WASTE OF YAN YEAN WATER.

THE Board of Land and Works begs to direct attention to the urgent necessity that exists for checking Waste of Yan Yeau Water.

The loss of pressure occasioned by this waste during the summer months is greater than the main pipe is able to afford, and unless stringent means are used to restrict it, citizens generally will suffer serious inconvenience from the great reduction in the supply, while those residing in the higher parts of the city and suburbs will be entirely deprived of water, as the constant discharge by unnecessary waste renders supply at high levels practically impossible.

Under these circumstances the Board has no alternative but strictly to enforce the operation of the 11th bye-law, which provides a penalty of Five pounds in cases where water is allowed to run to waste.

The provisions of the Public Works Statute will also be rigidly carried out; every person using the water for irrigation without permission, and without affixing a meter, will be prosecuted. The service-pipe will likewise be cut off, without notice, in all instances where water is wasted, misused, or unduly consumed.

The Board earnestly trusts that the public generally will assist the police and the officers of the department in abating an evil which causes such serious inconvenience to so large a number of citizens.

Commissioner of Public Works.

CONDITIONS.

1. The house coal is to be the best of its kind, free from shale, small coal, dust, or other impurities. The smiths' coal must be free from dust, ashes, shale, or other impurities. The water is to be fresh and pure. The firewood to consist of either: box, she-oak, red or white gum, and must be dry, perfectly sound, and of good burning quality.

2. The orders will be issued by the departments requiring the supplies; and should an order be not complied with within forty-eight hours, it will be competent for the department concerned to purchase at the contractor's risk, and to deduct from the contractor's account the extra expense (if any) over and above the contract price. Supplies are to be delivered in quantities from one to twenty tons at a time on board steam dredges wherever the same may be employed, and on board steam tugs at any wharf or hulk selected by the contractor in Hobson's Bay, the Yarra River, or Geelong, as the case may be.

3. The contractor for coal will be bound to furnish scales and weights, and to weigh the coal on delivery. The contractor for firewood will be bound to supply the description of wood named in the order, and to place the same in separate stacks of two feet in width and five feet high for measurement, on such ground as may be pointed out, a space being left between each stack.

4. As soon as the order for the coal or wood shall have been completed, the contractor will be required to furnish his account in the prescribed form, with the order attached thereto, to the department supplied. For water the account is to be rendered monthly for the quantity supplied during the previous month. Accounts will be payable at the Treasury, Melbourne or Geelong, as the contractor may require.

5. In the event of a difference of opinion between the contractor and the officer receiving the supply as to the quality, the same is to be decided by a Board of Survey, composed of persons named by the head of the department, and the decision of the board is to be considered as final.

6. If the board shall decide that the article is not of proper quality, it must be immediately replaced by the contractor, failing which it will be procured elsewhere, and the extra expense, if any, will be deducted from the contractor's account.

7. If from any cause injury would accrue to the public service by waiting for a Board of Survey, the head of department, or officer in charge of station, will have the power to reject such articles as are obviously of inferior quality, it being understood that he will be responsible to the Government for so doing; and the contractor must take back the rejected article, and supply good in its stead, failing which it will be procured elsewhere, and the extra expense, if any, will be charged as in condition 6.

8. A repetition of irregularity in the quality or quantity of the supplies, or of delay in delivering or replacing them when required, will subject the contractor to such mulct, not exceeding £50, as the Government may direct. It will also be in the power of the Government, upon such repetition, to terminate the contract forthwith.

9. Contractors are not at liberty to transfer their contracts under cover of power-of-attorney, coupled with an interest or otherwise; and no such transfer will be recognised by the Government.

10. In the event of any alteration in the Tariff affecting any of the items included in these Contracts, the Government, or the contractor, as the case may be, will make a proportionate allowance by way of deduction from, or increase of, the price of the item so affected.

11. It will be competent for the Inspector of Stores on behalf of the Government, or the contractor on his own behalf, to terminate the contract, by giving, in writing, a notice of three full calendar months; it being understood that such notice can be given only from the first day of a month, and within the period for which the contract is made.
