NOTE.—During the year 1867, 27,242 persons arrived in the colony by sea, and 25,142 persons departed therefrom. The increase to the population by excess of Immigration over Emigration was therefore 2,100. The births numbered 25,585, and the deaths 11,692. The increase by excess of the former was thus 13,843. The total increase in 1867 was 15,943, as shown in the table. In the year 1866 the population increased by 17,273, in 1865 by 21,138, in 1864 by 31,170, and in 1863 by 18,587. The increase during the year under review was thus less than any of the four preceding years; it was, however, greater than in 1862, 1861, or 1860, in which the increases were 13,944, 3,953, and 7,585 respectively. The marriages in 1867 numbered 4,398.

Printed forms of tender and conditions of contract may be obtained from the Inspector of Stores, Melbourne, or from the officer in charge of police at each station, by whom also any information or explanation will be afforded to persons tendering. The tenders for each station will be accepted or rejected separately. Tenders will be received for either oats, bran, hay, or straw; but if all be included in one tender, it may be accepted for one article only, if advisable. Tenders must express the prices in words as well as in figures, and without alterations or erasures. As much forage as the storage will accommodate will be ordered at a time for the convenience of contractors. The price must be per ton for hay and straw, and per bushel of 40 lbs. for oats and 20 lbs for bran (net weight), including delivery at the stations and all charges; bags to be returned when empty. Tenders not complying with the terms of advertisement will not be entertained. The successful tenderer will be required to enter into a bond for one-third of the estimated amount of the contract, within ten days after the acceptance is notified. Two approved securities are required for contracts amounting to £150 and upwards, and one surety for contracts under £150. Tenderers failing to take up their accepted tenders, or failing to carry out their contracts satisfactorily, will be ineligible to again hold contracts for Government supplies. All tenders must be enclosed in a separate envelope, marked "Tender for Forage," and deposited in the box at the Government Stores, King street; or, if sent by post, they must be addressed to the Chairman of the Tender Board, Stores and Transport Office, Melbourne. The Government will not necessarily accept the lowest or any tender. The decision of the Government will be made known by *Gazette* notice, and by letter to accepted tenderers.

CONDITIONS.

- The hay to be eaten, good, sound, and sweet; the straw to be wheaten, and both to be in all respects of the best quality; oats (colonial grown) and bran to be sound and sweet and of the best description.
- The supplies are for police and telegraph horses, and are to be delivered on the order of the officer in charge of the district or station. The quantities stated in the schedule being only approximate, it must be understood that the Government may draw either more or less than those mentioned; and should new telegraph stations be formed, or additional horses be required to be stationed in any of the districts tendered for, the supplies required may be drawn from the contractor. The excess over the estimate will not, however, exceed during the whole year 50 per cent. of the estimated quarterly consumption.
- The forage, when delivered, must be accompanied by the particulars of quantity, showing the gross weight, the tare, and the net weight, to be endorsed on the back of the order, which, when signed by the officer in charge of the station for the net quantity received, will be returned to the contractor, and by him rendered in support of his account.
- Each contractor will be required to prepare his own account in the prescribed form, and on presentation thereof to the officer in charge of the station or district, it will be forwarded for payment at the Treasury, Melbourne, or the Pay Office of the District, as may be indicated by the contractor on the account.
- Should forage duly ordered under these contracts not be delivered within forty-eight hours of the time specified in the order for delivery, it will be competent for the department (should circumstances require it) to purchase the same at the risk of the contractor, from whose account any expense over and above the contract price is to be deducted.
- In the event of a difference of opinion between the contractor and the officer receiving the forage as to quality of the same, it is to be decided by a board of survey, composed of persons named by the head of the department ordering the supply, and the decision of the board is to be considered final.
- If the board shall decide that the forage is not of proper quality, it must be immediately replaced by the contractor, failing which it will be procured elsewhere, and the extra cost, if any, will be charged as in clause 5.
- When a board of survey cannot be conveniently assembled, or when, from some other cause, injury would accrue either to the public service or to the contractor by waiting for a board of survey, the officer in charge will have the power to reject such supplies as are obviously of inferior quality, it being understood that he will be responsible to the Government for so doing; and requiring it, and the expense will be charged as in clause 5.
- A repetition of irregularity in the quantity or quality of the forage, or of delay in delivering or replacing it when required will subject the contractor, upon report from the Tender Board, to such mulct not exceeding £20, as the Government may direct. It will also be in the power of the Government, upon such repetition, to terminate the contract forthwith.
- Contractors are not at liberty to transfer their contracts under cover of power of attorney, coupled with an interest or otherwise; and no such transfer will be recognised by the Government.
- It will be competent for the Inspector of Stores on behalf of the Government, or for the contractor on his own behalf, to terminate the contract, by giving in writing a notice of three full calendar months to that effect, it being understood that such notice can only be given from the first day of a month, and provided that no such notice can be given before the 30th June, 1863; and in the event of a station being discontinued or any change in the supplies required, the contractor will receive the earliest possible intimation.
