AUSTRALIA—EAST COAST.

INNER ROUTE.

(1) C and D Reefs—Alteration in Beacons.

The Government of Queensland has given Notice, dated 27th
October 1884, that as the main route for navigation now lies
between c and d reefs (near Monkhouse Point) and the mainland,
the color and shape of the beacons on those reefs would shortly
be altered from red triangular to black and square.

ENDEAVOUR RIVER ENTRANCE.

(2) Grassy Hill Light—Limit of Visibility.

Also, that on and after 27th October 1884, the temporary light
on Grassy Hill, south side of Endeavour River entrance, would
be obscured southward of the bearing of W. by N. With this
light in sight, therefore, vessels will be clear of d reef and Black-
bird patch.

PRINCESS CHARLOTTE BAY.

(3) Shoal between E and G Reefs.

Also, dated 28th October 1884, that a shoal, on which the steam
vessel *Taiwan*, drawing 19 feet, is said to have struck, is reported
to lie midway between e and g reefs, Princess Charlotte Bay.

NOTE.—In consequence of the uncertain nature of this report,
placing a danger in mid-channel between e and g reefs, mariners
are recommended, pending an examination of the locality, not
to use this passage, but by day, as well as by night, to follow the
"Night course" indicated on the chart.

(The bearing is magnetic. Variation 6° Easterly in 1885.)

For the first year of service, recruits passed into the ranks between the 1st October and 31st December shall not be entitled to more than three-fourths, and recruits passed into the ranks between 1st January and 31st March shall not be entitled to more than one-half, of the amount provided for in the above scale for the financial year.

At the close of the half year ending 31st December, members of the force may receive a payment on account for the parades and drills attended during the half year. Such payment on account shall not exceed a moiety of the amount which could be earned in the whole year, and the amount so paid on account shall be deducted from the amount earned for the year. The commanding officer may deduct from such payments any fines which have been inflicted and are in arrear.

14. All combatant ranks below that of captain on the roll on the 1st July in each year, in order to be classed as effective, must attend in each year three whole days, fifteen half days, and twenty-four night drills, and undergo the prescribed course of musketry and gunnery instruction.

15. Recruits passed between the 1st July and 30th September must attend all the duties prescribed in paragraph 14, and undergo the prescribed course of musketry and gunnery instruction, in order to be classed as "effective" on the 30th June following.

Recruits passed between the 1st October and 31st December must attend two whole days, twelve half days, and twenty night drills.

Recruits passed between the 1st January and 31st March must attend one whole day, four half days, and twelve night drills.

Recruits passed between 1st April and 30th June may be classed as effective irrespective of the number of musters and drills they may attend.

16. The musters and drills of the annual courses of musketry and gunnery may be included in the above drills.

17. One whole day will be considered equal to two half days or four night drills; one half day will be considered equal to two night drills; two half days will count as one whole day; but no number of night drills will be allowed to count for day-light musters.

18. Pay will be issued to commanding officers and staff on the certificate of the commandant that they have been effective during the period for which it is claimed.

19. Whole day drills will be ordered by the commandant, who shall call at least four of such in each year on public holidays. Half day drills shall be held on half holidays.

20. If temporarily resident in another district, or should the exigencies of the service admit, a reserve man may by order of the commandant be attached to a division serving in such district, and drills done with such division shall be returned to the commanding officer, and count towards pay and effectiveness.

21. For the purpose of these regulations, the duration of drills shall be as follows:—

- A whole day drill, not less than eight hours.
- A half „ „ three hours.
- A night drill „ one and a half hours.

But should the reserve, having assembled, be dismissed through inclemency of weather or other cause before the minimum time be reached, such drill may be returned as being complete under the authority of the commandant. No member arriving after drill has commenced shall be entitled to claim payment for such drill.

22. Officers detached on special duty shall be classed as effective on having performed the duties required of them by general order.

23. Attendance at church musters or funerals shall not be allowed to count towards effectiveness, nor shall pay be granted for such attendance.

24. Extra drills, afloat and ashore, will be called, in order to allow members the opportunity of earning the maximum amount, but members will not be paid more than the maximum, even although attending a larger number of musters or drills than is required to obtain such maximum.

Arrangements will be made to transport members of the reserve to and from the drill ship free of expense. The time of drills afloat will count from the time they first embark.

25. When the commandant, or officer deputed by him, makes the annual official inspection of the reserve or a detachment thereof, every officer, warrant officer, petty officer, and seaman should be present unless prevented by sickness or urgent necessity. In the former case, a certificate from the officer in medical charge to be produced; in the latter, leave may be granted by the officer commanding, but only in urgent cases. Any member not attending such inspection is liable to a fine of £1.

26. In the event of any member becoming physically unfit for duty, the commandant may cause a medical board to assemble, to report upon such member, and upon their recommendation may deal with his case.

27. The time during which a member of the Naval Reserve is absent from drill on account of sickness or accident shall not count as part of the drill. On his being removed from the sick list, he must perform the proper term of drill required by these regulations.

28. In the event of the death of a member of the reserve, the balance of any pay which may be due to him will be paid to his legal representative.

29. Any officer who does not qualify as an effective shall not be allowed to retain his commission or warrant unless it be represented by the commandant that there are special reasons for a relaxation of this regulation.

30. Any petty officer who does not qualify as an effective shall be reduced to the position of an A.B. unless it shall appear to the commandant that there are special reasons for the relaxation of this regulation.

31. When any person is engaged in the reserve, a certificate of his engagement will be delivered to him by his commanding officer. This certificate must be taken care of, as it will constitute the proof of his title to the pay and other advantages of the service. It must be produced every time he appears at drill, in order that the requisite entries may be made.

32. All entries on certificates must be made or countersigned by an officer of the reserve.

33. If any member accidentally lose his certificate, he should make application to his commanding officer to have it renewed.

34. Subject to these regulations, no restriction is laid on the occupation of a member, whilst belonging to the reserve, provided that he complies with the conditions mentioned below, and especially with that condition which requires him to appear before some officer once every three months, unless he obtains leave of absence for a longer period.

35. Every member shall give immediate notice to his commanding officer of any change of residence, or of the place to which letters and notices are to be addressed to him.

36. In event of the reserve being called out by proclamation, every member is bound to serve in any vessel belonging to or employed by the Government of Victoria, or on shore, under penalty of being treated as a deserter.

37. When a member of the reserve, after being called out by proclamation, is released from actual service, the requisite entries of service shall be recorded in his certificate.

38. The commandant may discharge any members, other than officers, on attaining the age of fifty years.

39. A division or subdivision is not to quit the district to which it belongs unless the sanction of the commandant be previously obtained.

40. Any member who is discovered to have been, at the time of engagement, suffering from disease, or to have sustained injury which incapacitates him, and who has concealed such disease or injury, or who is discovered to have made any false representation or to have produced any false papers on the occasion of engagement, shall at once be struck off the list, and will forfeit all claim to pay or other advantages of the service.

SECTION III.—DISCIPLINE.

1. As it is desirable to keep up in all ranks a proper feeling and high sense of honour, by which the correct and willing discharge of duty will best be insured, officers of every rank should be impressed with the advantage which they individually, the reserve, and the service at large will derive from the adoption towards those under them of a system of command and treatment which shall insure respect towards superiors.

2. Officers are to adopt such a system themselves, and are to require it to be adopted by the petty officers; and the example of officers will have the effect of checking the use of improper and offensive terms on the part of the petty officers towards the men. If acts of intentional neglect or of insubordination should take place, and the means of correction and punishment authorized by the regulations of the service have to be resorted to, these measures will have double effect if not preceded by intemperate language.

3. Officers are to avoid reproving petty officers for any irregularity, neglect of duty, or awkwardness, in the presence or hearing of the men—unless it shall be necessary for the benefit of example that the reproof be public—lest their authority should be weakened or their self-respect lessened.

4. Officers are at all times accountable for the maintenance of good order and the rules of discipline of the service, and they are to afford in these respects the utmost aid and support to the commanding officer. It is their duty to take notice of, repress, and instantly report any negligence or impropriety of conduct in petty officers and men, whether on duty or off duty.

5. Deliberations or discussions, having the object of conveying praise, censure, or any mark of approbation towards superiors or any others in Her Majesty's service, are strictly prohibited, as being subversive of discipline, and an assumption of power which belongs to the Sovereign alone, or to those officers to whom the command and discipline of the force may be intrusted. Every officer will therefore be held responsible who shall allow himself

to be complimented by officers, petty officers, or men who are serving, or who have served, under his command, by means of presents of plate, swords, &c., or by any collective expression of their opinion.

6. The reserve will not assemble for any purpose unconnected with naval muster, drill, or rifle practice except with the approval of the commandant.

7. Members are not individually or collectively to attend political meetings or join in public political discussions or demonstrations in uniform. The band is not to appear in uniform except at muster or drill without the consent of the commanding officer.

8. Officers are to use their utmost vigilance to prevent members publishing information relative to the numbers, movements, or operations of the force, or any naval details; and any member will be held personally responsible for reports of this kind which he may make without special permission, or for placing the information beyond his control, so that it finds its way into unauthorized hands. Furthermore, members are forbidden to give publicity to their individual opinions in any manner tending to prejudice questions that may at the time be undergoing official investigation by the naval authorities. Anonymous complaints, and the publication through the medium of the press of anything calculated to act injuriously on the interests of the service or to excite discontent in the force, are also strictly prohibited.

9. Commanding officers shall be responsible for the discipline, drill, and instruction of those under their command, and they shall notice any infraction of the provisions of the law, or of the orders of the commandant, relating to the use of the arms, the regulations about clothing, distinctive marks of rank, discipline, and the like.

10. When members of the force belonging to one or more divisions are brought together under arms, at rifle matches, or on other occasions, either in or out of uniform, the senior officer present is to be considered as in command; and although his position in this respect does not involve any authority for his interference in the arrangements of the meeting, yet he is held responsible for the due maintenance of order and discipline among the members of the force present.

11. Disobedience of orders or disrespect shown to higher authority shall be instantly reported to the commanding officer, and it is impressed upon all ranks that discipline depends entirely upon instant obedience; so that not only must all officers see that it is always duly enforced, but petty officers failing to report any contempt or neglect of their authority will be liable to be summarily reduced. Obedience must be rendered even when it may be considered justifiable subsequently to prefer a complaint.

12. Any member may, for any offence against good order and discipline, be placed under arrest by his superior officer.

13. Arrest shall signify a suspension from all naval duty and participation in rifle shooting; and any member placed under arrest shall deliver up his arms and accoutrements to such person as his commanding officer may direct.

14. If any member, while under arms or on duty with the force to which he belongs or any portion of the force, or while engaged in any naval exercise or drill—either in uniform or plain clothes, or while going to or returning from any place of exercise or assembly—disobey any lawful order of the officer under whose command he then is or is guilty of misconduct, any superior officer may order the offender, if an officer, into arrest, and, if not an officer, into the custody of any petty officer or seaman; but so that the offender be not kept in such custody longer than during the time such portion of the force as aforesaid remains under arms or on duty. After which his case will either be disposed of by the officer commanding on the spot, or he will be suspended from duty under clause 13, and reported to higher authority.

15. Duty with any portion of the force is held to mean not only presence under arms at drill, but the performance of all duties of a naval nature in or out of uniform.

16. Officers commanding shall, immediately after drill, receive the reports of officers as to any members of the force who have misconducted themselves, and shall either deal summarily with the case or report it to a higher authority. In case of a fine, record of offence and punishment shall be made in the order book. Petty officers shall not be subject to any fine unless previously reduced.

17. If any member have cause to think himself aggrieved, he may represent his case to his commanding officer; any appeal against the decision of the commanding officer will be made through the proper channel to the commandant, and any further appeal will be made through these officers for transmission to higher authority.

18. Any member who fails to produce, for inspection, when required, any arms, accoutrements, or other property intrusted to his care may be proceeded against under the Act, and steps taken for his summary discharge, for disobedience of orders.

Every member failing to become effective shall on demand immediately return to the head-quarters of his division all arms, accoutrements, clothing, stores, &c., which may have been issued to him.

19. Any member whose services are dispensed with shall deliver up in good order, fair wear and tear only excepted, all arms, ammunition, accoutrements, clothing, or appointments, or any public stores or property issued to him, and if he refuse or neglect to comply with this regulation, he may be proceeded against under the Act.

20. When a member has been dismissed for misconduct, a notification of the fact, with the cause of dismissal, will be inserted in orders, in addition to the *Government Gazette*.

21. Members must not, under any circumstances, alter or tamper with their rifles, or use other than the authorized ammunition; and any rifle which, on inspection, may be found to have

had its lock or any other part altered or tampered with will be at once returned into store, and repaired at the expense of the member to whom such rifle was issued, and the amount of such expense will be deducted from the pay of such member.

22. Any loss, damage, or destruction of arms, accoutrements, uniform, or stores which may be traced to any member, unless caused by circumstances beyond his control, shall be made good by stoppage from his pay; or, in default thereof, proceedings against him will be instituted under the Act.

23. The commandant may summarily reduce in rank any petty officer, or may fine and dismiss any petty officer, or others below the rank of petty officer, for misconduct, or may discharge any petty officer, or others below the rank of petty officer.

24. The commanding officer shall have power to enforce fines, not exceeding the following amounts:—

(a.)	For appearing at muster or drill improperly dressed, or with clothing, arms, or accoutrements dirty	s.	d.
(b.)	Talking at muster or drills	2	6
(c.)	Inattention, and other minor irregularities	2	6
(d.)	Neglecting to notify change of address within fourteen days of such change	2	6
(e.)	Neglect of duty	5	0
(f.)	Leaving the muster or drill without permission	7	6
(g.)	Minor cases of insubordination	10	0
(h.)	Being absent without leave within the meaning of the regulations	10	0
(i.)	Drunkenness on duty, or in camp, or elsewhere in uniform	20	0
(j.)	Failing to become effective	20	0
(k.)	Being absent from the annual official inspection	20	0

All fines shall be noted in returns, and shall be appropriated according to law.

25. Every member of the reserve shall attend at least two musters or drills in each month. Any member of the reserve failing to attend the required number of musters or drills in any month, unless on leave, shall be at the end of each month deemed to have been absent without leave, within the meaning of these regulations.

26. Any member absent without leave for a period of three months shall be dismissed, unless in the opinion of the commandant there be extenuating circumstances.

27. Any member contravening the regulations under the Railway Act, with reference to the free conveyance of members of the naval and military forces, thereby renders himself liable to dismissal.

28. Fines which cannot be settled from arrears of pay in accordance with section I, paragraph II., should be recovered by the commanding officer in a court of petty sessions.

SECTION IV.—INTERIOR ECONOMY.

Officers.

1. A commanding officer is invested with authority which renders him responsible to his Sovereign and his country for the maintenance of discipline, order, and a proper system of economy in the force under his command. He is to exact from officers and men the most implicit obedience to regulations, and he is not only to enforce by command, but to encourage by example, the energetic discharge of duty.

2. He is to see that the officers are practically instructed in their duties. He will, at his discretion, direct the officers to take the command of the drill, and in his presence to exercise the force. The instruction of his men also forms a most essential part of the supervision of the commanding officer.

3. It is the duty of a commanding officer to bring specially to the notice of the commandant, through the proper channel, without favour or partiality, any officers who may be distinguished for attention to and proficiency in their duties, as well as those who, from incapacity or habitual inattention, are deficient in a knowledge of their duties, or show an indisposition to afford the commanding officer that support which he has a right to expect from them, or conduct themselves in a manner injurious to the efficiency and the credit of the force.

4. An officer in temporary command is not to give out any standing orders, or to alter those issued by the commanding officer, without a reference to him or to the commandant.

5. Commanding officers are to cause every order and circular issued for general information and guidance to be made known throughout their division or subdivision; and they are to afford all officers under their command every facility for becoming acquainted with current changes in regulations and orders. Ignorance of published orders will never be admitted as an excuse for their non-observance. All orders relating to the force are to be read and explained immediately after such orders are received, and those of an important nature are to be read on three successive musters or drills.

6. Nothing more essentially tends to the maintenance of regularity and good order than that system or chain of responsibility which should extend from the highest to the lowest grade. With this view the reserve is divided into divisions.

7. It is of importance that a commanding officer should, at all times, make himself thoroughly acquainted with the professional abilities of the whole of the officers placed under his charge, so as to assist the commandant in the appreciation of the naval acquirements of those under his command.

8. Great attention is required from commanding officers to the cleanliness of the clothing, arms, and accoutrements. The dress and appearance, as well as the demeanour of members, should on all occasions and in all situations be such as to create a respect for the service. Members must be properly dressed when going to and returning from musters or drills.

Junior officers on joining are to provide themselves with a nominal roll of their subdivision or sections, and are as soon as possible to make themselves acquainted with the disposition, character, age, and service of each of their men.

9. It is expected that every officer who has been two years in the service will be capable of commanding and exercising a division in every situation, either afloat or ashore, and will be perfectly acquainted with its interior arrangement, economy, and discipline. No officer is to be dismissed from drill until he has gone through a course of musketry instruction; and a course of singlestick, fencing, and navy signalling instruction.

10. All officers should furnish themselves with the latest edition of the Queen's Regulations and Admiralty Instructions for the Navy, The Gunnery Manual, The Regulations Victorian Naval Reserve, The Torpedo Manual, Field Exercises, Rifle and Musketry Instruction, Manual on Manufacture of Rifled Guns, Manual on Gunpowder, Manual on Ammunition Instruction, and such other books as may be directed by the commandant from time to time.

Warrant Officers.

11. All members promoted to warrant rank will receive warrants bearing the signature of the commandant.

Petty Officers.

12. All other candidates for the rank of petty officers must pass such examination as may be directed by general order before being eligible for appointment by the commanding officer.

13. Petty officers may, with their commanding officer's consent, resign their rank, and revert to the rank or position they may have previously held, but they are not allowed to do so in order to escape the consequences of misconduct without the special sanction of the commandant. A certificate of the commanding officer, stating the cause of the resignation (together with the written authority of the commandant, if the case has been referred to him as above), is to be forwarded to the commandant to be appended to the man's enrolment form.

14. Every petty officer is required to provide himself with, and to have in his possession, a copy of the Regulations for the Field Exercise and of the Gunnery Manual.

15. When additional petty officers are required, 2nd class petty officers may be appointed to act as 1st class petty officers, and men as 2nd class petty officers, who, if they prove themselves efficient, are to be promoted as vacancies occur. Such appointments not to carry extra pay.

16. Petty officers, after having served as such for five years, may be retired on the recommendation of the commanding officer.

17. All funds, effective allowances, and other moneys shall be paid to and administered by commanding officers.

18. At the commencement of each year, the commanding officer will be credited for each effective member the sum of 20s. per head, together with 30s. per head on the established strength; to be expended by the said commanding officer, on behalf of the force, on the following items:—

Clothing, not including pea-jackets.

Store-rooms.

Expenses in connexion with musters and camps.

Expenses incidental to target practice and prizes, not exceeding 15 per cent. of the effective money.

Band.

Cost of all supplies received from the Ordnance Department on repayment, or any other expenditure authorized by the Council of Defence.

19. In case of the disbandment of the reserve, any balance of the effective allowance or other funds shall lapse into the Defence vote after payment of all expenses sanctioned under these regulations.

20. Commanding officers shall be responsible to Government for the due custody and expenditure of the Government allowances, no portion of which shall pass from their control or be expended except by their direction. The Government allowances shall be kept in a special bank account, and all books and accounts connected with the expenditure thereof shall be produced when required at inspections.

21. On or before the 10th of July in each year a balance-sheet of the past year's receipts and expenditure, signed by the commanding officer, and countersigned by two other officers, must be forwarded to the Minister of Defence. No portion of the annual allowance shall be issued to any corps until such balance-sheet shall have been received by the Minister.

22. The Council of Defence shall from time to time appoint and authorize some person or persons to examine all books and accounts of any commanding officer, and report thereon.

23. Commanding officers shall furnish such guarantee as may be decided by the Governor in Council.

24. One shilling per head on the establishment of the reserve shall be deducted from the effective allowance, and the amount thereof paid to the treasurer of the Victorian Rifle Association for the support of the ranges, &c.

Band.

25. The band of the Naval Reserve is not to exceed a total strength of twenty in addition to the boys allowed to be engaged. These men are to be effective for service, to be perfectly drilled, and liable to serve in the force on any emergency. Attendance at band practice to count as drills. The commanding officer is empowered to employ supernumeraries as bandsmen in addition to the numbers authorized, provided that no portion of the cost falls upon the effective allowance.

26. The band is to be dressed the same as the reserve.

27. The following books of instruction, published by authority, are to be strictly adhered to by the reserve without additions or alterations either as regards the soundings or their application:—

"The Naval Bugle Sounds," "Instructions for the Fife," and "The Art of Beating the Drum."

28. In order to ensure uniformity, the instruments are to be of the same pitch as that adopted by the "Ancient Philharmonic Society."

29. Commanding officers are permitted to let drill-rooms belonging to their subdivisions (when not required for instruction) for purposes other than military.

All rents to be paid by the officer commanding the detachment which occupies the drill-room to the officer commanding the corps, who will apply the same for the benefit of the said corps, subject to such rateable deductions for benefit of head-quarters as he may deem advisable.

The rate of hiring to be fixed by the commanding officer.

SECTION V.—LEAVE OF ABSENCE.

1. Leave of absence, not exceeding one month, may be granted by commanding officers. Beyond this period, application must be made to the commandant through the proper channel.

SECTION VI.—COMMAND AND RANK.

1. All commands shall belong to the senior combatant officer present on duty, irrespective of the branch of the service to which he belongs.

2. Officers of the reserve shall rank with officers of Her Majesty's regular forces as juniors of their respective ranks, and rank with officers of the permanent forces of the colony according to the rank and dates of their commissions.

3. The relative precedence of officers holding commissions of the same rank and date shall be determined by date of previous commissions, and where there are none by the order in which they appear in the *Government Gazette*.

SECTION VII.—HONOURS AND SALUTES.

1. Petty officers and men in uniform shall salute His Excellency the Governor and all officers.

2. No member of the force shall be buried with naval honours, except by the express desire of his friends, notified to the commanding officer.

SECTION VIII.—COMMISSIONS AND PROMOTIONS OF OFFICERS.

1. The Council of Defence shall, on the nomination of the commandant, recommend to the Governor in Council candidates who may be considered suitable for appointment as officers in the Naval Reserve. All such candidates will be appointed on probation for six months, during which time they must pass such nautical and practical examination as may by general order be directed, failing which their commissions will not be confirmed. The time of probation, however, may be extended on the recommendation of the commandant for a period not exceeding six months.

2. Arrangements will be made for attaching officers on probation, if they desire it, to the permanent force, for instruction in their duties.

3. Officers appointed under clause 1 shall receive acting commissions.

4. All recommendations for appointments, promotions, and resignations of officers will be made by commanding officers, through the proper channel, to the commandant.

5. The appointments, promotions, and resignations of officers shall be inserted in the *Government Gazette*.

6. The appointment of honorary chaplains is allowed on the recommendation of the naval commandant.

7. Retirement of Officers.—

Warrant officers may be retired at the age of 50.

Engineers may be retired at the age of 50.

Lieutenants may be retired at the age of 45.

Commanders may be retired at the age of 50.

Captains may be retired at the age of 55.

8. Officers not under the rank of lieutenant, after ten years' commissioned service in the naval forces, may be allowed to retire with permission to retain their rank and wear their uniform.

9. Any officer applying may, on the recommendation of the commandant, be placed on the unattached list. Officers on the unattached list shall not, as such, receive any pay.

10. The services of unattached officers are at all times to be at the disposal of the commandant. Unattached officers are not to perform any duty unless ordered to do so by the commandant.

11. Before promotion to the rank of sub-lieutenant or lieutenant, candidates must pass an examination in professional subjects. Officers may, however, on the recommendation of the commandant, be promoted without passing such an examination on the condition that they do so on the first available opportunity. The promotion of officers who fail to pass the examination within a reasonable time will be cancelled.

SECTION IX.—UNIFORM.

All officers and warrant officers shall wear full dress and undress uniform of similar description and pattern in every particular to that worn in the Royal Navy, but substituting a diamond instead of the executive loop in the upper ring of the distinction lace.

Petty officers and seamen same uniform as worn in the Victorian Permanent Force, with the exception of a distinctive white piping on the outside seam of the trousers, and white piping on shoulder seams of monkey jackets.

The uniform shall be the same for classes A and B.

1. Members of the force must appear in authorized uniform, or in purely civilian dress.

Every member, excepting the commissioned officers, will be supplied with uniform, which must be kept in good condition, fair wear and tear only excepted.

SECTION X.—MEDICAL DEPARTMENT.

1. The officers of the medical department will, subject to the orders of the commandant, be detailed for duty by, and be under the immediate command of, the principal naval medical officer, both for discipline and professional supervision.

2. When on active service, or in camp, they will be employed in general station, or field hospitals, and on all such special duties in camp or on board as the principal naval medical officer may decide.

3. The regulations for the medical department of Her Majesty's Navy to be the regulations for the naval medical department in so far as they can be applied, more especially in respect to constitution, general duties, hospital organization and management, supply of surgical instruments, appliances, and materials, medicines and medical materials, medical examination of recruits, sanitary regulations, and general regulations.

4. Medical officers will be detailed for duty with the various subdivisions or divisions, and will, on the application of the commanding officer, perform, without further reference, the undermentioned duty:—

Examination of recruits on certain nights, to be fixed by the commanding officer in conjunction with the medical officer.

5. Attendance at gun and rifle practice and musters will be arranged for by the principal naval medical officer.

6. In the event of an officer being unable to attend to any of the foregoing duties, he will either make arrangements with some other medical officer to take his place (informing the commanding officer), or report to the principal naval medical officer, in sufficient time to enable him to provide for the duties.

7. The medical officers will be required to give professional attendance to the drill instructors who may be attached to the divisions at the several stations.

GOD SAVE THE QUEEN!

BRUNSWICK BOROUGH.

PETITION FOR THE ABOLITION OF WARDS.

IN pursuance of the provisions of *The Local Government Act 1874* (No. 506, sec. 46), the substance and prayer of a Petition, in accordance with the 19th, 39th, and 44th sections of the said Act, which has been presented to the Governor in Council, are published, viz.:-

The petitioners purport to be one-fourth of the persons whose names are for the time being on the municipal roll of the Borough of Brunswick, and state that they are desirous that the said borough be proclaimed an undivided municipality: and they further state that the number of ratepayers in the southern ward exceeds the number of ratepayers in the middle and northern wards combined, and as each ward returns three members to the Borough Council, the southern ward is not fairly represented.

They therefore pray that Your Excellency will make an order abolishing the wards of the Brunswick Borough, and proclaim same an undivided borough.

Notices may be served on the petitioners by addressing same to Mr. N. Stranks, Sydney road, Brunswick.

THE CHINTIN AND SPRINGFIELD FARMERS' COMMON, proclaimed by Order of the 18th February 1861, is hereby abolished.

THE SMYTHESDALE, SAGO HILL, AND CAMPBELL'S GULLY UNITED BOROUGH AND GOLDFIELD COMMON, proclaimed by Order of the 13th April 1880, is hereby diminished by deducting therefrom eighteen acres three roods fifteen perches of land, being the part of allotment 4 of section 15, parish of Cardigan, applied for by William Mansfield.—(84.2110/47.)

THE SPRINGFIELD FARMERS' COMMON, proclaimed by Order of the 18th February 1861, is hereby abolished.

THE SPRINGFIELD EAST, No. 3 CREEK, FARMERS' COMMON, proclaimed by Order of the 18th March 1861, is hereby abolished.—(85.S.32835.)

Given under my Hand and the Seal of the Colony, at Melbourne, this twenty-fourth day of March, in the year of our Lord One thousand eight hundred and eighty-five, and in the forty-eighth year of Her Majesty's reign.

TENDERS FOR GRAZING LANDS.

NOTE.—The fee for the period from 1st April 1885 to 31st December 1885 must accompany each tender.

TENDERS will be received by the Board of Land and Works up to Noon of Monday, 30th March 1885, for the occupation for Grazing purposes only of the following unappropriated portions of land, subject to the Regulations approved by the Governor in Council and also the subjoined special conditions.

Every license granted under section 119 of *The Land Act 1884* shall be subject to the conditions set forth in the schedule hereto, and to such special conditions and payment in advance of such fee as the Minister may determine, and shall be issued by an officer of the Department of Lands and Survey duly authorized in that behalf.

Conditions.

1. The issue of this license shall not prevent the land comprised therein or any part or parts thereof being sold, leased, licensed, alienated, or dealt with under any of the provisions of *The Land Act 1884*, except under the 119th section thereof, under which the license is issued, or being resumed by order of the Governor or Administrator of the Government of Victoria, with the advice of the Executive Council, for any of the purposes for which land may be reserved under section 10 of *The Land Act 1884*, or for mining purposes.

2. No licensee shall, in case of any resumption, be entitled to any compensation other than the return of such portion of the fee paid by him as the responsible Minister of the Crown for the time being administering Part XI. of *The Land Act 1884* may think fit. This license is also subject to the rights of the holders of miners' rights or of mining leases now issued or hereafter to be issued to enter upon the allotment hereby licensed, and to search for gold and to mine therein, and to erect and occupy mining plant and machinery, without making any compensation for surface or other damage.

3. No land comprised in roads from time to time surveyed and marked out within the boundaries of the land comprised in this license shall be deemed within its operation.

4. This license entitles the holder thereof, during the period for which it is granted, to use the land therein comprised for depasturing purposes only, but does not confer any right to build thereon, or to cultivate, or to fence any portion thereof.

5. If the licensee desire a renewal of this license, notice to that effect must be given to the responsible Minister aforesaid one month prior to the expiration thereof, but nothing herein contained shall be deemed to confer the right to any renewal.

6. The interest in this license may not be transferred without the consent of the Minister aforesaid and the payment of a fee of £1.

7. No claim whatever shall be made or entertained by reason of the license not being renewed or transferred.

8. This license is to be used under and in accordance with the regulations made or to be made under the provisions of the said Act and for the time being in force.

9. This license may be forfeited if the licensee commit a breach of or neglect to comply with any of these conditions.

10. The publication of a notice in the *Government Gazette* purporting to declare that the Governor or Administrator, with the advice aforesaid, has forfeited this license shall be conclusive evidence that the license is forfeited.

Special Conditions.

1. The period of occupation will be from 1st April 1885 to 31st December 1885.

2. The license fee must be paid in advance. The fee for the period from 1st January 1885 to 31st December 1885—for which the license will be issued—must accompany the tender, or be paid by the successful tenderer or his agent immediately on the declaration of the acceptance of the tender, otherwise the offer

of the next highest tenderer who may be prepared to comply with this condition may be accepted.

3. Tenders to be for so much per block per annum.
 4. Tenders to be endorsed "Tender for Block" "SG9," or "982," as the case may be.
 5. The highest or any tender not necessarily accepted.
 6. Tenderers must give their full name and ordinary postal address.
 7. The areas are given as more or less, and all appropriated, alienated, or licensed land (if any) within the boundaries is excluded.
 8. The licensee shall keep the land free from vermin.
- Plans can be seen and information may be obtained in this office.

IN pursuance of the powers conferred by "The Local Government Act 1874," the President, Councillors, and Ratepayers of the Shire of Swan Hill order as follows:—

PORTICOES, PROJECTIONS, ETC.

No. 1. The word "portico" shall mean and include every awning, portico, porch, verandah, shed, shade, or covering upon or across any public footway for the purpose of shade or shelter, together with the supports other than the building against which it shall be of such portico.

2. Subject to the provisions hereinafter contained, it shall be lawful for the owner of any house or building abutting upon any public footway to erect or place against or in front of such building and upon or across such footway such portico as such owner shall see fit.

3. Every such portico shall be supported by upright pillars or supports fixed on the outer line or kerb of the footway, and shall be in every part thereof of such height from the ground, not less than seven feet, and, with the pillars or supports thereof, shall be of such shape, figure, dimensions, and materials respectively as shall have been appointed as herein provided.

4. It shall be lawful for the council, from time to time, to make regulations for all or any of the purposes following (that is to say):—

For regulating the height from the ground of such porticoes as aforesaid.

For appointing the shape, figure, dimensions, and materials of such porticoes.

And there shall be deposited at the office of the council a plan and specification of such portico as shall be appointed in any such regulation, and such plan and specification shall be referred to in such regulation, and shall be open for inspection by any ratepayer or person interested at all reasonable times without fee or reward.

5. If before the coming into operation of this subdivision any portico shall have been erected or placed against or in front of any building and upon or across any public footway contrary to some by-law lawfully in force in that behalf, or if after such coming into operation any portico shall have been erected or placed against or in front of any building and upon or across any public footway otherwise than as shall have been appointed by some regulation to be made hereunder, or if any projecting window, balcony, step, cellar, door, or window or steps leading into any cellar or otherwise, lamp, lamp-post, lamp-iron, sign, sign-post, sign-iron, show-board, window-shutters, wall, gate, fence, or opening, or any other projection or obstruction placed or made against or in front of any building after the coming into operation of this subdivision therein, shall be an annoyance in consequence of the same projecting into or being made in or upon or endangering or rendering less commodious the passage along any footway or street, it shall be lawful for the council to give notice to the owner or occupier of such building to remove or to alter so as to conform to such regulation such portico, or to remove, or in such manner as the council shall by such notice require to alter such projection or obstruction, and such owner or occupier shall, within fourteen days after the service of such notice upon him, remove or in manner aforesaid respectively alter such portico or such projection or obstruction as aforesaid respectively, and if the owner or occupier of any such building neglect or refuse for fourteen days after such notice so served to remove such portico or such projection or obstruction, or to alter the same in manner aforesaid respectively, he shall forfeit a sum not exceeding Five pounds, and a further sum not exceeding Forty shillings for every day during which such projection or obstruction continues after the expiration of fourteen days from the time when he may be convicted of any such offence contrary to the provisions of this section.

6. If before the coming into operation of this subdivision any portico shall have been erected or placed, without violation of any by-law for the time being lawfully in force, against or in front of any building, and upon or across any public footway laid out as such hereunder or otherwise, and such portico shall not be in conformity with some regulation for the time being in force hereunder, or if any such projection or obstruction as in the last preceding section mentioned, which has been placed or made against or in front of any building before such coming into operation as aforesaid, shall be an annoyance as in the said section mentioned, it shall be lawful for the council to cause such portico to be removed or altered so as to conform to such regulation, or (as the case may be) such projection or obstruction to be removed or altered as they see fit: Provided that the council shall give notice of every such intended removal or alteration to the owner or occupier against or in front of whose building such portico, projection, or obstruction may be, seven days before such removal or alteration shall be commenced, and shall make reasonable compensation, to be ascertained and ordered if the parties differ by two justices, to every person who shall incur any loss or damage by such removal or alteration, except in cases where the portico, projection, or obstruction shall have been erected, placed, or made without lawful right, or may be removable under some other Act or law, in which case no compensation shall be made.

7. DRAINS FROM HOUSES.

8. The owner or occupier of every house or building in, adjoining, or near to any street or road, within seven days next after service of a notice by the council for that purpose, shall construct or lay from the frontage line of the allotment on which such house or building is situated to the water-channel a gutter, herein called channel, at the outer edge of the footway, and through, under, and transversely to the footway, such covered drain or trunk for carrying such water to such channel as shall be authorized or directed by some regulation in that behalf, and shall thereafter keep in good condition every such drain and trunk, and every such drain or trunk shall be constructed, laid, and repaired, subject to the inspection of such officer as the council shall have appointed in that behalf; and in default of compliance with any such notice within the period aforesaid, or with the provisions of this section, such owner or occupier shall forfeit a sum not exceeding Forty shillings for every day that he shall so make default.

9. Every owner or occupier of land in, adjoining to, or near any street or road, if such land shall be so situated that surface or storm water from or upon the same overflows or tends naturally, if not otherwise discharged, to overflow any footway of such street or road, shall, within seven days next after the service of notice by the council for that purpose, construct and lay from such point upon such land, being near to the footway, as shall be specified in such notice by plan appended or otherwise, and higher in level than the bottom of the channel at the outer edge of the footway to the said channel, and through, under, and transversely to the footway, and keep in good condition such covered drain or trunk as and subject to the like inspection as in the last preceding section mentioned respectively; and in default of compliance with any such notice within the period aforesaid, or with the provisions of this section, such owner or occupier shall forfeit a sum not exceeding Forty shillings for every day during which he shall make default.

10. It shall be lawful for the council to make regulations for all or any of the purposes following (that is to say):—For regulating the materials and the size, the level and the fall, of any drain or trunk to be laid or constructed under any footway, either absolutely or with relation to the level or fall of the footway or channel or otherwise, in like manner and so, if they please, that such size be variable within limits prescribed in the regulation, according to the discretion of such officer, as the council shall thereby direct.

CROSSINGS OVER FOOTWAYS AND CHANNELS.

11. Every person who wilfully and without lawful excuse rides or drives any horse or other animal, or drives or wheels any carriage, cart, or other vehicle upon, along, or across any footway or any water-channel or gutter herein called channel, by the side of any street or road, save in each such case upon and by or at some crossing to be made as hereinafter mentioned, shall forfeit a sum not exceeding Five pounds, and shall also pay to the council such sum, not exceeding Ten pounds, by way of compensation for any damage done by him to the footway or channel as the justice adjudicating upon the information shall on the hearing thereof order.

12. If any land shall front to, adjoin, or abut upon the footway of any street or road, and if access with horses and vehicles from such street or road to such land or to some sufficient way appurtenant thereto cannot be had without riding, driving, or wheeling the same respectively upon or across the said footway or the channel (if any) lying along the outer edge thereof, and if the owner of such land shall desire that a crossing for horses and other animals and for vehicles be made as herein provided over such footway and channel, and shall give a notice in writing of the land in question and the proposed work by reference to the specification deposited as hereinafter mentioned, such specification being in accordance with provisions hereof and with such regulation as may be in force in that behalf, it shall be lawful for such owner, after seven clear days from the giving such notice and not before (with no unnecessary delay or obstruction), at his own cost and under the inspection of such officer as the council shall have appointed for the purpose, to make such crossing according to the tenor of such notice and specification and not otherwise, and the owner of such land shall afterwards in like manner maintain the same.

13. Every such owner who desires as aforesaid that any such crossing shall be made shall, before giving notice to the council as herein provided, deposit with the municipal clerk a specification describing the proposed work with respect to each of the several matters hereby or by any such regulation in force in that behalf required or provided.

14. Unless within the period of seven days after the receipt of any such notice as aforesaid the council shall give notice to the person giving the same that (if the fact be so) such notice or the specification referred to therein and deposited is not in accordance with the provisions of such regulation as aforesaid, such notice and specification shall thereafter, so far only as affects the liability of such person to any penalty, be deemed to be in accordance therewith.

15. In streets or roads in which, at the site of any such proposed crossing, there is a kerb of stone or wood along the outer edge of the footway, the crossing so far as the footway extends shall have on both sides a kerb not higher in any part than the surface of the footway at that part, and similar in all respects to such first-mentioned kerb, and such kerb shall approach to and join the street kerbing in gentle curves outwards, and such crossings shall be of such width, and the surface thereof so far as the footway extends shall have such inclination outwards, and be depressed so far below the footway as shall have been respectively appointed by some regulation in that behalf, and shall with respect to the channel be so laid or constructed as not to raise or obstruct the same or any part thereof.

16. In streets or roads in which at the site of any such proposed crossing there is no such kerbing as in the last preceding section mentioned, the crossing over the channel shall be such suitable bridge as shall leave a free passage for the water under the same,

and shall be of such materials, form, length, size, strength, and fall as shall have been respectively appointed by some regulation in that behalf, and the surface of such crossing so far as the footway extends shall be so made good by paving, macadamising, gravelling, or otherwise, that the necessary traffic by animals or vehicles over the same shall not cause any damage thereto, but that such crossing shall be as sound and commodious for the passage of persons using the footway as the other portions of such footway adjoining such crossing.

17. No person making any crossing shall be deemed guilty of an offence by reason only of some departure in making such crossing from the notice or specification relating thereto, unless the officer of the council appointed as hereinbefore provided to inspect the making of the crossing shall have reported, in writing, such departure to the council within three days after the same shall have occurred, and unless such person, being served by the council within three days after such report with a notice so to do, shall for the space of seven clear days after such notice have failed to correct or supply such departure.

18. If any crossing shall have been made in any respect contrary to this bye-law or any regulation in force hereunder, it shall be lawful for the council, if they shall see fit, to cause the same to be altered so as to conform hereto and to such regulation respectively, and to recover in manner in "The Local Government Act 1874" provided the expenses of such alteration from the owner of the land to which such crossing shall lead; but they shall not so recover in those cases of departure from the notice or specification which the council or their officer might respectively have given notice of or reported, but failed to give notice of or report respectively in manner and within the time provided in the preceding sections hereof.

19. If any private street or road shall meet at an angle the footway of any public street or road, and there shall be no crossing upon and across such footway and the channel adjacent thereto from such private street or road, to such public street or road, it shall be lawful for the council, if they shall see fit, to make in accordance with any regulation in force in that behalf a crossing upon and over such footway and channel of the description hereinbefore provided with respect to other crossings, and to recover from the owner of each of the tenements abutting on such private street or road such portion of the expenses of such making as shall bear to the whole of such expenses the same proportion as the rateable value of such tenement bears to the whole rateable value of all the tenements so abutting.

20. If any crossing across or over any footway or channel to any land or way appurtenant thereto, or to any private street or road, shall have been made before the coming into operation of this subdivision, but shall in any respect not be in accordance with any regulation made hereunder, the council may, if they shall see fit, cause the same to be altered so as to conform to such regulation; and if such crossing shall have been made contrary to any bye-law in force at the time of making the same, the council may recover the expenses of such alteration in manner in the last two preceding sections mentioned, according as one or the other may be applicable to the case.

21. If any crossing shall be out of repair, and the person liable hereunder to maintain or repair the same shall, for seven days after notice from the council to that effect, neglect properly and completely to repair the same, he shall forfeit for every day that such crossing shall remain so unrepared a sum of forty shillings, and the council may, if they shall see fit, effect such repair and recover the same from such person before any justice.

22. It shall be lawful for the council from time to time to make regulations for all or any of the purposes following, that is to say:

For regulating the width, depression, and inclination of crossings across or over footways and channels, and the materials for making and constructing the same, the mode of laying and bedding such materials, the length, width, size, strength, and fall of bridge crossings, and the said inclination and fall, either absolutely or with relation to the levels, inclination, or fall of the footway or channel, or otherwise, in like manner.
