## POPULATION OF VICTORIA.

**Q**UARTERLY Abstract, showing the Estimated Population of Victoria on the 31st March 1886:—

First Quarter of 1886.	Males.	Females.	Males.	Females.	Total.
Births ...	3,813	3,572			
Arrivals by sea ...	17,847	7,746			
Deaths ...	2,266	1,850			
Departures by sea ...	12,591	6,390			
			21,660	11,318	32,978
			14,857	8,240	23,097
Increase during the quarter ...			6,803	3,078	9,881
Population on the 31st December 1885			529,711	462,164	991,875
Population on the 31st March 1886			536,514	465,242	1,001,756

**NOTE.**—As was predicted when the last quarterly abstract was published, the estimated population of Victoria now exceeds one million. Victoria is the first Australian colony in which this number has been reached. It is probable, however, that New South Wales will show a like estimated result about the end of April.

During the first quarter of 1886 the increase by excess of registered births over registered deaths was 3,269, viz., 1,547 males and 1,722 females; that by excess of recorded arrivals by sea over recorded departures by sea was 6,612, viz., 5,256 males and 1,356 females. The total increase of population was thus 9,881, viz., 6,803 males and 3,078 females, as shown in the table. This increase is considerably larger than that recorded in the corresponding quarter of the previous year, viz., 5,911; and is also much larger than that in the corresponding quarter of 1884, viz., 7,147. It should be stated that, whilst it is probable nearly all the deaths and arrivals by sea are noted, there is reason to believe that some births and departures by sea are not recorded; it should, moreover, be borne in mind that no account is or can be taken of persons who come and go overland. Of the excess of arrivals over departures during the quarter under review, no fewer than 3,767, or more than half, were from South Australia. Of a similar excess, amounting to 15,000, during the year 1885, as many as 6,453 were from the same colony.

CONDITIONS OF SALE OF THE RIGHT TO LEASE FOR PASTORAL ALLOTMENTS.

1. The occupation of the pastoral allotments will be offered for sale at the annual rents respectively stated and annexed to the description thereof, and the bidder of the highest sum by way of premium will be declared the purchaser, provided he shall im-

mediately pay down such sum and sign the description hereunto annexed, of the pastoral allotment of the occupation of which he shall have become the purchaser, thereby binding himself to the observance of the above and following conditions; and in default of such payment being immediately made the pastoral allotment shall again be forthwith put up to auction.

2. The annual rents determined by the Board of Land and Works to be paid in respect of these pastoral allotments will be due and payable by the purchasers, in advance, in two half-yearly moieties, on the 1st January and 1st July in every year, till the termination of the period of occupation so purchased.

3. Immediately after the biddings on each pastoral allotment are concluded, and before another allotment is put up, the name of the purchaser will be entered; by the officer conducting the sale, in the list of the descriptions of the pastoral allotments annexed to these presents. If, previous to such entry, any question or dispute shall arise between the seller and bidder, or amongst the bidders themselves, the allotment in question shall be put up for sale again. 6. Persons having affixed their signatures to the list of descriptions of the pastoral allotments annexed to these presents,

in token of their having become purchasers or agents of purchasers of the occupation of the allotments to the descriptions of which their signatures are so attached or affixed, will be held to have previously obtained all necessary information, and shall not be entitled to allege ignorance or any other cause for their not fulfilling all and every obligation incumbent upon them by these articles and conditions.

**NOTE.**—All offers and leases relative to these pastoral allotments will be held to refer to the boundaries of same as projected on the public charts, and will accordingly be described as containing an area more or less. ## CONDITIONS OF CONTRACT.

1. The Government will not be bound to order from the contractor all the articles enumerated in the schedules, but only those articles, and such quantities of those articles, as it may be found necessary to order. Should the Government, however, require a larger supply of any article than the quantity stated in the schedules, the contractor will nevertheless be bound to supply the same at contract rates.

2. The supplies are to be according to sample and of the particular manufacture indicated in the schedule of tenders. In the case of different makers' goods, the contractor will be required to supply the kind ordered. In other cases the supplies are to be the best quality of their several kinds or manufacture. A preference will, however, be given to goods of Victorian manufacture, provided the quality is equal to the particular manufacture indicated in the schedule.

3. All orders for supplies will emanate from the departments requiring the goods, and be transmitted through the Stores and Transport Department, except in the case of supplies for the Local Military Department, the Naval Forces, the Harbor Department, and for Works and Buildings. From these departments the order will be sent direct to the contractor. All orders must accompany the goods on delivery, otherwise the goods will not be received. Delivery, as a rule, is to be of the full quantity ordered.

4. Supplies ordered for delivery in Melbourne and Williamstown districts are to be delivered free of all charges (whether cartage, freight, &c.), and, for the purposes of these contracts, Melbourne district will include a radius of six miles from the General Post Office; and Williamstown district will include the town of Williamstown, Hobson's Bay, and the River Yarra.

5. Arrangements as to time of delivery and inspection of goods will be made by the officers ordering the goods.

6. Orders must receive prompt execution; and, in the event of the goods not being delivered within forty-eight hours after the contractor shall have received the order, or within such other time as the order may specify for delivery, it will be competent for the officers named in condition 5, or the head of the department to whom the goods are to be supplied, on giving the contractor twenty-four hours' notice, to purchase the supplies at the contractor's risk, and the extra expense incurred over and above the contract price (if any) will be deducted from the contractor's account.

7. The contractor will be required to furnish his account in the prescribed form simultaneously with delivery of the full quantities of goods ordered, the account being rendered with the order to which it relates. The prices quoted in the orders cannot be increased.

8. The acceptance of the supplies shall be subject to the approval of the officers issuing the orders. The contractor may, however, claim a survey on any goods objected to; but in that case he must, within twenty-four hours after objection is made, give notice thereof in writing to the officer rejecting the goods.

9. Delivery will not be deemed to have been made until the goods have been approved of. All articles rejected must be immediately replaced by the contractor, otherwise purchases will be effected at the contractor's risk, and the extra expense deducted as in condition 6.

10. The members of boards of survey will be appointed by the Treasurer of the colony for the time being, and the decision of the board is to be considered as final. If the board shall decide that the article is not of proper quality, it must be immediately replaced by the contractor, failing which it will be procured elsewhere, and the survey fees and extra expense (if any) will be charged as in condition 6.

11. A repetition of irregularity in the quantity or quality of the supplies, or of delay in delivering or replacing them when required, will subject the contractor, upon report from the Tender Board, to such mulct, not exceeding Fifty pounds, as the said Treasurer may direct, and the amount may be deducted as in condition 6, or from the contractor's security. It will also be in the power of the said Treasurer, upon such repetition, to terminate the contract forthwith.

12. In the event of the contractor failing to carry on the contract, the contract security money will in that case be absolutely forfeited, and in addition the contractor will be held liable for any loss which the Government may sustain in consequence of such failure.

13. Contractors are not at liberty to transfer their contracts under cover of power-of-attorney, coupled with an interest or otherwise, and no such transfer will be recognized by the Government.

14. It will be competent either for the contractor on his own behalf, or for the Secretary of the Tender Board on behalf of the Government, to terminate the contract, by giving notice, in writing, of three full calendar months to the opposite party, it being understood that such notice can only be given from the first day of the month, and within the period for which the contract is made, and under no other circumstances will a contractor be permitted to abandon his contract.

15. The contracts entered into under this notice are not to be considered as being broken, infringed, or vitiated by the importation of stores for the Government service, or by any contracts made by the Imperial Commissariat or the Agent-General for Victoria, or by any contracts or agreements made for any works or supplies by the Department of Public Works and Defence Department, for Rabbit Extirpation, or on account of other Governments; or by any article being made at and supplied for the use of any Government establishment; or by the consumption of the surplus stock of any Government establishment.

16. In the event of any alteration in the tariff affecting any of the items included in these contracts, the Government, or the contractor, as may be the case, will make a proportionate allowance by way of deduction from or increase of the price of the item so affected.

Treasurer.

## Private Advertisements.

In Parliament.—Session 1886.

**A BILL TO CONFER ON WILLIAM LOCKHART MORTON, OF SOUTH YARRA, NEAR MELBOURNE, GENTLEMAN, THE SOLE PRIVILEGE AND AUTHORITY OF MAKING, USING, EXERCISING, AND VENDING HIS INVENTIONS, KNOWN AS THE SHEEP-DIP AND THE SWING-GATE.**

**NOTICE** is hereby given that application is intended to be made in the ensuing Session of the Parliament of Victoria for leave to bring in a Bill to confer on William Lockhart Morton, of South Yarra, near Melbourne, gentleman, his executors, administrators, and assigns, the sole privilege and authority during the term of fourteen years of making, using, exercising, and vending the inventions hereunder described.

### THE SHEEP-DIP.

This invention consists of a water-tight tank, of any convenient length, depth, and width. It may be thirty feet long, eight feet deep, and four feet wide, more or less. The sheep yards are at one end of the tank, and at the other end there is a battened inclined plane, at an easy gradient, from the bottom of the tank up to the surface of the ground where the sheep land. Opposite to the end where the sheep land there are one or more yards with a water-tight floor so constructed that as the surplus liquid drains from the sheep it flows back into the tank. The sheep are thrown into the tank at the other end, are dipped under the surface of the liquid, are retained in the tank for any convenient time, and are then allowed to land. When the surplus liquid has drained from the sheep they are turned out. The special principle claimed for dressing sheep in large numbers in a given time is in a water-tight tank, a battened sloping landing enabling the sheep to land without handling, and a water-tight draining yard from which all surplus liquid flows back into the tank.

### THE SWING-GATE.

This invention consists in providing a lane of any convenient length and width—say twenty feet by sixteen inches, more or less—sufficient to let the sheep pass along singly. A small yard connects the lane with the main receiving yard into which the sheep to be drafted are mustered. At the other end of the lane and opposite to the centre of it a post is fixed in the ground, and on it is hung a light gate of any convenient width—say five feet, more or less. This gate extends within the open end of the narrow lane, and it can be moved only from one side to the other within the end of the lane. The post on which the gate is hung is the end of a fence dividing two enclosures. As the sheep to be drafted come along the lane towards the gate the operator stands with his hand on the gate and his eye fixed on the approaching sheep at a point from six to eight feet or more distant in the lane. He thus sees both sorts as they approach him, and by moving the gate from side to side with a gentle movement he divides the one sort from the other, and each sort enters one of the two enclosures. Three or more sorts may be drafted at one operation by providing gates opening into the lane from either side of it. Sheep are drafted without being caught or touched by hand, and as they run through at the rate of about from fifty to one hundred per minute, twenty thousand may be drafted in a morning before breakfast. The special principle claimed for drafting sheep without handling or touching them consists in providing a gateway so narrow as to allow sheep egress only in single file, with a moveable gate to divide the running single file of sheep into two sorts, whilst a long

narrow lane or race regulates the approach of the sheep and enables the man moving the gate to perceive to which sort each sheep belongs.

And at least one day before the assembling of Parliament copies of the Bill will be deposited with the Clerk of the Legislative Assembly.

Dated this seventh day of April One thousand eight hundred and eighty-six.
