other officer as shall be named in the conditions.

13. On the 1st June, or so soon thereafter as may be practicable, the Secretary to the Tender Board is to prepare classified schedules of all supplies likely to be required for the ensuing year, and is to submit them for the approval of the Treasurer.

14. The Secretary to the Tender Board shall compare the original tenders with the *Government Gazette*, and be responsible that the prices gazetted correspond with the tenders.

15. The following documents are to be retained in the office of the Secretary to the Tender Board:-

- (1) The advertisement.
- (2) The contract, including tender and bond.
- (3) A record of the accounts for supplies sent to country districts.

If the information embraced in these documents shall be at any time required for the purpose of ascertaining the correctness or otherwise of accounts, certified copies shall be furnished for the Commissioners of Audit; but, as a rule, a reference on the face of the account to the publication in the *Gazette* of the accepted tender, shall be deemed sufficient.

DUTY OF INSPECTOR OF STORES (Clauses 16 to 22).

16. The Secretary, in his capacity as Inspector of Stores, on receiving the approved requisition and orders mentioned in clause 35, shall forthwith forward the orders to the contractor, with notice to deliver (see clause No. 12 b), and inform him on what day and hour he, the Inspector, will be in attendance at the place named in such notice to receive delivery, and shall require the contractor to deliver accordingly. The delivery being completed, the Inspector shall then and there compare the articles supplied with the approved requisition, and with the samples provided by the contract. If correct, the Inspector shall then certify the contractor's account as to quantity, and that the description and quality of the supply is in accordance with the contract and samples.

17. If the supplies be required for country districts, the Inspector of Stores shall take delivery thereof at the Transport Office; and, if correct, he shall certify the contractor's account as described in the preceding clause, and forward it forthwith to the office of the head of the department concerned, whence it will be sent on to the Treasury for payment.

18. Supplies for the country districts are to be packed under the supervision of the Inspector of Stores and Transport, who will obtain the requisite transport, and forward the supplies by the first convenient opportunity. Every consignment shall be accompanied by an invoice or way-bill, as per form No. 1, to be transmitted by the first post; and on receiving the way-bill receipted from the person to whom the supplies were forwarded, the Inspector shall file the same for future reference. Every account for supplies for country districts shall be entered in a book to be kept by the Inspector of Stores for the purpose, in which the following particulars are to be shown, viz.:-Date of transmission, general description of the goods, by whom supplied and to whom forwarded, and the total amount of the account; and at the expiration of every month, or at such other interval of time as may be directed, the book shall be submitted for the inspection of the Commissioners of Audit, together with the way-bills received during that month.

19. All transport for bulky supplies, whether in Melbourne or the country, shall be performed under a written contract. When the season of the year, the demand for cartage, and the weight of the goods shall be such as to render it advisable, tenders shall be called for by public advertisement as in the case of supplies, and shall be submitted to the Tender Board for consideration. In all other cases contracts with individual carriers shall be made at the most advantageous rates.

20. The Inspector of Stores shall superintend the shipment and landing of all stores (except military and railway stores), on behalf of the Government of Victoria, and obtain such transport as may be required for conveying them to their destination. It will also be his duty, when condemned or other stores (but not building materials) are to be sold, to effect or superintend the sale thereof, if required to do so by the Honorable the Treasurer, and to collect the proceeds of the same. He shall be a Collector of Imposts under the Audit Act, and shall find security for the due performance of his duties.

21. Clause 16 to 18 inclusive shall not apply to provisions, forage, fuel, light, and water; and clauses 17 and 18 shall not apply to materials for works and buildings.

22. The transmission of stores or parcels to country stations or to foreign ports shall be undertaken by the Inspector of Stores, on receipt of a requisition (form No. 5) from the head of the department requiring the service.

ANNUAL ESTIMATES FOR STORES.

23. On the 1st of May in each year, or at such other date as may be named by the Governor in Council, every head of department shall furnish to the Tender Board, through the minister of his division, an estimate of probable requirements of his department for the year commencing on the 1st of January following, and shall specify whether in his opinion the various articles should be obtained by means of annual or special contract, and whether locally or in Melbourne.

CONTRACTS (Clauses 24 to 28).

24. Contracts for a term are to be from 1st January to the 31st December, or such other period up to the latter date. In the case of forage, the contracts are to be taken from 1st February to the 31st January following, or lesser period up to that date.

25. Contracts that may be discontinued (under the provisions made in the conditions for such purpose) before the time for which taken, are to be gazetted for the information of the departments concerned.

26. All contracts entered into by the Tender Board are to be considered as binding upon the department for which they were intended.

27. The inspection and approval of all supplies, previously to receiving delivery, is to be deemed essential, and is never, in any case, to be dispensed with.

28. In the event of any dispute between a contractor and the Inspector of Stores, as to the quality, &c., of stores supplied, the latter officer shall, on the written request of such contractor, apply to the minister of the department concerned for the appointment of a Board of Survey, who, on being appointed, shall enquire into and determine the question in dispute, and such decision shall be final. Should any head of department have reason to object to the stores supplied to him, notwithstanding that they have been passed by the Inspector of Stores, he shall report upon the subject without loss of time to the minister of his department.

HALF-YEARLY SUPPLIES, REQUISITIONS, ETC. (Clauses 29 to 37).

29. On the 15th December and 15th June in each year, every head of department shall submit for the approval of the minister of his division, a requisition as per form No. 2, setting forth the particulars of all supplies (including fuel and light) required for the department under his charge during the ensuing half-year. Orders to supply shall issue from the Public Works Department and delivery shall be taken from the contractor by the officer named in the conditions of the contract, or as may be specially directed by the Minister for Public Works; and it shall be the duty of the Inspector-General of Works, under the instruction of the minister, to make immediate arrangements for such delivery: and on the delivery being completed he shall certify the contractor's account and forward it on for payment.

32. Such articles only are to be placed in requisition as may be allowed by the regulations for the time being, or as may be indispensable for the proper conduct of the public service, and shall, if possible, be of the description specified in the contract; and in all cases the weight, measurement, or quantity, shall be given, as well as a correct description of the articles. Heads of departments must keep clear and accurate accounts of their expenditure out of the votes for Stores, Fuel, Light, and Water. No requisition shall be submitted in excess of the provision made by the Appropriation Act.

33. Officers forwarding requisitions for the approval of the minister, must specify therein the contract price, and set forth the particulars in the same order as they appear in the gazetted schedule of contracts; if the articles applied for are not in contract a SEPARATE REQUISITION MUST BE PREPARED (see form No. 6) and (after approval by the minister) forwarded to the Tender Board to be further dealt with as directed in clause 4.

34. In the event of the articles applied for not being duly received they are not to be included in any subsequent requisition, but notice of the circumstance must be sent to the head of the department.

35. The requisition having been approved by the minister, the heads of departments, specified in clause 29, shall (if the articles

applied for are in contract) draw their orders (See form No. 3) upon the contractors for such stores as may be required, and forward them with the approved requisition to the Inspector of Stores. Should there be no contract for the articles required, the order to supply must not be forwarded until a contract has been entered into and gazetted, or until such other arrangements have been made as the Tender Board may advise (see clause No. 10). No order is to be made in excess of the approved requisition, and each order must state at what place the articles are to be delivered. The order, if it corresponds with the approved requisition, shall be the Inspector's authority to receive and inspect the goods.

36. The contractor's account for the articles delivered having been certified by the Inspector of Stores, as directed in clause 16, shall be completed and signed by the head of the department (who will be held responsible that the rates and computations are correct), and shall be transmitted forthwith to the Treasury for payment.

37. Requisitions when fully complied with are to be returned to the department from which the order to supply was received.

SUPPLIES FOR COUNTRY DISTRICTS (Clauses 33 to 44).

38. If the supplies be required for country districts, the contractor shall be directed to deliver at the Transport Office, in Melbourne.

39. In case of the non-arrival within a reasonable time after the receipt of the way-bill (mentioned in clause 13), of the supplies transmitted to country districts by the Inspector of Stores, the officer in charge at the station shall communicate at once to the Inspector of Stores the circumstances of the case, in order that such steps as may be necessary may be promptly taken.

40. If at any time the weight or quantity of the supplies received be deficient, or exceed that stated in the way-bill, the officer in charge shall point out the discrepancy to the carrier, and ascertain whether such discrepancy has arisen from carelessness, dishonesty, or other causes. Should the supplies be damaged, he shall also ascertain in what manner the damage occurred.

41. In every such case, the weight or quantity stated in the way-bill shall not be altered; but the officer shall attach his signature, and shall minute all essential particulars of the excess, loss, or damage on the face of the bill, and state value of damage.

42. The quantities stated in the way-bill shall in all cases be entered in the books of the officer in charge as having been received, and he shall take credit on the opposite side of his account for the weight or quantity which may have been damaged or deficient.

43. Officers giving clear receipts for supplies will be held responsible for any discrepancy or loss should such be afterwards discovered.

44. The principal officer in charge at every station throughout the colony is to be considered as specially entrusted with the receipt of all supplies forwarded by the Inspector of Stores, which he is on no account to refuse, and he is in all cases to take care that the supplies are adequately housed and protected from the weather, from depredations, or from loss of any kind; such stores, however, as can with convenience be forwarded direct to the officer for whose use they are intended, will be despatched accordingly.

ACCOUNTS (Clauses 45 to 48).

45. In order to reduce the number of accounts, as much as possible, any number of orders may be included in one account, provided that the supplies are for the same department, and that the amount for each station is separately stated.

46. Accounts for supplies forwarded from Melbourne to country districts are not to be detained until the goods have reached their destination, but after being certified by the Inspector of Stores, are to be completed by the head of Department concerned, and transmitted to the Treasury for payment. The supply to a department is, therefore, to be considered as having in all cases been taken in Melbourne, the transmission to the country stations being performed by the Inspector of Stores, as the agent for the department.

47. Accounts for stores, &c., supplied under these regulations for delivery in Melbourne, or for transmission to the country districts, are to be certified by the Inspector of Stores. Accounts for transport incurred under his supervision are also to be certified by him.

48. Certificates on accounts for articles supplied must state that the supply for which the claim is made was obtained on an approved requisition.

CUSTODY OF STORES (Clauses 49 to 53).

49. Every officer entrusted with the custody of stores shall keep a clear and exact account of every article which may in any manner be placed under his charge. He shall be particularly attentive to the preservation of the supplies, and shall give positive orders to this effect to the persons employed under him.

50. No articles whatever shall be lent, sold, or exchanged, without the authority of the minister.

51. All articles in store shall be constantly under observation, and shall be frequently inspected in detail. The contents of each package to be at all times correctly noted in conspicuous characters on a label attached to the package itself.

52. The officer immediately in charge should from time to time inspect his stores, and take stock thereof at least once in each year, viz., on 31st December, or whenever called upon to

do so by the Commissioners of Audit or other competent authority; and further, shall see that due order and regularity are maintained by his clerk or issuer.

53. When an officer in charge, or his subordinate, shall be removed from any station, he shall balance his accounts, and shall take care that the stock handed over to his successor is correct. In like manner, the person taking charge shall ascertain that the stock on hand is in all respects in accordance with the accounts; and should any discrepancies be afterwards discovered, he shall be held responsible. Wherever practicable, the person retiring and the person relieving him shall take stock, and certify conjointly to the correctness of the books.

UNSERVICEABLE STORES (Clauses 54 to 56).

54. When stores, whether serviceable or unserviceable, in the possession of any particular department shall not be required for the service of that department, the officer in charge shall apply to the minister of his division for instructions as to their disposal.

55. No articles which may be issued to any department shall be considered as unserviceable until they shall have been inspected by a board of survey, appointed under the authority of the minister, and condemned.

56. Articles considered by any such board of survey to be unserviceable shall be divided by the board into three classes 1st, articles which would probably realize more than the expenses of sale by public auction; 2nd, articles which could be made use of with advantage at the manufacturing branch of the penal establishments or by other departments of the service; 3rd, articles which are worthless; and the report of the board, which shall contain the board's recommendation as to the disposal of the said articles, shall be forwarded to the minister of the division concerned.

FORAGE FOR POLICE.

57. The supply of forage is to be regulated as follows:—

(a) Requisitions for forage in the Melbourne District shall be submitted for the approval of the minister, on the 15th of each month for the ensuing month; for forage required at stations in the country districts, at such times as the season of the year, the rates of transport, and the amount of storage accommodation at the stations may render advisable.

(b) Forage, for which contracts have been or may be entered into, shall be procured from the contractor on the order of the head of the department, or the principal officer in charge of the station, as provided by the conditions of contract. Every effort shall be made to ensure the forage being stored in such a manner as to prevent any injury through the effects of weather or other causes, and should any damage or loss occur, the strictest investigation is to be made, and the person who, from negligence or culpability, allowed the same to take place, shall be held personally liable.

(c) No goats, pigs, poultry, &c., shall be kept in the neighborhood of a forage store by any person in the employment of Government. Proper precautions against loss by fire in all cases shall be taken. At every station where there is grass in the neighborhood, officers in charge of police must, at their discretion, turn out duty horses to graze, issuing to them only half rations, or such other allowance as may be deemed necessary, due regard being had to their being kept in serviceable condition. Where there is good grass, the horses should be kept altogether without the usual rations of oats, bran and hay. On the 1st July and 1st January in each year, and oftener if considered necessary, the stock of forage on hand shall be ascertained by the officer in charge by actual tally and inspection, and shall be reconciled with the balances as shown in the stock account.

(d) The transport of forage and other supplies from the head to the out-stations of the police shall be undertaken by the police carts. If, however, under extraordinary circumstances it should be absolutely necessary to engage transport, the officer in charge may hire it on the most economical terms. The transport of forage from Melbourne to country stations is to be undertaken, if practicable or expedient, by the police department, under the authority of the Chief Commissioner. Should the Commissioner be of opinion in any case that this course would not be desirable, he must communicate with the Inspector of Stores and Transport, whose duty it will then be to obtain the necessary transport in accordance with these regulations.

(e) No requisition shall exceed the authorised scale of allowances; any quantity which shall be in excess of the scale laid down shall be disallowed, or, if supplied, shall be charged to the person making the requisition.

(f) The scale of forage is as follows:—

Hay	14 lbs.
Oats or maize	10 lbs.
Bran	1 lb.
Bedding { Straw	4 lbs.
or hay	2 lbs.

FUEL AND WATER FOR COUNTRY DISTRICTS (Clauses 64 to 71).

64. In every country town where three or more officers are stationed, the usual supplies of fuel and water shall be obtained under a contract to be entered into on the part of the Government by a board, consisting of the senior or chief officer of each of the several departments in the town or district for which the supplies shall be required.

65. The senior officer of the board shall act as chairman, and, when necessary, convene meetings of the board for the consideration of tenders, and, in dealing with them, the course prescribed by the foregoing regulations shall, as far as practicable, be observed. When thus dealt with, all the tenders are to be sent to the Secretary to the Tender Board for insertion in the *Gazette*.

66. In towns or places where less than three officers are stationed, and in country places removed from any town, supplies shall be procured by each officer in the most economical manner, and the accounts, certified by the officer in charge, shall be forwarded to the head of the department in Melbourne.
