Pending the publication of a correct Admiralty Chart of the Eastern Group, the intermediate islands and reefs should be altered relatively with the above positions. Thus, for instance, Bacon Islands (and consequently the Argo Reef) is in error 13 miles in latitude and 7 1/2 miles in longitude. Reid Islands and their encircling reefs should be altered the same amount to correspond. Again, Tavvwasithi Taransci should be altered to correspond with the new position of Vanua, Vatu and Kambara and so on with other dangers of the Eastern Group.

Information received from Lieutenant Richards of H.M.'s schooner "Renard."

Woodin Passage, S.E. part of New Caledonia.—Woodin Passage.—Iron cage beacons have been placed on the following dangers:—The half-fathom patch (Moziman's Shoal) to eastward of Pine Point; the end of the reef of the point to the westward of Cape Nduu; and on the Hydrography Shoal.

Heavy squalls from westward accompanied by rain and thick mist were encountered by the *Renard* in the eastern part of the Woodin Pass, and, from local information, appear to be frequent.

Good sheltered holding ground was found in 22 fathoms (mud) to S.E. of Montravil Island.

This information affects charts Nos. 2906, 936b, and 1380.

Havannah Harbor, New Hebrides.—The actual plan of Havannah Harbor appears very incorrect, though accurately placed on chart.

Loyalty Isles.—I passed close to the Island of Tiga or Boucher, and find its position (by three chronometers which have been performing very well) to be 167° 57' 30" east, or about 15 miles to the eastward of the position given on the chart. Ndundine or Molard Island and Markan Point (the N.W. point of Maré or Britannia Island) are also a corresponding distance too far to the westward, and probably the whole island of Maré is equally out of position.

My latitudes of the above-named places coincide very nearly with that shown upon the chart.

Furnished by Navigating Lieutenant of H.M.'s ship "Wolverene."
Norfolk Island.—From information received from islanders a sharp pinnacle rock having 12 feet over it at L.W. lies due south of the west end of Nepean Island three-quarters of a mile. This is the rock on which the ship *Mary Hamilton* struck and became a total wreck.

Furnished by H.M.'s "Nymph."

Campbell Island.—There appears to be a discrepancy between the position assigned upon the general chart of the South Pacific (western sheet No. 788) to Campbell Island, and that given upon the chart of the Auckland and Campbell Islands, No. 1114; the longitudes given upon the latter place Observatory Point, Perseverance Harbor, in 169° 11' E., whereas the position on the former places it in 169° 21' E., or 10 miles further to the eastward. In chart 788, South Pacific Ocean, Western Sheet, Campbell Island is placed 10 miles too far to the eastward.

Information received from Lieutenant De Hoghton, H.M.'s schooner "Beagle."

Api Island, New Hebrides.—In coasting down about a mile south of Pane, and half to three-quarters of a mile outside the fringe reef, is a circular coral patch about 100 yards in diameter, and awash at L.W. The patch is very flat and has deep water round it, excepting on the south side, where a tongue runs out for some 100 yards or so. Pane lies about one mile and a half E.S.E. of La Menu Island.

Marau Sound, Guadalcanar, Solomon Islands.—I entered Marau Sound through a passage half a mile wide on the east side of Malpala Island; no soundings were obtained until some two miles inside the outer reef, and I anchored in ten fathoms close off the main land and to the southward of the island south of Malpala. The sound is of great extent, studded with small islands, and affords many and good anchorages, though in mostly rather deep water. The chart No. 214 gives, on a very small scale, some idea of the entrances, of which there are three principal ones. One to the southward through which the *Sandfly* entered, over a mile in width, leaving all the small outlying islands well on the starboard hand, leads up to this entrance.

There is an entrance between Malpala and the mainland off which lies a small island to be left on the starboard hand entering, and another between Malpala and the easternmost large island, easily made out from seaward.

Information received from Lieutenant Horne, H.M.'s schooner "Sandfly."

Port Resolution, Tanna.—The following information respecting the harbor of Port Resolution, Tanna, was received from Mr. Neilson, the resident missionary:—

On the 10th January 1878 there was a very severe earthquake, the land on the north shore rising some twenty feet or more. On the 14th February there was another very severe shock when the same land rose another twelve feet, as near as he could calculate, also a reef extending about 200 yards in a N.E. direction from Cook's Pyramid, awash at all states of the tide; at the same time the small bay to the north of this harbor was filled in entirely by the falling forward into the sea of upwards of one hundred and fifty acres of earth and rock, making the coast line almost straight and about one hundred and fifty feet high.

For three square miles to the northward of Port Resolution it is one mass of loose earth and rock, with numerous hot springs. The harbor is much contracted and the dangers much increased.

When the second shock took place there was a surf from twenty to thirty feet high, raised by the land falling into the sea; this rushed into the harbor, taking everything before it.

On entering the harbor in the *Sandfly* the leadman got as little as a quarter less two, but I failed to find the spot when away sounding in the gig.

St. Bartholomew, New Hebrides.—I found a very good anchorage for small crafts off the east end of St. Bartholomew and inside some small islets, which are connected at low water with St. Bartholomew by the southernmost of the three.

Espiritu Santo.—Chart No. 1880 is so very much out about Espiritu Santo that it was impossible to fix my position.

NOTICE TO MARINERS.—CHINA SEA.

THE accompanying Notice, issued from the Imperial Maritime Customs Office, Shanghai, is published for general information.

PETER LALOR,

Commissioner of Trade and Customs.

Department of Trade and Customs,
Melbourne, 18th September 1878.

CHINA SEA.

River Min.—Foochow District.

THE following dangers have recently been examined by H.M.'s surveying vessel *Nassau*, Captain R. H. Napier, R.N., in charge of survey.

1. Benjamin Aymar Rock.

This rock, on which the American barque *Benjamin Aymar* struck in January 1878, consists of a small rocky patch with 3 feet of water on its shoalest part at L.W. springs. A depth of from 9 to 10 fathoms was obtained in every direction at a distance of 1½ cables from it, the bottom being mud.

Changechi Peak bears N. 68° E. from the rock.

Sea Dog lighthouse bears S. 37° E. from the rock.

Sea Dog Summit bears S. 59° E. from the rock.

Sea Cat Summit bears S. 71° E. from the rock.

Clearing Marks.—The southern extreme of Changchi Island in line with the northern extreme of Matsou Island leads clear to the southward, and Crab Island should not be brought to bear eastward of north to clear to the eastward.

2. Norman Court Rock.

This rock consists of two pinnacles lying in a north and south direction and distant 1½ cables from each other.

The southern one is distant 4½ cables from Flat Rock, and has 9 feet of water over it at L.W. springs, with deep water close around, but a rocky ledge with 6 fathoms over it extends 1½ cables to the S.E. by S. of it.

The northern one has only 6 feet over it at L.W. springs. There is also a rocky patch, with 2½ fathoms over it, to the S.S.E. 4 E. of Flat Rock, and distant from it 2½ cables.

Flat Rock Summit bears N. 7° 10' W. from the S. pinnacle.

Changechi Peak bears N. 16° E. from the S. pinnacle.

Matsou Peak bears N. 69° W. from the S. pinnacle.

Sea Dog Summit bears S. 5° W. from the S. pinnacle.

3. Pilot Rock.

This danger (described at page 276 of the China Sea Directory, vol. III., 1874, as lying 3 miles east from the Sea Cat, but unnamed) is 3½ miles from the Sea Cat, and consists of a pinnacle of small extent, on which the sea breaks at L.W. springs, there then being about one foot of water over it.

Changechi Peak bears N. 17° W. from the rock.

Sea Cat Summit bears S. 87° W. from the rock.

Sea Dog Summit bears S. 63° 15' W. from the rock.

This notice affects Admiralty Charts Nos. 1262, 1761, and 2400.

All bearings are magnetic. Variation in 1873, 1° west.

The light will show red from this latter bearing to south 54° east, and red between the bearings of north 78° west and south 4° east, and between this latter bearing and the bearing of south 54° east the light will not be shown.

The light is elevated 265 feet above the sea, and, allowing 15 feet for the height of the eye, will be seen at a distance of about 22½ nautic miles in clear weather, and at lesser distances according to the state of the atmosphere.

NOTE.—All bearings are magnetic and taken towards the light.

VICTORIAN RAILWAYS.—RAILWAY WHARF, ECHUCA.

THE Board of Land and Works, by virtue of the powers and authorities vested in it by *The Public Works Statute 1865*, doth hereby make the following Bye-laws for the management of traffic at the Railway Wharf, Echuca:—

- The limits of the wharf shall include any portion of the railway reserve adjacent thereto between the river and the gates at the first level crossing.
- The Wharfmaster shall be responsible for the management of traffic at the Echuca Wharf, for the maintenance of order, and for the control of the railway officers and servants employed there, subject to the following regulations and to such instructions as he may receive from the Stationmaster.

3. All persons in charge of boats, barges, rafts, or other craft arriving at the wharf, shall be under the direction of the Wharfmaster as to the place or places at, to, or from which the said craft shall be moored, removed, or unmoored, at any time from the vessel's arrival until she leaves the said wharf. Any person found guilty of a breach of this bye-law shall be liable to a penalty not exceeding Twenty pounds.

4. The loading or unloading of all craft moored at the Railway Wharf, or of teams or carts arriving at the same, shall be performed by or under the direction of the Wharfmaster, and at the expense of the owners or agents of the said craft, carts, or teams, and not at that of the Department.

5. The Wharfmaster shall have power to direct the loading or discharge of craft at any time during the day or night beyond the usual working hours, without hindrance or instruc-

tion from the person in charge of the said craft, or from others. Any person found guilty of a breach of this bye-law shall be liable to a penalty not exceeding Twenty pounds for each and every day or fractional part of a day that such obstruction continues.

6. Vessels are to be loaded or discharged in turn as they arrive at the wharf, and as cargo is ready to be loaded into or discharged from them, except in case of emergency, such as the arrival of a vessel in a sinking or dangerous state, when a preference will be given.

7. No vessel will be allowed to occupy a berth when there is no cargo for or on board of her, unless in the judgment of the Wharfmaster the said berth is not otherwise required.

8. As soon as a vessel is discharged or loaded, or if and when she is compelled to stop work for a time, she is to be removed out of the way by the crew or owners, or by the stevedore or others, acting under the direction of the Wharfmaster.

9. Any vessel so removed will have priority for a berth over vessels arriving subsequent to such removal.

10. Steamers with a barge will not be allowed to use more than one crane so long as other vessels have cargo to load or discharge.

11. Vessels loading or discharging after sundown must provide sufficient lights on deck and in the hold to enable the stevedore to carry on the work safely and satisfactorily. Should the department provide lights, a charge of One shilling per light per hour will be payable by the vessel.

12. No steamboat, barge, or other vessel to be left at the wharf without a sufficient crew in charge; and a bright light must be shown from sunset to sunrise on all boats, barges, rafts, or other craft lying within the limits of the wharf. Any person found guilty of a breach of this bye-law shall be liable to a penalty not exceeding Five pounds.

13. It shall be the duty of the Wharfmaster, on the arrival of a vessel and as she approaches the wharf, to point out by signal the berth she is to take up. At night a red signal lamp will be exhibited to mark the position of any berth that is vacant.

14. The wharf will be adequately lighted at night when vessels are working, but if not working at the wharf, a light will be shown only on the most frequented part of the wharf, and on the stairs under the wharf leading to each vessel.

In testimony whereof the Common Seal of the Board of Land and Works was hereunto affixed in the presence of the undersigned, two of the members of the Board, on the twelfth day of September, in the year of our Lord One thousand eight hundred and seventy-eight.

Every license granted under subdivision VII. of section 47 of *The Land Act 1869* shall be subject to the conditions set forth in the schedule hereto, and to such special conditions and payment in advance of such fee as the Minister may determine, and shall be issued by an officer of the Department of Lands and Survey duly authorized on that behalf.

SCHEDULE.

1. This license shall not be deemed to prevent the land comprised therein or any part or parts thereof from being sold, leased, or licensed under any of the provisions of parts I., II., or III. of *The Land Act 1869*, except subdivision VII. of the 47th section thereof, or proclaimed a common, or occupied by virtue of any miner's right or business license, or alienated or dealt with under the authority of *The Land Act 1869*, or any other Act now or hereafter to be in force, otherwise than for pastoral or depasturing purposes, or resumed by order of the Governor, acting by and with the advice of the Executive Council, for railways, roads, telegraph lines, dams, reservoirs, races, catchwater drains, pipe-tracks, quarries, or other public purposes; and no licensee shall in any such case be entitled to compensation other than the return of such portion of the fee paid by him as the Minister may think fit.

2. If the licensee, or any person claiming an interest through or under the licensee in the land comprised in this license, shall, at any time during the period for which the license has been issued, employ any person to apply for a license of an allotment under *The Land Act 1869*, contrary to the true intent of the provisions thereof, or shall make or cause to be made any agreement or contract, or shall give or take, or cause to be given or taken, any negotiable security for the purpose of defeating or evading the provisions of, or shall in any way whatsoever, directly or indirectly, commit or be privy to a fraud upon the said Act, this license shall be void.

4. This license entitles the holder thereof during the period therein specified to use the land in respect of which the same is granted for depasturing purposes only, and does not confer any right to build thereon, or to cultivate or fence any portion thereof; but if the holder thereof desire such use of the land beyond such period, notice to that effect must be given by him to the Minister one month prior to expiry thereof.

5. The interest in this license may not be transferred without the consent of the Minister and payment of a fee of One pound (£1), and upon sanction of transfer thereof a new license will issue to the transferee.
