If at the expiration of fourteen days from the date of the receipt of such written request either party shall have failed to appoint some person who will act in their behalf as a valuator, and who will determine the amount of compensation as aforesaid, within the seven days next ensuing, then a valuator who may have been appointed by either party shall be deemed to have been appointed and may act alone on behalf of both parties. When both parties appoint a valuator, and such valutors are unable to agree to the amount of compensation to be paid, it shall be competent for such valutors to appoint a third party whom they shall mutually agree to. The decision of any valuator acting alone for both parties, or the decision of a majority of three valutors appointed as herein ordained, as regards the amount of compensation to be paid to the person or his agent using such land as aforesaid by the person occupying it for a mining purpose, shall in either case be final and conclusive to all intents and purposes whatsoever. When such valuator or valutors have ascertained the amount of compensation to be paid as aforesaid, they shall deliver their decision in writing, in the following form:—

I [or we], the undersigned, having been duly appointed to ascertain and decide upon the amount of compensation to be paid by \_\_\_\_\_, prior to his occupying for a mining purpose that piece of Crown land lawfully used by \_\_\_\_\_ situated at \_\_\_\_\_, marked by posts, and measuring \_\_\_\_\_ more or less, do hereby, in pursuance of the provisions of Bye-law \_\_\_\_\_ decide and award the amount of such compensation to be £ \_\_\_\_\_ s. \_\_\_\_\_ d. ( \_\_\_\_\_ pounds shillings and pence).

And the amount of such valuation, if any, together with the cost of estimating such value, shall, within seven days from the date of the award, be paid to the original owner or lodged with the mining registrar; and such payment or lodgment shall be a condition precedent to putting the applicant in possession of such claim.

**BYE-LAW No. 21.—GENERAL SUSPENSION.**

When any person or company requires, after three months' work has been performed on or in connection with any claim with the requisite number of men, to suspend or partly suspend operations at any time through want of funds, overflow of water, want of water, breakage of machinery, or for any other sufficient cause, which, in case of dispute, shall be settled by the warden, such person or company, or the manager or secretary of such company, duly authorized on his or their behalf, shall make a statutory declaration, setting forth the reasons for which he or they require registration of suspension; and such declaration shall be in the form in Schedule I hereunto appended; and on receipt of such declaration the registrar shall, upon ascertaining and satisfying himself that such reasons are good and sufficient, register such person or company for permission to suspend or partially suspend operations for any term not exceeding three calendar months, in the form set forth in Schedule K hereunto appended; and at the expiration of such term, such protection may be renewed for any time not exceeding three months: Provided that before any subsequent renewal of suspension shall be granted, a statutory declaration shall be produced by the applicants, and filed by the mining registrar, stating the reasons for desiring such renewal of suspension; and after the expiration of such suspension, work with the necessary number of hands shall be immediately resumed, and no subsequent suspension shall be allowed until six months' work with the full complement of men shall have been done on the claim from the date of the last suspension: Provided always that such registration shall afford no protection to the parties obtaining the same in any case where the same has been obtained through any wilful misrepresentation of facts; and should work not be resumed as hereinbefore provided, then such ground shall be deemed to be forfeited, and may be taken possession of in the manner provided for in Bye-law No. 12, except in the case of river, creek, or sluicing claims, which may be suspended during the continuance of floods or want of water.

Any person or persons having a claim or claims suspended under this bye-law shall post or cause to be posted a board not less than ten inches square with the word "Suspended" distinctly printed thereon, and the registered number of such suspension.

# BYE-LAW No. 22.—EXEMPTION FROM FORFEITURE OF CLAIMS.

1. Notwithstanding the provisions made in these bye-laws, the lawful occupant of a claim shall not be liable to any penalty, or his claim liable to forfeiture, during the time he is incapacitated from work by illness, or has to attend any court of law, or upon any urgent business; and he may further absent himself from his claim during public holidays, and during fourteen days commencing on the 22nd December in each year, without forfeiting his interest; should, however, any dispute arise as to the claim not being represented in accordance with these bye-laws, the onus of proof of the cause of absence shall lie with the claimholder.

2. *Claims not forfeited by neglect of hired workmen or tributors.*—No miner holding a claim or portion thereof, or share or interest therein, who employs hired labor to work the same, shall be deemed to have forfeited or abandoned his right, title, or interest in the same through any neglect, absence, or omission on the part of any workmen thereon employed by him; and further, no claim or portion of a claim shall be declared forfeited or be deemed to be abandoned where the same is *bond fide* worked by the number of miners required by the bye-laws now in force on tribute, that is to say, where a portion of the gross or net proceeds of the claim, as the case may be, is agreed upon to be returned by the tributator or tributors to the owner or owners of the claim, by way of tribute, rent, or royalty. And the owner or owners of such claim shall be deemed to be working the same in a *bond fide* manner as much as if they employed hired workmen for that purpose, and shall enjoy all the rights, privileges and exemptions contained in the bye-laws now in force: Provided always, that if after seven days' notice, in writing, of such neglect, absence, or omission being given to such miner, either personally or by leaving the same at his last known place of residence, or in the event of the owner or owners being absent or not to be found, and such notice having been advertised in one or more newspapers circulating in the division in which the claim is situated, such neglect, absence, or omission, if continued, said miner shall be deemed to have abandoned his claim or portion of claim, or share or interest therein, as the case may be.

## BYE-LAW No. 23.—WATER-RACES.

1. Any person intending to divert water and to cut or construct a race for mining purposes shall mark the proposed course thereof with pegs firmly fixed in the ground, three inches in diameter, and showing at least three feet above the surface, and at intervals not exceeding one hundred yards. He shall then be deemed to be in possession of such proposed course; and shall register the same within fourteen days with the mining registrar, in the form of Schedule M; but if he shall not within fourteen days from the date of such registration begin to form such race, or, having begun, shall not continue the formation thereof, he shall forfeit his title to any portion of the proposed course of the race which has not been cut or constructed; and on application being made to the warden, and the same being declared forfeited by him, the applicant may be put in possession thereof.

2. The owner of any race used for mining purposes shall be entitled to hold, in addition to the site of such race, five feet on each side thereof.

3. The head of any race cut for the purposes of diverting water from any river or creek shall not be shifted to the prejudice of any existing race.

4. The owner of any race shall build and maintain efficient bridges where any road, path, or track in ordinary use crosses such race.

## BYE-LAW No. 24.—TAIL-RACES.

The holder of any claim using a tail-race in connection with such claim shall be entitled to occupy an area, for the site of such tail-race, not exceeding one mile in length by a width of twenty-seven feet for a distance of twenty yards from the upper end of such tail-race, and a width of twelve feet for the remaining portion thereof. Nevertheless, no person shall be entitled to occupy any greater length of tail-race than is necessary for his requirements; always provided that should any other claimholder wish to use such tail-race for the same purpose, he may do so by paying the owners thereof a fair share of the cost of construction, and also by contributing a fair share of the cost of keeping said tail-race in repair.

## BYE-LAW No. 25.—GENERAL PROVISIONS FOR RACES, DRAINS, AND TAIL-RACES.

Any person or persons shall be entitled to cut and construct any race, tail-race, or drain for mining purposes through any claim or claims held by any other person or persons, or under, over, or across any other race, tail-race, or drain. Should, however, the holder of any claim through which it is proposed to construct a race, tail-race, or drain object, then the party proposing to cut such race, tail-race, or drain may do so by having the damage caused to the owner or owners of such claim by the cutting of such race, tail-race, or drain valued by two valuers; such valuers to be appointed and decide as to the amount of compensation to be paid, as provided in Bye-law No. 47.

## BYE-LAW No. 26.—RIGHTS TO DIVERT WATER.

1. Rights to divert water shall be divided into three classes, viz.:—River and creek water-rights, bank water-rights, and motive-power water-rights.

2. River and creek water-rights shall in all cases be superior to the others.

3. Bank water-rights shall be superior to motive-power rights, except in the Omeo division, where motive-power rights shall

be superior to bank-water rights if used for drainage purposes only and in connection with a river or creek claim. River and creek and motive-power water-rights, taken up in connection with a river or creek claim or machine site, shall be deemed to belong to the claim or area with which they were first occupied, and shall not be used in or extended to any other claim or machine site.

4. The superiority of water-rights of the same class shall be by priority of registration.

5. If the use of a water-right, race, tail-race, or drain be abandoned for any period exceeding one month at a time, when water is available, or during the occupation of the claim or machine site taken up for mining purposes in connection with said water-right, race, tail-race, or drain, the right shall be deemed to be forfeited, any miner may, on application to the warden, be placed in possession thereof.

6. The alteration of the course of a race at any time shall not in any way affect any water right or any privilege attached to such race.

7. If the water flowing in any river or creek is insufficient to supply all the water-rights derived from such river or creek, the owner of any water-right shall, on receipt of a water notice from the owner of any superior water-right (in form of Schedule L), cease to divert or make available to the superior water-right his supply of water, or such portion thereof as shall be necessary to make up the supply of the superior water-right, and shall not resume such diversion until a supply in excess of the quantity allowed to such superior right shall be available.

8. The holder of any water-right shall not be entitled to demand a supply of water at a higher level than is sufficient for his purposes.

9. Any person registering a water-right shall be deemed to be in the use and occupation of such water-right during the time he may be cutting or constructing the race through which the water is to flow.

## BYE-LAW No. 27.—HOW AND WHERE WATER TO BE GAUGED.

Any person or persons diverting or using water for mining purposes shall use a gauge or measurement to be called a "sluice-head," which sluice-head shall be such a quantity of water as shall pass through a box six feet long, to be placed level in the race, with an aperture sixteen inches wide and one inch deep, except in the mining registrar's division of Omeo, in which the depth shall be two inches and a quarter, with a pressure not exceeding six inches; and every person diverting and using such water as aforesaid shall cause a gate or hatch to be placed at the head of the race or at the source from which the water used by him or them is taken: Provided always that in case where water is obtained from several sources, the gate or hatch shall be placed in the race as near as possible to the head, but below the point of confluence from all the sources from which the water conveyed in the race is obtained. Within twenty-four hours after receiving a written notice (in the form of Schedule II) from any person entitled to receive a supply of water from the same source, the person or persons receiving such notice shall thereafter run such water through the above-mentioned gauge.

## BYE-LAW No. 28.—PROTECTION TO SPRINGS.

No person shall be allowed to open a drain or tunnel into any spring in the Gippsland Mining District, unless at a distance of not less than 100 yards from any drain or tunnel which may have been previously opened, and from which any occupied race derives a supply of water, unless with the consent of the owner of such last-mentioned race, drain, or tunnel.

Any spring, water-hole, or other depository of water may be reserved for domestic purposes on the following conditions, viz.:

Application shall be made to the mining registrar for the registration thereof (in the form of Schedule G) by not less than five holders of miners' rights or business licenses, and a copy of the certificate of such registration shall be posted in a conspicuous place near such water; nevertheless, any surplus water that may overflow from such reserved spring, waterhole, or other depository of water, or any water that may be in excess of the requirements of those for whose use such water is reserved, may be registered, diverted, and used for mining and other purposes.

## BYE-LAW No. 29.—CAUSING CLAIMS TO BE FLOODED PROHIBITED.

No person shall back the water of any river, creek, race, or watercourse into or upon any claim or other mining tenement, or otherwise cause the same to be flooded either wilfully or by neglect.

## BYE-LAW No. 30.—PROTECTION TO RACES AND CLAIMS.

No person shall permit any water used on or in connection with any claim or race to flow upon or into any other claim, race, or tail-race. All claimholders shall keep all tailings or sludge from their claim clear of any other claim, race, or tail-race, unless with the consent of the owner thereof.

## BYE-LAW No. 31.—REMOVAL OF TIMBER FROM ABANDONED SHAFTS AND DRIVES.

No person shall remove from any shaft, drive, or other underground works, props or supports, the removal of which may endanger that or any other adjacent mine or works.

## BYE-LAW No. 32.—SURVEYOR TO ENTER UPON CLAIMS.

It shall be imperative upon any claimholder to permit the mining surveyor, his agents or assistants, in the performance of his duties as such, to enter upon the claim, descend the shaft, and examine the underground workings, and, when required by the surveyor, to render him all reasonable assistance in so doing.

The words "worked and abandoned" for the purpose of this bye-law, shall mean all abandoned ground within 150 yards of any shafts, tunnels, or other workings, on the same line of reef upon which one or more shafts, tunnels, or other workings shall have been sunk, cut, or opened to an extent of not less than forty feet, and such workings shall be included within the area taken up as a claim under this Bye-law.

The number of shares in any company may be increased from time to time in like manner.

**BYE-LAW No. 39.—LIENS.**

The holder or holders of any registered claim, or of any share or interest therein, may grant a lien upon the same to any person or persons as security for the payment of any debt or liability which he or they may have contracted; and upon the production to the registrar of the register, or transfer, or certificate, by which the intending lienor holds such share, claim, or interest intended to be made subject to such lien, and of the lienor's miner's right, and upon the execution of a lien-ticket by a lienor and licensee, in the form of Schedule R, the said registrar shall register the said lien in the form of Schedule S, and after making such registration, he (the registrar) shall issue to the licensee a duplicate of the lien-ticket, and shall inscribe on the register, or transfer, or transfer-ticket, or certificate of lienor, the date and amount of the lien, and name of the licensee; and every such lien so effected shall be a specific charge upon such subject or lien; and when more than one lien shall be effected on the same subject, each lien shall take precedence according to their respective dates; and in the event of the sum of money named in the lien-ticket not being paid within the time named in the lien-ticket for the payment thereof, the licensee may, after making a demand in writing for payment of the sum of money aforesaid, and after advertising in three consecutive issues of some newspaper published at or circulating in the locality in which the subject of the lien is situated, cause to be sold by public auction the claim, share, or interest the subject of the lien, and may, as agent for the lienor, transfer and assign such claim, share, or interest, and may, for the purpose of effecting such transfer or assignment, sign the name of the lienor to any form or document required by the mining registrar. All such areas must be marked by a post at each angle three inches in diameter, showing at least three feet above the surface, and firmly fixed in the ground, and shall be registered with the mining registrar within seven days after taking possession, and a copy of such registration kept posted in a conspicuous part of the area until the erection of such machinery; but no person shall be entitled to occupy any such area on the supposed course of any known quartz reef. Any person having occupied any such area, and shall fail to erect any such machinery thereon within six months from the date of occupation, shall forfeit all title to such area, and on application being made to the warden, and the same being declared forfeited by him, the applicant may be put in possession thereof.

**BYE-LAW No. 41.—PROVIDING FOR NON-APPOINTMENT OF SURVEYORS OR REGISTRARS.**

In any division for which there is no registrar duly appointed, non-registration shall not be deemed a breach of these bye-laws, nor shall bar the exercise of any privilege under these bye-laws.

**BYE-LAW No. 42.—ABSENCE FROM RESIDENCE OR BUSINESS SITES.**

Any person being in lawful occupation of a registered business or residence site, and having erected thereon a dwelling-house or place of business, may absent himself for thirty consecutive days without rendering such site liable to forfeiture, and for a further period not exceeding three calendar months, provided he shall register such absence with the mining registrar and shall post a copy of the certificate of such registration on some conspicuous part of the building; such certificate shall be in the form of Schedule F. Provided that if after the expiration of the term of protection, or in the event of the same being left unprotected for thirty consecutive days, possession be not immediately resumed, such land shall be deemed to be abandoned, provided always that the previous occupier be allowed one month to remove any buildings which he may have erected thereon. Provided that where improvements have been made on any portion of such land to the extent of not less than £10, the holder thereof shall be entitled to a second exemption for a further period of six months. If the holder of any residence or business site fails to put up a building or other erection thereon, and to occupy it for the aforesaid purposes within one month from the date of his taking possession thereof, his title thereto shall be deemed to be absolutely abandoned.

**BYE-LAW No. 43.—THE FRONTAGE SYSTEM.—PROSPECTING CLAIMS.**

Dry frontage claims shall mean alluvial claims exceeding forty feet in depth, the drainage of which (if any) does not amount to twelve hundred gallons of water per twenty-four hours.

Wet frontage claims shall mean alluvial claims exceeding forty feet in depth, the drainage of which is at least twelve hundred gallons of water per twenty-four hours.

A frontage claim occupied on a supposed lead shall not exceed 100 feet in length, by a width not exceeding one mile. The holder of any such claim may defer the working thereof until the lead is discovered without rendering the claim liable to forfeiture, provided he allows the registrar to mark on his miner's right the progressive number of the claim and date of registration; and shall within two days post a notice on some conspicuous part of the claim, stating the progressive number of the claim, the name of the person registered therefor, and the date of registration; and shall, within forty-eight hours after the lead is discovered and the claims laid off by the surveyor, commence and carry on work upon the claim laid off for him in the usual manner of proper and efficient mining.

Upon the discovery of the lead, all claims previously occupied shall be deemed to be forfeited, and the holders thereof shall be entitled to occupy, in lieu thereof, claims as laid off by the surveyor according to their priority of registration, excepting where any claimholder on such undiscovered lead has sunk a shaft at least two-thirds of the depth of the prospecting shaft previous to the discovery of the lead, in which case such claimholder shall be entitled to hold the parcel in which the shaft is situated, together with the number of adjoining parcels equal to the number of men constantly employed in sinking the shaft.

The extent of ground which one miner's right shall entitle the holder thereof to take possession of and occupy on a discovered frontage lead shall be determined by the depth of the lead below the surface of the ground in the nearest shaft being worked on such lead, and in the event of none being worked, from the most reliable data obtainable, shall be in accordance with the following scale:—

On dry frontage leads where the depth of sinking exceeds—  
40 feet and does not exceed 100 feet, 50 feet on the course of the lead by a width of one mile;  
100 feet and does not exceed 150 feet, 65 feet on the course of the lead by a width of one mile;  
150 feet and does not exceed 200 feet, 75 feet on the course of the lead by a width of one mile;  
200 feet and does not exceed 250 feet, 85 feet on the course of the lead by a width of one mile;  
250 feet and does not exceed 300 feet, 95 feet on the course of the lead by a width of one mile;  
300 feet and does not exceed 350 feet, 105 feet on the course of the lead by a width of one mile;

until gold in payable quantities has been found in the claim, after which the width shall not exceed 200 yards.

On wet frontage leads, where the depth of sinking exceeds 40 feet and does not exceed 100 feet, 90 feet on the course of the lead by a width of one mile; 100 feet and not exceeding 150 feet, 110 feet on the course of the lead by a width not exceeding one mile; and so on; 30 feet being added to the length of the claim for every 50 feet additional in depth of sinking until gold in payable quantities has been found in the claim; thereupon the owners of such claim shall cease to be entitled to occupy a greater width than 600 yards on the course of the lead, for a distance of 100 yards above and below the point where gold in payable quantities shall have been found in such claim, and

shall within 48 hours from the time of the application of any person, being the holder of a miner's right, requiring them to define the boundary-lines of the reduced width of each portion of such claim, do so, in the same manner as is prescribed in Bye-law No. 5 as the mode of taking possession of claims.

On dry frontage leads no more than thirty men's ground shall under any circumstances be amalgamated and held as one claim.

On wet frontage leads no more than eighty men's ground shall under any circumstances be amalgamated and held as one claim.

**BYE-LAW No. 45.—REDEMPTION OF TITLES.**

When the owner of any claim or other mining tenement forfeits his title to such claim or mining tenement, or any portion thereof, through the non-fulfilment of any of the provisions of these bye-laws, his subsequent fulfilment of the aforesaid provisions shall redeem his title to any portion of such claim or mining tenement which may have been forfeited as aforesaid, provided no legal process has been commenced to obtain possession of such forfeited portion during the existence of the cause of forfeiture.

**BYE-LAW No. 46.—ABANDONMENT OF SHARES.**

Any person or persons holding a share or shares in a registered claim, or other mining tenement, may abandon the same, provided that previous to such abandonment the same shareholder shall pay all liabilities due in respect of such share or shares, give to his partner or partners, and also to the registrar, a notice, in writing, of his intention, and shall publish in four consecutive issues of any newspaper circulating in the district, a copy of said notice in which such claim or other mining tenement is situated; and the registrar, after having been satisfied that notice has been given in each of the ways aforesaid, shall forthwith cancel the registration by which such share has been held, and the said shareholder shall thereupon be released from all future liability in respect of such share: Provided always that such abandonment shall not be deemed or taken to interfere with, set aside, or cancel any debt, agreement, engagement, or contract which may at the date of such abandonment exist between the said shareholder and his copartner or copartners, or any debt or liability the subject of a lien upon such share or shares.

**BYE-LAW No. 47.—COMPENSATION, HOW AND WHEN MADE.**

When any person shall desire to occupy any Crown lands for a mining purpose which is lawfully and *bona fide* used as a yard, garden, cultivated field, or orchard, or upon which any house, outhouse, shed, or other building, or any artificial dam or reservoir shall be standing, upon payment of compensation as hereinafter provided, and subject to the following conditions, he may do so in accordance with the provisions of these bye-laws.

Any person desiring to occupy for a mining purpose any such Crown lands as hereinbefore mentioned, shall do so provisionally by fixing posts defining the area he desires to occupy as aforesaid, in the same manner as is prescribed for occupying claims or easements. If such person shall be prevented from fixing such posts by a person using such land as aforesaid, in such case it shall be sufficient if such person shall define the area aforesaid as near to the manner aforesaid as the circumstances will permit; and register the provisional occupation of such land with the registrar within forty-eight hours of the time of fixing such posts.

For the purpose of determining the amount of such compensation, the person or his agent using such land as aforesaid, and the person or his agent desiring to occupy such land for a mining purpose, shall each upon the receipt of a written request from either, requesting him to appoint some person to act in his behalf as a valuator, appoint some person accordingly. If at the expiration of fourteen days from the date of the receipt of such written request either party shall have failed to appoint some person who will act in their behalf as a valuator, and who will determine the amount of compensation as aforesaid, within the seven days next ensuing, then a valuator who may have been appointed by either party shall be deemed to have been appointed and may act alone on behalf of both parties. When both parties appoint a valuator, and such valutors are unable to agree to the amount of compensation to be paid, it shall be competent for such valutors to appoint a third party whom they shall mutually agree to. The decision of any valuator acting alone for both parties, or the decision of a majority of three valutors appointed as herein ordained, as regards the amount of compensation to be paid to the person or his agent using such land as aforesaid by the person occupying it for a mining purpose, shall in either case be final and conclusive to all intents and purposes whatsoever. When such valuator or valutors have ascertained the amount of compensation to be paid as aforesaid, they shall deliver their decision in writing, in the following form:—

I [or we], the undersigned, having been duly appointed to ascertain and decide upon the amount of compensation to be paid by \_\_\_\_\_, prior to his occupying for a mining purpose that piece of Crown land lawfully used by \_\_\_\_\_, situated at \_\_\_\_\_, marked by posts, and measuring more or less, do hereby, in pursuance of the provisions of bye-law \_\_\_\_\_, decide and award the amount of such compensation to be £ \_\_\_\_\_ s. \_\_\_\_\_ d. The proportion of Births to every 1000 of the population was 2.92.

The proportion of Deaths to every 1000 of the population was 1.30.

NOTE.—The Melbourne Hospital and the Gaol are in Gipps Ward; the Alfred Hospital is in Albert Ward; the Immigrants' Home is partly in Albert Ward and partly in Emerald Hill Town; the Lying-in Hospital and the Children's Hospital are in Smith Ward; the Metropolitan Lunatic Asylum is in Kew Borough; the Yarra Bend Lunatic Asylum and the Pentridge Stockade are in "Remainder of District;" the Benevolent Asylum is tabulated in Hotham Town.

\* In cases where the minus sign (—) is prefixed to any number it implies that the deaths exceeded the births by that number.

The births during the month of October of the four years ended with 1877, and the deaths, mean temperature in the shade, and mean atmospheric pressure during the same month of the ten years ended with 1877, in Melbourne and suburbs, were as follow:—

During the month of October 1878 the births of 732 children, viz., 381 boys and 351 girls, were registered in Melbourne and suburbs. In the previous month 714 births were registered, or 18 less than in the month under review.

The deaths registered in October numbered 326, viz., 187 of males and 139 of females; the births thus exceeded the deaths by 406. The deaths were less than those in September by 16, but exceeded the average of October during the previous ten years by 9. If, however, allowance be made for the increase of population, they will be found to have been less than the average of those ten years by 27.

The highest temperature in the shade recorded at Melbourne Observatory during the month was 59.6° on the 30th, and the lowest was 38.9° on the 19th. The mean temperature of the month (56.3°) was nearly 1° below the average. The greatest range of the thermometer in any one day (37.5°) took place on the 27th, viz., from a maximum of 79.5° to a minimum of 42.0°. The least range (11.0°) was on the 31st, viz., from a maximum of 59.4° to a minimum of 48.4°. The mean daily range was 21.8°. The mean atmospheric pressure (29.898 inches) was a tenth of an inch below the average.

Fifty-seven per cent. of the deaths registered during the month were of males, and 43 per cent. were of females. Twenty-seven per cent. were of children under the age of 5 years as against 39 per cent. in October 1877; 29 per cent. in October 1876; 39 per cent. in October 1875; 35 per cent. in October 1874; 37 per cent. in October 1873; 37 per cent. in October 1872; 41 per cent. in October 1871; 32 per cent. in October 1870; 40 per cent. in October 1869; and 45 per cent. in October 1868.

The deaths of 12 persons of the age of 75 years or upwards were recorded during the month, viz.:—A wood-turner, aged 75, of a cancer; a mariner, aged 75, of pulmonary abscess; two females, aged 75, of typhoid fever and old age respectively; a laborer, aged 76, of phthisis; a carpenter, aged 76, of valvular disease of the heart; a gentleman, aged 78, of fracture of the thigh; a female, aged 78, of dysentery; a builder, aged 79, of old age; a barrack-sergeant, aged 87, of apoplexy and paralysis; a laborer, aged 88, and a female, aged 90, of old age.

Of the twenty-six deaths from external causes registered during the month under review, twenty-three are entered as accidental, two as homicidal, and one as suicidal. The following are the particulars:—A male, aged 15, and a wood-leader, aged 50, died of injuries received by being thrown from carts; a draper's assistant, aged 18, of dislocation of the bones of the neck which occurred whilst running; a plumber, aged 21, of injury to the spine, and a laborer, aged 72, of fracture of the skull, both caused by falls; a baker, aged 59, of the effects of an accidental injury to the skull; a stonemason, aged 63, was found dead and is supposed to have died of fracture of the skull; a gentleman, aged 78, died of fracture of the thigh; a boy, aged 6, of an injury accidentally received; a laborer, aged 47, of lockjaw, the result of an injury to the thumb from a fall; an engineer, aged 22, of scalds, and a coachbuilder, aged 50, of burns; a female child, aged 20 months, was drowned by falling into a tub of water, a boy, aged 8, in a water-hole, and an accountant, aged 35, by falling from a yacht into Hobson's Bay; a compositor, aged 21, and a ship's painter, aged 35, were also accidentally drowned, the latter in Hobson's Bay, the former whilst bathing in the River Yarra; a female child, aged 21 months, a boy, aged 8, and a cabman, aged 42, were found drowned, the second in Hobson's Bay, and the last named in the River Yarra; two infants—a female, aged 5 months,

and a male, aged 6 months, were suffocated in bed; a female patient in the Lunatic Asylum, aged 36, was choked whilst eating. The victims to homicide (manslaughter) were a stonebreaker, aged 61, and a farmer, aged 48. The suicidal death was that of a domestic servant, aged 17, who poisoned herself with arsenic.

Seventy-eight deaths, or 24 per cent. of the whole, took place in public institutions, viz.:—47 in the Melbourne Hospital, 3 in the Immigrants' Home, 2 in the Children's Hospital, 9 in the Alfred Hospital, 1 in the Lying-in Hospital, 8 in the Benevolent Asylum, 3 in the Yarra Bend Lunatic Asylum, 2 in the Metropolitan Lunatic Asylum, 1 in the Homœopathic Hospital, 1 in the Pentridge Stockade, and 1 in the Jilka Reformatory.

The deaths of children under five years of age numbered 88, of which 51, or 58 per cent., were of males; and 37, or 42 per cent., were of females. Of those who died, 44 were under one year of age, 18 were between one and two, 9 were between two and three, 11 were between three and four, and 6 were between four and five.

The persons who died at a more advanced age than five years numbered 238. Of these, 136, or 57 per cent., were males, and 102, or 43 per cent., were females; 17 were between five and ten, 9 were between ten and fifteen, 16 were between fifteen and twenty, 13 were between twenty and twenty-five, 17 were between twenty-five and thirty, 13 were between thirty and thirty-five, 20 were between thirty-five and forty, 24 were between forty and forty-five, 25 were between forty-five and fifty, 29 were between fifty and fifty-five, 9 were between fifty-five and sixty, 13 were between sixty and sixty-five, 17 were between sixty-five and seventy, 10 were between seventy and seventy-five, 9 were between seventy-five and eighty, and 8 were upwards of eighty.

The following table shows the causes of death of persons of both sexes under and over five years of age, and the proportions per cent. of deaths from each cause in Melbourne and suburbs, during the month under review:—

The following information relating to changes in the depths and on the shores of Port Resolution, Tanna Island, caused by earthquakes, are derived from the report of a resident, furnished to Commodore A. H. Hoskins, C.B., H.M.S. *Wolverene*, senior naval officer in Australia 1878<sup>1</sup> :—

Two earthquakes have recently taken place at Port Resolution, one on the 10th January and the second on the 11th February 1878. Previous to the outbreaks the winds had been strong and variable, and the weather hot with rain; the volcano on the west side of the port throwing up huge rocks. Within the recollection of the natives no earthquake had occurred before.

At the first earthquake a new volcano burst out close to Sulphur Bay, between the bay and the old volcano. A wave about 50 feet high rose and swept the east point of the harbor and destroyed the native plantations; vast numbers of fish were left by the receding tide in the bush. The bed or bottom of the harbor at the west side rose above the water for about 100 yards in length.

At the second earthquake the bottom was again upheaved for another 50 fathom, making the entrance of the harbor very narrow. Across the harbor, a little inside the entrance, there is now a bar with only 15 feet water, where formerly there was a depth of 5 or 5½ fathoms. In some places near the shore the bottom has been raised 20 feet or even more above the water. The whole harbor is so contracted by the upheaval that it is doubtful if a large vessel could find room to swing in it.

At about a cable seaward from the west point of the entrance three rocks have been thrown up in a position where formerly there was 11 fathoms water.

A high hill near the rock named Cook's Pyramid, on the west side of the entrance, fell into the sea, and has made a new point of land; and Cook's Pyramid has been raised about 40 feet.

A patch of discolored water about a cable in extent, probably a shoal formed by the earthquakes, has since been seen about 2 miles north of the port.

On the west side of the island the shock was scarcely felt, and there was no tidal wave.

NEW BRITAIN—ST. GEORGE CHANNEL.<sup>1</sup>

Information has been received regarding obstructions to navigation in St. George Channel (between New Britain and New Ireland) caused by volcanic eruptions.<sup>2</sup>

In the month of February last three craters formed at the foot of Mother and Daughter mountains, on the east side of Blanche Bay, north-east coast of New Britain. On the 10th February a tidal-wave swept Blanche Bay, and soon afterwards an island about three quarters of a mile in diameter rose from the sea to a height of 70 feet; this island lies southward of Matupi or Henderson Island, in the entrance of the bay.

The German steam vessel *Pacific* experienced difficulty in proceeding through St. George Channel a few days after the eruption, as fields of pumice stone covered the surface of the sea. Caution is therefore necessary in navigating St. George Channel. The passage between Duke of York Island and Blanche Bay had been closed by a compact field of pumice stone 5 feet in thickness.
