Section lines should not be too closely drawn. Black must be used for all purposes upon each drawing.

NOTICE TO MARINERS.—QUEENSLAND.

THE following Notice to Mariners, which has been received from the Portmaster, Brisbane, is published for general information.

G. D. LANGRIDGE,
Commissioner of Trade and Customs.
Department of Trade and Customs,
Melbourne, 31st January 1885.

[No. 1 of 1885.]

NEW LIGHT AT THE BACK OF THE SHIP PATCH AND ALTERATION OF COWAN COWAN LIGHT, MORETON BAY.

NOTICE is hereby given that on or about the 4th February, a new light will be exhibited from the Tangaluma Hills, at the back of the Ship Patch, at an elevation of 295 feet above the sea level. The apparatus consists of three holophotes placed vertically, and when in line with the light on Cowan Cowan Point will lead in through the North or Howe Channel in not less than 20 feet at low-water. The light will be visible from a distance of 23 miles.

On the same date the apparatus at Cowan Cowan, which is now obscured to the eastward of a S. by E. $\frac{1}{2}$ E. bearing will be visible to the eastward of that bearing.

Directions.—Vessels from the southward, after rounding Cape Moreton and entering the red sector of the Yellow Patch Light, will keep within its south-western edge until the three following lights are in sight, viz.:—The Tangaluma, Cowan Cowan, and Comboyuro Point Lights. When the Comboyuro Point Light is opened out, which will be the last of the three, a vessel will haul to the westward, pass the floating beacon, and bring the Tangaluma and Cowan Cowan Lights in line. They will then keep in that position until the Yellow Patch Light is obscured, when they will open the leading lights slightly to the westward, to clear the Spit extending south-westward from the Venus Bank, and carry that line until past Comboyuro Point, when the usual directions will be followed.

Vessels from the northward will steer for the Yellow Patch Light, being careful not to get within the north-east edge of the red sector until they have reached the eastern edge of the sector of Tangaluma Light. When on the eastern edge of the Tangaluma Light, they will enter the red sector and steer along its south-western edge as usual until Comboyuro Light opens out, when the two leading lights can be at once brought into line as previously directed.

Vessels are cautioned that the line of Cowan Cowan and Tangaluma Lights does not lead clear of the eastern edge of the North Banks.

G. P. HEATH, Commander R.N.,
Portmaster.
Department of Ports and Harbors,
Brisbane, 15th January 1885.
