2. Schedules and application forms for space may be obtained from the Secretary. These must be filled up and returned to the Secretary not later than 15th September, 1890.

3. The Executive Committee reserve the right to refuse exhibits without stating any reason for so doing.

4. There will be no charge for space in arts, botanical, zoological, and mineral sections, nor in juvenile classes. Charges for space in other classes are as follow:—Ordinary charge for space, Ten shillings for the first five square feet or any less space, and One shilling for every additional square foot, with the exception of space for machinery in motion, for which the charge will be Sixpence per square foot. Wall space, Sixpence per square foot.

5. Space must be paid for within 14 days after notice of allotment. Space allotted and not occupied within 14 days after the opening of the Exhibition will revert to the Committee, and payment made for same will be liable to be forfeited to the Executive Committee.

6. In the event of the receipts from the Exhibition exceeding the expenditure, exhibitors who have paid for space will be entitled to receive a refund of their payment for same, or any less sum that such excess will allow. This rule does not apply to any exhibitor whose space may have been forfeited from any cause whatever, nor to any person paying rent.

7. Exhibitors will have to pay customs entries, and all expenses of conveying, delivering, arranging, fixing, storing empty cases, and removing their exhibits, also the cost of the erection of all fixtures, screens, and counters, when required; they must personally, or by representative, superintend the transmission, reception, unpacking, installation, and (at the close of the Exhibition) the removal of their goods. The Executive reserve to themselves the right of doing whatever may be deemed necessary unless this regulation is strictly complied with.

8. The Executive Committee have obtained special terms for the conveyance to and from the Exhibition from the various railways and steamship companies, particulars of which may be obtained from the Secretary.

9. All packages containing goods for Exhibition must have painted on them the distinctive mark—and the name and number of the department to which the exhibits belong, together with the name and address of the exhibitor.

10. Precautions will be taken to preserve exhibits from injury, and to guard the buildings; but no responsibility will be taken for damage or loss, from whatever cause. Exhibitors will make their own arrangements for effecting insurances.

11. The Executive Committee may issue at their discretion monthly permits for the sale of articles manufactured in the Exhibition; but no other exhibit will be allowed to be taken out of the buildings until the close of the Exhibition; and any exhibitor selling goods for immediate delivery renders himself liable to the forfeiture of his space and all rights as an exhibitor.

12. The Exhibition building will be constituted a bonded store, but exhibits sold will be subject to duty.

13. The introduction of dangerous substances is strictly prohibited.

18. Signs or name-boards must be placed to the satisfaction of the Executive Committee, and must in no case interfere with the lighting.

19. All handbills, printed matter, &c., intended for gratuitous distribution within the Exhibition building, must first receive the approval and permission of the Executive Committee, which permission may be withdrawn at any time.

20. Exhibitors will be required to provide all necessary attendance to keep their stands and exhibits properly cleaned and in good order during the whole period of the Exhibition.

21. Exhibitors will not be allowed to transfer any portion of the space allotted to them, or to allow any other than their own duly admitted exhibits to be placed therein.

22. All goods must be exhibited in the name of the individual or firm signing the application form.

23. In the case of sales being effected during the Exhibition, the articles sold cannot be removed without the special permission of the Executive Committee and payment of all charges.

24. If exhibits are not intended for competition, notice must be given in the application for space.

26. Motive power will be supplied to exhibits of processes of manufacture free of charge, on application to the Executive Committee; but the right is reserved of reducing the amount asked for, or to make a charge for certain portions of the motive power supplied, at discretion. 30. The Exhibition will be ready for the reception of exhibits on 1st October, 1890—the Exhibition to be open on or about the 15th November, and it is expected to close about the end of March.

31. All who become exhibitors signify by so doing their compliance with the whole of these regulations, together with such other regulations as the Executive may issue from time to time.

32. The right to alter, amend, add to, or cancel any of these rules is reserved by the Executive.

JUDGING REGULATIONS.

1. No exhibit will be allowed to compete for awards which is not placed in the Exhibition building on or before the 1st December, 1890, unless the exhibitor is able to prove to the satisfaction of the Executive Committee that the delay in its arrival has been due to causes arising subsequently to its despatch from its place of origin, and entirely beyond his own control. Perishable articles are alone exempted from this rule.

2. The classification of articles for competition shall follow the schedule as published in the official catalogue, but the Executive Committee shall have power to amalgamate or subdivide classes if necessity should arise.

3. A separate jury, consisting of not less than three members, shall be appointed for each section.

4. One of the jurors in each section shall be elected by the exhibitors and one by the Executive Committee, the third juror shall then be appointed by the two already elected; any additional juror shall be appointed by the Executive Committee. No person shall be eligible for appointment as a juror in any section in which he exhibits, unless he withdraws from the competition.

5. Exhibitors will be invited to appear either personally or by representative in the jury room, on dates to be notified, for the purpose of electing jurors. The names of exhibitors will be read out by the Secretary, and each exhibitor or his representative will be at liberty to nominate a juror on his name being called. Where there is a majority of votes in favour of one person, he shall be considered duly elected. When an equal number of votes have been given to two or more persons, the Executive Committee shall appoint the one they deem best qualified. When no nominations are received, the Committee shall themselves make all appointments.

6. Each juror shall receive a pass that will admit him to the Exhibition buildings.

7. In the event of the non-attendance of any juror at two meetings in succession, or any juror declining to act, the Committee shall, on the requisition of a majority of the remaining jurors, or of not less than five exhibitors in the section being judged, appoint a substitute.

8. Notice of the times of meetings of the several juries shall be given by the Secretary at least 24 hours in advance. Exhibitors shall be invited to attend meetings of the juries in their own sections for the purpose of giving information as to their exhibits, if deemed necessary by the jurors. If they omit to attend, they must bear the consequence of any want of explanation to the jurors regarding any article.

9. The jurors in each section shall choose their own chairman, who shall convene meetings, preside over debates, and enter the propositions and resolutions of the jury, together with the reasons for the same, in the minute-book. He shall have a deliberative as well as a casting vote, and shall also certify, under his signature, the award of the jury.

10. Jurors shall have the power to invite the co-operation of jurors from other sections, but such persons shall have no voting power.

11. The names of all persons called in to co-operate with jurors shall be recorded in the minutes of meetings of each jury, and such minutes shall be submitted by the chairman to the Executive Committee.

12. Juries may, if they consider it necessary, subdivide classes into special divisions, and make awards in each of the subdivisions thus created.

13. Collective exhibits shall, as a rule, be judged as one exhibit. Should, however, an exhibitor so desire, and supply the jury with due notice and the necessary information, his exhibit shall be divided, and parts judged separately; but no exhibit, to any part or parts of which an award of merit may be given, shall be eligible for a reward as a collective exhibit.

14. Each jury shall submit to the Executive Committee a signed report, embodying the results of their examination of exhibits, and stating the specific reasons for which each award is made.

15. Reports and awards shall be based upon inherent and comparative merit, the elements of merit being held to include considerations relating to originality, invention, discovery, utility, quality, skill, workmanship, fitness for the purposes intended, adaptation to public wants, economy, and cost. Exhibitors shall be at liberty to supply the jurors with a statement in writing of the merits which they claim for the articles exhibited by them.

16. The reports of jurors shall name the exhibitors who deserve recognition, and shall recommend whether the award made to them shall be of the first, second, or third class. Jurors shall limit themselves to placing exhibits in classes, and shall not decide as to the comparative merits of articles in the same class.

17. An exhibitor may appeal against any award made by a jury in his section, such appeal to be lodged with the Secretary within 48 hours of the publication of the jurors' awards in any one of the Launceston papers, and to be accompanied by a sum of £2, which shall in no case be returned. These payments shall form a special fund for the remunerating of experts, called in to give evidence to the committee.

18. Where an exhibitor has made out a *prima facie* case for the re-examination of his exhibits, the Executive Committee may request the jury to re-examine the exhibit, or order such re-examination to be made by an expert, and on a report being made by such jury or expert, the Executive Committee may, if they see fit, alter the award appealed against. The decision of the Executive Committee on any question connected with awards shall be final.

19. If any question shall arise as to the interpretation of any of these regulations, the decision of such question shall rest solely with the Executive Committee.

20. The Executive Committee shall have power to amend or add to these regulations should necessity arise.

Tenders must be placed in the Crown Lands Office Tender-box not later than Twelve noon on Friday, 26th September, 1890.

NOTE.—The fee for the period from 1st October, 1890, to 31st December, 1890, and fee of Five shillings for Licence, must accompany each tender.

TENDERS will be received by the Board of Land and Works up to Noon of Friday, 26th September, 1890, for the occupation for Grazing purposes only of the following unappropriated portions of land, subject to the Regulations approved by the Governor in Council and also the subjoined special conditions.

Every licence granted under section 123 of the *Land Act 1890* shall be subject to the conditions set forth in the schedule hereto, and to such special conditions and payment in advance of such fee as the Minister may determine, and shall be issued by an officer of the Department of Lands and Survey duly authorized in that behalf.

Under section 7 of *The Vermin Destruction Act 1889*, all licensees under the section for which these licences will issue are liable for the destruction of rabbits within the boundaries of their licences.

Conditions:

1. The issue of this licence shall not prevent the land comprised therein, or any part or parts thereof, being sold, leased, licensed, alienated, or dealt with under any of the provisions of the *Land Act 1890*, except under the 123rd section thereof, under which the licence is issued, or being resumed by order of the Governor or Administrator of the Government of Victoria, with the advice of the Executive Council, for any of the purposes for which land may be reserved under section 10 of the *Land Act 1890*, or for mining purposes.

2. In case the said land, or any part or parts thereof, shall be sold, leased, licensed, alienated, dealt with, or resumed as aforesaid, the licensee shall not be entitled to any compensation other than the return of such portion of his licence-fee paid by him as the responsible Minister of the Crown for the time being administering Division II. of the *Land Act 1890* may think fit. This licence is also subject to the rights of the holders of miners' rights or of mining leases now issued or hereafter to be issued to enter upon the allotment hereby licensed, and to search for gold, and to mine therein, and to erect and occupy mining plant and machinery, without making any compensation for surface or other damage.

3. Subject to these conditions, the licensee shall be entitled to use the land for the purposes for which the licence has been granted, until notice has been given in the *Government Gazette* that such land, or any part thereof, has been sold, leased, licensed, alienated, dealt with, or resumed as aforesaid; and, immediately upon such notice being given, all the interest of the licensee in the licensed land described in such notice shall cease and be determined, and any person entitled to occupy the licensed land, or any part thereof, may lawfully make entry upon and hold the same, without the permission or sanction of the licensee or any one claiming under her, him, or them.

4. No land comprised in roads from time to time surveyed and marked out within the boundaries of the land comprised in this licence shall be deemed within its operation.

5. This licence entitles the holder thereof, during the period for which it is granted, to use the land therein comprised for depasturing purposes only, but does not confer any right to build thereon, or to cultivate, or to fence any portion thereof.

6. If the licensee desire a renewal of this licence, notice to that effect must be given to the responsible Minister aforesaid one month prior to the expiration thereof, but nothing herein contained shall be deemed to confer the right to any renewal.

7. The interest in this licence may not be transferred without the consent of the Minister aforesaid and the payment of a fee of £1.

8. No claim whatever shall be made or entertained by reason of the licence not being renewed or transferred.

9. This licence is to be used under and in accordance with the regulations made or to be made under the provisions of the said Act and for the time being in force.

10. This licence may be forfeited if the licensee commit a breach of or neglect to comply with any of these conditions.

11. The publication of a notice in the *Government Gazette* purporting to declare that the Governor or Administrator, with the advice aforesaid, has forfeited this licence, shall be conclusive evidence that the licence is forfeited.

Special Conditions:

1. The period of occupation will be from 1st October, 1890, to 31st December 1890.

2. The licence-fee must be paid in advance.
