The births and deaths in Greater Melbourne, together with the mean temperature in the shade, the mean atmospheric pressure, and the amount of rainfall, during the month of July of each of the ten years 1880-1889, were as follow:—

Mean of ten years	1,006	555	47.7	30.068	1.47

The births of 1,621 children, viz., 822 boys and 799 girls, were registered in Greater Melbourne during the month of July. In the month of June, 1,675 births were registered, or 54 more than in the month under review. The births were 615 above the average of the month during the previous ten years, but only 286 above that average if allowance be made for the increase of population.

The deaths registered in July numbered 718, viz., 413 of males and 305 of females: the births thus exceeded the deaths by 903, or 126 per cent. The deaths exceeded those in June by 67, and were above the average of July during the previous ten years by 163. If, however, allowance be made for the increase of population, they will be found to have been below that average by 18.

To every 1,000 of the population of the district, the proportion of births registered was 3.51, and of deaths registered 1.57.

The highest temperature in the shade recorded at Melbourne Observatory during the month was 62.4° on the 18th, and the lowest was 29.0° on the 10th. The mean temperature of the month (47.0°) was a fraction below the average. The greatest range of the thermometer in any one day (29.5°) took place on the 18th, and the least range (3.1°) was on the 7th. The mean daily range was 14.6°. Land Act 1890.

REGULATIONS.

At the Executive Council Chamber, Melbourne, the fourth day of August, 1890.

PRESENT:

His Excellency the Governor.

Mr. Gillies	Mr. Cuthbert
Mr. Deakin	Dr. Pearson
Mr. Wrixon	Mr. Patterson.

WHEREAS by section 142, Part I., of the *Land Act 1890* power is given to the Governor in Council from time to time to make, alter, and rescind rules, regulations, and orders for the various purposes therein specified: Now, therefore, His Excellency the Governor, acting by and with the advice of the Executive Council, doth hereby make the Regulations following, which shall commence and take effect from the 1st August, 1890:—

REGULATIONS RELATING TO PART I.

Chapter I.—Preliminary.

1. The Schedules hereto shall be taken to form part of these Regulations, and may be modified by the Governor in Council.

2. For the purposes of these Regulations, unless the context be inconsistent therewith, the words "agricultural allotment," "country lands," "Board," "cattle," "cultivation," "fence," "Minister," "occupy," "selector under any previous Land Act or Acts," "substantial and permanent improvements," "traveller," and "vermin," shall have the respective meanings assigned to them in section 4 of Part I. of the *Land Act 1890*. The words "large cattle" shall mean cows, heifers, oxen, steers, horses, mares, geldings, colts, fillies, asses, and mules; and the words "small cattle" shall mean sheep and goats.

The words "Secretary for Lands," "Surveyor-General," "Assistant Surveyor-General," "District Surveyor," and "Land Officer" shall mean the persons for the time being holding such offices respectively, or performing the duties of such offices respectively.

Chapter II.—Of Survey.

1. The boundaries of every survey district shall be defined by the Surveyor-General. Every surveyor, when making surveys, shall comply with the following requirements, that is to say:—

2. Except as provided in the special Regulations hereto, he shall use a theodolite in correct adjustment, the readings of both verniers of which must be entered in field book on taking an observation or laying out an angle; and a chain maintained at the true standard length of sixty-six feet by daily comparison, when in use, with a standard chain or steel tape kept exclusively for such purpose, the standard itself to be compared, at intervals, with the standard recognised by the Department.

3. He shall conspicuously mark on the ground by stakes (split from sound timber and sawn on top) and trenches all the boundary lines of each allotment surveyed by him, and shall distinctly blaze all trees within three feet of such lines, and at not less than two angles of such allotment, if a tree is available within two chains radius, remove a square of bark from it fifteen inches by fifteen inches, and grave with a chisel in the solid wood a broad arrow four inches long, in width and depth of arms one-third inch, the bearing and distance of such mark from the angle peg being carefully entered in the field book. Such stakes shall be not less than three inches square and twelve inches long when placed at the corners of the allotment, and when placed as intermediate stakes shall be of similar length, and not less than two inches square. Intermediate stakes and trenches shall be placed at regular intervals of ten chains along the lines on plains or flat country, but where hilly and undulating, in such position that from each peg one other peg, at least, on either side may be visible, the average distance apart in no case being more than ten chains. In hilly and undulating country the surveyor shall also, at each theodolite or transit station, drive a small peg four inches by one

inch, and enter chained position in field book. When the slope of ground exceeds five degrees from the level, the angle shall be measured on the vertical arc of instrument, and used for correction of chainage. When practicable, these observations shall be made at even chains, thus avoiding the trouble of log. calculations in reduction. In all cases the measurements are to be reduced to the horizontal plane. All stakes shall be driven into the ground so that one inch only shall appear above the surface. Corner trenches shall be fifteen links long from the corner stake, cut exactly in the direction of the several boundary lines, and the trenches at the intermediate stakes shall be five links in length, cut in the direction of the line on each side of the peg, leaving a spit twelve inches long between the trenches, thus =. = All such trenches shall be not less than ten inches wide and six inches deep. In places where, on account of rock, such trenches cannot be cut, the corner stakes and intermediate stakes shall be protected by piles of stones placed around them.

4. Every allotment shall, where it is practicable, contain at least two right angles, and be quadrilateral. If a narrow strip of land be left between any allotment and a water frontage, the shortest side of the allotment shall front such strip of land, and where such strip is required for a roadway, it is to be not less than $1\frac{1}{2}$ chains in width. If an allotment abuts on a main road, the shortest side should face such road. The boundary lines of allotments within a defined parish shall conform to the locally established meridian of that parish, or as nearly thereto as circumstances will permit. Any departure from these instructions will necessitate a special report to be sent in with the plan.

5. The surveyor shall in all cases chain the actual boundaries of allotments, unless there be insuperable difficulties in the way, such as a wide river, lake, &c. In such cases the method observed in measuring the distance and prolonging the line should be clearly shown in the field book.

6. When a creek is the boundary of an allotment, the traverse of the creek is to form part of the geometrical figure used in calculating the area, and the areas of the portions lying between the traverse lines and the creek are to be computed from the offsets and insets.

7. In establishing a connexion with a previous survey, the most reliable line of that survey shall be adopted as a datum for bearings, and the surveyor will be careful to ascertain before adopting any line that its bearing on the ground is relatively correct with reference to adjacent lines of the survey. If no Government survey has been made in the immediate neighbourhood of the site, the surveyor shall establish a datum for his bearings, and shall connect his survey by traverse with some durably constructed signal station, erected on or near the most remarkable topographical feature in the vicinity.

8. The subject of the selection of roads being one of vital importance, the attention of surveyors is specially directed to the following instructions in reference thereto:—As soon as a surveyor has been assigned a district, he shall put himself in communication with the shire council or councils exercising control within his district, and request the co-operation of their engineer in selecting the best routes for leading lines of road through the unappropriated portions of the district. In the event of any shire council neglecting or refusing to comply with his request, after receiving twenty days' notice in writing, the surveyor shall proceed to select the best lines, according to his own judgment; but the failure of the shire authorities to co-operate shall not relieve him from the responsibility of making proper provision for all necessary roads; and in no case shall he survey a detached selection so as to block an existing track, or in a position likely to interfere with the public convenience, or block access to back country, until he has satisfied himself as to the road requirements of the locality in these respects, and made proper provision therefor. In cases where a difference of opinion may arise between himself and the shire engineers, or where the surveyor has doubts in his own mind as to the proper course to pursue, he shall consult the District Surveyor, and be guided by his directions. As soon as he has determined the approximate position of the leading lines of road for any locality, he shall forthwith furnish the District Surveyor or Land Officer with a rough diagram, showing the routes determined upon, in order that they may be noted on the locality plans for the information of intending selectors, and the main lines especially should be approximately selected as far ahead of selection as possible, and when once marked on the ground are not to be deviated from.

9. In addition to the necessary main roads, accommodation roads leading thereto are to be provided for at intervals of from a mile to a mile and a half in each direction.

10. Surveyors shall be held responsible for any inconvenience that may arise either to the public or individuals through the improper blocking of existing tracks, the omission of necessary roads, or the selection of impracticable roads where practicable lines are possible.

11. In making the permanent survey of a road, both sides are to be marked by pegs and trenches and blazed trees as specified for boundary lines.

12. Any previous surveyed blocks or allotments that may adjoin or be contiguous to the area or allotment under survey shall be connected by tie lines with such survey, and be shown on the plan.

13. In all cases where his measurements differ from those of any previous surveys, the surveyor shall furnish a special report with reference thereto.

FIELD NOTES, ETC.

14. Proper field notes of all surveys are to be recorded in the form of a diagram in books of a convenient size to be approved by the Assistant Surveyor-General, and any correction in the entries made for practical errors are to be shown in red, with an explanatory note on the page in which it occurs; such books to be the property of the Department, and to be given up when asked for. The date on which survey was completed must also be entered in the field book. On the completion of the survey, the surveyor shall, on the next page of the field book, make a sketch of the position of the various lines of the survey, showing the chained lengths and observed bearings of each separate line. He must also certify on the field book that his notes as recorded are the actual results of his observations and measurements on the ground. With the plan must be sent in a certified copy of the field notes, together with copy of the computations of the figure and its area in the usual form adopted for computation by reduction of traverse and double areas. The aforesaid instructions will be most stringently enforced, affording, as they do, the only assurance of probable accuracy to the Certifying Surveyor, in cases where he may not have an opportunity of making a personal inspection.

PLANS.

15. The surveyor shall supply a plan of the allotment, showing the course within its boundaries of any stream, race, road, track, and the position of any waterhole, dam, hut, fence, garden, old gold-workings, and any other topographical information that may be deemed necessary to be known in connexion with the application to select. He shall also state on the plan whether the bearings of the boundary lines have reference to the true or to the magnetic meridian, and how determined; or if taken from an adjacent survey, the datum line adopted must be shown on the face of the plan. The scale of the plan, where the area of the allotment is 100 acres or less, shall be eight chains to one inch; where the area is over 100 acres, twenty chains to one inch, unless a larger scale be required to show distinctly the matters hereinbefore directed to be shown. All plans shall be dated, below signature, as of the day when the survey was completed, and be certified as follows:—
“I certify that this survey has been effected on the ground in accordance with regulations, and that this plan is correct.”

16. Plans are to be drawn in accordance with the specimen plans prepared by the Department for the guidance of surveyors, and are to be forwarded to the Land Officer for the district on completion.

AGRICULTURAL ALLOTMENTS.

17. In the case of every agricultural allotment a strip of land not less than one chain and a half in width, reckoned from the high winter level of the water, shall be left between the allotment and the water frontage, and the shortest side of the allotment shall front such strip.

18. Every allotment shall, where it is practicable, be equilateral, and contain at least two right angles; and no allotment will be allowed to be selected in a position or in a form which would, in the event of its being held separately, cut off access to water from the remainder of the grazing area, or interfere with the profitable occupation of the same.

ADJUSTMENT OF BOUNDARIES.

19. Whenever it may be necessary to adjust the boundaries of any surveyed land, the Surveyor-General shall on such adjustment certify as to the correct boundaries and area of the land or any portion or portions thereof, and for every such certificate there shall be charged such fee as the Minister may direct.

LEASEHOLDS.—TRANSFER OF PARTS.

20. Every application for the registration at the Office of Lands and Survey of the transfer of a part of a leasehold must either be accompanied by a plan of such part, made by a duly authorized surveyor, showing its position in the original leasehold and its boundaries as defined on the ground by actual survey, or where any such transfer has been effected through the Office of Titles it must be shown to the Office

of Lands and Survey that such a plan was lodged with the Registrar of Titles previously to the issue of the certificate of title of which such registration is sought.

21. Every such plan must be drawn to a suitable scale on good drawing paper to the satisfaction of the Surveyor-General, and must be certified by the surveyor making the survey.

22. No transfer shall be registered or Crown grant issued by the Office of Lands and Survey in respect of any such application unless and until the requirements of the foregoing regulations have been complied with.

SURVEY FEES.

23. Whenever it shall become necessary to survey and define on the ground the boundaries of any allotment under the provisions of this Act, at the expense of an applicant, lessee, or licensee, the fee payable for the survey by such applicant, lessee, or licensee shall be in accordance with the following Schedule of Fees and Scale applicable to the class of country in which such allotment is situated; and the Surveyor-General shall determine the scale which shall apply to each district or locality of the colony.

25. For the survey of an allotment the area of which exceeds 1,000 acres, the survey fee payable shall be calculated at per mile of external boundaries, and the rate per mile shall be one-fifth the maximum, or fee for the survey of a 1,000-acre allotment, according to the scale applicable to the district or locality in which such allotment is situated. And, for the purpose of estimating the total amount of the fee payable for the survey of any given area, the following rule shall be adopted in computing the length of the boundaries, viz.—The total length of the boundaries of any allotment shall be taken at four times the square root of its area in links.

26. Whenever it shall appear to the Surveyor-General that the survey of any allotment is exceptionally difficult or expensive from its isolated position or any other cause, such extra charge as the Minister may deem fit may be imposed for the survey.

27. No survey shall be held to be a survey under the direction of the Board within the meaning of the 54th section of the *Land Act 1890* until the Board shall be satisfied of its accuracy, and the appellant shall be responsible for the payment of any further sum that may be required for the survey of the allotment, or for any modification of the plan thereof, where such modification is not caused by the neglect of the authorized surveyor.

28. When the right of selection is exercised in any detached portions, a separate survey fee, according to scale, will be required for each portion.

29. For all other surveys, the fee for which is not provided for in the preceding Schedule of Fees, the rates payable shall be in accordance with a schedule of prices, to be approved by the Minister, to be called the "Departmental Scale," in which the rates shall be expressed in some ratio of the maximum or minimum rates fixed by the graduated scale in the said preceding Schedule of Fees applicable to the district or locality in which the surveys are required.

30. All moneys payable on the orders of the Land Officers towards the expense of surveys shall be deposited by the applicant for the land at the Treasury, and credited to an account called the "Survey Fees Account."

31. Accounts passed against deposits placed to the credit of the "Survey Fees Account" shall be signed by the Land Officer ordering the collection of the money, or his successor in office, and shall be countersigned by the Inspecting District Surveyor.

32. In any case where the whole of the fee collected shall not have been expended on the survey, the Land Officer shall report the fact to the Assistant Surveyor-General immediately on certifying the

surveyor's account, and such balance as may remain shall be carried to Revenue or otherwise disposed of as the Secretary for Lands may direct.

SPECIAL REGULATIONS.—TEMPORARY SURVEYS.

33. When the grazing area or pastoral allotment exceeds three hundred and twenty acres in extent, or if less, when it is intended to occupy the land for the full term as a leasehold, the survey of such leasehold may be made in the manner following:—The boundaries must be marked on the ground, by substantial stakes, trenches, blazed or marked trees, in the usual way, but a good prismatic compass or circumferenter may be used by the surveyor in setting out and running the lines, and a limit of error corresponding with the kind of instrument used will be allowed in the dimensions.

34. The surveyor shall supply a plan on good drawing-paper of the area or allotment, plotted to a suitable scale, and showing on the face of it the following particulars:—

- The lengths and bearings of the boundary lines.
- The position and nature of the bound-marks.
- The area. And
- The numbers of the adjoining holdings or the names of Crown lessees or owners thereof.

35. The fees payable for such surveys shall be in accordance with the following schedule; the 1st class fees to apply only to the densely-timbered or scrubby portions of the Cape Otway, Western Port, and Gippsland districts, the limits of which shall be defined by the Surveyor-General. The second class to apply to country of an intermediate character between the densely scrubby and more open, the limits of which shall be determined by the Surveyor-General; and the third class to the rest of the colony, excepting the territory dealt with under Part II. of the *Land Act 1890*.

And in proportion for larger allotments.

36. When the cost of surveying a grazing area exceeds the sum of Ten pounds, if the sum of Five pounds be paid by the applicant towards the cost of the survey in the usual way, on the approval of his application, the Minister shall arrange for the payment of the *balance* of the cost of such survey by equal yearly instalments extending over the term of years payable with the rent of such grazing area.

37. Immediately on the approval of the application for a lease or licence, the Land Officer shall, if a survey be required, notify to the applicant that on his depositing with a Receiver of Revenue the amount chargeable to him for survey, and producing or forwarding the receipt therefor to the Land Officer, an authorized surveyor will be instructed to survey the land for and on account of the applicant. Should the said charge not be paid within twenty-eight days from the date of such notification, the application shall be deemed to be abandoned.

38. These Regulations shall not apply to the survey of lands for sale or permanent appropriation; nor to the survey of an agricultural allotment under the 42nd section of the Act; and nothing herein shall affect the Regulations of 1st June, 1885, for the employment of authorized surveyors.

Chapter III.—Of Local Land Boards and Appeals.

(Section 128.)

1. For the purposes hereinafter specified, there shall be Local Land Boards, and every such Board shall consist of such person or persons as the Minister shall from time to time appoint.

2. It shall be the duty of every Local Land Board to investigate publicly all applications that are remitted for its consideration, as herein provided, and all matters referred to it by the Minister, and to report to the Minister its opinion thereon.

3. At least seven days before the sitting of any Local Land Board the Land Officer shall insert in a newspaper circulating in the district where such Board will be held a list of the applications and matters

to be heard at such sitting by such Local Land Board. The notice to be given herein is to be in addition to the *Gazette* notice required by section 128 of the *Land Act* 1890.

4. No Local Land Board shall, unless by the authority of the Minister, adjourn, except from day to day, until it has disposed of all matters that are remitted for its consideration.

5. Within five days after the sitting of any Local Land Board the Land Officer shall send to the Minister the report of such Board upon all such applications, and upon the objections (if any) to such applications, and shall also send the minutes of evidence (if any) taken before it, and any objections that may have been lodged with him too late for consideration by such Board.

APPEALS.

6. Any person who may be dissatisfied with the recommendation of a Local Land Board may appeal against the same to the Minister, provided that the ground of appeal be set forth in writing and forwarded to the Minister not later than seven days after the sitting of the Local Land Board, with a request that such appeal may be heard. No appeal will be entertained after the expiration of the said seven days, unless the applicant show by a statutory declaration that he received no notice to attend, and was not aware of the sitting of and did not attend the Local Land Board, and further that he has a claim on the merits for re-hearing. No verbal application will be entertained. The form of appeal prescribed in Schedule I. hereto is given as a guide.

7. If the Minister be of opinion that the grounds of objection set forth in such before-mentioned statement or statutory declaration are sufficient, he may order the appeal to be set down for hearing by himself, or by persons whom he may appoint to hear the same and report thereon in writing to him, and due notice will be given to all persons interested in such appeal.

8. In order to afford time for the collection and examination of papers relating to the subject of appeal, and for the transmission of notices as hereinbefore provided, no appeal, unless otherwise expressly directed by the Minister, will be set down for hearing before the expiration of fourteen days from the date of sitting of the Local Land Board.

9. Unless otherwise expressly directed by the Minister, an appeal will only be allowed when based on the following or similar grounds, viz.:

- 1st. That the appellant had not received due notice to attend at, or that a fair opportunity was not offered by the Local Land Board for statement of his case; or,
- 2nd. That the Local Land Board refused to hear material evidence; or,
- 3rd. That any member or members of the Local Land Board were interested in the case.

Chapter IV.

(Section 3.)

1. Applications by pastoral or grazing licensees under *The Land Act* 1869 to retain possession of their holdings, for grazing purposes only, and licences therefor, shall be in the forms prescribed in Schedules II. and III. respectively hereto.

2. The fee for the preparation of such grazing licence shall be Five shillings.

PASTORAL LANDS.

(Section 21.)

3. Every intending applicant for a right to a lease for a pastoral allotment shall lodge an application in the form prescribed in Schedule IV. hereto, at a place and hour to be named in a public notice; and in the event of two or more applications being lodged on any one day before the hour of Two o'clock in the afternoon in respect of the same pastoral allotment, the same shall be offered for sale by public auction, of which due notice shall be given, and subject to the conditions prescribed in Schedule V. hereto.

4. Leases for pastoral allotments shall be in the form and subject to the conditions prescribed in Schedule VI. hereto.

5. Lessees of pastoral allotments who have complied with the covenants and conditions of their leases, and desire to exercise their right, under section 29 of the *Land Act* 1890, of selecting a portion of their pastoral allotments, not exceeding 320 acres in extent, as a home-stead, must make application in the form prescribed in Schedule VII. hereto.

6. The fee for the preparation of a lease for a pastoral allotment shall be Two pounds.

NOTE.—For Regulations relating to resumption of land under the 10th sub-section of section 27, *Land Act* 1890, see Chapter V.

Chapter V.—Grazing Areas.

(Section 32.)

1. Every intending applicant for a lease of a grazing area shall, during office hours, deliver or cause to be delivered an application describing the land applied for, in the form and accompanied by the declaration prescribed in Schedule VIII. hereto, to the Land Officer for the district in which the land is situated. The applicant shall, before lodging his application for a grazing area lease, pay to the nearest Receiver of Revenue the sum of One pound (except as provided in sub-section *a* following) for a certificate of registration, which the said Receiver shall thereupon hand to him, and such sum shall not in any case be refunded.

2. An applicant for a lease of a grazing area who shall have paid with his application the sum of One pound for a certificate of registration, shall, in the event of such lease not being granted by the Governor in Council, be permitted to lodge during the period of one year from the date of such application one or more applications, with each of which the sum of Two shillings and sixpence (2s. 6d.) shall be paid.

3. The applicant shall post or deliver to the Land Officer with his application the said certificate of registration, and no application shall be deemed to be an application for a grazing area lease under Part I., Division 3, of the *Land Act* 1890 unless the said certificate be forwarded therewith. The Land Officer shall enter the applications as received in the book kept for the purpose. Applications received by the Land Officer upon one and the same day shall be deemed to be equal so far as regards priority of lodging application.

4. The Land Officer shall notify by post to every applicant and to every person who in his opinion is interested for or against the application the time and the place of the meeting of the Local Land Board at which such application and the objections (if any) thereto will be heard; but no person shall be deemed to have any right to receive any such notice, and any objection to any such application may be taken by any person, and shall be considered at the hearing although no notice thereof shall have been given. Except when specially ordered otherwise by the Minister, all applications for land shall be brought before the Local Land Board sitting at the locality nearest which the land referred to is situated, and the applicants shall attend such Local Land Boards in their own proper persons.

5. After the consideration of the report of the Local Land Board and approval of the issue of any grazing area lease, the applicant shall pay the rent for one half-year's occupation of the land described therein, and a fee of One pound for the preparation of the lease, also, if necessary, the charge for survey, together with such other sums as may be required in special cases for value of improvements. The applicant shall be advised to pay the said sums within one month from the date of notification of the approval of the issue of the lease. Every such lease shall bear date as of the first of January or the first of July, as the case may be, and shall be in the form prescribed in Schedule IX. hereto; but the diagram of boundaries and statement of area shall be deemed as approximate and temporary only. Provided always that the Governor in Council may, if he think fit, order that a lease be subject to such special conditions as shall meet the circumstances of any particular case.

6. If any person whose application for a lease shall have been approved fail to pay the rent, sums, and fees as hereinbefore directed within one month of the date of the notice of approval, his application shall be liable to be deemed abandoned, and the area applied for shall be liable to be made available for selection.

7. Unless by the express direction of the Minister, all subsequent payments of rent shall be made to the Receiver in whose district the land is situated; and no Receiver shall receive any moneys on account of leases unless advised from the Department of Lands and Survey so to do.

8. At the expiration of three years from the date of their respective leases each lessee under section 32 of the *Land Act* 1890, or section 32 of *The Land Act* 1834, shall forward to the Secretary for Lands a statement in the form of Schedule X. hereto as to his performance of the covenant of his lease.

INGRESS, EGRESS, AND REGRESS REGULATIONS.

9. Every lessee of a grazing area under section 32 of the *Land Act* 1890 shall at all times permit free ingress, egress, and regress into, out of, and upon his leasehold to every other grazing area lessee, his agents and servants, with or without live stock or vehicles, travelling from and to any road or track usually used, and shall for that purpose erect slip-panels in his fences at the most convenient places for such persons so travelling.

10. Every lessee, his agents, or his servants, travelling through another lessee's grazing area, shall enter and depart only by means of

the slip-panels above referred to, and shall take such route as shall not interfere with the improvements or domestic or other arrangements of the lessee through whose grazing area he is travelling.

11. The rails of the slip-panels shall be placed in their proper position in the fence by the persons travelling immediately after they have passed through.

12. No person travelling through a grazing area leasehold by authority of sub-section 12, section 38, of the *Land Act* 1890, shall damage or in any way interfere with the improvements, sheep, cattle, or other property of the lessee through whose grazing area he is travelling.

13. Every lessee of a grazing area desiring to travel cattle or sheep through another person's grazing area leasehold shall—if the number of such stock exceed 10 cattle or 50 sheep—not less than twelve hours, or more than twenty-four hours, before entering upon such grazing area leasehold, give or deliver at the residence of the occupier of such leasehold, or, if there be no occupier, then shall post in some conspicuous place on such leasehold a notice of his intention to drive such cattle or sheep; and all cattle or sheep when being travelled through a grazing area leasehold shall be driven in accordance with the provisions of sections 8, 9, and 10 of these Regulations, and without any delay, and with proper reasonable speed.

TRANSFER OR MORTGAGE OF LEASES.

14. Applications for consent of the Board of Land and Works to transfer or mortgage of grazing area leases shall be made in the form prescribed in Schedule XI. hereto.

15. The form of consent of the Board of Land and Works shall be as prescribed in Schedule XII. hereto.

16. The fee for such consent shall be £1.

RESUMPTION OF LAND UNDER SUB-SECTION 10 OF SECTION 27 AND SUB-SECTION 11 OF SECTION 38 AS SITES FOR TOWNSHIPS OR VILLAGES OR FOR MINING PURPOSES.

17. Whenever it shall appear to Her Majesty, her heirs, and successors that it is expedient to resume as sites for one or more townships or villages any land forming part of a pastoral allotment or grazing area under the condition above recited the full value, not exceeding the amount expended thereon by the lessee of all houses, fences, wells, reservoirs, tanks, dams, and other substantial and permanent improvements made, erected, or constructed by the lessee on the land so resumed, shall be ascertained by arbitration.

18. Such arbitration shall be carried out in the same manner as is hereinafter provided with respect to resumption for mining purposes.

19. Any person desirous of moving Her Majesty, her heirs, and successors to resume for mining purposes any of the land comprised in any lease of a pastoral allotment or of a grazing area, shall do so by addressing the Minister in the form or to the effect contained in Schedule XIII. hereto.

20. Such resumption may be enforced under the 10th sub-section of section 27 or the 11th sub-section of section 38 of the said *Land Act* 1890.

21. Such applicant shall forward to the Minister, with his application, the sum of £10, which shall be dealt with as hereinafter directed. He shall also forward a plan showing what portion of the leased lands he desires to have resumed and a statement in the form of a statutory declaration of the reasons why he desires such resumption.

22. Such statement shall be in duplicate.

23. On the receipt of such application, plan, and duplicate statement the Minister may, if in his opinion a *prima facie* case for resumption is made out, require the lessee, as also his registered mortgagee or mortgagees (if any) to show cause before him, on a day to be fixed by him, why, on payment to him of the full value of all the matters and things enumerated in sub-section 11 of section 38, Her Majesty, her heirs, and successors should not resume possession of and re-enter upon the lands applied for, or such part as the Minister may approve of.

24. Such cause shall be shown by the lessee or his registered mortgagee or mortgagees (if any) by his or their forwarding to the Minister in the form of a statutory declaration his or their reasons why such resumption should not take place, or why a smaller area than that desired by the applicant should be resumed.

25. Before making such statement the lessee may require to be furnished with the duplicate statement before mentioned for his guidance in framing his counter statement.

26. Should such lessee or mortgagee or other of them dooline or neglect to forward to the Minister such counter statement the Minister may act, should he think proper so to do, on the statement made by the applicant, and any other evidence that the Minister may require: but

before so acting he shall satisfy himself that the intended application has been brought to the notice of the lessee or mortgagee or their agents or representative.

27. On receipt of such counter statement of the lessee and mortgagee the Minister may, if he be of opinion that such counter statement is a sufficient answer to such application, inform both parties of such his opinion and determination, and may, should he so think fit, out of the money deposited with him by the applicant, award all reasonable costs to the lessee or mortgagee, or both, and pay the balance (if any) to the applicant.

28. Should the Minister be of opinion that such counter statement is an insufficient answer to such application he may inform all parties of such his opinion and determination; and shall at the same time fix definitely the area and boundaries of the land to be resumed, and (unless all parties agree within one week after having been notified thereof as to the amount of compensation, or unless within fourteen days thereafter the lessee or mortgagee shall in writing desire the amount to be ascertained by arbitration as hereinafter is mentioned) may refer the question of such amount to a warden.

29. Such warden shall fix a day for the determination of such question, and on such day, or any later day to which such determination may be adjourned, shall in the presence of all parties, or in the absence of either of them on proof satisfactory to him that such party has been duly notified of the time and place where such inquiry shall be held, fix the amount of the valuation to be paid to the lessee.

30. The warden shall report to the Minister the amount of the compensation as fixed by him, as also the amount of costs (if any) which the applicant ought to pay to the lessee.

31. Such costs shall be paid out of the sum deposited by the applicant, and the balance (if any) shall, on the resumption of the land applied for by the applicant, be paid to him.

32. Should the lessee or mortgagee within the time hereinbefore limited desire that the amount of compensation be ascertained by arbitration and not by a warden he may do so, provided that he signifies his desire to the Minister and appoints his arbitrator and communicates such desire and appointment to the applicant within one week after the Minister has informed him that his counter statement is insufficient, and thereupon the applicant shall within one week after such communication has reached him appoint his arbitrator and inform the Minister of such appointment, and these two arbitrators shall appoint a third.

33. If the land in question is mortgaged the lessee and mortgagee shall only appoint one arbitrator between them, and if they cannot agree upon such arbitrator the Minister shall elect between the person nominated by the lessee and first mortgagee respectively, and the person elected by him shall be the joint arbitrator of the lessee and the mortgagee or mortgagees.

34. Should either party neglect to appoint an arbitrator, or should such arbitrator when appointed die, refuse to act, or become incapable of acting, such proceeding shall *mutatis mutandis* be taken for the purpose of remedying the consequence of such neglect, death, refusal to act, or incapacity as are contained in the 47th and 48th sections of the *Land Act 1890*.

35. The arbitrators or a majority of them shall, within one month after their appointment, or such later day as shall from time to time be allowed by the Minister, report to him the amount of compensation as fixed by them, as also the amount of costs (if any) which the applicant ought to pay to the lessee.

36. Such costs shall be paid in the same manner and out of the same fund as is provided with respect to a reference to a warden.

37. On the amount of compensation being ascertained it shall be paid to the lessee or mortgagee, or as may be agreed upon between them, but if they cannot agree upon the disposal of such amount, or if when tendered to the lessee or mortgagee it shall be refused to be accepted, it shall be paid into the Supreme Court to abide the direction of the court as to its distribution.

38. On such amount of compensation being paid or tendered to the lessee or mortgagee such lessee shall forthwith surrender to Her Majesty, her heirs, and successors his lease, and he shall be entitled to receive free of cost a fresh lease for the unexpired term thereof, at a rent reduced in proportion to the area of land resumed.

2. Licences for agricultural allotments shall be in the form and subject to the conditions prescribed in Schedule XV. hereto, and shall also be subject to such other special conditions as the Governor in Council may in any particular case direct.

3. Any licensee under section 42 of the *Land Act* 1890 who may wish to absent himself from his allotment for a period in all not exceeding three months in any one year of the currency of his licence shall apply to the Land Officer for the district in which the land is situated, and fill up and sign a notice in the form prescribed in Schedule XVI. hereto.

4. The Land Officer shall register in a book, in the form prescribed in Schedule XVII. hereto, to be kept in his office for that purpose, each notice of intended absence, and shall transmit such notice to the Secretary for Lands.

Chapter VII.—Agricultural Allotments.

Chapter VIII.

RESIDENCE AND NON-RESIDENCE LICENCES.

2. The council of the shire within the boundaries of which any common heretofore proclaimed or hereafter to be proclaimed under the provisions of the *Land Act* 1890 is wholly included shall be the managers of such common.

3. In all cases in which a common shall be situate partly within any shire, or partly within two or more shires, the council of the shire within the boundaries of which the largest extent of such common shall be included shall be the managers of such common.

4. Every gold-field common shall be managed by the members for the time being of the mining board of the mining district within the boundaries of which such common is included, unless, owing to the distance of any gold-field common from the office or place of meeting of any mining board, such common can be more conveniently or efficiently managed by other persons whom the Minister may appoint.

5. Every borough common shall be managed by the members for the time being of the council of the borough in connexion with which such common was proclaimed.

6. All commons amalgamated previously to the passing of the *Land Act* 1890, or to be hereafter amalgamated, may be managed by the members for the time being of two or more of the before-mentioned councils or boards. The Governor in Council may, however, place an amalgamated common under the management of one only of the before-mentioned councils or boards, or under management of delegates from each council or board.

7. The managers of commons wholly or partially comprised within cities, townships, boroughs, or townships, and of gold-fields commons proclaimed under the Act No. 117 or No. 145, may grant to butchers or to slaughtermen special licences to depasture, for such periods of time as may be agreed on, cattle intended for slaughter, subject to the condition that the fees shall not be at a proportionately less rate than Two shillings per head per annum for large cattle, and One shilling per head per annum for small cattle.

8. The Minister shall nominate, for appointment by the Governor in Council, the persons who shall be managers of all farmers' commons, temporary commons, and town commons outside the boundaries of any shire, road district, city, or borough.

9. Applications for the proclamation of a common under the *Land Act* 1890 shall be made in the form prescribed in Schedule LXXXVI. hereto.

10. Application for an increase to the area of any existing common shall be made in the form prescribed in Schedule LXXXVII. hereto, and shall contain full particulars relative to the area of the common proposed to be increased, the number of cattle depastured thereon during the year preceding the date of the application, the number of persons whose cattle have been depastured on the common during such year, the amount of commonage fees received during that year, and the mode in which such fees have been disposed of.

11. Ratepayers in shires and boroughs, holders of miners' rights, business licences, or carriers' licences, and farmers may respectively depasture on a common proclaimed under the *Land Act* 1890, within a distance of five miles (ten miles at the option of the Honorable the Minister of Lands) from their places of residence, four head of large cattle, or the equivalent of the whole or a portion thereof in small cattle, on the basis that one head of large cattle be deemed equivalent to three head of small cattle. A farmer having under cultivation not less than one-tenth portion of the land occupied by him may depasture on such common one additional head of large cattle, or the equivalent in small cattle, for every ten acres of such land cultivated by him.

12. The fees for depasturing cattle on a common shall be paid in advance, and shall not be less than at the rate of Two shillings per annum for every head of large cattle, and One shilling per annum for every head of small cattle. The managers of any common may, from time to time and at any time, make alterations in the scale of fees, but not below the prescribed limits, which alteration shall be subject to the approval of the Board, and be published by the managers in the *Government Gazette*, and in a newspaper circulating in the district wherein the common is situated.

13. The herdsman shall also conform to any special instructions issued to him by the managers of the common relative to the registration, custody, and delivery to owners of the cattle depastured thereon, and to the prevention of trespass thereon of cattle other than travelling cattle for which no commonage fees have been paid. Such herdsman shall be remunerated for his services out of the fund derived from the commonage fees, and he shall provide security for the honest and faithful discharge of his duties in such amount as the managers of the common may deem adequate.

14. The money derived from the fees received for the agistment of cattle on a common may, after paying for the services of the herdsman, be expended by the managers of such common on the publication of the regulations for its management, the purchase of account books, stationery, branding-irons and tar, and on the eradication of thistles, Bathurst burr, wild briar and gorse, and on the destruction of vermin on the common. The surplus over such expenditure may be applied, with the concurrence of the Board, under its seal, to the formation of dams for storage of water on the common, the improvement of natural water-holes, the construction and repair of stockyards, the improvement of such approaches to the common as are not proclaimed roads or streets, and to any other purpose which the Board may consider desirable.

15. The managers of commons shall keep books in the forms prescribed in Schedule LXXVIII. hereto, in which books shall be recorded the description and brands of the cattle depastured on the commons, the money received as commonage fees, the payments made from the funds derived therefrom, the dates of such payments, and the authority for making them; and the managers shall give, in the form prescribed in said schedule, printed receipts consecutively numbered, the butts of which receipts shall be retained for inspection.

16. The managers of every common shall, within one month after the termination of each year, publish in a newspaper circulating in the district wherein the common is situated a certified account of their receipts and expenditure for the year, in the form prescribed in Schedule LXXIX. hereto, and forward copy thereof to the Board.

19. The managers of every common may sue for and recover any fees overdue for depasturing stock on such common, or for any penalty for breach of any regulation for management of such common.

20. The managers of any common may submit to the Board draft regulations for the management of the common, provided that they be not inconsistent with the provisions of the foregoing general regulations for the management of commons, and such draft regulations, after revision by the Board and approval by the Governor in Council, shall be published in the *Government Gazette*, and by such managers in the newspapers circulating in the district wherein the common is situated.

21. The Board may at any time direct a special audit of the accounts of the managers of any common to be made by such persons as it thinks fit.

 necessary to be noticed are hereinafter mentioned, viz.:-

1. The land hereinafter described will be put up for sale at the prices respectively stated and annexed to the descriptions thereof, and the bidder of that sum, or the highest bidder above it, will be declared the purchaser, provided he shall immediately pay down a deposit of twenty-five per cent. of the amount of the purchase-money, and pay also the charge for survey, and sign a description hereunto annexed of the lot of which he shall become the purchaser, thereby binding himself to the observance of the above and following articles and conditions.
2. The residue of the purchase-money shall be paid in twelve equal instalments on the last day of each successive period of three months from this date, or be, if the purchaser choose, payable at any earlier time or times being one of such last days of any such period of three months as aforesaid, and such residue of the purchase-money shall bear interest at the rate of Six pounds per centum per annum to be computed with respect to each instalment for the period which has elapsed between the time of sale and the time of the payment of such instalment; and on failure of the payment of any instalment with interest at the time at which the same becomes due, the deposit and instalment or instalments and interest already paid shall be forfeited, and the contract shall thereupon be void, and the land may be again offered for sale.
3. Immediately after the biddings on each lot are concluded, and before another lot is put up, the name of the purchaser will be entered in the list of the descriptions of the lots annexed to these presents, and the purchaser will be required to affix his signature to the description of the lot so purchased by him. If previous to such signature any question or dispute as to the last and best bidder shall arise between the sellers and bidders, or amongst the bidders themselves, the lot in question shall be put up again. Subsequent to such signature no dispute whatever can be admitted, nor can any alteration of name or transfer from the actual purchaser to another person be allowed. No bid made after the fall of the auctioneer's hammer shall be received. Any future claim for compensation as to any alleged difference in the area will not therefore be entertained.
6. If the officer acting on behalf of the Government shall find reason to believe that any lot will not obtain its just value, or shall otherwise think fit to withdraw the same from the sale, he shall have full power to do so at any time previous to its being actually sold.
7. Persons having affixed their signatures to the lists of the descriptions of the lots annexed to these presents, in token of their having become purchasers (or agents for purchasers) of the lots to which their signatures are respectively so affixed, will be held to have previously obtained all necessary information, and shall not be entitled to allege ignorance or any other cause for their not fulfilling all and every obligation incumbent upon them by these articles and conditions.
8. PRESENT:

His Excellency the Governor.

Mr. Gillies	Mr. Bell
Mr. Deakin	Mr. Davies
Mr. Cuthbert	Mr. Patterson.
Dr. Pearson	

WHEREAS by section 222 of the *Water Act 1890*, No. 1156, it is enacted that the Governor in Council may, subject to the provisions of the said Act, from time to time make, alter, and repeal regulations relating to any Irrigation and Water Supply Trust appointed under the said Act for the purposes, among others, following:—

- (a) For determining the period for which the commissioners of any trust shall hold office, the time and manner of election, and the order of their retirement from office;
- (b) For determining the manner in which elections of any such commissioners shall be held, and the manner of voting thereat;

Now therefore His Excellency the Governor, acting by and with the advice of the Executive Council, and in pursuance of the said provisions of the now in part recited Act, doth, for the purposes aforesaid, so far as these may relate to a certain Irrigation and Water Supply Trust, duly appointed under the said Act, and known as the Millewa Irrigation and Water Supply Trust, make the regulations following, viz:—

Provided always that if such owners or lessees jointly, by notice in writing, desire that the number of votes to which, under the said provisions, any one of such owners or lessees respectively is so entitled to give as aforesaid may be allotted between such owners or lessees in any manner they may jointly indicate, the alteration or alterations so desired to be made in the said list shall, if the same be consistent with the said provisions, be made when the list or lists shall be revised as hereinafter provided, and such owners or lessees shall be entitled to vote accordingly.

19. *Revised and certified list to be voters' roll.*—The list so revised and certified shall be the voters' roll for the purposes of any election (whether ordinary or extraordinary) of trust commissioners to be held within one year from the 8th day of October then next, the said day inclusive.

20. *Minister may appoint returning officer for first election.*—*Chairman of trust to be returning officer at subsequent elections.*—For the purposes of the first such election, the Minister may appoint some fit and proper person to be returning officer; but for every subsequent election (whether ordinary or extraordinary) the chairman of the trust for the time being shall be the returning officer; but if at the time of any election the office of chairman of the trust should be vacant, the commissioners of the trust may by resolution appoint one of their number to be returning officer until the office of chairman shall again be filled; and the returning officer may appoint a deputy to assist him or to act in his room at any election, and such deputy may do all or any of the acts or things which the returning officer is hereby authorized or required to do.

21. *Notice of election.*—*Nomination of candidates.*—*Fourth Schedule.*—Fourteen clear days before any election of commissioners under these regulations, the returning officer shall give public notice of such election by advertisement inserted in some newspaper generally circulating in the said district, and by such notice shall require all candidates at such election to be nominated at some place within or near to the said district and named in such notice, in manner hereinafter mentioned, between the hours of Ten o'clock in the forenoon and Four o'clock in the afternoon, on some day before a day (hereinafter called the day of nomination), not less than four nor more than seven days after the time of giving such notice, and named therein; and any person desirous of nominating a candidate shall, before Four o'clock in the afternoon of the day next preceding the nomination day, cause to be delivered at the place aforesaid to the returning officer a nomination paper in the form of the Fourth Schedule, or to the like effect, stating therein the christian name and surname of such candidate, together with the other particulars required in and by the said schedule; and such nomination paper shall be signed by not less than three persons duly qualified to vote at such elections, and also signed by the person named therein as a candidate in token of his assent to being so named, and such candidate, or some person on his behalf, shall at the time when such nomination paper is delivered to the returning officer pay into the hands of such returning officer the sum of Ten pounds (£10) to be dealt with as by law provided. And no person who shall not have been so nominated, and by whom or on whose behalf such payment shall not have been so made, shall within the subsequent provisions of these regulations be deemed to be a candidate at any election of commissioners.

22. *Where number of candidates does not exceed number of commissioners to be elected.*—If at the expiration of the time limited as hereinbefore provided for the nominations of candidates the number of persons who have become candidates as aforesaid does not exceed the number of commissioners to be elected, the returning officer shall then declare such candidates to be duly elected, and they shall be deemed to be then duly elected accordingly.

23. *Where number of candidates exceeds number of commissioners to be elected.*—*Fifth Schedule.*—*Notice of poll.*—*Hours of polling.*—If at the expiration of the time limited for the nomination of candidates the number of candidates exceeds the number of commissioners to be elected, then the returning officer shall forthwith cause ballot-papers to be printed, with the christian names and surnames of all the candidates in full, in the form of the Fifth Schedule hereto, and shall also forthwith give public notice, by advertisement in some newspaper generally circulating in the irrigation district, stating the names of the persons so nominated, and that a poll will be taken for the election of such commissioners upon the day named in such notice, at such place within the said district as the returning officer shall in and by such notice appoint; and such poll shall take place accordingly, and shall commence at Ten o'clock in the forenoon, and close, at Four o'clock in the afternoon.

24. *Retirement of candidates before polling day.*—If at any election after a poll shall have been appointed as aforesaid any candidate for such election and two of the persons having signed

the paper nominating him as aforesaid are desirous that he should retire from such candidature, such candidate and the persons aforesaid may sign and deliver to the returning officer, not later than four clear days before the day of polling, a notice, in the form of the Sixth Schedule hereto, stating that such candidate so retires; and the said candidate or his agent shall thereupon publish in some newspaper generally circulating in the irrigation and water supply district a copy of such notice, and the returning officer, on sufficient proof of such publication aforesaid, if the number of candidates is by such retirement reduced to the number of persons to be elected at such election, shall on the day appointed for the election declare the remaining candidates duly elected, and if the said number is not so reduced shall omit the name of the person so retiring from the ballot-papers to be used at the said election, and if such papers are already printed shall erase such name therefrom; and such person shall not be capable of being elected at such election.

25. *Polling booth may be hired.*—At such election the returning officer shall provide a suitable place for taking a poll, and may, if necessary, cause to be hired and used as a polling booth any room which he may deem to be suitable at the place appointed for taking the poll, and may divide such room into compartments as to him may seem most convenient.

26. *Returning officer to preside at polling booth.*—The returning officer, or his deputy, shall preside at the polling booth for taking the poll.

27. *Scrutineers may be appointed.*—Each candidate shall be entitled to appoint, in writing, one scrutineer to be present in the polling booth, and the said returning officer, or his deputy, and the said scrutineers, and any voters, not exceeding four in number, actually engaged in voting, shall alone be permitted at any one time to enter or remain in the polling booth.

28. *Pencils to be provided.*—The returning officer, or his deputy, shall provide pencils in the polling booth for the use of the voters, and also a locked box, to be called the ballot-box, with a cleft or opening therein capable of receiving the ballot-papers; and such box shall be opened and exhibited to the scrutineers before the polling begins; and the box shall then be locked, and shall stand on a table opposite the returning officer, or deputy returning officer, who shall keep the key of such box.

29. *Mode of voting.—Where voter is illiterate.*—The returning officer shall deliver to every voter who requires the same a ballot-paper, or if such voter appears by the roll to be entitled to give more votes than one then so many ballot-papers as may be equal to the number of votes which such voter so appears to be entitled to give, such ballot-papers being in the form of Schedule Five hereto, and initialed by the returning officer; and every such voter shall, without leaving the booth, strike out from all or any of such papers the name of every candidate for whom he does not intend to vote. And in case any voter is unable to read or write, the returning officer, or his deputy, if so required, shall, in view of such one of the scrutineers as the voter may desire, strike out the name or names of such candidate or candidates as such voter may designate; and after such name or names have been so struck out the ballot-paper or ballot-papers (as the case may be) shall forthwith be deposited in the said box. Provided that all the ballot-papers to which any person may be entitled at the polling booth shall be demanded and received by him at one and the same time; and no person having once demanded and received any such ballot-paper or papers, and voted by the same, shall at the same election receive any further ballot-papers, or exercise any further right of voting.

30. *Ballot-papers to be numbered.*—Before delivering any ballot-paper to the voter, the returning officer, or his deputy, shall write upon the back of each such ballot-paper, as near as practicable to the lower edge thereof, the number set opposite to the voter's name in the roll; and shall thereupon, upon a copy of such roll, check off such voter's name as having voted, and mark against such name the number of ballot-papers delivered to such voter.

31. *Informal ballot-papers.*—If any voter suffer to remain upon his ballot-paper a greater number of names not struck out than the number of commissioners to be elected, the vote given on and by such paper shall be void and of no effect.

32. *What question may be asked.*—At any election of commissioners the returning officer may, if he see fit, or if required to do so by any candidate or scrutineer, shall put to any person tendering his vote the question following:—

“Are you the person whose name appears as (A. B.) in the roll now in force for this trust, being enrolled therein in respect of land in the parish of _____ being (here specify land as described in the roll)?”

And no other question shall be put to any person tendering his vote; and no person who shall refuse to answer such question, or who shall not answer the same absolutely in the affirmative, shall receive a ballot-paper or be permitted to vote.

33. *False answer, polling twice, and personation.*—Every person who shall wilfully make a false answer to the question aforesaid, or who shall poll more than once or offer to poll more than once at the same election, or who shall depart or attempt to depart from any polling booth after having received a ballot-paper without having deposited the same in the ballot-box as hereinbefore provided, or who shall personate any other person for the purpose of polling at such election, shall be guilty of a breach of these regulations; but nothing contained in this clause shall apply to any person only by reason of his exercising the right of voting as often as it appears by the roll he is entitled so to do.

34. *Result of polling, how ascertained.*—Returning officer to have casting vote.—Immediately upon the close of the poll, the returning officer shall, in the presence of and subject to the inspection of so many of the scrutineers of the candidates as please to be present, proceed to ascertain the number of votes for each candidate; and such returning officer shall abstain from inspecting the number written as aforesaid on any ballot-paper, and take

care that the same is not seen by any person before being sealed up as herein provided; and the returning officer shall seal up the ballot-papers deposited in the booth, and as soon as conveniently may be on or after the day of the poll publicly declare the candidates, not exceeding the number of vacancies to be filled up, who have received the greatest number of votes to have been duly elected commissioners of the trust; and if two or more candidates have received an equal number of votes, the returning officer shall in each case have the casting vote.

35. *Ballot-papers, how disposed of.*—The returning officer shall, in the case of the said first election of commissioners, forthwith, after the declaration of the poll, indorse with a description of the contents thereof and sign the sealed parcel of ballot-papers, and forward the same to the Minister, who shall, as soon as may be after the first meeting of trust commissioners shall have been held, forward such sealed packet to the secretary of the trust, to be by him safely and secretly kept for six months then next ensuing, and then by him caused to be destroyed in the presence of three commissioners of the trust; but in all subsequent elections the parcel of ballot-papers so sealed, endorsed, and signed shall be delivered by the returning officer to the said secretary, to be by him safely and secretly kept for six months after such delivery, and then by him caused to be destroyed in the presence of three of the commissioners of the trust.

36. *Minister to determine questions arising upon first election.*—If any question arise as to the due election of any commissioner at the first election, the returning officer shall, at the request of any voter or candidate, submit such question in writing to the Minister, who shall decide the same; and such decision shall be final and binding.

37. *Questions arising upon subsequent elections to be determined by trust.*—If any question arise as to the due election of any commissioner at any subsequent election, whether ordinary or extraordinary, such question shall be determined by the commissioners of the trust at the first ordinary meeting held after the election; but no commissioner in respect of whose election such question shall have arisen shall act as a commissioner at such meeting, or be entitled to take any part in the proceedings thereof, or in any manner or at any time to act as a commissioner until such question shall have been so determined; and the majority of the commissioners whose election is not in dispute shall form a quorum.

38. *Appeal to Minister from determination of trust.*—In event of any voter or candidate feeling aggrieved by the determination of the trust with reference to any such question as last aforesaid, he may appeal therefrom to the Minister within fourteen days from the date upon which the commissioners shall have determined the question, and the Minister may make such inquiry as to the merits of the question as may appear to him to be necessary, and determine such question in such manner as to him may appear just; and such determination of the Minister shall be final and binding.

39. *Failure to elect deemed to create extraordinary vacancies.*—If at any election of commissioners no vacancies or a number of vacancies less than the whole number which should have been filled up at such election are filled up, then the vacancies which are not so filled shall severally be deemed extraordinary vacancies and to have occurred on the day appointed for such election. Provided always that the commissioners eventually elected to fill such vacancies shall go out of office as if elected at such election.

40. *Expenses of election to be paid by trust.*—The expenses incurred by the returning officer, or under his direction, in connexion with any election, shall be defrayed by the trust.

41. *Penalty for breach of regulations.*—These regulations shall also be deemed to be regulations under section 414 of the *Water Act 1870*, and any person guilty of a breach of any of the provisions of these regulations shall be liable to a penalty not exceeding Ten pounds, to be recovered in a summary manner before justices of the peace.

42. *Interpretation.*—In these regulations words importing the masculine gender shall be deemed and taken to include females, unless there is something in the context repugnant to or inconsistent with this interpretation.

TENDERS will be received by the Board of Land and Works up to Noon of Friday, 26th September, 1890, for the occupation for Grazing purposes only of the following unappropriated portions of land, subject to the Regulations approved by the Governor in Council and also the subjoined special conditions.

Every licence granted under section 123 of the Land Act 1890 shall be subject to the conditions set forth in the schedule hereto, and to such special conditions and payment in advance of such fee as the Minister may determine, and shall be issued by an officer of the Department of Lands and Survey duly authorized in that behalf.

Under section 7 of *The Vermin Destruction Act 1889*, all licensees under the section for which these licences will issue are liable for the destruction of rabbits within the boundaries of their licences.

Conditions :

1. The issue of this licence shall not prevent the land comprised therein, or any part or parts thereof, being sold, leased, licensed, alienated, or dealt with under any of the provisions of the Land Act 1890, except under the 123rd section thereof, under which the licence is issued, or being resumed by order of the Governor or Administrator of the Government of Victoria, with the advice of the Executive Council, for any of the purposes for which land may be reserved under section 10 of the Land Act 1890, or for mining purposes.

2. In case the said land, or any part or parts thereof, shall be sold, leased, licensed, alienated, dealt with, or resumed as aforesaid, the licensee shall not be entitled to any compensation other than the return of such portion of his licence-fee paid by him as the responsible Minister of the Crown for the time being administering Division II. of the Land Act 1890 may think fit. This licence is also subject to the rights of the holders of miners' rights or of mining leases now issued or hereafter to be issued to enter upon the allotment hereby licensed, and to search for gold, and to mine therein, and to erect and occupy mining plant and machinery, without making any compensation for surface or other damage.

3. Subject to these conditions, the licensee shall be entitled to use the land for the purposes for which the licence has been granted, until notice has been given in the Government Gazette that such land, or any part thereof, has been sold, leased, licensed, alienated, dealt with, or resumed as aforesaid; and, immediately upon such notice being given, all the interest of the licensee in the licensed land described in such notice shall cease and be determined, and any person entitled to occupy the licensed land, or any part thereof, may lawfully make entry upon and hold the same, without the permission or sanction of the licensee or any one claiming under her, him, or them.

4. No land comprised in roads from time to time surveyed and marked out within the boundaries of the land comprised in this licence shall be deemed within its operation.

5. This licence entitles the holder thereof, during the period for which it is granted, to use the land therein comprised for depasturing purposes only, but does not confer any right to build thereon, or to cultivate, or to fence any portion thereof.

6. If the licensee desire a renewal of this licence, notice to that effect must be given to the responsible Minister aforesaid one month prior to the expiration thereof, but nothing herein contained shall be deemed to confer the right to any renewal.

7. The interest in this licence may not be transferred without the consent of the Minister aforesaid and the payment of a fee of £1.

8. No claim whatever shall be made or entertained by reason of the licence not being renewed or transferred.

9. This licence is to be used under and in accordance with the regulations made or to be made under the provisions of the said Act and for the time being in force.

10. This licence may be forfeited if the licensee commit a breach or neglect to comply with any of these conditions.

11. The publication of a notice in the Government Gazette purporting to declare that the Governor or Administrator, with the advice aforesaid, has forfeited this licence, shall be conclusive evidence that the licence is forfeited.

Special Conditions :

1. The period of occupation will be from 1st October, 1890, to 31st December 1890.

2. The licence-fee must be paid in advance. The fee for the period from 1st October, 1890, to 31st December, 1890—for which the licence will be issued—must accompany the tender, or be paid by the successful tenderer or his agent immediately on the declaration of the acceptance of the tender, otherwise the offer of the next highest tenderer who may be prepared to comply with this condition may be accepted.
