JAVA, NORTH COAST.

*Bapang or Corea Shoal, northward of Pekalongan.*

FROM a survey made by H.N.M. surveying vessel *Melville van  
Carnbee*, Bapang or Corea Shoal is stated to lie in lat. 6° 34' 15"  
S., long. 109° 49' 53" E.

It is a coral-reef with large stones, extending 760 yards in an  
E.-W. direction by 545 yards in breadth, with 2 fathoms least

water and equal soundings of 3½ and 4½ fathoms near the centre,  
quickly increasing to 10 fathoms to the sides.

Close around 13 to 19 fathoms, coarse sand and fine coral, and  
more outward from 21 to 29 fathoms, mud and sand, are sounded.

From the reef, Priksa (hillock near the coast) is seen just in  
the intersection of Soembing and Sindoro slopes.

From the anchorage, S.S.E. distant 870 yards from the reef,  
sometimes green discolored water was observed, and with hard  
westerly gales a turbulent sea is breaking on this reef, though it  
is often not at all distinguished.

ANNEX TO CONTRACT NOS. 1017 AND 1018.

FITTINGS AND CONNEXIONS FOR THE DIAMOND DRILLS.

1. The contractor must provide all necessary tools and labor, and also all material where not otherwise specified in the Schedule, for fully completing all work which may be ordered, and he shall deliver such work at the nearest railway station, or at any other place not exceeding a distance of one mile from his workshop, which may be indicated by the officer in charge. Each delivery must be accompanied by an invoice or delivery note in duplicate. Delivery will not be deemed to have been made until the goods shall have been approved of by the officer in charge. The contractor shall, in every case, immediately after despatching any goods to the Department or to any of the drills, send or give notice to the officer in charge of the time of despatch, of the place where such goods have been forwarded, and the number of the order for the same; failing which being done, the contractor will be liable to have his contract cancelled without further notice, at the option of the Secretary for Mines and Water Supply.

2. The contractor will be required to furnish, in duplicate, any accounts he may have against the Mining Department in the prescribed form, accompanied by the orders for the goods, and receipts from the persons for whose use the same have been supplied.

3. The contract will be for such articles or repairs as may be ordered from the 1st July 1886 to 30th June 1887. All material and workmanship in connexion with this contract are to be of the very best description, and to be to the entire satisfaction of any officer who may be authorized by the Minister of Mines or Secretary for Mines and Water Supply to act on behalf of the Department of Mines in connexion with this contract, and such officer (herein designated the officer in charge) shall have full power to reject any articles he may deem to be not satisfactory or not in every way suitable.

4. When any order shall have been given to the contractor, he must use every despatch in getting the work done; if he do not, or if the work or material be not to the entire satisfaction of the officer in charge, it shall be optional with such officer in charge to cancel such order and get the work required done wherever he shall think fit, at the contractor's risk and expense; and any extra expense so incurred over the contract price will be deducted from any moneys due to the contractor. The officer in charge shall be the sole judge as to whether the contractor is using all necessary despatch in getting the work done, and as to whether the work or material is of the very best description. On the contractor receiving any portion of drills, machinery, or tool for repairs or otherwise from any of the drills, or from any other source, he must, in every case, send a receipt for the same to the officer in charge.

5. When any work is required that does not appear in the Schedule, offers may be obtained in the usual way without in any way infringing this contract.

6. The screw-threads exceeding one inch in diameter (except bolts and nuts) are most of them flat (not V) threads. The Department will lend the gauge-taps and nuts to the contractor for fourteen days, when the contractor must return them to the Department, having first made gauge-taps and dies for his own use. The Department will require the contractor to make standard gauges for all necessary work. These gauges must be properly stamped, and will be the property of the Government. They will be paid for at prices to be agreed on. The contractor must also make duplicate gauges for his own use and at his own expense.

7. When goods shall be ordered of a size not exceeding one-quarter of an inch over the sizes mentioned in the Schedule, the price for such goods shall not be more than that quoted in the Schedule. In cases, however, where the size required shall be more than one-quarter of an inch over the sizes mentioned in the Schedule, the price specified in the Schedule for the next larger size will be paid to the contractor.

8. It will be competent for the Secretary to the Tender Board on behalf of the Government, or the contractor on his own behalf, to terminate the contract, by giving, in writing, a notice of one month.

9. The contractor must deliver to the Department all gauges, patterns, and all old material, at least fortnightly; failing which, it will be in the power of the Secretary for Mines and Water Supply to cancel the contract without further notice.

10. The Tender Board do not bind themselves to accept any one tender only, or to give the whole of the work to any one firm. In case two tenders are accepted, in ordering the goods preference will be given to the contractor who does the work best and quickest when urgent.

Cutting ends off outside core barrel, old or new, when ordered; turning, boring, cutting screws and spiral grooves in same. (The patterns show a 1½-inch and 2-inch, one sample of single barrel complete. The 3-inch is a double barrel, complete, with springs and top couplings. The spiral grooves are correct; all barrels are from 5 to 14 feet long.)

4. This license entitles the holder thereof, during the period for which it is granted, to use the land therein comprised for depasturing purposes only, but does not confer any right to build thereon, or to cultivate, or to fence any portion thereof.

5. If the licensee desire a renewal of this license, notice to that effect must be given to the responsible Minister aforesaid one month prior to the expiration thereof, but nothing herein contained shall be deemed to confer the right to any renewal.

6. The interest in this license may not be transferred without the consent of the Minister aforesaid and the payment of a fee of £1.

7. No claim whatever shall be made or entertained by reason of this license not being renewed or transferred.

8. This license is to be used under and in accordance with the regulations made or to be made under the provisions of the said Act and for the time being in force.

9. This license may be forfeited if the licensee commit a breach of or neglect to comply with any of these conditions.

10. The publication of a notice in the *Government Gazette* purporting to declare that the Governor or Administrator, with the advice aforesaid, has forfeited this license, shall be conclusive evidence that the license is forfeited.
