

[566]

SUPPLEMENT
TO THE
VICTORIA
GOVERNMENT GAZETTE
OF FRIDAY, JULY 10, 1891.
Published by Authority.

No. 90.] WEDNESDAY, JULY 15. [1891.

OFFICIAL LIST OF PATENTS.

OFFICIAL List of Applications for Patents Lodged; Applications Accepted, Refused, Abandoned, and Opposed; Complete Specifications Accepted; and Letters Patent Sealed. From the 1st to the 30th days of June, 1891, in the Patents Office.

THOS. PROUT WEBB,
Commissioner of Patents.

APPLICATIONS FOR PATENTS.

- No. 8765. By Herbert Cave, of the Melbourne Club, Melbourne, Victoria, metallurgical chemist, for "The amalgamation of gold and silver." 1st June.
- No. 8766. By Victor Fawcner, of Sydney, New South Wales, mechanical engineer, for "An improved corn husker." 1st June.
- No. 8767. By Thomas Lord, of No. 13 Eldon Chambers, Bank place, Melbourne, for "An improved animal trap." 1st June.
- No. 8768. By William Thomas McFarlane, of Stockton, in the county of Tovele and territory of Utah, United States of America, for "Improvements in girth fasteners." 2nd June.
- No. 8769. By Lewis Washington Murch, of Medora, in the county of Billings and state of North Dakota, United States of America, for "Improvements in mode of preparing wood for ornamental and decorative purposes." 2nd June.
- No. 8770. By George Ashwin Cheeke, of Sydney, New South Wales, gentleman, for "A new or improved trap for the capture of rabbits in infested country." 2nd June.
- No. 8771. By Frederick John Corbett, of Balwyn, Victoria, gentleman, for "Refrigerating by means of compressed air." 2nd June.
- No. 8772. By Thomas Whetter, carpenter, and Michael Seale, company secretary, both of Petersham, near Sydney, New South Wales, for "Improved apparatus for controlling and adjusting sliding sashes in windows, screens, and such like." 3rd June.
- No. 8773. By Robert Alfred Fraser, of North Melbourne, Victoria, clerk, for "New or improved mechanism for opening and closing doors of railway carriages; and for indicating the station stopped at." 3rd June.
- No. 8774. By George Barnes Pearce, of Suffolk-road, Surrey Hills, near Melbourne, Victoria, engineer, for "Improvements in machines for punching metal." 3rd June.
- No. 8775. By John Henry Cooke, of Hamilton, Victoria, for "Rendering harmless the sparks that proceed from all kinds of steam engines." 3rd June.
- No. 8776. By Edward King, of Warracknabeal, Victoria, machinist, for "A machine for destroying locusts." 4th June.
- No. 8777. By George William Perry, of No. 275 Albert-road, Albert Park, Victoria, photographer, for "Coloring marble and impressing designs on the same." 4th June.
- No. 8778. By Albert Beer, of Kyneton, Victoria, engine-driver, for "An improved automatic brake apparatus for vehicles." 4th June.
- No. 8779. By Giuseppe Garibaldi Turri, Fel. Aust. Inst. P.A., of Sun Buildings, corner of Queen and Bourke streets, in the city of Melbourne, Victoria, certificated patent agent, for "Improvements relating to account statements and account books." 4th June.
- No. 8780. By Giuseppe Garibaldi Turri, F.S.C.I., of Sun Buildings, corner of Queen and Bourke streets, in the city of Melbourne, Victoria, certificated patent agent, for "An improved process for treating sugar mass so as to obtain the entire quantity of crystallizable sugar contained in the same." 4th June.
- No. 8781. By Giuseppe Garibaldi Turri, F.S.C.I., of Sun Buildings, corner of Queen and Bourke streets, in the city of Melbourne, Victoria, certificated patent agent, for "A process for systematically working up sugar juices into grain sugar." 4th June.
- No. 8782. By Giuseppe Garibaldi Turri, F.S.C.I., of Sun Buildings, corner of Queen and Bourke streets, in the city of Melbourne, Victoria, certificated patent agent, for "An improved process for systematically separating raw sugar or other impure sugar masses into white sugar or molasses." 4th June.
- No. 8783. By Giuseppe Garibaldi Turri, F.S.C.I., of Sun Buildings, corner of Queen and Bourke streets, in the city of Melbourne, Victoria, certificated patent agent, for "Improvements in apparatus for systematically separating impure sugar masses into white sugar and molasses." 4th June.
- No. 8784. By Edward William Walker, of 69 Chancery-lane, in the county of Middlesex, England, engineer, for "Improvements in and apparatus for the manufacture of gas for lighting and other purposes." 4th June.

- No. 8785. By Edward Waters, of No. 131 William-street, Melbourne, Victoria, patent agent, for "Improvements in and relating to concentrating apparatus." 4th June.
- No. 8786. By James Rawley Hart, engineer, and Robert James Taylor, ironmonger, both of Daylesford, Victoria, for "Arresting sparks from locomotive and other engines." 6th June.
- No. 8787. By Frederick Klaerr; a member of the firm of Galliers and Klaerr, of St. Kilda, Victoria, manufacturer of gas stoves, for "An improved compound for the use as gas fire bricks, refractory balls, and the like." 8th June.
- No. 8788. By Albert Swanson, of Queen-street, Melbourne, Victoria, patent agent, for "Improvements in machines for shearing and clipping wool and cutting hair." 8th June.
- No. 8789. By Henrich Wilhelm Muller, of Horsham, Victoria, farmer, for "An improved stamp-jumping implement." 8th June.
- No. 8790. By John Thorpe, of Parramatta, New South Wales, manufacturer, for "An improved artificial fuel." 8th June.
- No. 8791. By Joseph Francis Cullen, of Sydney, New South Wales, chairman of directors of the Electric Brand Company Limited, of Pitt-street, Sydney, New South Wales, for "An improved brand or hot stamp for live and inanimate subjects." 8th June.
- No. 8792. By William White Mansfield, of Wellington, New Zealand, draper, for "An improved hose reel." 8th June.
- No. 8793. By William Brown, hatter, and John Henry Brown, hatter's apprentice, both of the city of Wellington, New Zealand, for "An improved method of making violins and other similar musical instruments." 8th June.
- No. 8794. By Henry Quinton, of Echuca, labourer, for "Holding two ends of a rope together so as to do away with the necessity of splicing the rope." 9th June.
- No. 8795. By William Garrick, residing at 375 Bridge-road, Richmond, Victoria, mineral soap manufacturer, for "An improved mineral soap." 9th June.
- No. 8796. By Thomas H. Day, of Victoria-street, Footscray, Victoria, baker; and Ralph Nettleton, of Charles-street, West Footscray, Victoria, pattern maker, for "An improved machine for dividing dough into pieces of uniform weight for bread making." 9th June.
- No. 8797. By Francis Parer, of Exchange Hotel, Swanston-street, Melbourne, Victoria, hotel-keeper, for "An improved newspaper file." 10th June.
- No. 8798. By Peter Robertson, of 454 Collins-street, Melbourne, Victoria, marine engineer, for "Improvements in lamps." 10th June.
- No. 8799. By Charles Henry Litchfield, of No. 1 Waltham-road, Newport, Victoria, lampmaker, for "An appliance for burning gas and kerosene or similar oil in combination for illuminating purposes." 10th June.
- No. 8800. By Adam Spies, engineer, and William Percival, butter factory manager, both of Mudgee, New South Wales, for "An improved lid or cover and fastenings for circular and circular-mouthed metal receptacles." 10th June.
- No. 8801. By David Samuel Chambers, of Francis-street, Sandringham, near Melbourne, Victoria, mechanical engineer; and John Monash, of Yarra-street, St. James' Park, Hawthorn, near Melbourne aforesaid, civil engineer, for "An improved machine for shearing or clipping sheep or other animals." 12th June.
- No. 8802. By Arthur William Hitchiner, of Melbourne, Victoria, newspaper editor, for "An improved newspaper file." 12th June.
- No. 8803. By David Jones, of No. 266 King-street, Melbourne, Victoria, pharmaceutical chemist, for "An improved contrivance for facilitating the drawing on of kid and other gloves." 13th June.
- No. 8804. By David Jones, of No. 266 King-street, Melbourne, Victoria, pharmaceutical chemist, for "An improved mechanical toy for playing games of chance." 13th June.
- No. 8805. By Alfred Ambler, Samuel Ambler, and Frank Ambler, all of Prospect and Well House Mills, Wilsden, near Bingley, in the county of York, England, spinners, for "Improvements in the cleansing, treating, or washing of wool and like animal fibres, and in apparatus employed therein." 13th June.
- No. 8806. By James Gresham, of the firm of Gresham and Craven Limited, of Craven Iron Works, Salford, Manchester, in the county of Lancaster, England, engineer, for "Improvements in or applicable to automatic vacuum brake apparatus, having reference more especially to the ejector and brake controlling mechanism." 13th June.
- No. 8807. By Henry Thomas Dawson, of Salcombe, in the county of Devon, England, gentleman, for "Improvements in gas engines." 13th June.
- No. 8808. By Everard Hesketh and Alexander Marcet, both of 23 St. Swithin's-lane, London, engineers, for "Improved means to be employed in connexion with the freezing or chilling of meat or other articles." 13th June.
- No. 8809. By James Bulleid, of Springhurst, near Rutherglen, Victoria, farmer, for "An improved portable cattle shade." 15th June.
- No. 8810. By Frederick Blake Pemberton, of Cliff Terrace-avenue, in the town of Southampton, England, civil engineer, for "An improved composition for preventing or obstructing the passage of heat through bodies and for the deadening of sounds, and methods of applying the same." 15th June.
- No. 8811. By Edwin Brown, of Bridge-street, Benalla, Victoria, shire engineer, for "Improvements in brake blocks." 16th June.
- No. 8812. By Albert Eagleton, corner of Collins and William streets, Melbourne, Victoria, commission agent, for "An improved method of and means for advertising." 16th June.
- No. 8813. By Francis Ryding, of 199 Lonsdale-street, Melbourne, Victoria, wholesale saddler, for "An improved fastening for leggings." 17th June.
- No. 8814. By Henry Valentine Edmunds, of New Westminster, British Columbia, saw-mill proprietor, for "Improvements in or relating to panel and other doors and apparatus applicable for use in the manufacture thereof." 17th June.
- No. 8815. By Julius Moeller, of 14 Palmer-street, Westminster, in the county of London, England, engineer, for "Improved method and apparatus for producing and applying combustible fluid for illumination or heating." 17th June.
- No. 8816. By James Greenwood, of 77A Queen Victoria-street, London, England, electro-chemist, for "Improvements in the manufacture or production of chlorine and caustic soda and in apparatus therefor." 17th June.
- No. 8817. By William P. Martin, of the Melbourne Coffee Palace, Bourke-street, Melbourne, Victoria, engineer, for "A new or improved contrivance whereby lift cages may be fixed at landings to avoid accidents." 18th June.
- No. 8818. By Sydney George Barrett, of No. 12 Stephenson-street, Richmond, near Melbourne, Victoria, mechanical engineer for "An improved safety contrivance for automatically locking the cage of a lift when left by the operator." 19th June.
- No. 8819. By William Edward Booth and George Wagstaff Booth, both of Harding's-road, Coburg, near Melbourne, Victoria, engineers, for "An improved drill stand or cramp, principally useful for drilling holes in pipes or other round articles." 20th June.
- No. 8820. By Frank Ebdon, of Cardigan Chambers, Bourke-street west, Melbourne, Victoria, electrical engineer, for "Improvement in the construction of telephone transmitters." 20th June.
- No. 8821. By Hermann J. R. Stantz, of No. 10 Herbert-street, Northcote, Victoria, engineer, for "An improvement in cups or buckets of inclined elevators for grain or other materials." 20th June.
- No. 8822. By William Russell, of Monkland-street, in Gympie, Queensland, surgical and mechanical dentist, for "Improvements in electrical appliances for body wear, applicable chiefly to the treatment of disease." 20th June.
- No. 8823. By Louis Collet, of Birkenhead, South Australia, salt manufacturer, for "Improvements in the purification and evaporation of weak brine or sea water for the extraction of salt." 22nd June.
- No. 8824. By William Henry Deakin, of Semaphore Iron Works, Newport, in the shire of Williamstown, Victoria, for "Securely locking all landing doors in connexion with elevators or hoists before the elevator or hoist can be set in motion." 22nd June.
- No. 8825. By Elihu Thomson, of Swampscott, in the state of Massachusetts, one of the United States of America, electrician, for "Improvements in lightning arresters." 23rd June.
- No. 8826. By William Train, of Sturt-street, Melbourne, Victoria, mantelpiece manufacturer, for "An improved process for ornamenting marble and stone, principally for use in the manufacture of mantelpieces, tiles, mural tablets, and the like." 23rd June.
- No. 8827. By Edward Waters, of No. 131 William-street, Melbourne, Victoria, patent agent, for "Improvements in storage batteries." 24th June.

- No. 8828. By William Harding, of Colac, Victoria, agriculturist, for "A new mechanical means for obtaining motion." 24th June.
- No. 8829. By Alfred McMillan, of 292 Lonsdale-street, Melbourne, Victoria, manufacturer, for "An improved tin opener." 24th June.
- No. 8830. By Stephen Henry Manners, of Abbotsford-street, North Melbourne, Victoria, machinist, for "An improved gas economizer for a certain description of burner." 25th June.
- No. 8831. By William Thomas Carter, of Williamstown, Victoria, member of the Victorian Legislative Assembly; Laurence Bernard McGrath, of Williamstown, in the colony aforesaid, manufacturing engineer; and Hiram Jones, of Footscray, in the colony aforesaid, mechanical engineer, for "A new or improved electro-magnetic variable cut-off steam-engine governor." 25th June.
- No. 8832. By Charles Edward Ongley, of New York city, in the county of New York and state of New York, United States, of America, electrician, for "Improvements in electric protective and signal systems and apparatus." 26th June.
- No. 8833. By Frederick Giles, of 26 Great Davis-street, South Yarra, Victoria, mechanic, for "An automatic lift stop." 26th June.
- No. 8834. By Craven William Burford, of No. 548 Flinders-street, Melbourne, Victoria, printer, for "An improved multi-colour printing machine." 26th June.
- No. 8835. By William Stephen, of 416 Lonsdale-street, Melbourne, Victoria, blacksmith, for "An improved shearing or clipping tool for cutting and trimming bolts and other articles, principally adapted for the use of coachbuilders." 26th June.
- No. 8836. By Simon Warren, of 148 Little Collins-street, Melbourne, Victoria, hot water, gas, and electrical engineer; and Charles Horace Mansfield, residing at South Yarra, in the aforesaid colony, assayer, for "An improved method of and apparatus for treating ores of antimony and gold." 26th June.
- No. 8837. By James Hateley and John Thomas Norgrove, both of Coventry-street, South Melbourne, Victoria, metal-plate workers, for "A new and improved metal plate for protecting the edges of steps, stairs, carpets, and other floor coverings." 26th June.
- No. 8838. By Israel Martin, of No. 7 Windermere-street, Ballarat, Victoria, farm labourer, for "Improvements in stripping harvesters." 29th June.
- No. 8839. By Thomas Ferguson, of 8 Oban-street, Hawksburn, Victoria, engineer, for "An improved machine for syringing and filling with aerated waters internal stoppered bottles." 29th June.
- No. 8840. By John Birchall, of Melbourne, Victoria, engineer, for "Improvements in automatic fire telegraph instruments." 30th June.
- No. 8841. By Daniel Hyde Kingston McGuinness, of Daysdale, New South Wales, storekeeper, for "Improved means for coupling poles, shafts, swingle-trees, and traces to agricultural implements, buggies, and other vehicles." 30th June.

COMPLETE SPECIFICATIONS ACCEPTED.

| No. | Date of Publication. | Name. | Title. |
|-------|----------------------|---|---|
| 1891. | | | |
| 8196 | June 5 | Richard Clarkson Scott ... | Shaping soap |
| 8335 | June 5 | James Peter Franki and Norman Selfe | Improvements in certain descriptions of refrigerating machinery |
| 8469 | June 5 | Hermann Gruson ... | An improved amalgamator |
| 8512 | June 5 | Theron Solyman Eugene Dixon ... | Improvements in secondary batteries |
| 8514 | June 5 | Merle J. Wightman ... | Electric motor controllers |
| 8579 | June 5 | Christopher Henry Hakendorf ... | An improved contrivance for automatically preventing the overflow when filling casks or other receptacles with liquid |
| 8682 | June 5 | Samuel England Jeans ... | A gas-fire tile brick |
| 8684 | June 5 | Richard Todd ... | Improvements in sewing-machine attachments for facilitating the stitching of button-holes and for other purposes |
| 8244 | June 12 | Charles Hugh Lyon ... | An improved method of and apparatus for lining water channels |
| 8504 | June 12 | Edward Waters ... | An improved system of electrical supply or distribution, and improved apparatus therefor |
| 8642 | June 12 | Guiseppe Garibaldi Turri... .. | Improvements in bottling machines |
| 8644 | June 12 | Hugh James Gwynne and George Emslie Fowler | An improved valve for controlling the inflow and discharge of hydraulic pressure to and from lift and other cylinders |
| 8647 | June 12 | Frederick Glass ... | Improvements in counterbalancing the haulage cables or chains of hydraulic lifts |
| 8656 | June 12 | Robert McKenzie ... | Improved appliances to be used in connexion with uptake shafts of sewers whereby the latter are more effectively ventilated and the noxious gases and disease germs contained therein destroyed |
| 8677 | June 12 | John Danks ... | Improvements in tubes for water-heaters for baths and other purposes |
| 8690 | June 12 | Robert Reid, Robert Hanna, Thomas Holroyd, and Henry Arthur Wheat | An improved lamp for burning gasoline and other light liquid hydro-carbons |
| 8691 | June 12 | John Koss ... | Polishing composition |
| 7929 | June 19 | Alexander Cleland, M.A. ... | Improvements in rotary motive-power engines |
| 8029 | June 19 | Edward Waters ... | Improvements in seed-sowing machines |
| 8250 | June 19 | William John Blakey ... | An improved clip for securing articles upon clothes lines |
| 8341 | June 19 | Herbert Leslie Manton ... | An electric apparatus for indicating tabulated public information |
| 8617 | June 19 | James Anderson ... | Combined potato planter, digger, and gatherer |
| 8657 | June 19 | Alfred Upton Alcock ... | An electro-static switch and phase indicator |
| 8663 | June 19 | George Albert Ritson ... | Improvements in rotary engines |
| 8665 | June 19 | Frederick York Wolseley ... | An improved comb for sheep-shearing machines |
| 8695 | June 19 | George Taylor ... | Improvements in apparatus for automatically supplying disinfectant liquids to water-closets, urinals, and the like |
| 8702 | June 19 | Edward Waters ... | Improvements in organs |
| 8720 | June 19 | Charles Burgon and Harry Burgon | Improvements in apparatus for shearing or clipping sheep or other animals |
| 7996 | June 26 | Alfred Upton Alcock ... | An improved electrical means for imparting heat to cooking and heating utensils |
| 8195 | June 26 | Thomas Williams the younger ... | New or improved means for cutting up meat and similar plastic or yielding substances |
| 8315 | June 26 | Carl Lührig and John Charles Cunningham | Improvements in apparatus for dressing ores |
| 8700 | June 26 | Thomas Gowans ... | An improved tank cleaner and road maker |
| 8715 | June 26 | George Byrne ... | Improvements in appliances for propelling boats |
| 8735 | June 26 | James York and John Fletcher ... | An improved fire bar |
| 8736 | June 26 | Robert Austin ... | An improved clothes-washing machine |
| 8739 | June 26 | Hugh Thomson ... | Improvements in the construction of coffer-dams |
| 8741 | June 26 | William John Rodd ... | An improved mode of and apparatus for securing and sealing the lids or covers of night-soil and other pans |
| 8752 | June 26 | Reginald Stanley ... | Improvements in boring and tunnelling machines |
| 8754 | June 26 | John Arthur ... | Improvements in venetian blinds and shutters for facilitating their raising and lowering |
| 8764 | June 26 | James Aitken ... | An improved spark-arrester |
| 8772 | June 26 | Thomas Whetter and Michael Seale | Improved apparatus for controlling and adjusting sliding sashes in windows, screens, and such like |
| 8785 | June 26 | Edward Waters ... | Improvements in and relating to concentrating apparatus |

APPLICATIONS ACCEPTED.

| No. | Date of Acceptance. | Name. | Title. |
|------|---------------------|--|--|
| | 1891. | | |
| 8675 | June 1 | George Scheele | An improved smoothing iron |
| 8630 | June 2 | Zebina Lane | An improvement on a Wheeler's grinding pan |
| 8637 | June 2 | Thomas Whitehead | An improved contrivance for coupling and uncoupling the chain connections of railway waggons |
| 8664 | June 4 | Christian Koertz and Louisa Mason | An improved double-acting pump |
| 8686 | June 4 | Edward James Rule | Improvements relating to the air valves of rock drills, and to the means employed for operating said valves |
| 8670 | June 5 | James Alexander Fowler ... | Improvements in water-raising machinery |
| 8697 | June 5 | Alfred Lancelot James Tait ... | An improved cigar and cigarette holder |
| 8693 | June 6 | Alfred Upton Alcock; | Improvements in winding gears |
| 8680 | June 8 | James Jackson | Improvements in stump-jumping ploughs |
| 8699 | June 10 | Thomas Ethell | The Bodley gutter brick |
| 8652 | June 11 | William Wheatcroft and Henry Milner | Improvements in rotary pumps |
| 8711 | June 11 | Arthur Charles Jackson Wood ... | A sanitary coffin |
| 8708 | June 15 | William Radford and James Baker | A machine for cutting mallee shoots and other shrubs |
| 8713 | June 15 | Frederick Glass | Improvements in machinery for actuating hydraulic lifts |
| 8714 | June 15 | Frederick Glass | Improvements in machinery for actuating hydraulic cranes and other hydraulic appliances except lifts |
| 8718 | June 15 | Thomas Gibbs | An improved deodorant for offensive matters |
| 8717 | June 17 | Frederick Edwin Perkins and Edwin Lloyd | An improved fish-plate for rails |
| 8728 | June 17 | Alfred Lancelot James Tait ... | An improved instrument for lighting lamps and gas jets; and, for performing analogous work |
| 8730 | June 17 | James Hugh Smith | An improved portable machine for boring holes in fence posts |
| 8724 | June 18 | Henry Metcalfe | An improved rubber for washing clothes |
| 8726 | June 18 | Joseph Smith | An improvement in the insulator brackets used for iron telegraph posts |
| 8723 | June 19 | George Harper and William Barwick Fox | Improvements in men's leather leggings |
| 8738 | June 19 | William Lacy Clark | An improved wire-work grating for household fireplaces |
| 8748 | June 19 | Thomas Eynon | Improvements in stamp boxes for crushing quartz and other materials |
| 8755 | June 19 | Thomas Ferguson | An improved trap-valve or cap for the discharge openings from urinals and sinks |
| 8732 | June 20 | Hugh Talbot Hull | An improved oven for roasting potatoes |
| 8761 | June 20 | Thomas Jackson | An improvement in the ankle-joint of artificial legs |
| 8774 | June 22 | George Barnes Pearce | Improvements in machines for punching metal |
| 8776 | June 23 | Edward King | A machine for destroying locusts |
| 8729 | June 23 | Ferdinand Fanta | A new process for producing oxygen gas |
| 8739 | June 23 | Charles Henry Litchfield ... | An appliance for burning gas and kerosene or similar oil in combination for illuminating purposes |
| 8734 | June 24 | Thomas Brining and George Eister | Improvements in or relating to machines or tools, feeding and driving tacks, rivets, nails, and other similar fastenings |
| 8802 | June 24 | Arthur William Hitchiner ... | An improved newspaper file |
| 8809 | June 25 | James Bulleid | An improved portable cattle shade |
| 8817 | June 25 | William P. Martin | A new or improved contrivance whereby lift cages may be fixed at landings to avoid accidents |
| 8818 | June 25 | Sydney George Barrett | An improved safety contrivance for automatically locking the cage of a lift when left by the operator |
| 8821 | June 25 | Hermann J. R. Staatz | An improvement in cups or buckets of inclined elevators for grain and other materials |
| 8756 | June 26 | Charles Miller | An improvement in the means of retaining elastic tubular packing in position, especially applicable for use in cess-pans |
| 8778 | June 26 | Albert Beer | An improved automatic brake apparatus for vehicles |
| 8779 | June 26 | Giuseppe Garibaldi Turri ... | Improvements relating to account statements and account books |
| 8828 | June 26 | William Harding | A new mechanical means for obtaining motion |
| 8830 | June 26 | Stephen Henry Manners | An improved gas economizer for a certain description of burner |
| 8896 | June 27 | Christopher Ross Leighton ... | An improved swing for children |
| 8829 | June 27 | Alfred McMillan | An improved tin opener |
| 8749 | June 29 | Charles Corbett Powell | An improved apparatus for making a furrow in the ground and automatically depositing seeds or grain therein |
| 8797 | June 29 | Francis Parer | An improved newspaper file |
| 8771 | June 30 | Frederick John Corbett | Refrigerating by means of compressed air |
| 8831 | June 30 | William Thomas Carter, Laurence Bernard McGrath, and Hiram Jones | A new or improved electro-magnetic variable cut-off steam-engine governor |

APPLICATIONS ABANDONED.

| No. | Date of Abandonment. | Name. | Title. |
|------|----------------------|---|---|
| | 1891. | | |
| 7948 | May 2 | David Cliff | Improvements in a rabbit exterminator called "Earth rocket" |
| 7949 | May 2 | David Cliff | Improvements in a spark-catcher for railway locomotive engines and other engines to be called the "Victoria spark-catcher" |
| 7950 | May 2 | John Horace O'Brien | Improvements in atmospheric refrigerants |
| 7951 | May 2 | Francis William Lee | Improved safety appliances for automatically shutting off steam and applying the brakes in the event of a train passing a signal of danger |
| 7952 | May 2 | Richard Edmund Shill | Improvements in apparatus for separating precious metals by amalgamation from ores or materials containing them |
| 7955 | May 3 | John Loughton | An improved hot-air attachment for brick kilns |
| 7957 | May 5 | James Henry Swinnerton | An improved system of indexing books |
| 7958 | May 5 | James Henry Swinnerton | Method of cutting index sheets of paper in printing machines, and for cutting the same in typographical printing machines simultaneously with the printing of such sheets therein |
| 7959 | May 6 | Charles Horace Mansfield and Peter Behrendt | Electric treatment of refractory ore |
| 7960 | May 6 | Peter Behrendt and Charles Horace Mansfield | Treatment of refractory ore |
| 7963 | May 7 | John Henry Schroeder | An improved nut lock for screw bolts |
| 7963 | May 7 | John Wentworth Watson | An improved life-saving garment |
| 7970 | May 8 | Taylor Horsfield | Improvements in piston rings |
| 7971 | May 8 | William Cairns | A combined whip-socket and rein-holder |
| 7974 | May 10 | Hans Urban | A new or improved machine for emptying cesspans into night-soil consuming furnaces or destructors |
| 7975 | May 10 | William Goodenough Percy Sharp | A device for preventing a horse attached to a vehicle from moving forward when left standing in the street |
| 7977 | May 12 | William Agar | Preserving food of all kinds |
| 7981 | May 14 | Charles Dick | Ash sifting |

APPLICATIONS ABANDONED—continued.

| No. | Date of Abandonment. | Name. | Title. |
|-------|----------------------|---|--|
| 1891. | | | |
| 7982 | May 14 | Joseph Geary | Improvements in disinfection, deodorization, and fertilizing soils |
| 7983 | May 14 | Moritz A. Melville | Improvements in automatically locking and unlocking the doors of railway carriages |
| 7985 | May 14 | James Sherman and John Bon | An improved artificial bait with which to set traps for catching wild dogs |
| 7988 | May 14 | George Gallop | Improvements in milk dandies |
| 7989 | May 15 | James Berry | An anti-pollution rain-water spout |
| 7991 | May 15 | Auguste de Bavay | An improved method of clarifying water in the manufacture of ice |
| 7992 | May 15 | Robert Young | An improved machine for dressing ores and classifying discrete metalliferous materials |
| 7994 | May 16 | Charles John Clapperton | An improved gate for pastoral, railway, and other purposes |
| 7998 | May 16 | Gustav Bernhard Reetz | An improved cartridge |
| 8001 | May 17 | William Hicks | Improvements in or relating to vats for extracting oil or tallow from animal or other materials |
| 8004 | May 19 | Henry Jerger | Improvements in appliances for lifting water |
| 8008 | May 21 | John Walz | An improved address holder for attachment to boxes, trunks, portmanteaus, and travelling bags |
