Tenders.

LANDS FOR PASTORAL OCCUPATION.

TENDERS will be received (under the 39th section of *The Amending Land Act 1865*) by the Board of Land and Works, up to Noon of Wednesday, the 20th November next, at this office, at Melbourne, for the occupation (for pastoral purposes only) of the portions of land hereunder described, subject to the following terms, conditions, limitations, and provisions contained in *The Land Act 1862*, and *The Amending Land Act 1865*, relating to the ordinary pastoral occupation of Crown lands, and to the provisions of the 73th section of the first-named Act defining the privileges of travellers.

1. The period of occupation will be one year from the date of the acceptance of the tender.
2. The minimum fee in each case will be £5, in accordance with the Regulations of the 16th May, 1865.
3. The license fee must be paid every year in advance; the first fee must accompany the tender or be paid by the successful tenderer or his agent immediately on the declaration of the tenders, otherwise the offer of the next highest tenderer who may be prepared to comply with this condition will be accepted.
4. The licensees will be subject to the granting of licenses under the 42nd section of *The Amending Land Act 1865*, without any reduction of the license fee or allowance for compensation during the current year of occupancy.
5. If the land be not required for sale or for other appropriation, the license will be renewable at the option of the said Board, on the same terms and conditions, provided application be made by licensee two months prior to the expiry of the current license, and payment of license fee for the ensuing year be made on the approval of the Board being signified.
6. If any error whatsoever be made to appear in the description or area of the portions of land to be licensed hereunder, the same shall be rectified, and a compensation or equivalent in satisfaction thereof, shall be determined by the Board of Land and Works, and accepted by the licensee in full of claim for loss or damage sustained thereby, or in the event of the licensee being dissatisfied with the amount so determined, the Board may cancel such license, and return to the licensee the proportionate part of the license fee for the unexpired term of such license.
7. Any improvements made upon the land will be so made at the risk of the licensee, as no compensation will be made for such improvements, neither will any time after the expiration of this license be allowed to remove any improvement so made.
8. The highest or any tender not necessarily accepted.

Plans and information may be obtained in this office.

Tenders for the Service of 1868.

PROVISIONS, ETC., FOR THE "VICTORIA."

TENDERS will be received until Noon on Wednesday, the 13th November, from persons willing to supply Provisions and other articles, in such quantities as may be required for use on board the steam sloop *Victoria* during 1868.

Printed forms of tender may be obtained from the Inspector of Stores, by whom also any information will be afforded to persons tendering.

Security will be required in the amount of £150 for due fulfilment of the contract, either in debentures, bank deposit receipt, or cash deposit, as the tenderer may elect.

The tenders must include the harbor scale and the whole of the sea stores. The charge per ration in harbor to be stated; and for sea stores the price of each article.

The value of all packages, whether in bulk or otherwise, is to be included in the price demanded (except flour, meal, and potato bags, which will be returned when empty).

Tenders must be accompanied by bank notes, or a bank draft in favor of the Chairman of the Tender Board, for £15, which will be returned within ten days to unsuccessful tenderers. Such deposit to be forfeited in the event of the successful tenderer failing to complete the security within the prescribed period.

The security must be completed within ten days of acceptance of the tender, failing which the contract may be again advertised, or another tender accepted.

Tenderers failing to take up their accepted tenders will be disqualified from tendering for Government supplies for a period of twelve months.

The Government will not necessarily accept the lowest or any tender.

All tenders must be enclosed in a separate envelope, marked "Tender for Provisions for s.s. *Victoria*," and be deposited in the Tender-box at the Stores and Transport Office, King street; or, if sent by post, they must be addressed to the Chairman of the Tender Board, Stores and Transport Office, Melbourne.

Fresh beef and mutton are to be supplied in such proportions as may be required, and, when the quantity admits, to be delivered in fore and hind quarters alternately.

When it may be necessary to substitute one article for another, the following proportions are to be observed, viz.:-

Green vegetables, such as—		
Pumpkins, greens free from root, carrots free from top, &c.	... 2 lbs., or	} equal to 1 lb. of potatoes
Onions	... ¼ lb.	

The above substitutions are to be made whenever it may be considered advisable by the officer authorized to draw the rations, but not otherwise.

The supplies are to be immediately placed on board by the contractor by day or night, if so required, on the written order of the officer in command, failing which they will be otherwise procured, and the expense over and above the contract price will be deducted from the contractor's account.

The contractor will be bound to put on board rations either for one day or one month, or more or less, as may be required.

When the vessel shall be in any harbor of the colony except Hobson's Bay, the officer in command shall be at liberty, without reference to this contract, to procure provisions in such manner as may be empowered by the Government.

The contractor will be required to prepare his own account monthly in the prescribed form, and to present the same in a complete state to the officer in command, for payment at the Treasury, Melbourne.

In the event of a difference of opinion between the contractor and the officer receiving the supplies, as to quality, the matter is to be decided by a board of survey composed of persons named by the officer in command, and the decision of the board is to be final; but if, from the perishable nature of the goods, this course cannot be adopted, the officer in command will have power to reject such article or articles, it being understood that he will be responsible to the Government for so doing.

Contractors are not at liberty to transfer their contracts under cover of power-of-attorney, coupled with an interest or otherwise, and no such transfer will be recognized by the Government.

In the event of any alteration in the Tariff affecting any of the items included in these contracts, the Government, or the contractor, as may be the case, will make a proportionate allowance by way of deduction from, or increase of, the price of the item so affected.

It will be competent for the Inspector of Stores on behalf of the Government, or the contractor on his own behalf, to terminate the contract by giving a notice in writing of one calendar month to the opposite party; it being understood that such notice can be given only from the first day of a month, and within the period for which the contract is made.

Printed forms of tender and conditions of contract may be obtained from the Inspector of Stores, Melbourne; the Sheriffs at Geelong, Ararat, Ballarat, Beechworth, Castlemaine, Kilmore, Maryborough, Sandhurst, and Portland; from the officers in charge of the police at Belfast, Warrnambool, and Palmerston; and from the officer in charge of the Industrial School, Sunbury; by whom also information will be afforded to persons tendering.

Security will be required, either in Government debentures, bank deposit-receipt, or cash deposit, as the tenderer may elect.

Tenders must be accompanied by bank notes, or a bank draft in favor of the Chairman of the Tender Board, for ten per cent. of the amount of security required, which will be returned within ten days to unsuccessful tenderers. Such deposit to be forfeited in the event of the successful tenderer failing to complete the security within the prescribed period.

The security must be completed within ten days of acceptance of the tender, failing which the contract may be again advertised, or another tender accepted.

Tenderers failing to take up their accepted tenders will be disqualified from tendering for Government supplies for a period of twelve months.

The Government will not necessarily accept the lowest or any tender.

All tenders must be enclosed in a separate envelope, marked "Tenders for —" (as the case may be), and be deposited in the Tender-box at the Government Stores, King street; or (if sent by post) must be addressed to the Chairman of the Tender Board, Stores and Transport Office, Melbourne.

CONDITIONS.

1. All the articles are to be of the best quality of the several kinds, in the best condition, and to be delivered in sound packages.

2. Bread. A sample of the best ordinarily retailed to the public will be considered as a test loaf for first quality. Second quality to be made of flour known in the trade as "best seconds" and the third quality (that issued for prisoners of the Crown) to be made of flour, the produce of prime wheat, from which twelve per cent. has been extracted in bran and waste.

3. Fresh meat is to be supplied in such proportions as may be required, and, when the quantity admits, to be delivered in fore and hind quarters alternately. When shins of beef form a portion of the supply, a fair proportion of the bone, not less than five inches, must have been cut off.

4. The supplies coming under the head of Rations and Medical Comforts are to be delivered direct to the establishment entitled thereto on the written order of the officer in charge. All other supplies will be ordered by the head of department, either for delivery at the Stores and Transport Office, or at the office of the department concerned, as may be stated in the order.

5. The order issued by the head of department must accompany the goods, and the account is to be rendered simultaneously with delivery of the supplies. In other cases the account is to be rendered monthly. The rates quoted in the orders cannot be exceeded.

6. Should the contractor fail to supply any articles at the time mentioned in the order they will be otherwise procured, and the expense over and above the contract price will be deducted from his account.

7. In the event of a difference of opinion between the contractor and the officer receiving the supplies as to the quality, the same to be decided, in cases where the article is not of a perishable nature, by a Board of Survey composed of persons named by the head of the department, and the decision of the board is to be considered final.

8. If the board shall decide that the article is not of proper quality, it must be immediately replaced by the contractor; failing which, it will be procured by the person requiring it, and the expense charged as in clause 6.

9. In cases where the article is of a perishable nature, or when from some other cause injury would be sustained either

by the person to whom the rations are due, or to the contractor in waiting for a Board of Survey, the head of the department, or officer in charge of the station, will have power to reject such article or articles as are obviously of inferior quality, it being understood that he will be responsible to the Government for so doing, and that the contractor must take back the rejected article and supply good in its stead; failing which it will be obtained by the officer requiring it, and the expense charged as in clause 6.

10. A repetition of irregularity in the quantity or quality of the supplies, or delay in delivering or replacing them when required, will subject the contractor, upon report of the Tender Board, to such mulct, not exceeding £50, as the Government may direct. TENDERS will be received until Noon on Wednesday, the 13th day of November, 1867, from persons willing to furnish Iron Castings, in such quantities as may be required for the Government Railways, from 1st January until the 31st December, 1868.

The castings are required for locomotive engine work, carriage work, &c.

Whenever specially ordered, the castings shall be run from the very best "cold-blast iron," and of such particular brand, quality, and mixture as may be described in the order; or of such other substituted mixture as may be approved or directed by the Locomotive Superintendent, so as to produce a hard, close, soft or other description of metal.

The castings are to be clean sharp, free from surface scale, shell, cold shuts, blow holes, honeycomb, cinder, or any other imperfection, and are to be sound in every respect and thoroughly close in grain. When specially ordered, the castings are to be run with heads or runners of such weight as may be requested, and no extra charge shall be made or allowed for same; and the contractor will be required to remove the head or runner from the casting where possible, and charge the casting at the net weight only, trimmed and cleaned. In cases where it is necessary to cut off the head in a lathe or machine, such head will be cut off by the Government, and returned to the Melbourne Station, there to be delivered to the contractor free of cost of carriage.

Whenever ordered, the castings are to be moulded in loam without a pattern, and loam price will be paid according to schedule, but no extra charge will be allowed for patterns, strickles, or loam boards. The orders will express the kind or description of casting according to the schedule distinction; and the rates there filed in opposite each item will be allowed accordingly.

The Government will supply all patterns, and deliver the same to the Melbourne Station free of cost, from whence the contractor must fetch them when required and when due notice of same has been given in writing, and no cost for carriage from Spencer street Station to the contractor's place of business will be allowed.

Whenever only one or two castings are required, and they can be moulded from the broken originals, the contractor will be bound to mould from such patterns without requiring the Government to supply a wooden or other pattern for same, and no extra price will be allowed.

All pipes and bends must be moulded in loam whenever required, and a loam pattern made. A loam pattern must be struck up for any casting when a pattern cannot be supplied, and when only one casting or so is required, and when of that simple form that it can be made from a loam pattern; and no extra rate or charge will be allowed for the loam pattern beyond the loam price stated in schedule. The Government will supply all necessary striking boards, but no plates or cramps.

All patterns, loam boards, &c., supplied by the Government must be returned by the contractor in good order to the Government with the castings, and delivered to the Railways Stores at Williamstown, and no allowance will be made for return carriage.

The following must all be of good mixture of "cold-blast" iron:—

No. 1.—Locomotive or engine cylinders	per cwt.
No. 2.—Castings of all descriptions, moulded in loam or sand and oven dried	"
No. 3.—Very best description of sand castings, moulded in boxes, as specified, and dried if required	"

Tenders must be accompanied by bank notes, or a bank draft in favor of the Chairman of the Tender Board, for ten per cent. of the amount of security required, which will be returned within ten days to unsuccessful tenderers. Such deposit to be forfeited in the event of the successful tenderer failing to complete the security within the prescribed period.

The security must be completed within ten days of acceptance of the tender, failing which the contract may be again advertised, or another tender accepted.

Tenderers failing to take up their accepted tenders will be disqualified from tendering for Government supplies for a period of twelve months.

The Government will not necessarily accept the lowest or any tender.

All tenders must be enclosed in a separate envelope, marked "Tenders for Iron Castings," and addressed to the Chairman of the Tender Board, Stores and Transport Office, King street, Melbourne.

CONDITIONS.

1. All orders for supplies under these contracts must issue from the Secretary of Railways, and all goods must be delivered free of charge to the Railways Stores, Williamstown, unless otherwise ordered by the Secretary.

2. Notwithstanding the delivery of any castings into the store and a receipt having been given for them, should such castings turn out unsound, not in accordance with pattern or instructions, or in any way whatever defective, or of different quality of iron to that ordered, they must be taken away from the Railway Store at Williamstown at the expense of the contractor, and other castings must be supplied in lieu thereof, without delay, and without additional charge.

5. The contractor must furnish with each delivery detailed invoices or bills of parcels, in duplicate, showing quantity, rate, and value, also the number of the order of the goods, otherwise they will not be received. Delivery, as a rule is to be of the full quantity ordered at one time.

6. The contractor will prepare his own account on the prescribed form, and render the same to the Railway Storekeeper for certification, previously to payment at the Treasury.

7. In the event of a difference of opinion between the contractor and the officer requiring the supply, as to the quality, the same is to be decided by a board of survey, composed of persons named by the Engineer-in-Chief, and the decision of the board is to be considered final. Any expense incurred on account of the rejection of supplies by a board of survey will be charged to the contractor.

8. If the board shall decide that the article is not of proper quality, it must be immediately replaced by the contractor, failing which it will be procured elsewhere, and the extra expense, if any, will be charged to the contractor.

9. The Locomotive Superintendent will have power to reject such article or articles as are obviously of inferior character, or not in accordance with the specification, it being understood that he will be responsible to the Governor for so doing; and the contractor must take back the rejected article, and supply good in its stead, failing which it will be procured elsewhere, and the extra expense, if any, will be charged to him.

Contractors are not at liberty to transfer their contracts under power-of-attorney, coupled with an interest or otherwise, and no such transfer will be recognized by the Government.

10. Irregularity in the quantity or quality of the supplies, or delay in delivering or replacing them when required, will subject the contractor, upon report from the Locomotive Superintendent, to a penalty not exceeding Ten pounds; and it will be in the power of the Government, upon repetition of such irregularities, to terminate the contract forthwith.

11. It will be competent either for the contractor on his own behalf, or for the Secretary for Railways on behalf of the Government, to terminate the contract by giving a notice in writing of full three calendar months to the opposite party; it being understood that such notice can be given only from the first day of a month, and within the period for which the contract is made.

The coke will be weighed by the Government, and such weight and returns shall form the basis upon which the contractor's account will be made out.

3. Orders will be issued by the Secretary one week previously to the departure of the English mail; and if such orders be not satisfied at the expiration of seven calendar months from the date of the departure of such mail, it will be competent for the Railway Storekeeper, on the order of the secretary, to purchase, at the risk of the contractor, and subject him to a mulct not exceeding Five pounds for each and every day's delay in the delivery after the time specified, disasters of the seas excepted. Should a supply of coke be required within seven months, the Government reserve to themselves the right to purchase, provided the contractor refuses to supply at contract rate.

4. The contractor will be required to prepare his own account monthly or bi-monthly on the prescribed form, and present the same in a complete state, to the Locomotive Superintendent, who will send it forward to the Railway Storekeeper to be passed for payment at the Treasury or at a district pay office, as the case may be.

5. In the event of a difference of opinion between the contractor and the officer receiving the supply, as to the quality of the coke, the same is to be decided by a board of survey composed of persons named by the Engineer-in-Chief, and the decision of the board is to be final.

6. If the delay necessary for obtaining the decision of a board of survey should be detrimental to the public service, the Engineer-in-Chief or Locomotive Superintendent will have the power to reject coke which is of an inferior quality, it being understood that he will be responsible to the Government for so doing; and the contractor must take back the rejected coke and supply good in its stead, failing which, it will be procured elsewhere and the extra expense charged to him. Contractors are not at liberty to transfer their contracts under cover of power-of-attorney coupled with an interest or otherwise, and no such transfer will be recognized by the Government.

7. Irregularity in the quantity or quality of the supplies, or delay in delivering or replacing them when required, will subject the contractor to such mulct, not exceeding Fifty pounds for each case, as the Government may direct. It will also be in the power of the Government to terminate the contract forthwith.

8. It will be competent for the contractor, or for the Secretary for Railways on behalf of the Government, to terminate the contract by giving, in writing, a notice of three calendar months, it being understood that such notice can be given only from the first day of a month.

9. The estimated consumption of coke during the year will be about 200 tons; but the Government do not bind themselves to order this quantity, but only what may be required from time to time.

J. F. SULLIVAN,
Commissioner of Railways.

Railway Department,
26th October, 1867.

COAL.

TENDERS will be received until Noon on Wednesday, the 13th day of November, 1867, from persons willing to supply Coal at Melbourne and Geelong, in such quantities as may be required by the Engineer-in-Chief, for Government Railways, from the 1st January to the 31st December, 1868, inclusive.

The estimated consumption at Melbourne, during the year, will be about 11,000 tons, and at Geelong 4000 tons.

The coal is to be delivered daily on to the coal platforms, and during such hours as may be required by the officer receiving, and at such part of the station ground as may be pointed out, in bags each containing 1½ cwt. net, weighed at the expense of the contractor on the coal platform.

The contractor will be required at his own cost to provide a sufficient supply of coal bags to keep two days' supply upon the Melbourne and on the Geelong coal platforms, and the contractor will bear all loss through wear and tear of bags.

The bags will be returned to the contractor on the *third day* following the delivery, and a receipt must be given by the contractor or his agent, at the time of receipt of the bags, for all bags returned, and the Government hold themselves responsible only for deficiency in return of bags.

Tenderers are to specify the price for each of the following kinds of coal separately, viz.:-

Wallsend
Australian Agricultural Company
Miami
Waratah
Coal and Copper Company
Or other New South Wales mines

Further particulars may be obtained from the Locomotive Superintendent, Melbourne, or the Loco. Foreman at Geelong.

Security will be required, to the amount of £1000, for the due fulfilment of the Melbourne, and £500 for the due fulfilment of the Geelong contract, either in Government debentures, bank deposit-receipt, or cash deposit, as the tenderer may elect.

Tenders must be accompanied by bank notes, or a bank draft in favor of the Chairman of the Tender Board, for ten per cent. of the amount of security required, which will be returned within ten days to unsuccessful tenderers. Such deposit to be forfeited in the event of the successful tenderer failing to complete the security within the prescribed period.

The security must be completed within ten days of acceptance of the tender, failing which the contract may be again advertised or another tender accepted.

Tenderers failing to take up their accepted tenders will be disqualified from tendering for Government supplies for a period of twelve months.

The Government will not necessarily accept the lowest or any tender.

Tenders, endorsed "Tender for Coal, Railways," are to be deposited in the Tender-box at the Stores and Transport Office, King street, Melbourne, and addressed to the Chairman of the Tender Board.

CONDITIONS.

1. The coal is to be the very best of its kind, and must be either screened before delivery, over a screen with bars at least one inch apart and ten feet long, set at an angle of 45 degrees to the ground level, or hand-picked so as to be of the same size as if screened in the above manner, and be quite free from small shale or other impurities.

2. The orders will be issued by an officer of the railway department; and, should an order not be complied with within

twenty-four hours, it will be competent for the local officer who purchased at the contractor's risk.

3. Coal, when delivered, is to be accompanied by the order, which will be received by the officer receiving the supply, and must be rendered with the contractor's accounts.

4. The contractor will be required to prepare his own account monthly or bi-monthly on the prescribed form, and present the same in a complete state to the Locomotive Superintendent, who will send it forward to the Railway Storekeeper, to be passed for payment at the Treasury, or at a district pay office as the case may be.

5. In the event of a difference of opinion between the contractor and the officer receiving the supply as to the quality, the same is to be decided by the Engineer-in-Chief or the Locomotive Superintendent, and the decision of either is to be final.

6. The Engineer-in-Chief or officer in charge at the station will have the power to reject coal which is of inferior quality, and the contractor must take back the rejected coal, and supply good in its stead, failing which it will be procured elsewhere, and the extra expense charged to the contractor.

Contractors are not at liberty to transfer their contracts under cover of power-of-attorney, coupled with an interest or otherwise; and no such transfer will be recognized by the Government.

7. A repetition of irregularity in the quality or quantity of the supplies, or delay in delivering or replacing them when required, will subject the contractor to such mulct, not exceeding Fifty pounds for each case, as the Government may direct. It will also be in the power of the Government to terminate the contract forthwith.

8. It will be competent for the contractor, or for the Secretary for Railways on behalf of the Government, to terminate the contract by giving, in writing, a notice of three calendar months, it being understood that such notice can be given only from the first day of a month.

9. The contractor will not be exempt from wharfage or other import or landing rates.

Commissioner of Railways.

Railway Department,

FIREWOOD.

TENDERS will be received until Noon on Wednesday, the 13th day of November, 1867, for the supply of 3,500 tons of Firewood, at the undermentioned stations, for the use of the Engineer-in-Chief:-

At Woodend	Tons.
Woodend pumping engine	3000
Kyneton ditto	100
Middle Gully ditto	100
Echuca ditto	100
Bunnymede ditto	100

The wood is to be split out of large forest timber of either red or white gum, box, or she-oak, and must be perfectly sound; peppermint, stringy-bark, or messmate, will not be received.

The wood is to be split into billets of convenient sizes for the use of the engines, and is to be cut into billets 2 feet in length, and no small branches will be received.

The whole of the firewood, when delivered, is to be stacked where pointed out, at the contractor's expense, in stacks of such sizes as will be directed, ready for measurement. The stacks are to be 2 feet wide by 5 feet high, with space between each stack for measuring, and the billets are all to lie the same way, viz., crossways of the stacks, in the form of a cord, and are to be laid as closely and solidly as possible in the stack.

The wood for the locomotive engines is to be stacked on the station grounds as aforesaid, but that required for the pumping engines will have to be delivered at the pumping engines, and stacked inside the fence.

Tenderers are to state the price at per ton of 50 cubic feet. No wood will be measured until it shall have been stacked fourteen days, so as to have settled down, and must then stand 5 feet high by 2 feet wide. The contractor will be required to provide cash security for the due performance of his contract, which security shall amount to the sum of ten (10) per cent. on the total amount of the said contract, and must be paid into Her Majesty's Treasury, at Melbourne, to the credit of the Commissioner of Railways, within seven days from the acceptance of his tender, and shall remain to the credit of the said Commissioner until the final completion of the contract, when, on the Engineer-in-Chief's certificate that the whole of the contract has been completed to his entire satisfaction, the amount of such security will be returned to the contractor.

Tenders must be accompanied by bank notes, or a bank draft in favor of the Chairman of the Tender Board, for ten per cent. of the amount of security required, which will be returned within ten days to unsuccessful tenderers. Such deposit to be forfeited in the event of the successful tenderer failing to complete the security within the prescribed period.

The contractor will be paid for the wood only on the measurements made by the officers of the Government, after it has been delivered and properly stacked by the contractor and left as aforesaid; payment will then be made at the rate of 90 per cent. at the completion of each delivery of 100 tons; the remaining 10 per cent., together with the cash security, will be paid over to the contractor on the certificate of the Engineer-in-Chief that the whole of the contract has been completed to his satisfaction.

The firewood is to be delivered at each place mentioned herein, and is to be delivered at the rate of at least 100 tons per week at each place mentioned, commencing not later than the 1st day of January, 1868.

For each and every week's delay in the delivery beyond the times specified in this contract the Government shall be entitled to deduct, as and for liquidated damages, the sum of £10 sterling.

The officer appointed by the Government to receive and inspect the wood will have full power to reject any wood which he may consider not in accordance with the specification, notice of which will be given to the contractor, in writing, stating the reason.

In the event of a difference of opinion between the contractor and the officer receiving the supply, as to the quality or kind of timber, the same is to be decided by the Locomotive Superintendent, whose decision shall be final.

Contractors are not at liberty to transfer their contract under cover of power-of-attorney, coupled with an interest or otherwise, and no such transfer will be recognized by the Government.

Irregularity in quantity or quality of the supplies, or delay in delivering or replacing them when required, will subject the contractor to such mulct, not exceeding Twenty-five pounds for each case, as the Government may direct. It will also be in the power of the Government to terminate the contract forthwith.

Tenders, endorsed "Tenders for Firewood, — Station," are to be addressed to the Chairman of the Tender Board, King street, Melbourne.

The Government will not necessarily accept the lowest or any tender.

Persons failing to take up their contracts will be disqualified as future contractors.

11. The orders will be issued by the Secretary, on the requisition of the Locomotive Superintendent; and, should an order for Australian Agricultural or Wallsend coal not be complied with and satisfied within twenty-one days, the Railway Storekeeper shall have power to obtain the supply elsewhere, and charge the extra cost of the same to the contractor.
