Mines Act 1890.

APPENDIX—REGULATIONS.

At the Executive Council Chamber, Melbourne, the twenty-eighth day of July, 1890.

PRESENT:

His Excellency the Governor.

Mr. Gillies	Dr. Pearson
Mr. Deakin	Mr. Bell
Mr. Wrixon	Mr. Patterson.

WHEREAS by the *Mines Act 1890* it is enacted that the Governor in Council may from time to time make Regulations generally for carrying out the provisions of the said Act: Now therefore the Governor, with the advice of the Executive Council, doth hereby make the Regulations following, that is to say:—

REGULATIONS RELATING TO MINING LEASES.

LIMIT OF REGULATIONS.

These Regulations shall apply to the whole of the colony of Victoria.

INTERPRETATION CLAUSE.

1. In construing these Regulations, the following words and expressions shall have the meanings hereafter assigned to them, except where inconsistent with the context:—

“The Governor” shall mean the Governor of the colony for the time being, or other person for the time being administering the Government of the colony.

“The Minister of Mines” shall mean the Minister of Mines for the time being in the said colony.

“The Secretary” shall mean the Secretary for Mines for the colony.

“The warden” shall mean the warden of the gold-fields having jurisdiction over the land applied for on lease, or the greater part thereof.

“The clerk” shall mean a warden’s clerk or clerk of petty sessions.

“The lease” shall mean the lease applied for under these Regulations, whether for gold-mining or mineral purposes, on Crown lands not vested in the Board of Land and Works or the Railways Commissioners.

The “reserved lands mining lease” shall mean the lease applied for under these Regulations of mines, in, under, or upon lands granted or reserved for public purposes, and vested in the Board of Land and Works or the Railways Commissioners.

“The land” shall mean the land both on and below the surface proposed to be included in the lease; and the “surface land” only that portion of the surface of the land proposed to be included in the lease.

“The application” shall mean the application for a lease left with the warden under these Regulations, and the expressions “previous to,” “after,” or “before” the application and the like shall mean “previous to,” “after,” or “before” the time when the application for a lease is left with the warden.

“The applicant” shall mean any person or persons, corporate company or corporate companies, or other legally constituted association applying or entitled to apply for a lease under these Regulations.

The singular number shall include the plural, and the plural the singular.

The calculation of “days” for doing any act shall be exclusive of Sundays, Good Friday, and Christmas Day.

A month shall mean a calendar month.

2. Where a lease is applied for, for gold-mining purposes only, the extent of the area in the lease shall not be less than one acre nor exceed thirty acres, and in the case of a lode shall not be less than one hundred yards or exceed six hundred yards along the lode, and the width not less than fifty yards nor more than two hundred yards across the lode.

Where a lease is applied for, for purposes other than gold-mining, the area of the land shall be for the several minerals mentioned below as follows:—

For working Coal—an area not less than fifty acres or more than six hundred and forty acres.

For Ironstone or Iron Ore—an area not less than two acres or more than one hundred acres.

For Silver, Copper, Tin, and all other metals and minerals whatsoever—an area not less than one quarter of an acre or more than fifty acres.

3. All applications shall specify the metal or mineral intended to be comprised in the lease.

4. If a less or larger area than above specified in the respective cases be applied for, the warden shall not proceed to take the steps prescribed by these Regulations before he shall receive the direction of the Minister of Mines to that effect. Such direction shall be applied for by the applicant to the Minister of Mines previous to or not later than the expiration of the third day after the application has been left with the warden; and the Minister shall be at liberty to refuse or grant such direction as he may see proper; and if he shall refuse such direction the application shall be deemed to have been abandoned; but if he shall grant the same he shall direct the warden to proceed, and the application shall thereupon be proceeded with as by these Regulations directed.

REQUIREMENTS PRELIMINARY TO THE APPLICATION.

5. The applicant shall apply for a lease in manner prescribed by these Regulations, but within seven days previous to the application he shall do the following things:—

(a) Erect posts, painted white, of not less than two feet six inches above the ground, as far as circumstances and occupiers will permit, to define accurately the boundaries and angles of the land, with a metal plate, having painted thereon the words “Applied for lease” and the name of the applicant or (if more than two) the first two applicants legibly painted thereon; and should such posts at any time during the pending of the application be removed or torn down, the applicant shall from time to

- time, on learning of such removal or tearing down, replace or restore the same, so that the posts may, if possible, be kept so erected and painted until the termination of the proceedings under these Regulations.
- (b) Insert in a newspaper published in the district where the land is situated, or if no such newspaper then in one published nearest the district, an advertisement or notice in the form marked "A" in the Schedule hereto.
 - (c) Post similar notices at the office of the warden and at the post-office or police court, whichever shall appear to the applicant to be nearest the land by the ordinary road.
 - (d) Give to every person occupying the land, or having or claiming to the knowledge of the applicant to have any rights on or under the land, or any part thereof, a similar notice. It will be sufficient if this notice is given either personally or by leaving the same at the abode of such person, or by posting the same by registered letter at such time as that by ordinary course of post it will reach such person within seven days after the erection of the posts.
 - (e) Deposit with the clerk of the warden, or (if no such clerk) with the clerk of petty sessions holden nearest to the land by the ordinary road, the sum of Five pounds, to be dealt with as hereinafter provided; and such deposit may be paid in cash, or (if the applicant is unable to attend personally to pay such deposit) he may forward it by post in a registered letter by bank draft, post-office order, or postal notes; but such registered letter shall be posted so that in the ordinary course of post it shall reach the clerk by the time hereinbefore limited for the receipt of the deposit. The clerk shall thereupon give or send by post to the address given in such registered letter the receipt for such deposit set out in Schedule B hereto.
 - (f) In addition to such sum of Five pounds, the applicant shall subsequently, if required to do so by the warden, deposit such further sum or sums as may be considered necessary to cover the costs of survey in accordance with the scale of fees marked "C" in the Schedule hereto; and such deposit shall also be dealt with as hereinafter provided.

NOTE.—In the case of an application for a reserved lands mining lease the applicant shall not do the things prescribed by Sub-clause (a) above; but in all other respects the provisions of Clause 5 must be complied with.

6. The applicant shall, if able to do so, previous to the application, obtain from every person occupying the land, or having or claiming to the knowledge of the applicant to have any rights on or under the land, or any part thereof, and willing to give the same, a consent in writing, duly witnessed, to such application being granted. But if any such person shall not be willing to give such consent, he shall be at liberty to object to the lease being granted in manner hereinafter provided for objections.

APPLICATION FOR THE LEASE.

7. The applicant shall, within seven days after the advertisement as aforesaid has appeared in the newspaper, address to the Minister of Mines and leave with the warden the application in duplicate in the form set out in Schedule D. To such application there shall be appended a statutory declaration of the applicant, showing how the preliminary requirements have been complied with by such applicant or his agent or agents. He shall annex as exhibits to such statutory declaration the newspaper advertisement, the official receipt for the preliminary and other deposits, and also any consents of occupiers he may have obtained; and such statutory declaration may be in the form contained in Schedule F, or to a like effect. Such application and statutory declaration and exhibits may be left with the warden personally or his clerk, or may be forwarded to the warden through the post in a registered letter. Thereupon or as soon as practicable after the receipt of such application, the warden shall enter or cause to be entered in a book kept for the purpose a note of such application numbered in order and the day and hour when the same was left with or received by him, and shall indorse a similar note on both such duplicate applications, one of which shall be filed in his office.

APPLICATION FOR A RESERVED LANDS MINING LEASE.

8. The applicant shall, within seven days after the advertisement as aforesaid has appeared in the newspaper, address to the Governor in Council and leave with or forward to the warden as in the last preceding clause mentioned the application in duplicate in the form set out in Schedule E. To such application there shall be appended a statutory declaration and exhibits as above mentioned; and also a plan of the lands in which the mines are situate, the position of the proposed shafts, and the position and direction of the drives and other works proposed to be executed by the applicant for the purpose of mining. And the warden shall deal with such application as prescribed by Clause 7.

9. Leases shall be granted according to priority of application (unless there be reasons for a different course, of which the Governor or the Governor in Council, as the case may be, shall be the sole judge), and the priority of application shall be determined according to the time at which each application shall have been received, as indorsed on the applications; and in case of two or more applications for the same land, or any part thereof, at the same time, it shall be in the absolute discretion of the Governor or the Governor in Council, as the case may be, which application (if any) shall be granted.

OFFICIAL SURVEY.

10. On the receipt by the warden of the application, statutory declaration, and exhibits, he shall, unless otherwise instructed and except in the case of an application for a reserved lands mining lease, direct a mining surveyor to survey and make a plan of the land, and to report in writing on all matters on which the warden shall, by written instructions, require him to report; among which shall be included an inquiry as to whether the posts have been erected and kept erected, and the notices on occupiers and persons having rights on the land have been duly served as required by Rule 5, or in any and what respect not complied with, and under what circumstances.

11. The mining surveyor shall, as soon as practicable, proceed to make the survey and report in pursuance of such instructions; and if he considers it desirable he shall mark out by similar posts, painted red, the area of the surface which, in his opinion, the applicant is entitled to, and reasonably requires for the proper working of the land applied for. He shall also report to the warden whether any and what further deposit shall be paid by the applicant to the warden in respect of such marking out by red posts and survey; such estimate will be subject to the revision of the Chief Mining Surveyor.

12. Immediately after such survey is completed, the surveyor shall post on a conspicuous place on the land and also on his own office, and at the post-office or police court, whichever shall appear to him to be nearest to the land by the ordinary road, a notice in the form set out in Schedule G.

OBJECTIONS

13. Any person objecting to such application being granted (hereinafter called the objector) shall, within the time appointed by the last-mentioned notice, lodge with the warden, and serve upon the applicant (or if more than two for any two named in the application) at his or their address stated in such last-mentioned notice, a statement, in writing, of the grounds of his objections. This service may be personal, or by posting the notice of objection to the address stated in the application in a registered letter. No particular form of objection shall be necessary, so that it clearly appears whose application is objected to, and the grounds thereof, and the address of the objector, which shall be his address for all the purposes of these Regulations.

14. Each objector must, at the time of lodging the objection with the warden, deposit with the clerk of the warden, or (if no such clerk) with the clerk of petty sessions holden nearest the land, the sum of Five pounds, to be dealt with as hereinafter provided. The clerk receiving such deposit shall give a receipt in the form set out in Schedule B.

PROCEEDING TO BE OBSERVED SHOULD NO OBJECTION BE MADE TO THE APPLICATION.

15. If no objection be so lodged or served within ten days after the posting upon the ground of the last-mentioned notice, the applicant shall not be required (unless the warden shall, on the requirement of the Minister of Mines, so direct) to attend at any further inquiry, nor shall (except as aforesaid) any court of inquiry be held; but the warden shall, as soon after the expiration of such ten days as is convenient, forward to the Minister of Mines the whole of the papers, as also such statutory declaration and exhibits accompanied by the report and recommendation, as hereinafter directed.

16. The Minister may, should he think it advisable, notwithstanding that no objection be so served upon the applicant, require that an inquiry before the warden shall be held; and thereupon such proceedings shall be held as are hereinafter directed with respect to opposed applications.

DUTIES OF WARDEN RELATIVE TO OPPOSED APPLICATIONS.

17. If objections are lodged to any application, the warden shall, within four days after the expiration of the time for lodging objections, give to the applicant and objectors not less than two clear days' notice of the first court to be holden to consider such application and objections; and he shall accordingly hold such court at the time and place appointed in such notice. If there are more than two applicants in any one application, notice to any two of them shall be sufficient.

18. The warden shall at such first court, which shall be continued from day to day, or as continuously as circumstances will permit, until the adjournment hereinafter mentioned—(1st) Require evidence (to be reduced into writing by him) from the applicant that the requirements of these Regulations have been complied with by the applicant, or if not complied with in what respect and under what circumstances, and as to any other matters or things connected with such application as the warden shall think proper; and he shall (2ndly) proceed to inquire into the matters of such objections, and shall take down in writing all oral evidence given by and on behalf of the applicants and objectors with reference to such objections and all matters and things connected therewith, and mark in the usual way all documentary evidence produced, and shall take possession thereof, or of certified copies thereof. After the applicant and objectors have concluded their evidence, the warden shall then adjourn the court.

19. The mode of conducting the business of such court shall be entirely in the discretion of the warden; and such court shall be open to the public.

20. On the expiration of three clear days after the adjournment of the court, the warden shall transmit to the Minister of Mines the application, plan, report of mining surveyor, objections (if any), evidence (written and documentary), and all other writings relating to the application, with his observations and opinion thereon.

21. The applicant and objectors shall be entitled to take copies of or make extracts from any of the particulars mentioned in the preceding rule before the same are transmitted to the Minister of Mines.

22. The Minister of Mines shall, as soon as practicable after receiving the particulars aforesaid, notify to the warden whether or not the particulars so transmitted to him are sufficient; and whenever the Minister of Mines shall notify that the same are sufficient, the warden shall, immediately on the receipt of such notification, post at the place where the first court was held a notice to the effect that the court in the matter of such application is closed.

23. In case the Minister of Mines shall be of opinion that the particulars so transmitted to him are not sufficient, he may take all or any of the following courses, one before another, in any order, and as often as he shall see fit, before the court is closed, as hereinafter directed:—

- (a) State to the warden on what matters or things the particulars aforesaid, or anything connected therewith, are not sufficient; and may require further observations from the warden respecting such matters and things, with his opinion thereon, and his reasons for such opinion.
- (b) Require the mining surveyor who made the previous plan and report, or any other mining surveyor instructed by him for that purpose, to make a further plan or report, or both, as to the land or any part thereof and as to any matters or things the Minister of Mines may think fit connected with the application.
- (c) Direct the warden to hold an adjourned court for inquiry as to the application and objections (if any), and as to any matters or things connected therewith, such matters and things to be specified in the direction to hold the court.

24. The warden shall, immediately on the receipt of such last-mentioned direction, and as often as such direction shall be received, give the same notices of an adjourned court as hereinbefore required for the first court, and in addition thereto he shall notify to the applicant and objectors (if any, whom it may in his opinion concern) the matters and things respecting which such adjourned court is to be held.

25. At and after such adjourned court, and every adjourned court directed by the Minister of Mines, the duties of the warden shall be the same as at and after the first court, except that the matters and things for inquiry at each adjourned court respectively shall be the matters and things specified in the direction of the Minister of Mines to hold each adjourned court.

26. After the Minister of Mines is satisfied, by all or any of the courses aforesaid, that the particulars transmitted to him are sufficient, he shall notify such fact to the warden; who shall on receipt thereof, or as soon thereafter as practicable, post the notice hereinbefore directed in that event by Clause 22.

27. The applicant (or if there shall be two or more, any one applicant named in the application) shall be bound to attend the first court and all adjournments thereof (if any), either by himself or themselves, and may be heard by his or their counsel solicitor or agent; but nothing in the rule shall be deemed to prevent all the applicants from attending personally or being heard by their counsel solicitors or agents. The warden shall note in the evidence the absence of any party hereby bound to appear, and shall inquire into the truth of any excuse offered for such absence, which shall likewise be entered in the evidence. Any objector, whether served with notice of any adjourned court or not, may adduce evidence on the matter or things directed to be inquired into thereat.

28. The Minister of Mines will, as soon as practicable after having satisfied himself that the particulars and matters aforesaid are sufficient, submit the application with all the particulars and materials aforesaid to the Governor or the Governor in Council, as the case may require, who will, on consideration thereof and of all circumstances connected therewith, refuse such application or grant the same as he shall see fit. Provided that in granting such application it shall be lawful for the Governor or the Governor in Council, as the case may be, to determine whether the whole or what part of the land shall be included in such lease, and to define the same accordingly, and also to alter as he sees fit any of the other terms proposed in the application. The lease to be granted in pursuance of the determination of the Governor or the Governor in Council, as the case may be, shall not be issued until after the expiration of one month from the time of a notice of the intention to issue the same appearing in the *Government Gazette* and in some newspaper circulating in the district within which the land is situate.

29. If the Governor or the Governor in Council, as the case may be, shall refuse to grant a lease, the application shall be deemed to be abandoned; and such abandonment shall take effect from the date of the notice of such refusal appearing in the *Gazette*, as provided in that event by these Regulations.

30. If the Governor or the Governor in Council, as the case may be, shall determine to grant a lease of the land or any part thereof, such lease will, after the expiration of the last-mentioned month, be forwarded to the warden, who on the receipt thereof shall notify such fact to the applicant.

31. Before executing the said lease the applicant shall pay to the receiver of Crown revenue the sum of One pound as a fee for the preparation of the lease, and shall also pay the half-year's rent then due as reserved in the said lease, and shall produce receipts for such payments to the warden before executing the lease; and unless so produced, and also unless Rule 42 has been complied with, the warden shall not allow such lease to be executed; but the applicant shall, after complying with the requirements aforesaid, be permitted by the warden to execute the lease.

32. Every successful applicant for a lease shall execute the same; and such lease shall, after it has been registered as hereinafter provided, be delivered to the applicant or his order, or if more than one applicant to such of them who shall execute the lease as the warden shall think fit.

33. Unless the applicant execute the lease within a period of sixty days from the date of the publication in the *Government Gazette* of a notification that the lease is awaiting execution, the Governor in Council may immediately after the expiration of the period named declare the lease void.

34. All gold-mining leases (except reserved lands mining leases) shall be in the form or to the effect contained in Schedule H, with such modifications, alterations, or additions as the circumstances of the case may require.

- (a) All mineral leases—i.e., leases for mining for any metal or mineral other than gold—shall be in the form or to the effect contained in Schedule J, with such modifications, alterations, or additions, as aforesaid.
- (b) All reserved lands mining leases shall be in the form or to the effect contained in Schedule K, with such modifications, alterations, or additions as aforesaid.
- (c) Where the lease is granted for any one or more minerals other than gold, the rent reserved shall be at such rate not being less than Threepence per acre nor more than Five pounds per acre, and so on in proportion for any less quantity as the Minister of Mines may require.

35. The Governor or the Governor in Council, as the case may be, shall have power at any time during the progress of the application, and before the lease shall be executed by him, to declare by writing under his hand that the application is abandoned, and after the lease has been executed by him, and before its execution by the applicant, that such lease is void; and thereupon the Secretary shall publish in the *Government Gazette* a notice to the effect that the application of [naming him], dated _____ day of _____ 189 , for a lease of the land [describing it as in the application] was abandoned, or the lease executed by the Governor, dated the _____ day of _____ 189 , between Her Majesty the Queen and [the applicant] of the land [describing it as in the lease] is void, as the case may be. This rule shall apply to reserved lands mining leases as well as to leases for gold-mining purposes and mineral purposes.

36. The Secretary shall publish in the *Gazette* a similar notice to that mentioned in the preceding rule in every case where by these Regulations the applicant is stated to have abandoned, or to be deemed to have abandoned, his application, or the lease is stated to be void or to be deemed void.

37. The first half-year's rent reserved on the lease shall be deemed to have accrued on the day of the date of the lease, and shall be paid before the lease is executed by the applicant.

38. PERSONS OCCUPYING THE LAND UNDER THE "MINES ACT 1890"
CLAIMING COMPENSATION (CALLED CLAIMANTS).

40. Every person occupying the land or any part thereof under any licence or right derived under the *Mines Act 1890* (hereafter called the claimant), whether he shall or shall not lodge an objection under Clause 13, shall be entitled to be compensated by the applicant for any buildings or improvements, or both, made by him, or some one under whom he claims, on the land previous to the application; and unless the applicant and such claimant shall agree on the amount of such compensation, the claimant shall send in a claim to the warden, who shall determine the same, and also as to whether the claimant is in lawful occupation of the land, or any part thereof, under the said Statute, at such time and place as he shall appoint, of which one clear day's notice shall be given to the applicant and claimant. Notice of any such agreement shall be given by the claimant to the warden, and in case he shall not give such notice he shall not be entitled to the benefit of Clause 42.

41. The warden shall, at the time and place (whether or not the applicant and claimant or one or neither of them attend), proceed to inquire into the matter of the claim; and shall, as soon as practicable thereafter, make his award in respect of such claimants as shall appear to him to be entitled to compensation. Such award shall be in the form marked "L." in the Schedule hereto, and shall be delivered by him to the claimant. If the warden shall be of opinion that the claimant is not entitled to compensation, he shall post a notice to that effect on some conspicuous part of his court.

42. The warden shall not allow the applicant, and the applicant shall not be entitled, to execute the lease as provided by these Regulations unless and until the warden has been satisfied that the applicant has paid, or satisfied, or tendered the compensations agreed or awarded (as the case may be) to be paid to such claimants as shall occupy the land, or any part thereof, contained in the proposed lease.

AS TO THE DEPOSITS.

43. The applicant's deposit shall be subject to any orders which the Minister of Mines or the warden may at any time or from time to time after the same is deposited make for the payment thereof of any costs to the Crown, the objectors, or any other person; and the clerk with whom the same is deposited shall pay thereof such sums as shall by written order be directed to the persons named in any such order; and if any balance remains, the same or, if no costs are so ordered to be paid thereof, the whole thereof shall, unless the Minister shall otherwise direct, be paid to the applicant or, if more than one, to such one or more of them as shall apply to the warden for the same after the execution of the lease or after the notice of the refusal or abandonment of the application appearing in the *Government Gazette* as by these Regulations directed, but not before. The whole deposit or any balance remaining after the payment of expenses shall be liable to be forfeited and paid into the revenue if the application is abandoned by the applicant, or if the lease applied for is refused because the applicant has applied for land lawfully held by other persons who have not consented to the issue of a lease, or if the applicant refuses or neglects to execute the lease within the time specified in these Regulations.

44. The deposit of Five pounds made by the objector shall in like manner be subject to the orders of the Minister of Mines or of the warden for the payment of any costs thereof either to the Crown, the applicant, or any other person, to be made at any time after the same is deposited and before the expiration of thirty days from the court being closed, as by these Regulations provided; and the balance (if any) or the whole thereof (if no costs ordered to be paid thereof within the time aforesaid) shall, upon application to the warden, be returned to the objector who deposited the same.

MISCELLANEOUS RULES.

45. Upon receiving from the warden any application for a reserved lands mining lease, the Minister shall, if he think fit, cause the same and the documents accompanying it to be submitted to the Governor in Council and the Board of Land and Works, or to the Victorian Railways Commissioners if such land be vested in such Commissioners, who shall determine—

Whether to grant such application subject to any and what covenants, clauses, stipulations, restrictions, and conditions, or whether to refuse such application, and to determine what sum of money (if any) ought to be paid by the applicant as compensation for damage to the lands on which the mines are situate, and what security (if any) shall be given by the applicant to make good any damage that may result from his mining beyond that for which such sum to be paid as aforesaid shall be a sufficient compensation.

46. Whenever the Governor in Council shall order a lease to issue under these Regulations, the Minister shall cause such lease to be prepared and submitted to the Board of Land and Works, or to the Victorian Railways Commissioners if such land be vested in such Commissioners, for their approval; and no lease shall be executed by any applicant until such approval has been obtained.

47. Any applicant may at any time withdraw his application by giving notice to the warden that he so withdraws, and thereupon the application shall be deemed to be abandoned.

48. If any party or parties in whom the legal interest in the term granted by the lease as issued by the Governor shall for the time being be vested shall be desirous of working and winning additional metals or minerals than those specified in the lease, and which may be found in the land comprised in such lease, he or they shall apply to the Minister of Mines, through the warden, for a licence so to do; and, if granted, such licence shall be at the rents and royalties thereby specified, and in the form set out in Schedule P hereto, or with such modifications and additions as the Minister of Mines shall think fit.

49. If the applicant is out of the colony he may comply with these Regulations or any part of them by his attorney; and if by attorney such attorney shall be constituted by the execution of a power-of-attorney for that purpose in the form or to the effect set out in Schedule M hereto annexed, or in such other form as shall in the opinion of the Minister of Mines be sufficient for the purpose; and such attorney shall be bound to comply with these Regulations in all respects as the applicant would have been if personally present. Such power shall be filed as hereinafter provided, and a certified copy thereof, together with the Registrar-General's receipt for the original power-of-attorney, shall be left with the warden.

50. Any person or persons being the lawful holder or holders of the lease granted by the Governor, except any person or persons who by operation of law shall be entitled to sell or dispose of such lease for the benefit of creditors or a creditor, in which case no licence shall be necessary, shall (if desirous of so doing) apply to the Minister of Mines for a licence, under the hand and seal of the Governor, to transfer, underlet, mortgage, or otherwise dispose of or encumber such lease, or the premises comprised therein, or any part or parts thereof; and it shall be lawful for the Governor to grant or refuse such application. Every such application must be accompanied with a remittance of One pound, which will be returned if the application be refused. Unless the person or persons so applying is or are the legal holder or holders of the lease, such licence, if granted, shall have no effect. Such licence if granted shall be in the form set out in Schedule N hereto annexed, or as near thereto as practicable.

51. These Regulations are subject to the special powers vested in the Governor in Council by the 79th section of the *Mines Act* 1890 on the occasion of granting any particular lease.

REGISTRATION OF LEASE.

52. The lease, and every transfer, sub-lease, mortgage, or encumbrance thereof, or any part or parts of the premises comprised therein, shall be registered, and every power-of-attorney authorized by Clause 49 shall be filed in manner provided by law for the registration and filing of similar instruments in the colony; and the fees to be paid on such registration and filing, and the duties of persons conducting the same, shall be the same as in ordinary cases of a similar nature.

HOLDERS OF MINERS' RIGHTS MAY APPLY FOR LAND LEASED FOR GOLD-MINING PURPOSES UPON A BREACH OF THE COVENANTS OR CONDITIONS OF LEASE.

53. If the lessee or lessees of any land demised for gold-mining purposes (except land vested in the Board of Land and Works or the Railways Commissioners) his or their or its successors, executors, administrators, or transferees shall commit a breach of any of the covenants of such lease, it shall be lawful for the holder or holders of a miner's right or rights to apply to the Minister of Mines in the form set out in Schedule O hereto; and if such application shall be made, and the person or persons so applying shall lodge with or forward to the clerk of the warden the sum of Five pounds sterling for costs, the Minister of Mines may if he think fit refer the said application to the warden, with directions to hold a public inquiry concerning the alleged breach.

54. The warden shall give such notice to the parties as he shall think necessary, and on failure of either party to attend him he may proceed *ex parte*; and on such inquiry shall hear and examine the parties and their witnesses, and shall reduce their evidence to writing and shall forward the same together with a report thereon to the Minister of Mines; and on any such hearing the warden may allow, in his discretion, to the lessees or lessee, their, his, or its successors, executors, administrators, or transferees, costs not exceeding Five pounds, to be taken out of the deposit made by the person or persons so applying as aforesaid.

55. If the Minister of Mines, after perusing such report, shall be of opinion that any breach of any of the covenants or conditions of the lease has been committed, and that the lease should be forfeited, he shall submit the matter for the judgment and determination of the Governor in Council.

56. If the Governor in Council shall declare the lease to be void, it shall be lawful for the Governor, in the name and on behalf of Her Majesty, but subject to section 69 of the *Mines Act* 1890, to grant to the person or persons so applying a lease of the whole or any portion of the land held under the determined lease, for such term, not exceeding fifteen years, as the Governor shall think fit.

57. In the event of the lease being declared void, the former lessees may, at any time within forty days after the publication of the declaration in the *Government Gazette* that the lease has been declared void, remove any plant, machinery, engines, or tools on the land so held under the determined lease, but no timber used in and for supporting the shafts, drives, galleries, or adits in the mine.

58. When any application under Clause 53 of the said Regulations has been referred to the warden, the warden shall also inquire respecting the value to the holder or holders of a miner's right or rights making such application for any work or labour then done on, or within, or beneath the leased land and premises which, in the warden's opinion, is available for or necessary to any future mining operations; and in case the lease shall be forfeited and declared void, the said holder or holders of a miner's right or rights making the said application under Clause 53 of the said Regulations shall not receive a lease of the land applied for until he or they shall have deposited with the warden for payment to the person or persons entitled to the former lease the amount found by the warden as the value of the said work and labour. Provided that no sum shall be allowed or paid for any such work or labour in any case where it is proved to the satisfaction of the warden that the lessee or lessees, his or their executors, administrators, or transferees have neglected to fulfil the covenants of the lease for a period of twelve months previous to the said application having been made by the holder or holders of a miner's right or rights.

59. If any applicant shall make default in proceeding in accordance with these Regulations, the Minister may, by an order under his hand, declare the application abandoned, and cause to be published in the *Government Gazette* a notice to that effect, and after the publication of any such notice such applicant shall not be entitled to proceed with his application. Provided that, in any case where an applicant appears at an inquiry by an agent or gives sufficient reasons in writing on or before the day on which the inquiry is to be held why he cannot appear, his application shall be proceeded with at such times and places as the warden may think fit.

60. These Regulations shall come into force at the end of twenty-one days after the same shall have been published in the *Government Gazette*; but they shall not apply to or in any way affect any application for a lease made and not determined at the time of the coming into operation of these Regulations, but such application may be carried on and determined as if these Regulations had not been made.

5. Upon the receipt by the warden of such application and copies, and of the receipt for the money to be deposited as aforesaid, the said warden shall give to a mining surveyor one of the said copies, and shall direct such surveyor to proceed to the proposed site of the race, drain, dam, or reservoir, and survey the same, and furnish such warden with a report in relation to the said application; such report shall contain a description of such site, and a statement as to the intended course of such race or drain, and the intended area and boundaries of such dam or reservoir, the probable supply of water for such race or reservoir, the plan proposed for obtaining such supply, whether it is proposed to take or divert water from any and what source or sources of supply, and if so, setting forth in what quantity and how far the points of diversion, return, and conveyance in the next preceding clause hereof mentioned, or any of them, are, or is, fit and proper, whether the same or any of them should be disallowed or altered; and if so, the reason of such surveyor therefor; and whether there is existing any other race, drain, dam, or reservoir which could or might be affected by the race, drain, dam, or reservoir the licence for which shall be applied for, and also whether the Crown lands forming the proposed site for such race, drain, dam, or reservoir have or have not been demised under the provisions of any Act of Parliament, and shall also, at the same time, furnish to such warden a map of the part of the district within which the said site shall be situated, showing the proposed position and form, as nearly as may be, of the dam or reservoir, or the proposed course of the race or drain with such proposed points of diversion, return, and conveyance as aforesaid, and in such manner as that the same and such position and course may be capable of ascertainment by reference to some fixed points in such district. And, in case the said surveyor shall be of opinion that the proposed mode of constructing or supplying with water the race, drain, dam, or reservoir, the licence for which shall be applied for, would injuriously affect any other race, drain, dam, or reservoir, he shall state in his said report in what manner such injurious effect would be produced, and whether there are any and what facts within his knowledge which lead him to consider that the applicant knew or had reason to believe that such injurious effect would be produced, provided that the said surveyor shall obtain so far as he can, and give to the Minister of Mines, all such further information, and make such further plans and surveys relative to such application as the said Minister shall require.

6. The said mining surveyor shall, after having obtained such direction as aforesaid, proceed with all reasonable speed, to carry out the same, and he shall also ascertain by inspection whether or not the posts erected by the applicant are sufficient to indicate the ground in respect of which the licence shall be applied for, and if he shall think that additional posts should be erected, he may order the same to be erected, and they shall accordingly be erected by such applicant, and the said surveyor shall affix at such convenient places as he shall think requisite on the line of the proposed race or drain, or on the site of the proposed dam or reservoir, notices dated the day of the completion of the said survey, in the form in the Schedule hereto marked "E," containing the name and address of the applicant, or each of the applicants, and the other matters mentioned in the said schedule; and also, as soon as he conveniently can after having made the survey, post a notice, similar to the notices hereinbefore mentioned, save so far as altered as directed by the said schedule, and dated of the same day as the notice to be posted on the ground as aforesaid, on the outside of his own office, and of the post-office nearest to his office; or if there shall be a police court nearer to his office than such post-office, then of such police court; and such notices shall be effectually secured by the surveyor in the places where they shall have been affixed.

7. In the event of applications being made for any such licences, which, if granted, would be inconsistent, or would interfere with each other, or could not be beneficially held concurrently, that one of such applications as shall have been first left with the warden shall be first considered, and in case any two or more of such applications shall be left with the said warden at the same time, it shall be in the discretion of the Governor to which of the applicants the licence shall be granted.

OBJECTIONS.

8. Any person objecting to the issue of any such licence must, in order to have his objections considered, within twenty-one clear days after the date of the notice posted on the land by the surveyor as aforesaid (Sundays and public holidays not to be counted in the said twenty-one days), lodge with the warden, and deliver to the applicant, at the address stated in such notice, notice in writing, signed by him, and stating his address, of his objections against the issue of such licence.

9. Every person so objecting shall, at the time of his lodging with the warden the notice of his objections, deposit with the clerk of the warden, or if there be no such clerk, with the clerk of the petty sessions holden nearest to the land in respect of which the licence shall be applied for, the sum of Five pounds, to be disposed of by such clerk in such manner as the Minister of Mines shall direct, in payment of all expenses to which the applicant may without, in the opinion of such Minister, sufficient reason be put by reason of such objections, in case such objections shall not be prosecuted, or shall fail; and such clerk shall give to the person or persons making such deposit a receipt in the form of the Schedule hereto marked "F;" and in case there shall be no such expenses, or if there shall be any, then subject to the payment thereof the said sum shall be refunded to the persons objecting.

INQUIRY INTO APPLICATIONS AND OBJECTIONS.

10. After the expiration of the said twenty-one days, the warden shall, in case no objections shall have been lodged, forward the application to the Minister of Mines; but if any such objections shall have been lodged, the warden shall proceed to hold, at a time and place to be named by him, and of which two clear days' notice in writing shall be given by him to the applicant, or to each of the applicants, and to the objector or each of the objectors, an inquiry into the truth of the particulars stated by the applicant and objector. Provided, however, that the warden shall not hold the said inquiry unless there shall have been delivered to him, on or previous to the day fixed for the inquiry, the receipt in the next preceding clause mentioned; and the warden shall have power to adjourn every such inquiry to any other time and place. Provided that if several persons unite in one objection, notice to any one of them shall be sufficient.

11. At such inquiry the warden shall take evidence in relation to the application and objections; and on the second of the two days which shall next follow after such inquiry, he shall forward to the office of the Minister of Mines the application and objections thereto, and the evidence taken by him as aforesaid, together with the sketch-plans and sections to be left with, and the report and map to be furnished to him, as hereinbefore mentioned; and also a report, to be drawn up by him containing his opinion on the application, the objections, and the evidence.

12. Every applicant who shall require the same shall be permitted, at any reasonable time before the warden shall have forwarded the documents to be so forwarded by him as aforesaid, to take a copy of the report and map, and to examine the said evidence, and to make, or cause to be made, a copy thereof, for his own use and guidance; and every such applicant shall also be entitled to obtain from the warden, at his own expense, a copy of the warden's report.

THE LICENCES

13. Upon the receipt by the Minister of Mines of the documents to be forwarded to him by the warden as aforesaid, the Governor in Council will, on consideration thereof, and of all objections (if any) to the granting of such licence, as well as those forwarded by the warden (if any) as any others which may be tendered to him, either refuse the licence applied for, or, after the expiration of one month after notice of the intention to grant the same shall have been published in the *Government Gazette*, grant the same as applied for, or modified as he shall think fit, and subject so far as he shall think fit to the provisions hereof, and also subject to the terms to be referred to in such licence; and every such licence shall be in the form in the Schedule hereto marked "G," or as near thereto as the nature of the purpose for which the same shall be required will permit.

14. Every licence shall bear *date* the day of the execution thereof by the Governor, and will be transmitted to the warden to whom the application shall have been delivered or such other warden as the Minister of Mines shall choose, at whose office the same may be obtained, who shall deliver the same to the applicant, or such person as shall be duly authorized to receive the same, upon his application therefor within the time hereinafter prescribed, and upon delivery to the warden of a receipt showing that a fee of One pound has been paid by the applicant to the clerk of the warden, or if there be no such clerk, to the clerk of the petty sessions holden nearest to the land applied for, which clerks are to receive such fee and to give such receipt, and also upon delivery to the said warden of a receipt from a Receiver and Paymaster for the first year's rent.

15. Upon receiving the licence the warden shall, as soon after as he can conveniently do so, unless in the meantime the licensee shall apply for and obtain delivery of the licence under the provisions of the next preceding clause, give notice of such receipt by advertisement in the *Government Gazette*, therein setting forth the name of the licensee, and describing the land affected by the licence as the same shall be described in the licence, and shall thereby request the attendance at his office of the licensee to take delivery of the licence within seven days from the date of such notice; and should the licensee fail to comply with the terms of the said advertisement, the warden shall return the licence to the Minister of Mines, who shall act in the matter thereof as he shall think right.

16. If any licence so applied for shall be refused, or there shall be a failure to comply with the terms of the notice in the last preceding section mentioned, and the Minister of Mines shall thereupon determine that the licence shall not be granted, or if any application for a licence shall be withdrawn, the Secretary for Mines shall, on receiving the directions of the Minister of Mines to that effect, cause a notice to be published in the *Government Gazette*, notifying that such ground is open to persons holding miners' rights or business licences, or to applicants for a lease or licence under the *Mines Act 1890*, as if no licence in respect of the said ground had ever been applied for; but so, however, as not to interfere with or in anywise prejudice or affect any rights or interests under miners' rights or otherwise existing at the time at which such application shall have been made in the land or water which was intended to be affected by such application. And if any licence shall be declared forfeited the said Secretary shall, on receiving such directions as aforesaid, notify by such notice as aforesaid that the ground which was affected by such licence is open to the holders of miners' rights or business licences, or to applicants for a lease or licence under the *Mines Act 1890*.

17. All costs and expenses incurred by or on behalf of or by direction of the Crown, by reason of the withdrawal or abandonment of any application for a licence, shall be considered expenses within the meaning of the third clause hereof.

18. The land which will be permitted to be used under a licence for a race shall not exceed an area of four acres for every mile in length of such race, and no land bordering on any dam or reservoir shall be used by or for the benefit of the licensee for any other purpose than that of collecting, retaining, or storing water. Provided that in case the licence shall be for a race, if by reason of any natural impediment it shall be impracticable, or attended with unforeseen difficulty or expense, to cut the same according to the line originally designed therefor, it shall be lawful for the licensee, having first obtained the permission of the Minister of Mines, to deviate in the cutting of such race so far from such originally designed line as shall be necessary to avoid the effects of such impediment.

19. The term for which any licence shall be granted shall be determined in each case according as the Governor, from a consideration of the circumstances in each such case, shall think fit, but such term can in no case exceed fifteen years.

20. The rents to be paid shall be as follows:—

For every race, such sum as shall be considered proper, having regard to the quantity of water and the expenditure necessary, but not less than two pounds per annum.

For every reservoir, such sum per annum for every million gallons of water as may be right, having regard to the capacity of the reservoir.

The above rents to be paid yearly in advance.

CONDITIONS UNDER WHICH LICENCES ARE TO BE ISSUED.

21. The grants of licences to cut and use races shall be subject to the following conditions:—

- (i.) If the drainage of any area through which such race shall be cut shall be more than adequate for the supply of the water authorized to be taken by the licensee, and any other such licence shall have been granted to some other person to cut and use a race to be supplied with water from the same area, the Governor shall have the right to require the persons to whom such licences shall have been granted to construct, and they shall on such requisition, at their joint cost, construct a reservoir, to be approved by some person to be appointed by the Governor, for the purpose of the storage of the water of such area in sufficient quantity for the supply of both the said races; and in case any third, fourth, or other subsequent such licence shall be granted in respect of the water of the same area of drainage, the same being more than sufficient for the races then supplied therefrom, the Governor shall also have the right, upon any such subsequent grant being made, to require all the persons then holding such licences to construct if not theretofore constructed, and they shall on such requisition, at their joint cost, construct such reservoir, or if any such shall have been theretofore constructed, then to enlarge, and they shall, on such requisition, enlarge the same so far as shall be necessary for the purpose of the storage of water in sufficient quantity for the supply of all the races in respect of which licences shall have been granted within such area; such construction or enlargement to be approved of by such person as the Governor shall appoint for the purpose. Provided that if at any time the water derived from such area shall have become diminished to a quantity less than sufficient for the supply of all the races then existing and in use, the several licensees shall be entitled to use such water in the order of priority of dates of their respective grants. Provided also that if on the occasion of any such construction or enlargement of a reservoir the parties bound under the provisions hereof to effect the same shall not agree as to the proportion of the expense to be borne by them respectively, the Governor shall be entitled to fix such proportion.
- (ii.) If within a drainage area within which one or more than one race shall already have been cut, another licence to cut a race shall be granted, the Governor shall have the right to require the licensee or licensees for such one or more than one race, at his or their cost alone, to construct or enlarge such reservoir as in this clause first mentioned, and for the purpose therein mentioned, instead of requiring the same to be done by him or them jointly with the person to whom such other licence shall have been granted, and the licensee or licensees so required shall construct or enlarge such reservoir accordingly.
- (iii.) If any race shall intersect any road ordinarily used for the passage of wheeled vehicles, whether such road shall have been proclaimed or not, or any footway, race, or canal, the licensee shall, at his own expense, construct good and substantial bridges, footways, roadways, or aqueducts over the same, the several works to be subject to the approval of an officer appointed by the Governor; and such licensee shall maintain all such works in good repair, and shall, if required by the warden, make or cause to be made, at his own expense, temporary roadways, footways, races, or aqueducts, in such manner as shall be by such warden ordered (during the time the permanent roadways, footways, or other works are in course of construction. Provided that if any such roads, footways, or other works shall be under the control of any municipal council, road board, or other local body, then and in such case the several works to be constructed by the licensee shall be subject to the approval of an officer to be appointed by such municipal council, road board, or other local body.
- (iv.) That where the water to be used by virtue of any such licence is to be diverted from any source of supply the licensee shall divert the same at the points for that purpose to be marked on the plan to be indorsed on the said licence, and at no other points save with the consent in writing of the Minister of Mines, and in such quantities from each of such points as shall be specified in such licence. If any licensee shall desire that the course of his race or any of the said points of diversion or conveyance should be altered he may apply to the warden to consider the matter, and if the warden shall, on consideration, be of opinion that such alteration would, having regard to the rights and interests of all other persons, be proper, the warden shall transmit to the Minister of Mines a statement of such his opinion and of the alterations desired, and the said Minister may allow the same either as stated or modified as he may think fit, or disallow the same, or the licensee may if he shall so desire and the said Minister shall express his consent thereto in writing, surrender his licence and obtain a new licence with such alterations either as stated or modified as aforesaid.
- (v.) If the warden shall, either from the report of a mining surveyor or from any other facts which may come to his knowledge, be of opinion that any drain or drains should be constructed under a race, or any flume or flumes over a race, the warden shall direct the same to be constructed by and at the expense of the licensee to the satisfaction of a mining surveyor, subject however to the decision of the Minister of Mines in case the matter should be referred to him by the licensee.
- (vi.) If a claim or any lands demised for mining purposes be intersected by a race, and if the holder of the claim, or the lessee, shall apply to the warden, and if the warden, having investigated the case, shall be of opinion that such claim or demised lands could be more effectually worked if a flume or flumes were substituted for the portion of the race intersecting such claim or demised lands, he may authorize such flume or flumes to be constructed by and at the expense of the holder of such claim or of such lessee.

(VII.) That the licensee for a race shall fix and keep fixed and in proper order, at each point of diversion from any source of supply of water for his race, such gauge-box and of such form and dimensions, having regard to the quantity of water which by his licence he shall be empowered to take from such source of supply, as the warden shall, after obtaining the opinion of a mining surveyor in respect thereof, think proper and direct, subject however to the decision of the Minister of Mines in case the matter shall be referred to him by the licensee.

(VIII.) A licence will be liable to be forfeited at the will of the Governor in any of the following cases, that is to say:—If the conditions under which a licence shall be issued shall not be observed by the licensee, or if any of the obligations lawfully imposed on him shall not be by him fulfilled; or if any race or reservoir shall without good cause be left without being *bonâ fide* used for a period of six months (an officer to be appointed by the Governor to determine whether the same has been so left without being so used or not); or if any dam or any other of the works connected with any race or reservoir shall become, from imperfect construction or neglect, dangerous to the public, or in any way a nuisance; or shall be suffered to remain out of repair for an unreasonable time (such officer as aforesaid to determine whether such works have so become dangerous, or a nuisance, or suffered to remain out of repair as aforesaid); or if the licensee divert water in greater quantities or from other points or sources than as specified in his licence, or do not return or convey the water used by him as therein directed, or shall interfere in any way other than is hereby directed, or allowed, or under a licence with any tail-water or water after the same shall have been used by him.

(IX.) Any miners engaged in washing auriferous earth by means of a tub or cradle, or both, shall be permitted to use, free of charge, from the race held under the authority of such licence, the water necessary for the same, provided that no coarse tailings or silt produced by such operations shall be deposited in such race without the consent of the licensee.

(X.) Nevertheless the licensee may refuse such permission if, in the opinion of the Minister of Mines for the time being, the privilege granted shall have been abused.

(XI.) Subject to the reservations contained in such licence, the licensee shall use the water to be diverted under the authority of such licence only for the purposes and in the manner described in the schedule thereto, and shall not charge the respective consumers set forth in such schedule for the use of such water any rates in excess of those specified in such schedule.

(XII.) Nevertheless it shall be lawful for the licensee, with the consent of the Minister of Mines, from time to time, to alter and vary the purposes for which and manner in which such water shall be used, and the charges to be made thereon for the use thereof; but before any such alteration or variation shall take effect it shall be indorsed upon such licence, and shall be signed by the

Minister of Mines. If in any of the cases aforesaid the Governor shall determine that a licence shall be forfeited, a declaration of such forfeiture shall be published in the *Government Gazette*, and thereupon all right and title of the licensee to or in respect of the ground in respect of which the licence shall have been granted shall cease, and such licensee remaining on the said ground or in the use of the race or reservoir the subject of the licence shall be considered a trespasser, and may be dealt with accordingly.

23. The Governor shall be entitled at any time to revoke any such licence and resume possession of the land upon which any such race, drain, dam, or reservoir shall have been cut or constructed, upon payment to the person then entitled to the benefit of any such licence of the value of the outlay by such person upon or in respect of such race, drain, dam, or reservoir, and such percentage thereon, not exceeding Fifty pounds per cent., as shall be just, having regard to the value and state of repair of such race, drain, dam, or reservoir, and of the works connected therewith.

24. Licences to cut races for the taking and using of tail-water for the purposes authorized by the sixty-fourth section of the *Mines Act 1890* will be granted, and the several provisions aforesaid will be applicable to such licences.

25. Any person or persons, or persons or company, who at the time at which these Regulations shall come into force shall be in possession of a licence issued under the *Mining Statute 1863*, shall be entitled, if he or they or such company shall so require, to surrender such licence, and obtain a licence under the sixty-fourth section of the *Mines Act 1890*, for a period of time equal to the time which at the time of the granting of such last-mentioned licence shall be unexpired of the licence to be surrendered, and at the rent stated in such last-mentioned licence, or for such other time not longer than fifteen years, and such other rent not less than Two pounds per annum, as the Governor shall think fit; and such new licence shall be subject to the conditions aforesaid, so far as the same can apply.

26. In any case where, at the time of the coming into force of these Regulations, a race shall be held under a miner's right, or under miners' rights, or a consolidated miner's right, or a miner's right issued to an incorporated company, a licence under the sixty-fourth section of the *Mines Act 1890*, and subject so far as such regulations can apply to the conditions aforesaid, will be granted to the owner or owners of such race on his or their, or such company, proving his or their or such company's title thereto, to the satisfaction of the Minister of Mines, but subject, however, to any water-rights legally existing at the time of the making of such grant; provided, however, that no person or persons, or company shall be entitled to such grant, unless he or they shall have applied to the Minister of Mines therefor within the time in that behalf specified in the *Government Gazette*, for the mining district in which the said race shall be situate.

TRANSFER OF LICENCES.

27. Any person to whom any such licence shall have been issued shall be at liberty to transfer the same to any other person, provided that he shall give notice of such transfer to the Minister of Mines. Every such transfer shall be effected by an instrument in writing, signed by the transferrer in presence of and witnessed by a justice of the peace, and shall be in the form in the Schedule hereto marked "H;" and every person to whom any such transfer shall be made shall be subject to these Regulations as fully as if the licence had been originally granted to himself.

COMPENSATION FOR INJURY.

28. In any case in which an application shall be granted to cut or construct any race, drain, dam, or reservoir, in or upon any land demised under the provisions of this or any other Act now or hereafter to be in force, or occupied by virtue of a miner's right or business licence, and if the licensee shall enter upon such land the warden shall, on

complaint being made by the said lessee of the land or holder of miner's right or business licensee give notice in writing to the licensee and the lessee of the land, or the holder of the miner's right or business licence, as the case may be, to appear before him at a time and place to be named in such notice, and shall then and there receive such evidence as may be tendered to him and as may be pertinent to such inquiry, and shall decide what shall be the amount of the compensation to be paid by the applicant.

PERSONS ENTERING ON LAND APPLIED FOR SUBSEQUENT TO APPLICATION.

29. If any person shall subsequently to the making of any application under these Regulations, whilst the same is under consideration, enter upon or occupy any Crown land for which such application has been made, such occupation or entry shall not operate save at the will of the Governor to prevent the issue of a licence to the applicant.

Rule 16. Whenever money is paid into Court by or on behalf of the defendant or complainant, the clerk of petty sessions shall give to the person paying the money an acknowledgment in writing of such payment in the form prescribed in the Schedule hereto; and where money is paid out of Court to or on behalf of the complainant or defendant, the person receiving such money shall sign in the Sutors' Cash Book an acknowledgement thereof.

Rule 17. Any erasure or interlineation in a summons at the time of the issue thereof shall be stamped or initialed by the clerk of petty sessions who issues the same, if such summons is issued by a clerk of petty sessions; and, if such summons is issued by a justice, shall be initialed by him, but failure to stamp or initial shall not invalidate the summons.

Rule 18. A complaint may be made or an information laid, and a summons may be issued thereon, against two or more persons liable or chargeable, whether jointly, severally, or in the alternative; and orders or convictions may be made against such one or more of such persons as the justices may find to be liable.

Rule 19. Where on the hearing of any such complaint as in the preceding rule mentioned an order is made against two or more defendants jointly, such order may be enforced by distress or otherwise against any one of the defendants affected thereby in the same manner as if the order had been made against him separately. Provided that, after the order is satisfied by performance or payment by, or distress on the goods of, any of such defendants, no further steps shall be taken to enforce the same against the other defendant or defendants. Provided also that nothing herein contained shall affect any right to contribution or other relief which may exist as between the defendants themselves.

Rule 20. Any two or more persons claiming or being liable as co-partners may join in making a complaint, or may be joined as defendants in a summons, in the names of their respective firms, if any, and any person carrying on business in the name of a firm apparently consisting of more than one person may be sued in the name of such firm.

Rule 21. Where by the Act it is required that particulars shall be indorsed on or annexed to the summons, such particulars shall be indorsed on or annexed to the same before it is served, and a copy of such particulars shall form a part of the copy of the summons which is delivered to the defendant; and where the demand exceeds the amount in which a court of petty sessions has jurisdiction, but the complainant desires to abandon the excess or admit a set-off, the abandonment of the excess or admission of a set-off shall be entered at the end of such particulars.

Rule 22. Where on any complaint for a civil debt recoverable summarily the defendant intends to rely upon any of the grounds of defence following, namely, set-off, infancy, coverture, Statute of Limitations, discharge under any Act relating to bankrupts or insolvent debtors, tender, payment into Court, he shall forward to the complainant and to the clerk of petty sessions a notice stating therein his name and address, together with a concise statement of such grounds. Such notice shall be delivered to the complainant and to the clerk of petty sessions respectively, or if sent by post shall be posted in such time and manner that it may in the ordinary course reach the hands of the complainant and the clerk of petty sessions respectively twenty-four hours at least before the time at which the summons is returnable. Provided that in case of non-compliance with this rule, and the complainant not consenting at the hearing to permit the defendant to avail himself of such defence, the justices may, on such terms as they think fit, adjourn the hearing to enable the defendant to give such notice.

Rule 23. Where the defendant intends to rely upon a set-off of any debt or demand recoverable as such before a court of petty sessions by him from the complainant, his notice shall contain particulars of the account, including dates and items, upon which he contends that the set-off is due.

Rule 24. Where a defendant intends to rely on the defence of infancy he shall in his notice set forth, so far as he is able, the place and date of his birth.

Rule 25. Where a female defendant intends to rely upon the defence of coverture, she shall in her statement set forth, so far as she is able, the place and date of her marriage, together with the name and surname of her husband, and his address and occupation, so far as known.

Rule 26. Where a defendant intends to rely upon the defence of any Statute of Limitations, he shall in his notice state the date from which he contends that the Statute began to run.

Rule 27. Where a defendant intends to rely on the defence of a release under any Act relating to bankrupts or insolvent debtors, he shall in his notice set forth the date of the order of sequestration and of his certificate of discharge or final order and the Court by which such order of sequestration, certificate of discharge, or final order was granted or made.

Rule 28. Subject to these rules, money may be paid into Court, and such payment or tender of a sum of money may be relied upon as a defence to any complaint under the Act for an assault or sum of money due or to any claim of set-off.

Rule 29. Where the defendant wishes to pay money into Court he shall pay the same twenty-four hours before the time fixed for the return of the summons, together with the cost of issuing and serving the summons, and if the summons has been prepared and obtained by a counsel or attorney together with a further sum of ten shillings for professional costs; and the defendant shall forthwith after such payment send to the complainant notice thereof in the form prescribed in the Schedule hereto. But when the complainant does not receive notice of such payment having been made before the sitting of the Court at which the summons is made returnable, it shall be lawful for the justices to order the defendant to pay such additional costs as the complainant shall have in their opinion properly incurred in preparing for the hearing and in attending the Court.

Form 6.

Rule 30. Where the defence to a complaint or claim of set-off is a tender, such defence shall not be available unless before the hearing, or by permission of the Court at the hearing, the defendant pays into Court (which may be without costs) the amount alleged to have been tendered.

Rule 31. Where money has been paid into Court by the defendant with a defence of tender, or without a denial of liability, the money so paid in shall be paid out to the complainant at his request, unless the court of petty sessions otherwise order.

Rule 32. Where a defendant desires to pay money into Court with a denial of his liability on the complaint, he shall lodge with the clerk of petty sessions, at the time of payment into Court, a written notice in the form prescribed in the Schedule hereto, and shall, in the notice which he sends to complainant, state in that case that such payment is made with a denial of any liability.

Form 6.

Rule 33. If the complainant elect to accept in full satisfaction of his claim, including costs, such money as shall have been paid into Court by the defendant under the last preceding rule, he shall send or deliver to the clerk of petty sessions and to the defendant a written notice stating such acceptance, such reasonable time before the return of the summons as the time of payment by the defendant has permitted, and upon his doing so no further proceedings in the said complaint shall be taken, and the complainant shall not be liable for any further costs. But in default of such notices the complaint may go on for hearing, and the defendant shall be entitled to an order for such costs as, in the opinion of the justices, he shall have properly incurred after such payment into Court, unless the complainant recover a sum larger than the amount paid into Court. Form 7.

Rule 34. Where under the last preceding rules money has been paid into Court with a denial of liability, and the complainant has accepted the same in full satisfaction of his claim and has sent the notices required under the preceding rule, he shall be entitled to have the money paid out to him on request. Provided that such money shall not be paid out unless the clerk of petty sessions has satisfied himself that notice of acceptance has been duly sent or delivered to the defendant.

Rule 35. Where under the provisions of section seventy-five of the Act a court of petty sessions adjourns the hearing of any information, complaint, or application to another Court, the justices constituting such Court, or any one of them, shall sign a memorandum in the form in the Schedule hereto; and the clerk of petty sessions at such first-mentioned Court shall transmit such information, complaint, or application, if in writing, together with such memorandum, to the clerk of petty sessions at the Court to which the same is adjourned. Form 8.

Rule 37. Where an application is made for a summons under section twenty-two of the *Imprisonment of Fraudulent Debtors Act 1890*, the applicant or his attorney shall sign an application in the form in the Schedule hereto, and shall state therein the ground or grounds on which he relies to obtain the committal of the person making default, and shall lodge the same with the clerk of petty sessions. Form 10.

Rule 38. Every application for a summons under section twenty-two of the *Imprisonment of Fraudulent Debtors Act 1890* shall be supported by an affidavit verifying the same; and such affidavit may be made in the manner prescribed for making affidavits in proof of the service of summonses under section twenty-three of the Act.

Rule 39. The certificate of payment or satisfaction signed by the clerk of petty sessions, under section twenty-eight of the *Imprisonment of Fraudulent Debtors Act 1890*, shall be in the form in the Schedule hereto. Form 11.

Rule 40. Any security given under the Act for the payment of any sum of money under any conviction or order shall be in the form of an undertaking, and may be in the form in the Schedule hereto, or in any other form to the like effect. Form 12.

Rule 41. Where any such security is not entered into before the Court but before some person specified by the Court, the principal in such security shall make a return of it showing the particulars required by Rule 11 to be entered in the security-book to the clerk of petty sessions of the Court at which the order directing security to be taken was made.

Rule 42. Not less than two clear days before a warrant of distress is issued for a sum due by a principal in pursuance of a forfeited security under the Act, the clerk of the court of petty sessions issuing the warrant shall cause notice of the forfeiture to be served on the principal. Service of the notice may be effected either personally or by letter sent to the address mentioned in the security. Form 13.

Rule 43. Form 14.

Rule 44. Rule 45. Every clerk of petty sessions and every clerk of the peace shall demand, receive, and take for the use of Her Majesty the several fees allowed by and mentioned in the Schedule hereto and no more, and such fees shall be paid in the first instance by the person by whom or on whose behalf the act or proceeding (in respect whereof the same are payable) is required before such act shall be done or such proceeding shall be issued or taken (as the case may be).

Rule 46. Non-compliance with any of these rules or departure from the forms hereto shall not render any proceeding void unless the court of petty sessions before whom the same shall come shall so direct, but such proceedings may in the discretion of such Court be amended or otherwise dealt with in such manner as to postponement adjournment, or otherwise, and upon such terms as such Court may think fit.

And the Honorable Henry Cuthbert, Her Majesty's Minister of Justice for Victoria, shall give the necessary directions herein accordingly.

G. WILSON BROWN,
Clerk of the Executive Council.

THE OMEO WATERWORKS TRUST CONSTITUTED.

At the Executive Council Chamber, Melbourne, the fourth day of August, 1890.

PRESENT:

His Excellency the Governor.

Mr. Gillies	Mr. Cuthbert
Mr. Deakin	Dr. Pearson
Mr. Wrixon	Mr. Patterson.

WHEREAS by the *Water Act 1890*, No. 1156, it was amongst other things enacted that, at the expiration of two months after the notice of any application should have been first advertised in the *Government Gazette*, the Minister, if satisfied that the provisions of the now in part recited Act have been substantially complied with, should submit such application, and the general plan and description therein referred to, and all petitions which have been received in respect of such application, to the Governor in Council, together with any recommendations as to the granting of the application or as to any alterations or additions he might think desirable in the proposed waterworks; and the Governor in Council might thereupon approve of the construction of such proposed waterworks, with or without any alterations or additions in the general plan and description thereof, or might disapprove of the construction of such waterworks, and should make an Order in Council accordingly: And it was further enacted that if the Governor in Council should approve of the construction of such waterworks, with or without alterations or additions or restrictions of any such general plan and description, a Waterworks Trust should be constituted to construct, maintain, and continue the whole or any part of the waterworks therein described, in accordance with the provisions of such Order and of the now in part recited Act: And every Order approving the construction of any proposed waterworks, and of the constitution of a Waterworks Trust for the purpose, should—

- (a) State the amount of money which the Governor in Council will grant as a loan for the purpose of carrying out such proposed waterworks, and of paying the cost and expense of preparing the general plan and description of the same, and the costs of the application for the constituting of such Waterworks Trust; and also the rate of interest which will be charged for such loan, such rate being at least one-half per centum more than the rate payable by the Government on the Public Loan out of which such loan might be granted;
- (b) Specify the limits of the lands, whether within or without the municipal districts of the council or councils applying for the proposed waterworks, within which such Waterworks Trust should have authority, to be called a waterworks district;
- (c) State what are the principal works to be constructed;
- (d) Assign a corporate name to such Waterworks Trust; and
- (e) Contain such provisions (not inconsistent with this Act) as, according to the nature of the application and the facts and circumstances of each case, the Governor in Council thinks fit.

And it was further enacted, that the Governor in Council might, where a waterworks district is either wholly or with the exception of the waterworks or proposed waterworks thereof within one or more ridings of any municipal district, appoint the councillors for such riding or ridings, together with any other person or persons, not exceeding three in number, to be the Commissioners of the Waterworks Trust of such waterworks district: Now therefore His Excellency the Governor, with the advice of the Executive Council, and in pursuance of the provisions of the said Act, has approved of a general plan and description, as set forth in a certain application of the Councillors of the Omeo Riding of the Shire of Omeo, for a loan of Three thousand pounds sterling (£3,000) to carry out certain waterworks for the domestic supply of a waterworks district under the said Act, embracing the township of Omeo, as shown on the general plan and description accompanying the said application, deposited in the Department of Victorian Water Supply, and doth hereby order and appoint as follows:—

- (1) The construction of the said waterworks, and the constitution of a Waterworks Trust.
 - (2) That the Councillors for the Omeo Riding of the said Shire of Omeo and three other persons shall be the Commissioners of the Waterworks Trust.
 - (3) That the amount of loan hereby granted shall be Three thousand pounds sterling (£3,000), for the purpose of constructing works for the supply of the township of Omeo with water, and also for paying the cost and expense of the plans and application for the same; and that the interest to be charged for such loan shall be Four pounds ten shillings per centum per annum, payment of which interest shall be made half-yearly.
 - (4) That the limits of the land within which the said Waterworks Trust shall have authority shall be those comprised within the following boundaries:—

SUPPLIES OF WATER FROM THE LODDON RIVER APPORTIONED TO THE TWELVE-MILE IRRIGATION AND WATER SUPPLY TRUST.

At the Executive Council Chamber, Melbourne, the fourth day of August, 1890.

PRESENT:

His Excellency the Governor.

Mr. Gillies	Mr. Cuthbert
Mr. Deakin	Dr. Pearson
Mr. Wrixon	Mr. Patterson.

WHEREAS by section 182 of the *Water Act 1890* it is enacted that every Order in Council appointing and creating an Irrigation and Water Supply Trust shall, amongst other things, contain such provisions (not inconsistent with the said Act) as according to the nature of the application and the facts and circumstances of each case, the Governor in Council may think fit.

And whereas by section 414 of the said Act it is provided that the Governor in Council may, from time to time, after any Trust has by Order in Council been duly appointed, make additional Orders relating to such Trust not inconsistent with the provisions of the said Act, and that the Governor in Council may, in such additional Orders in Council, amongst other things, make any Order which might have been made in the Order in Council originally appointing or authorizing such Trust.

And whereas by an Order in Council bearing date the second day of August, 1889, a certain Irrigation and Water Supply Trust, known as the Twelve-mile Irrigation and Water Supply Trust, was duly appointed to carry out an approved scheme for the purpose of irrigating a certain area of land (in and by the said Order in Council limited and defined) by means of water to be diverted from the Loddon River.

And whereas it might have been ordered and directed in and by the said Order in Council that the said Twelve-mile Irrigation and Water Supply Trust should, for the purpose aforesaid, be entitled to take and divert from the said river a certain specified proportion of the water thereof, subject to such conditions and restrictions as the Governor in Council might in and by the said Order in Council have directed.

Now therefore His Excellency the Governor, acting by and with the advice of the Executive Council, and in pursuance of the provisions of the now in part recited Act, doth order as follow, that is to say :-

1. That upon the completion of the National weir and dam at Laanecoorie, and the regulation of the flow of the Loddon River thereby, the said Twelve-mile Irrigation and Water Supply Trust shall be entitled in each year to take and divert from the said river into its channel, water to the following extent during the periods hereinafter respectively set forth, viz. :-

(a) From the first day of January to the thirtieth day of April, both inclusive, seventy-one (71) cubic feet of water per minute.

(b) From the first day of May to the thirtieth day of June, nil.

(c) From the first day of July to the thirty-first day of October, both inclusive, three hundred and fifty-six (356) cubic feet of water per minute.

(d) From the first day of November to the thirty-first day of December, both inclusive, seventy-one (71) cubic feet of water per minute.

2. That meanwhile, and until such time as the said National weir and dam shall have been declared completed, the said Twelve-mile Irrigation and Water Supply Trust shall be entitled to take and divert from the said Loddon River, at all times, a quantity of water not exceeding nine hundred (900) cubic feet per minute, provided that such diversion shall not encroach on or interfere with the rights of any other Trust, body, or persons entitled to a supply from the said river.

And the Honorable Alfred Deakin, Her Majesty's Minister of Water Supply for Victoria, shall give the necessary directions herein accordingly.

G. WILSON BROWN,
Clerk of the Executive Council.

TENDERS will be received by the Board of Land and Works, up to Noon of Monday, 1st September, 1890, for the occupation for Grazing purposes only of the following unappropriated portions of land, subject to the Regulations approved by the Governor in Council and also the subjoined special conditions.

Every licence granted under section 123 of the *Land Act 1890* shall be subject to the conditions set forth in the schedule hereto, and to such special conditions and payment in advance of such fee as the Minister may determine, and shall be issued by an officer of the Department of Lands and Survey duly authorized in that behalf.

Under section 7 of *The Vermin Destruction Act 1889*, all licensees under the section for which these licences will issue are liable for the destruction of rabbits within the boundaries of their licences.

Conditions :

1. The issue of this licence shall not prevent the land comprised therein, or any part or parts thereof, being sold, leased, licensed, alienated, or dealt with under any of the provisions of the *Land Act 1890*, except under the 123rd section thereof, under which the licence is issued, or being resumed by order of the Governor or Administrator of the Government of Victoria, with the advice of the Executive Council, for any of the purposes for which land may be reserved under section 10 of the *Land Act 1890*, or for mining purposes.

2. In case the said land, or any part or parts thereof, shall be sold, leased, licensed, alienated, dealt with, or resumed as aforesaid, the licensee shall not be entitled to any compensation other than the return of such portion of his licence fee paid by him as the responsible Minister of the Crown for the time being administering Division II. of the *Land Act 1890* may think fit. This licence is also subject to the rights of the holders of miners' rights or of mining leases now issued or hereafter to be issued to enter upon the allotment hereby licensed, and to search for gold, and to mine therein, and to erect and occupy mining plant and machinery, without making any compensation for surface or other damage.

3. Subject to these conditions, the licensee shall be entitled to use the land for the purposes for which the licence has been granted, until notice has been given in the *Government Gazette* that such land, or any part thereof, has been sold, leased, licensed, alienated, dealt with, or resumed as aforesaid; and, immediately upon such notice being given, all the interest of the licensee in the licensed land described in such notice shall cease and be determined, and any person entitled to occupy the licensed land, or any part thereof, may lawfully make entry upon and hold the same, without the permission or sanction of the licensee or any one claiming under her, him, or them.

4. No land comprised in roads from time to time surveyed and marked out within the boundaries of the land comprised in this licence shall be deemed within its operation.

5. This licence entitles the holder thereof, during the period for which it is granted, to use the land therein comprised for depasturing purposes only, but does not confer any right to build thereon, or to cultivate, or to fence any portion thereof.

6. If the licensee desire a renewal of this licence, notice to that effect must be given to the responsible Minister aforesaid one month prior to the expiration thereof, but nothing herein contained shall be deemed to confer the right to any renewal.

7. The interest in this licence may not be transferred without the consent of the Minister aforesaid and the payment of a fee of £1.

8. No claim whatever shall be made or entertained by reason of the licence not being renewed or transferred.

9. This licence is to be used under and in accordance with the regulations made or to be made under the provisions of the said Act and for the time being in force.

10. This licence may be forfeited if the licensee commit a breach of or neglect to comply with any of these conditions.

11. The publication of a notice in the *Government Gazette* purporting to declare that the Governor or Administrator, with the advice aforesaid, has forfeited this licence shall be conclusive evidence that the licence is forfeited.

2. The licence fee must be paid in advance. The fee for the period from 1st September, 1890, to 31st December, 1890—for which the licence will be issued—must accompany the tender, or be paid by the successful tenderer or his agent immediately on the declaration of the acceptance of the tender, otherwise the offer of the next highest tenderer who may be prepared to comply with this condition may be accepted.
