THE accompanying Orders of Her Majesty the Queen in Council, which have been received by His Excellency the Governor from the Right Honorable the Secretary of State for the colonies, are published for general information.

By His Excellency's Command,
JAMES H. GRAVES,
Commissioner of Trade and Customs.
Department of Trade and Customs,
Melbourne, 14th August 1882.

AT THE COURT AT WINDSOR, THE 3RD DAY OF MAY 1882.

Present:

THE QUEEN'S MOST EXCELLENT MAJESTY IN COUNCIL.

WHEREAS by *The Merchant Shipping Act Amendment Act 1862*, it is enacted, that whenever it is made to appear to Her Majesty that the rules concerning the measurement of tonnage of merchant ships for the time being in force under the principal Act have been adopted by the Government of any foreign country and are in force in that country, it shall be lawful for Her Majesty, by Order in Council, to direct that the ships of such foreign country shall be deemed to be of the tonnage denoted in their certificates of registry or other national papers, and thereupon it shall no longer be necessary for such ships to be re-measured in any port or place in Her Majesty's dominions, but such ships shall be deemed to be of the tonnage denoted in their certificates of registry or other papers, in the same manner, to the same extent, and for the same purposes in, to, and for which the tonnage denoted in the certificates of registry of British ships is to be deemed the tonnage of such ships.

And whereas it was made to appear to Her Majesty that the rules concerning the measurement of tonnage of merchant ships now in force under *The Merchant Shipping Act 1854*, had been adopted in Sweden by the Government of His Majesty the King of Sweden and Norway, and came into force in Sweden on the 1st day of April 1875:

And whereas by order in council dated the 17th day of March 1875, Her Majesty was accordingly pleased, by and with the advice of Her Privy Council, to direct that the ships of Sweden, the certificates of Swedish nationality and registry, or the certificates of measurement of which are dated on or after the first day of April One thousand eight hundred and seventy-five, should be deemed to be of the tonnage denoted in the said certificates of Swedish nationality and registry, or certificates of measurement:

And whereas a slight difference in the mode of estimating the allowance for engine-room in Swedish ships has been introduced into the said rules, and the same came into operation on the 1st day of April 1882:

And whereas it has been made to appear to Her Majesty that the rules concerning the measurement of tonnage of merchant ships now in force under *The Merchant Shipping Act 1854*, adopted by the Government of His Majesty the King of Sweden and Norway, are, with the exception of the said slight difference in the mode of estimating the allowance for engine-room, still in force in that country:

No. 85.—AUGUST 18, 1882.—1.

Her Majesty is pleased, by and with the advice of Her Privy Council, to direct as follows:—

1. As regards sailing ships: that merchant sailing ships of Sweden the measurement whereof, after the said 1st day of April 1882, has been ascertained and denoted in the registers and other national papers of such sailing ships, testified by the date thereof, shall be deemed to be of the tonnage denoted in such registers and other national papers in the same manner, and to the same extent, and for the same purpose, in, to, and for which the tonnage denoted in the certificate of registry of British sailing ships is deemed to be the tonnage of such ships.
2. As regards steam ships: that merchant ships belonging to Sweden which are propelled by steam, or any other power requiring engine-room, the measurement whereof shall, after the said 1st day of April 1882, have been ascertained and denoted in the registers and other national papers of such steam ships, testified by the dates thereof, shall be deemed to be of the tonnage denoted in such registers or other national papers in the same manner, and to the same extent, and for the same purpose, in, to, and for which the tonnage denoted in the certificate of registry of British ships is deemed to be the tonnage of such ships; provided nevertheless, that if the owner or master of any such Swedish steam ship desires the deduction for engine-room in his ships to be estimated under the rules for engine-room measurement and deduction applicable to British ships, instead of under the Swedish rule, the engine-room shall be measured and the deduction calculated according to the British rules, and that in the event of the net registered tonnage of such steam ships, estimated under the British rule, being denoted in the said certificate of nationality and registry or measurement of Swedish steam ships, the same shall be deemed to be of the tonnage so denoted therein.

C. L. PEEL.

THE QUEEN'S MOST EXCELLENT MAJESTY IN COUNCIL.

WHEREAS by *The Merchant Shipping Act Amendment Act 1862*, it is enacted that, whenever it is made to appear to Her Majesty that the rules concerning the measurement of tonnage of merchant ships for the time being in force under the principal Act have been adopted by the Government of any foreign country, and are in force in that country, it shall be lawful for Her Majesty by Order in Council to direct that the ships of such foreign country shall be deemed to be of the tonnage denoted in their certificates of registry or other national papers, and thereupon it shall no longer be necessary for such ships to be re-measured in any port or place in Her Majesty's dominions, but such ships shall be deemed to be of the tonnage denoted in their certificates of registry or other papers, in the same manner, to the same extent, and for the same purposes, in, to and for which the tonnage denoted in the certificates of registry of British ships is to be deemed the tonnage of such ships.

And whereas it has been made to appear to Her Majesty that the rules concerning the measurement of tonnage of merchant ships now in force under *The Merchant Shipping Act 1854*, have been adopted in Hayti, by the Haitian Government:

His Excellency the Governor.
 Sir Bryan O'Loughlen, Bart. | Mr. Young

 Mr. Bent | Mr. Madden

 Mr. Graves | Mr. MacBain.

WHEREAS by *The Victorian Water Conservation Act 1881* it was amongst other things enacted that, at the expiration of two months after the notice of any application should have been first advertised in the *Government Gazette*, the Minister, if satisfied that the provisions of the now in part recited Act have been substantially complied with, should submit such application, and the general plan and description therein referred to, and all petitions which have been received in respect of such application, to the Governor in Council, together with any recommendations as to the granting of the application, or as to any alterations or additions he might think desirable in the proposed waterworks: and the Governor in Council might thereupon approve of the construction of such proposed waterworks, with or without any alterations or additions in the general plan and description thereof, or might disapprove of the construction of such waterworks, and should make an Order in Council accordingly: And it was further enacted that, if the Governor in Council should approve of the construction of such waterworks, with or without alterations, or additions, or restrictions of any such general plan and description, a Waterworks Trust should be constituted to construct, maintain, and continue the whole or any part of the waterworks therein described, in accordance with the provisions of such Order and of the now in part recited Act: and every Order approving the construction of any proposed waterworks, and of the constituting of a Waterworks Trust for the purpose, should state—

The amount of money which the Governor in Council would grant as a loan for the purpose of carrying out the same, and paying the cost and expense of the plans and application for the same; and also the rate of interest which would be charged for such loan, such rate being at least One-half per centum more than the rate payable by the Government on the Public Loan out of which such loan might be granted:

BEECHWORTH MINING DISTRICT—BYE LAWS.

At a meeting of the Mining Board for the Mining District of Beechworth, held at Beechworth, in said district, on the 22nd day of May 1882, it is ordained by the said Board as follows, that is to say:—

BYE-LAW NO. 53—ROADS OR TRAMWAYS ON OCCUPIED CROWN
LANDS.

When the owner of any claim desires to cut, construct, and use any road or tramway through or upon any Crown lands, used in connection with mining or business carried on under business license, for the purpose of working his claim and carrying on mining operations therewith, he shall be entitled to do so, and shall be subject to the same provisions and conditions as if such road or tramway were cut, constructed, and used on unoccupied Crown lands. Provided such road or tramway be cut, constructed, and used in such manner that it will not interfere with mining operations on the land or claim through which it is cut, constructed, and used. Should any dispute arise, under this bye-law, between the owner of the claim requiring the use of such road or tramway and the occupier or owner of the land or claim through which it is, or is required to be constructed or used, the same mode of determining the compensation, if any, to be paid for the use of such road or tramway, or the site thereof, shall be adopted as is prescribed in Bye-law No. 43 of this Board. Before any site for such road or tramway is pegged out or taken possession of, seven days' notice of intention to do so shall be given to the owner or occupier of the land or claim through which it is intended to cut or construct such road or tramway.

BYE-LAW NO. 54—WORKED AND ABANDONED GROUND.

All alluvial claims irrespective of depth, on worked and abandoned ground, shall not exceed the following areas, viz.:

Bank sluicing claims, 50 yards by 130 yards.

Creek or river claims, 50 yards in the direction of the course of the stream, by a width of 100 yards.

Ordinary alluvial and fontage claims shall not exceed an area of twice the size of that allowed in the new ground on the lead in which the claim is situated.

Worked and abandoned quartz claims shall not exceed 80 yards in length on the supposed course of the reef by 150 yards in width across such course.

Any person purposing to construct a tail-race and appliances, or to erect machinery for the purpose of mining such ground, may (in addition to the claims which he may be entitled to hold

under the provisions of this bye-law) temporarily occupy two extra claims of the same class for every £250, up to £2000, proposed to be invested in the construction of such tail-race or the erection of such machinery. The temporary occupation of all such extra claims must be registered with the registrar, and also the sum proposed to be invested. Where the holder of any extra claim has not, within one month from the date of occupation of such claim, *bonâ fide* commenced the construction of such tail-race or erection of such machinery, his title to such extra claim shall be deemed to be forfeited.

If at the expiration of six months from the date of occupation, two hundred and fifty pounds (£250) have not been expended in the construction of such tail-race or the erection of such machinery, all title to the temporary occupation of such extra claim shall be deemed to be forfeited; or if at the expiration of twelve months from the date of occupation of any such extra claims, five hundred pounds (£500) have not been expended, or if at the expiration of eighteen months seven hundred and fifty pounds (£750) have not been expended, or if at the expiration of two years one thousand pounds (£1000) have not been expended, or if at the expiration of two years and six months fifteen hundred pounds (£1500) have not been expended, or if at the expiration of three years from aforesaid date two thousand pounds (£2000) have not been expended in the construction of such tail-race or erection of such machinery, then all title to temporarily occupy claims in excess of two (2) for every two hundred and fifty pounds (£250) expended on the construction of such tail-race shall be deemed to be forfeited.

When mining operations shall have been commenced on any of such claims by the using of such tail-race or machinery, the construction of such tail-race or the erection of such machinery shall be deemed to be completed, and the owner thereof shall be entitled permanently to occupy two (2) extra claims for every two hundred and fifty pounds (£250), up to two thousand pounds (£2000), invested in the construction of such tail-race or erection of such machinery without employing men to represent such extra claims.

Any person who shall have expended two hundred and fifty (£250), five hundred (£500), seven hundred and fifty (£750), one thousand pounds (£1000), fifteen hundred pounds (£1500), or two thousand pounds (£2000) respectively, in constructing a tail-race or in erecting machinery for mining such ground, shall be entitled to hold (in addition to the area allowed for a claim by the bye-law under which he occupies) extra claims as provided for by this bye-law. Provided that such extra claims adjoin his original claim, and with it form one area or claim.

When any dispute shall arise under this bye-law, in reference to the title to any extra claim held, the onus of proof of the cost of the tail-race or machinery shall lie with the owner thereof.

From and after the passing of this bye-law, Bye-law No. 16 of this Board shall be and the same is hereby repealed.
