ANNEX TO CONTRACTS NOS. 1730 AND 1731.

FITTINGS AND CONNECTIONS FOR THE DIAMOND DRILLS.

1. The contractor must provide all necessary tools and labor, and also all material where not otherwise specified in the Schedule, for fully completing all work which may be ordered, and he shall, as soon as finished, deliver such work at the nearest railway station, or at any other place not exceeding a distance of one mile from his workshop, which may be indicated by the officer in charge. Each delivery must be accompanied by an invoice or delivery note in duplicate. Delivery will not be deemed to have been made until the goods shall have been approved of by the officer in charge. The contractor shall, in every case, immediately after despatching any goods to the Department or to any of the drills, send or give notice to the officer in charge of the time of despatch, of the place where such goods have been forwarded, and the number of the order for the same; failing which being done, the contractor will be liable to have his contract cancelled without further notice, at the option of the Secretary for Mines.

2. The contractor will be required to furnish, in duplicate, any accounts he may have against the Mining Department in the prescribed form, accompanied by the orders for the goods, and receipts from the persons for whose use the same have been supplied; each account must include all the goods mentioned in the order.

3. The contract will be for such articles or repairs as may be ordered from the 1st July 1888 to 30th June 1889. All material and workmanship in connection with this contract are to be of the very best description, and to be to the entire satisfaction of any officer who may be authorized by the Minister of Mines or Secretary for Mines to act on behalf of the Department of Mines in connection with this contract, and such officer (herein designated the officer in charge) shall have full power to reject any articles he may deem to be not satisfactory or not in every way suitable.

4. When any order shall have been given to the contractor, he must use every despatch in getting the work done; if he do not, or if the work or material be not to the entire satisfaction of the officer in charge, it shall be optional with such officer in charge to cancel such order and get the work required done wherever he shall think fit, at the contractor's risk and expense; and any extra expense so incurred over the contract price will be deducted from any moneys due to the contractor. The officer in charge shall be the sole judge as to whether the contractor is using all necessary despatch in getting the work done, and as to whether the work or material is of the very best description. On the contractor receiving any portion of drills, machinery, or tool for repairs or otherwise from any of the drills, or from any other source, he must, in every case, send a receipt for the same to the officer in charge.

5. When any work is required that does not appear in the Schedule, offers may be obtained in the usual way without in any way infringing this contract.

6. The screw-threads exceeding one inch in diameter (except bolts and nuts) are most of them flat (not V) threads. As soon as possible after the contract is signed, the Department will lend the gauge-taps and nuts to the contractor for fourteen days, when the contractor must return them to the Department, having first made gauge-taps and dies for his own use. The Department will require the contractor to make standard gauges for all necessary work. These gauges must be properly stamped, and will be the property of the Government. They will be paid for at prices to be agreed on. The contractor must also make duplicate gauges for his own use and at his own expense.

7. When goods shall be ordered of a size not exceeding one-quarter of an inch over the sizes mentioned in the Schedule, the price for such goods shall not be more than that quoted in the Schedule. In cases, however, where the size required shall be more than one-quarter of an inch over the sizes mentioned in the Schedule, the price specified in the Schedule for the next larger size will be paid to the contractor.

8. It will be competent for the Secretary for Mines on behalf of the Government, or the contractor on his own behalf, to terminate the contract, by giving, in writing, a notice of one month.

9. The contractor must deliver to the Department all gauges, patterns, and all old material, at least fortnightly; failing which, it will be in the power of the Secretary for Mines to cancel the contract without further notice.

10. The Minister of Mines does not bind himself to give the whole of the work to any one firm. In ordering the goods preference will be given to the contractor who does the work best and quickest when urgent.
