*Signed at Bucharest, 13th August, 1892.*

[Ratifications exchanged at Bucharest, 31st January, 1893.]

HER Majesty the Queen of the United Kingdom of Great Britain and Ireland, Empress of India, and His Majesty the King of Roumania, being mutually desirous of consolidating their ties of friendship and of developing the commercial relations between the two States, have, with this object, determined to conclude a Convention, and have named as their respective Plenipotentiaries, that is to say:—

Her Majesty the Queen of the United Kingdom of Great Britain and Ireland, Empress of India, Arthur George Vansittart, Esq., &c., &c., Her Britannic Majesty's Chargé d'Affaires at Bucharest.

His Majesty the King of Roumania, M. Lascar Catargi, Grand Cross of His Order of the Star of Roumania, &c., &c., &c., President of His Council, Minister Secretary of State for the Department of the Interior, and Acting Minister for Foreign Affairs.

Who, after having communicated to each other their Full Powers, found in good and due form, have agreed upon the following Articles:—

ARTICLE I.

The subjects, vessels, and goods, produce of the soil and industry of each of the two High Contracting Parties shall enjoy, in the dominions of the other, all privileges, immunities, or advantages granted to the most favoured nation.

It is, however, understood that the foregoing stipulation does not in any way affect the special laws, ordinances, and regulations with regard to trade, industry, police, and public security in force in each of the two countries, and applicable to all foreigners in general.

ARTICLE II.

All articles, produce of the soil or industry of Great Britain and Ireland, which shall be imported into Roumania, and all articles, produce of the soil or industry of Roumania, which shall be imported into Great Britain and Ireland, whether destined for consumption, warehousing, re-exportation, or transit, shall be subject, as long as this Convention holds good, to the same treatment, and, especially, shall be liable to no higher or other duties than the produce or goods of the most favoured nation.

No higher or other duties shall be levied in Great Britain and Ireland on the exportation of goods to Roumania, or in Roumania on the exportation of goods to Great Britain and Ireland, than may be levied on the exportation of the like goods to the country the most favoured in this respect.

Each of the High Contracting Parties undertakes that the other shall enjoy immediately every favour, privilege, or reduction of duties which have been already granted, or may be granted hereafter, under the above-named conditions, by similar Treaties to a third Power.

Goods of all kinds coming from, or proceeding to, the territory of one of the High Contracting Parties shall be exempted, in the territory of the other, from all transit dues. Most-favoured nation treatment is mutually guaranteed to each of the Contracting Parties in all that concerns transit.

ARTICLE III.

The subjects of each of the two High Contracting Parties shall be exempted, in the territory of the other, from all military service and from all extraordinary requisitions which may be established on account of exceptional circumstances.

The liabilities, however, arising out of the possession of landed property, and for military loans and requisitions to which all the subjects of the State may be called upon to contribute as proprietors, farmers, or tenants of real property, shall be excepted.

ARTICLE IV.

The present Convention shall be applicable, as far as the laws permit, to all the Colonies and foreign possessions of Her Britannic Majesty, excepting to those hereinafter named, that is to say, except to—

India.  
The Dominion of Canada.  
Newfoundland.  
New South Wales.  
Victoria.  
South Australia.  
Western Australia.  
Queensland.  
Tasmania.  
New Zealand.  
The Cape of Good Hope.  
Natal.

Provided always that the present Convention shall be made applicable to any of the above-named Colonies or foreign possessions on whose behalf notice to that effect shall have been given by Her Britannic Majesty's Representative to the Roumanian Minister for Foreign Affairs within two years from the date of the signature of the present Convention.

ARTICLE V.

The two High Contracting Parties reserve to themselves reciprocally the right of denouncing at any time the present Convention by giving a year's notice.

ARTICLE VI.

The present Convention shall be ratified, and the ratifications shall be exchanged at Bucharest as soon as possible, as soon as the formalities required by the constitutional laws of the two High Contracting Parties have been fulfilled.

In witness whereof the respective Plenipotentiaries have signed the present Convention, and have affixed thereto their seals.

14. Every person who shall by any act or default be guilty of any breach of this by-law shall be liable to a penalty of Ten pounds for every such breach, or of Five pounds for each day during which such breach shall be committed or continued, unless the justices before whom the penalty is sought to be recovered shall order any portion only of either of the said penalties—such portion not being less than Five shillings—to be paid. And any person committing any such breach as aforesaid shall be liable to a penalty notwithstanding that the council may be empowered by this by-law or otherwise to remedy such breach, and whether the council has or has not taken advantage of such powers.

The occupier of any land on which is erected any stable, cow-yard, cattle-shed, or pig-sty, or on which land is any building wherein any horse or other beast of draught or burden or any cattle or swine are kept, shall cause such premises to be kept in such a state in respect of cleanliness as not to be a nuisance or injurious to health, and shall cause all soil, dung, or other manure produced or accumulated therein to be from time to time removed from such premises as often as the quantity of the same so produced or accumulated shall amount to one cubic yard, or once at least in every week should the quantity not amount in that time to one cubic yard; and if at any time the occupier of such premises shall neglect or fail to have such dung, soil, or other manure removed therefrom as aforesaid, the same shall be removed by the said council at the expense of such occupier.

10. Every occupier of a building or premises wherein or whereon any horse or other beast of draught or burden or any cattle or swine may be kept, shall provide, in connexion with such building or premises, whenever required by the council or officer of health, a suitable receptacle for dung, manure, soil, filth, or other offensive or noxious matter which may from time to time be produced in the keeping of any such animal in such building or upon such premises, and cause such receptacle to be constructed so that the bottom or floor thereof shall not in any case be lower than the surface of the ground adjoining such receptacle, and in such a manner and of such materials and to be maintained at all times in such a condition as to prevent any effluvia therefrom, or any escape of the contents thereof, or any soakage therefrom, into the ground or into the wall of any building, and to be furnished with a suitable cover, and, when not required to be open, to be kept properly covered.

11. He shall likewise provide in connexion with such building or premises, if required by the council or officer of health, a sufficient drain constructed in such a manner and of such materials and maintained at all times in such a condition as effectually to convey all urine or liquid filth or refuse therefrom into a proper receptacle.

## PART III.—AS TO MANURE.

12. Nothing herein contained shall be taken to prevent the occupier of any premises from causing any dung, soil (not being night-soil), or other refuse matter produced or accumulated on any premises to be at any time removed, or to be used as manure on any garden or land, or to be kept for the purpose of being used on any garden or land contiguous to such premises as manure, so that the same be not so removed, kept, or used as to contravene any by-law of the council, or so as to be a nuisance or injurious to health or contrary to any directions of the council or officer of health.

13. Every person placing, depositing, or spreading, or causing or suffering to be placed or deposited or spread, or assisting in placing or depositing or spreading, on any land, whether by way of manure or otherwise, any liquid manure of which night-soil, urine, or any similar offensive matters form a part, night-soil, offal, blood, or other refuse matter removed from any earth-closet, privy, cesspool, or other place, shall immediately on the deposit or spreading thereof cover the same or cause the same to be covered, and shall keep the same covered with a layer of earth not less than six inches in thickness, and shall keep and use the same in such a way only as not to be a nuisance or injurious to health; and before doing so such person shall obtain the written permission of the council or officer of health, subject however to any general regulation or directions which the Board of Public Health by publication in the *Government Gazette* may make or give; but such permission shall be no defence in any complaint or prosecution for having kept or used such liquid manure, night-soil, offal, blood, or other matter in such a way as to be a nuisance or injurious to health.

## PART IV.—AS TO EARTH-CLOSETS, ETC.

14. Every occupier and every person having the management or control of any premises shall cause to be kept in every earth-closet belonging thereto a supply of dry powdered earth, ashes, charcoal, lime, sawdust, or some other material efficient for deodorizing night-soil, and shall cause all night-soil which may be deposited in any pan or other receptacle in such earth-closet to be immediately on the deposit thereof covered with a quantity of such deodorizing material sufficient to thoroughly and effectually deodorize the contents of such pan or other receptacle.

15. Every closet pan shall be constructed of galvanized iron, properly riveted and soldered so as to be water-tight, and with handles thereto, and of a capacity not exceeding three cubic feet.

16. No closet door or trap shall shut or open on a street, lane, or right-of-way exceeding ten feet in width.

17. Every occupier and every person having the management and control of any premises shall once at least in every week empty and cleanse, or cause to be emptied and cleansed, every earth-closet, privy, and place in the nature of an earth-closet for the reception of night-soil on or belonging to such premises. All business places, weekly; private, fortnightly.

18. No person shall empty any earth-closet, privy, cesspool, or place for the reception of night-soil, except by means of a cart, carriage, or means of conveyance properly constructed and furnished with a sufficient covering so as to prevent the escape of the contents, or any portion thereof, or of effluvia therefrom.

19. Where, in any municipality, any nightman is licensed by the municipal authorities, such nightman shall be employed by the occupier of the premises for the removal of night-soil therefrom, and no other person shall remove the same.

20. All night-soil, blood, offal, or other offensive matter or thing shall be removed to and finally placed in such place or places only as may be appointed by the council from time to time for the final reception of the same.

21. No person shall empty, assist in emptying, or cause or permit to be emptied, any earth-closet, privy, cesspool, or place for the deposit of night-soil, except between the hours of Eleven p.m. and Five a.m., unless otherwise permitted by the council (of which the proof shall lie on such person), or until the contents thereof have been properly deodorized; and every person emptying or causing to be emptied any earth-closet, privy, cesspool, or place for the deposit of night-soil, shall cause the night-soil taken therefrom to be removed as soon as the same is emptied.

22. No person shall empty, cause or permit to be emptied, or assist in emptying, any earth-closet, privy, cesspool, or place for the deposit of night-soil, offal, blood, or other refuse matter into any drain or sewer, or so that the contents thereof may find their way or be likely to find their way into any drain or sewer.

## PART V.—PREVENTION OF POLLUTION OF WATER.

23. No person shall place, assist in placing, or cause or permit to be placed, in or so that the same may or may be likely to find its way into any water used or likely to be used by man for drinking or domestic purposes, or for manufacturing drinks for the use of man, or used or likely to be used in any dairy, any matter or thing likely to endanger the health of any persons using such water or drinks or milk or other produce of such dairy.

24. No person shall empty, cause or permit to be emptied, or assist in emptying any cesspool or place for the deposit of offal, blood, or other refuse matter into any water supplied, used, or likely to be used by man for drinking or domestic purposes, or for manufacturing drinks for the use of man, or used or likely to be used in any dairy, or so that the contents, or any portion of the contents thereof, may find its way or be likely to find its way into any such water.

25. Every accumulation or deposit of offensive matter so situated as to find its way or be likely to find its way into any water used or likely to be used by man for drinking or domestic purposes, or likely to be used in any dairy, shall be deodorized and removed by the owner of the property upon which such accumulation or deposit is situated within twenty-four hours of notice given by the council or by one of its officers.

## PART VI.—DRAINAGE OF BUILDINGS.

26. Every person erecting, or causing to be erected, any new building shall cause the foundations thereof and the ground over which such building is to be placed, to be rendered dry, sound, and well drained, so that no water, soakage, or damp shall lodge there.

27. Every owner of a building shall cause the same to be provided with proper and sufficient drains, so constructed as to prevent any nuisance arising therefrom, and to secure the healthfulness of the inmates of such building; and every tenant of a building under a lease of which fourteen years or upwards is unexpired, shall be deemed an owner within the meaning of this section.

## PART VII.—SLAUGHTER-HOUSES AND ABATTOIRS.

28. Every occupier of a slaughter-house shall at all reasonable times afford free access to every part of the premises to the medical officer of health, the inspector of nuisances, the inspector of abattoirs or slaughter-houses, or to any person specially appointed by the Board of Public Health or the council in that behalf for the purpose of inspecting such premises.

29. Every occupier of a slaughter-house shall cause every animal brought to such slaughter-house for the purpose of being slaughtered and confined in any pound, stall, pen, or lair upon the premises previously to being slaughtered, to be provided during such confinement with a sufficient quantity of wholesome water.

30. Every occupier of a slaughter-house shall provide proper means of ventilation to be kept at all times in proper order and efficient action, and so that the ventilation shall be by direct communication with the external air, and shall keep the buildings, floors, and roof in thoroughly good order and repair, and in such a state in respect of cleanliness as not to be a nuisance or injurious to health.

31. Every occupier of a slaughter-house shall cause the drainage provided in or in connexion with such slaughter-house to be kept at all times in proper order and efficient action, and so as not to cause any effluvia or to be a nuisance or injurious to health.

32. Every occupier of a slaughter-house shall cause every part of the internal surface of the wall, and every part of the floor or pavement of such slaughter-house, and of all yards connected therewith or used for keeping cattle intended for slaughtering, or otherwise used in connexion with such slaughtering establishment, to be kept at all times in good order and repair, so as to prevent the absorption therein of any blood or liquid refuse or filth which may be spilled or splashed thereon, or any offensive or noxious matter which may be deposited thereon or brought in contact therewith.

33. He shall cause every part of the internal surface above the floor or pavement of such slaughter-house to be thoroughly washed with hot lime-wash, at least four times in every year; that is to say, at least once during the periods between the first and tenth of March, the first and tenth of June, the first and tenth of September, and the first and tenth of December respectively.

34. He shall cause every part of the floor or pavement of such slaughter-house and every part of the internal surface of every wall on which any blood or liquid refuse or filth may have been spilled or splashed, or with which any offensive or noxious matter may have been brought in contact during the process of slaughtering or dressing in such slaughter-house, to be thoroughly washed and cleansed within three hours after the completion of such slaughtering or dressing.

35. He shall not at any time keep any cattle or cause or suffer any cattle to be kept in such slaughter-house for a longer period than may be necessary for the purpose of preparing such cattle, whether by fasting or otherwise, for the process of slaughtering.

36. Every person who shall, by any act or default be guilty of any breach of this by-law shall be liable to a penalty of Ten pounds for every such breach, or of Five pounds for each day during which such breach shall be committed or continued, unless the justices before whom the penalty is sought to be recovered shall order any portion only of either of the said penalties—such portion not being less than Five shillings—to be paid; and any person committing any such breach as aforesaid shall be liable to the penalty notwithstanding that the council may be empowered by this by-law or otherwise, to remedy such breach, and whether such council has or has not taken advantage of such powers.

In the month of February, 1,227 births were registered, or 126 less than in the month under review. If, however, allowance be made for the increase of population, they will be found to have been under that average by 196.

‡ Census figures. § Proclaimed a town on the 16th January, 1893.

The estimated population of Greater Melbourne at the end of 1892 was 474,810, as compared with 491,942 at the same period of the previous year. There was thus an apparent decrease of 17,132, or about 3½ per cent.

According to the estimates of the Municipal authorities, the population fell off in all the sub-districts except the following, in which the increases were as subjoined:—North Melbourne, 1,376; Preston, 514; Malvern, 453; Flemington and Kensington, 400; Caulfield, 60. The falling off in the other sub-districts was as follows:—Richmond, 3,764; South Melbourne, 3,694\*; Prahran, 2,449; Brunswick, 1,954; Fitzroy, 1,321; Collingwood, 1,177; Williamstown, 818; St. Kilda, 727; Port Melbourne, 633; remainder of district, 549; Essendon, 519; Hawthorn, 407; Melbourne City, 309; Footscray, 222; Oakleigh, 200; Brighton, 117; Northcote, 82; Coburg, 30; Kew, 12; and Boroondara, 12.

In the year 1892, the registered births exceeded the registered deaths in Greater Melbourne by 126 per cent., but excluding the births and deaths which occurred in hospitals, asylums, &c., the excess of the former over the latter was 163 per cent.

In 140 instances twins, and in one instance triplets, were born in Greater Melbourne during the year under notice. As the births in the same period numbered in all 17,399, the confinements must have numbered 17,257. Thus one mother in 122 gave birth to more than one infant.

The births set down as illegitimate in 1892 numbered 1,447, or 79 more than in 1891. Over a third of these took place in the Women's Hospital or in buildings under the supervision of the officers of that institution. The proportion of illegitimate births to the whole number of births registered was 1 in 12, as against 1 in 13 in the previous year.

Subjoined are the birth and death rates in each sub-district in 1892. Births and deaths in hospitals, asylums, &c., are excluded, and the sub-districts are arranged in order, the sub-district with the highest birth-rate and the highest death-rate being placed first and the rest in succession:—

Greater Melbourne (exclusive of hospitals, asylums, &c.)	34·53	Greater Melbourne (exclusive of hospitals, asylums, &c.)	13·13

In calculating the rates for the above table, the births and deaths occurring in hospitals, asylums, &c., have been excluded as already stated. If these should be included, the proportion per 1,000 of the mean population of Greater Melbourne would be—births, 36·13; deaths, 15·98.

According to the table, the birth-rate is lower in Melbourne City than in any other sub-district, and the death rate in that city is also below the average.

In view of its open and apparently healthy position, the high death-rate in Oakleigh will, no doubt, excite surprise; as will also the low birth-rate in St. Kilda, a town in which the preponderance of females over males was found at the last census to be greater than in any other part of Victoria.

In consequence of the excessive mortality which attends the period of infancy, high death-rates are usually concurrent with high birth-rates. This, however, it will be noticed, is not always the case, Northcote standing very high in the birth-rate column, but low in the column for death rates.

In Greater Melbourne, taken as a whole, there was an average of three persons to the acre at the end of 1892, but the density of the population varies considerably in the different sub-districts, ranging from 40 persons to the acre in North Melbourne Town, to less than 2½ persons to the acre in Kew Borough, and about 1 person to every 6 acres in the portion of the district situated in shires. The following table shows the area of, and density of the population living in, each sub-district:—

It should be remarked that in some of the sub-districts extensive parks, gardens, and other public reserves exist, so that the population is really living in closer proximity than the figures indicate. Melbourne City contains 1,723 acres of such reserves; Kew, 634 acres; portion of the district situated in shires, 347 acres; South Melbourne, 482 acres; Williamstown, 446 acres; Flemington and Kensington, 307 acres; St. Kilda, 250 acres; Richmond, 190 acres; Brighton, 167 acres; Port Melbourne, 80 acres; Essendon, 65 acres; Footscray, 46 acres; Fitzroy, 41 acres; and smaller areas in the other municipalities.

\* There is reason to believe that the population of South Melbourne was over-estimated last year.

April 28, 1893.

1930

The estimated population, the births and deaths, and their proportions to the population, the excess of births over deaths, the mean temperature in the shade, the rainfall, and the mean atmospheric pressure in Greater Melbourne, during each of the twenty years ended with 1892, were as follow:—

\* In 1887 and previous years the population relates approximately to the end of the third quarter (September), but in subsequent years to the middle of the year.

† The mortality was swelled by measles in 1874 and 1875, and by scarlatina in 1875 and 1876. See subsequent table of this Report.

‡ Barometer 91.3 feet above the sea-level.

The births in Greater Melbourne during 1892, although fewer than in 1891 or 1890 were more numerous than in any prior year; their proportion to the population was lower than in any of the previous five years.

A remarkably low mortality prevailed in 1892. Notwithstanding the general increase of population, the deaths were fewer than in any previous year since 1886, whilst their proportion to the population was much lower than in any other year named in the table.

The proportion by which the births exceeded the deaths was higher in 1892 than in any previous year. All the figures in this table relating to births and deaths include those which occurred in hospitals, asylums, &c., which accommodate large numbers of persons coming from country districts. Should these be eliminated, the number of births would be somewhat less and that of deaths would be considerably less, whilst the excess of births over deaths would be very much higher.

The highest temperature in the shade recorded at Melbourne Observatory during the year 1892 was 104.0° on the 8th March; and the lowest was 31.0° on the 5th August. The mean temperature of the year (57.4°) was about equal to the average of the decade. The greatest range of the thermometer in any one day (44.0°) took place on the 7th February, and the least range (4.1°) on the 13th October. The mean daily range was 16.8°. The highest atmospheric pressure recorded was 30.405 inches on the 13th June; and the lowest was 29.211 inches on the 6th July. The mean atmospheric pressure (29.93 inches) was about the average. Rain fell on 124 days, and the amount of rainfall was 24.97 inches, the latter being between a half and two-thirds of an inch below the average. The number of days in which fog occurred was 9.

Of the births registered in Greater Melbourne during 1892, 51 per cent. were of males, and 49 per cent. were of females. Of the deaths during the year, 54 per cent. were of males, and 46 per cent. were of females. Children under the age of 5 years contributed 38 per cent. to the total mortality, as against 40 per cent. in 1891, 39 per cent. in 1890, 44 per cent. in 1889, 42 per cent. in 1888 and 1887, 41 per cent. in 1886, 38 per cent. in 1885, 41 per cent. in 1884, 36 per cent. in 1883, 40 per cent. in 1882, and 38 per cent. in 1881.

The deaths of 2,237 infants under 1 year of age occurred in Greater Melbourne during 1892, the proportion being 12.86 to every 100 births. This was the lowest infantile death-rate that has occurred in the district during the last twenty years, the highest being 19.43 in 1889. The corresponding proportion in 1891 was 15.88; in 1890, 14.40; in 1888, 17.18; in 1887, 17.51; and in 1886, 17.84. In the nineteen years ended with 1891, the mean proportion to every 100 infants born of those who died before completing their first year of life was 16.94.

The deaths of 482 persons, viz., 263 males and 219 females, of the age of 75 years or upwards occurred during 1892, or 75 less than in the previous year. Of these, 220 were between 75 and 80, 162 between 80 and 85, 70 between 85 and 90, 24 between 90 and 95, 4 between 95 and 100, 1 at 101, 1 at 106. The following were their occupations:—accountant, 1; architect, 1; banker, 1; barometer-maker, 1; blacksmith, 4; bootmaker, 4; bricklayer, 2; brushmaker, 1; butcher, 3; butler, 1; cabinetmaker, 4; carpenter, 12; carter, 3; chessmonger, 1; civil engineer, 1; clergyman, 1; clerk, 2; clerk of works, 1; coachbuilder, 2; coachpainter, 1; colonel, 1; contractor, 6; dealer, 1; dentist, 1; detective officer, 1; doctor of medicine, 1; draper, 1; drover, 1; engineer, 4; farmer, 11; farrier, 1; female, 212; fisherman, 2; fish-hawker, 1; fruiterer, 2; gardener, 13; gatekeeper, 2; gentleman, 52; gun-maker, 1; hawker, 1; horse-dealer, 1; horse-trainer, 1; insurance agent, 1; ironmonger, 1; labourer, 29; laundress, 3; leather-seller, 1; male, 17; marble mason, 1; mariner, 10; mason, 6; merchant, 1; messenger, 1; midwife, 1; miller, 2; miner, 2; needlewoman, 1; nurse, 1; painter, 1; planter, 1; plasterer, 6; porter, 1; publican, 1; railway porter, 1; saddle-maker, 2; sawyer, 3; seamstress, 1; secretary, 1; servant (male), 1; shepherd, 3; shipwright, 1; shoemaker, 2; soldier, 1; squatter, 1; steward, 1; surveyor, 1; tailor, 2; weaver, 1; wheelwright, 6; wool-classer, 1.

Deaths of females were more numerous than those of males at the age period 15 to 25 years, but at all other periods deaths of males outnumbered those of females. The following were the numbers of those of either sex who died at various periods of age in 1892, and the proportion of the deaths at each period to the total number during the year:—

The following are the numbers of deaths in 1892 which took place in Public Institutions:—664 in the Melbourne Hospital, 164 in the Alfred Hospital, 42 in the Homoeopathic Hospital, 65 in the Children's Hospital, 54 in the Women's Hospital, 78 in the Immigrants' Home, 4 in the Infant Asylum, 92 in the Benevolent Asylum, 64 in the Yarra Bend Lunatic Asylum, 96 in the Metropolitan Lunatic Asylum, 74 in the Austin Hospital, 28 in the Melbourne Gaol, 2 in the Eye and Ear Hospital, 9 in the Protestant Refuge, 1 in the Blind Asylum, and 29 in the Convent of the Little Sisters of the Poor. The number is 1,466 in all, which figures, compared with the total deaths (7,697), furnish a proportion of 19 per cent., or, in other words, 1 person in every 5·3 who died in Greater Melbourne during 1892 ended his days in a hospital, an asylum, or a gaol.

The following table shows the causes of death of persons of both sexes under and over five years of age, and the proportions per cent. of deaths from each cause, in Greater Melbourne during the month under review:—

According to the experience of the nine years named, the general mortality and the mortality from diarrhoeal diseases are greatest between November and April, the worst months being December and January; the mortality from typhoid fever is greatest between January and June, the worst months being February, March, and April; and the mortality from diphtheria and croup is greatest between April and September, the worst month being May. It will be noticed that the last-mentioned complaints are the only ones named which appear to be more destructive in winter than in summer.

The estimated mean population, the births and deaths, and their proportions to population, and the excess of births over deaths in each of the metropolitan cities of Australasia in 1892 were as follow:—

\* With suburbs.

† If the births and deaths occurring in hospitals, asylums, &c., be excluded, the rate per 1,000 of the population of Greater Melbourne of births would be 34·53, and of deaths, 13·13; whilst the excess of births over deaths would be 10,214, or 163 per cent.

‡ The figures in this line have been partly derived from estimates made in the Office of the Government Statist, Melbourne.

It will be noticed that the birth-rate was higher in Melbourne than in Sydney, Adelaide, Hobart, or Wellington; but lower than in Brisbane or Perth; that the death-rate in Melbourne was lower than in Perth or Hobart, but higher than in any of the other cities; and that the proportion of excess of births over deaths was lower in Melbourne than in any, except Perth and Hobart.

It should be mentioned that the death-rate of Melbourne is much swelled by the large number of country residents who are admitted to and die in the Metropolitan hospitals. In some of the other colonies it is the custom to eliminate such entries, and it is probable that in Melbourne such deaths bear a higher proportion to the total number of deaths recorded than they do in any of the other cities named.

#### SHIRES OF ALBERTON AND WOORAYL.

##### PROPOSED SEVERANCE OF AREA.

IN pursuance of the provisions of the *Local Government Act 1890* (No. 1112, section 43), the substance and prayer of a petition in accordance with the said Act, which has been presented to His Excellency the Governor, are published, viz.:—

The petitioners purport to constitute a majority of the rate-payers in the portion of the Shire of Alberton described in their petition, and they desire that the area so described may be severed from the said Shire of Alberton and annexed to the Shire of Woorayl.

Area described in petition:—Commencing at the south-east corner of Henry Gaw's selection No. 37b of the parish of Dumbalk; thence south by the eastern boundary of the said parish to the south-east corner thereof on the selection of M. J. Carigg, allotment 50b of the said parish; thence westerly and southerly by the boundary of the said parish to the north-west corner of the selection of W. A. Lotton, allotment 6, parish of Doomburrim; thence by the sectional road forming the west boundary of allotments 6, 8, 9, 11, B1, 15, 17, 19, 21, 23, 27, 29, and a portion of 31, all in the parish of Doomburrim, to the point at which the said road crosses the railway line; thence westerly by the said railway line to the south-west corner of the selection of F. O. Boys, parish of Doomburrim; thence northerly, westerly, and again northerly by the eastern boundary of the Shire of Woorayl to the north-west corner of G. Frankearn's selection, allotment 73, parish of Doomburrim; thence westerly by the said boundary of the said shire to the south-west corner of James Caldwell's selection No. 107b, parish of Dumbalk; thence north by the boundary of the said shire to the north-west corner of Richard Fitzgerald's selection No. 99, parish of Dumbalk; thence north-easterly, east, and south-easterly by the boundary of the said shire to the commencing point.

The petitioners state that their interests would be materially advanced if the whole of the above area were included in the Shire of Woorayl; that the distance at which the head-quarters of the shire are situated is so great as to render proper representation quite impossible; that their requirements have been totally neglected by the Shire Council; that the railway stations at Boys, Buffalo, and Stony Creek are easily accessible to the township of Leongatha, at which the head-quarters of the Shire of Woorayl are permanently established; and that identity of interest and community of feeling exists between them and the Shire of Woorayl.

The petitioners therefore humbly pray that His Excellency in Council may be pleased to sever that portion of the Shire of Alberton above described, and annex same to the Mirboo Riding of the Shire of Woorayl.

Notices on behalf of the petitioners may be served on Mr. John Quinn, Post-office, Stony Creek.

#### SHIRE OF ST. ARNAUD.

##### PROPOSED SEVERANCE OF AREA AND CONSTITUTION OF A NEW MUNICIPALITY.

IN pursuance of the provisions of the *Local Government Act 1890* (No. 1112, section 43), the substance and prayer of a petition in accordance with the said Act, which has been presented to His Excellency the Governor, are published, viz.:—

The petitioners purport to constitute a majority of the rate-payers in the portion of the Shire of St. Arnaud which is described in their petition, and they desire that the area so described may be severed from the Shire of St. Arnaud and constituted a new municipality under the name or title of "The Shire of Wimbirchip."

Area described in petition:—Commencing at the south-east angle of allotment No. 11, parish of Corack; thence westerly by the northern boundary of the Lake Buloke Common to a road at the north-east angle of allotment 4A, parish of Corack; thence west by the said road to the south-west corner of allotment 75A; thence south by a road to the south-east angle of allotment 41; thence west by a road to the south-west angle of allotment 42; thence northerly by a road to the south-east angle of allotment 7, parish of Watchem; thence west by a road to the south-west angle of allotment 63; thence south by a road to the south-east angle of allotment 54; thence west by a road and by the line of that road produced to its intersection with the west boundary of the parish of Warmur; thence northerly by the west boundaries of the parishes of Watchem and Warmur, and a line in continuation thereof, to the northern boundary of mallee block 55A; thence east to its north-east angle; thence south and east by blocks 54A and 54B to the north-east angle of the parish of Jil Jil; thence southerly by the eastern boundaries of the parishes of Jil Jil, Whirly, Karyie, Narraport, and Corack to the south-east angle of allotment 12, parish of Corack; thence south by a road to the point of commencement.

The petitioners state that the shire as at present constituted is of great extent, and portions thereof are so far from the centre of local government that their interests are practically unrepresented; that the rapid increase and extension of settlement in the northern portion of the Central Riding, and more particularly in the mallee country, have, during the last few years, completely altered the relative numbers of the inhabitants and amounts of rateable property in the various portions of the shire, with the result that their interests are no longer identical with those of the remainder of the shire, &c.

The petitioners therefore pray that His Excellency in Council may be pleased to sever the said area from the Shire of St. Arnaud, and constitute it a separate municipality under the name and title of "The Shire of Wimbirchip," such municipality to be subdivided into three ridings.

Notices on behalf of the petitioners may be served on Mr. H. C. Curwen Walker, solicitor, Birchip.

## TRAGOWEL PLAINS IRRIGATION AND WATER SUPPLY TRUST.

### REGULATION No. 9.

Regulation for graduated rate by the Tragowel Plains Irrigation and Water Supply Trust under the *Water Act 1890*.

WHEREAS the moneys received during the year 1892 by the Tragowel Plains Irrigation and Water Supply Trust were not sufficient to provide for the payment of the sums due by such Trust to the Board of Land and Works for the payment of the interest due upon the loan contracted by such Trust, and for all the other lawful expenses incurred by such Trust in the control and management of the said Tragowel Plains Irrigation and Water Supply Trust;

And whereas it is anticipated that the moneys receivable by the said Irrigation and Water Supply Trust during the current year will not without a rate be sufficient to meet the estimated expenditure and liabilities of the said Trust for the current year, 1893, and it is therefore necessary to make a rate to meet as well the said deficiency in the revenue of the year 1892 as the estimated expenditure and liabilities for the current year, 1893;

And whereas by an Order made by the Governor in Council on the 17th day of October, 1892, the district of the said Tragowel Plains Irrigation and Water Supply Trust was divided into three divisions, numbered in the said Order:—

The No. 1 Division,  
The No. 2 Division,  
The No. 3 Division,

with the several boundaries to such divisions set out in the said Order.

And by the said Order in Council it is directed that the necessary rates for paying interest on all moneys borrowed by the Tragowel Plains Irrigation and Water Supply Trust for the construction and maintenance of its works, or to meet any other expenses in connexion therewith will be levied differentially as between such said divisions, and doth determine that the proportions in which such divisions shall be rated respectively one to another, regard being had to the cost and expenses of the works constructed wholly or in part for the benefit of such divisions respectively shall be as follows, that is to say:—That the respective ratings in the pound sterling on the annual value of rateable property rated for municipal purposes in the said divisions shall be—

The No. 1 Division ... Sixpence.  
The No. 2 Division ... Ninepence.  
The No. 3 Division ... Fifteenpence.

And whereas the Commissioners of the said Tragowel Plains Irrigation and Water Supply Trust have, in accordance with the said recited Order in Council, determined, for the several purposes authorized in the said Act, to make the rate set out in the following Regulation, and have, in accordance with the provisions of the said Act, submitted such rate and regulation for the approval of the Governor in Council, who has, by Order in Council made on the 17th day of October, 1892, given his approval to the same, and such approval was published on the 21st day of October, 1892, in the *Victorian Government Gazette*, and was also published on the 28th day of October, 1892, in the *Pyramid Hill Advertiser* newspaper, being a newspaper circulating in the said district:

Now therefore the Commissioners of the said Tragowel Plains Irrigation and Water Supply Trust, in pursuance and exercise of the powers and for the said several purposes authorized by the said *Water Act 1890*, and in accordance with the Order in Council of the 17th day of October, 1892, do, upon this 6th day of April, 1893, make the Regulation to which the Governor in Council has given his approval by Order in Council as above recited by the Regulation following, that is to say:—

The rates hereinafter specified are those which the owners or occupiers of lands and tenements within the aforesaid divisions shall pay in respect of the term of one year from the 1st day of January, 1893, to the 31st day of December, 1893, on all lands and tenements according to the municipal valuation for the time being on all such lands and tenements during the said year, that is to say:—

On rateable property within the No. 1 Division, a rate of Sixpence in the pound sterling of such valuation.

On rateable property within the No. 2 Division, a rate of Ninepence in the pound sterling of such valuation.

On rateable property within the No. 3 Division, a rate of Fifteenpence in the pound sterling of such valuation.

Such rates are hereby made payable on the 1st day of June, 1893.

Such person or persons appointed by the Trust for that purpose shall be authorized to collect and recover such rates.

The foregoing Regulation, numbered 9, was made by the Commissioners of the Tragowel Plains Irrigation and Water Supply Trust under and by virtue of section 254 of the *Water Act 1890*, this 6th day of April, 1893.

The common seal of the Tragowel Plains Irrigation and Water Supply Trust was hereunto affixed by the authority of the said Trust, in the presence of—

(SEAL) SAMUEL ESLER, Chairman.  
T. F. MOYLAN,  
R. M. STONE,  
R. KEMP,  
J. WALLACE,  
JAS. LANGFORD,  
C. B. CREED,  
THOMAS CURLETT,  
J. BELL, Secretary.

Approved by the Administrator of the Government  
in Council the 24th April, 1893.

G. WILSON BROWN,

## CONDITIONS OF CONTRACT.

1. The coal to be supplied must have been screened at the pit's mouth, and must be of the best quality. No other coal will be received. In case of the rejection or return of any supplies the contractor shall bear the whole cost of replacing the supplies so rejected or returned.

2. The orders will be issued by the departments requiring the coal.

3. Coal shall be delivered as may be directed by the officer ordering the supply.

4. At the time of delivering the supplies, the contractor shall produce the order for the same to the officer authorized to accept delivery, and such officer shall acknowledge thereon the receipt of the coal accepted and shall return the order to the contractor.

5. If after the delivery of the supplies has been taken, any deficiency or defect is discovered therein, such supplies may be returned to the contractor.

6. The pit certificate to be produced upon request.

7. The contractor will be bound to deliver the coal for vessels into the ships' bunkers. (Dredges are not included in this condition.)

8. When baskets are used in the delivery of coal they are all to be of one size, and the contractor will be bound to tare the baskets when so required by the officer taking delivery. In other cases the contractor will be bound to satisfy the officer receiving that the weight or quantity is correct.

9. Coal to be put on board at a rate of not less than ten (10) tons per hour.

10. In the event of the officer ordering the coal not requiring the same to be put into the ship's bunkers, as required by condition No. 7, a rebate of 1s. per ton to be made by the contractor.

11. In the event of a difference of opinion between the contractor and the officer receiving the supply as to the quality, the same is to be decided by a board of survey, composed of persons named by the head of the department, and the decision of the board is to be considered as final.

12. If the board of survey shall decide that the coal is of inferior quality, the delay in delivering the quality specified in condition No. 1 will subject the contractor to a mulct assessed according to the actual loss sustained by such delay, and it will also be in the power of the Treasurer of the colony for the time being to terminate the contract forthwith and forfeit the whole or any portion of the security money.

13. Steam vessels are to be supplied with coal on demand. No more delay will be allowed than is sufficient to give the necessary orders and get the hulk or vessel alongside. Bad weather to be the only excuse. When there is not a necessity for an immediate supply, a day's notice will be given.

14. As soon as the orders shall have been completed, the contractor will be required to furnish to the department supplied his accounts in the prescribed form, with the receipted delivery orders attached thereto.

15. A refusal to execute orders, or repetition of irregularity in the quality or quantity of the supplies, or in delay of delivering or replacing them when required, will subject the contractor to such mulct, not exceeding £50, as the said Treasurer may direct, such mulct to be deducted from the contractor's account or the security money. It will also be in the power of the Treasurer, upon such refusal or repetition, to terminate the contract forthwith and forfeit the whole or any portion of the security money.

16. Contractors are not at liberty to transfer their contracts under cover of power-of-attorney, coupled with an interest or otherwise; and no such transfer will be recognised by the Government.

17. Under no circumstances will a contractor be permitted to abandon his contract. In the event of the contractor failing to carry on the contract, the contract security money will in that case be absolutely forfeited, and in addition the contractor will be held liable for any loss which the Government may sustain in consequence of such failure.

18. In the event of a general strike occurring at the collieries, or in the event of war breaking out between Great Britain and any large maritime power, any contract entered into under these conditions after the expiry of one calendar month from notice being given may be suspended, such contract to come into full force and effect again ten (10) days after such cause of suspension shall be discontinued.

19. The contracts entered into under this notice are not to be considered as being broken, infringed, or vitiated by any purchase of Welsh coal or Westport coal by the Defence Department for the use of torpedo boats, or by the purchase of coal by the Victorian Government from any mine or mines within the colony of Victoria for any of the Departments of the Public Service.

20. In the event of any alteration in the tariff affecting any of the items included in these contracts, the Government will neither claim any decrease upon the contract price, nor entertain any application from a contractor for any increase to it.

#### CONDITIONS OF CONTRACT.

1. The house coal must be the best of its kind, free from shale, small coal, dust, or other impurities. The smiths' coal must be free from dust, ashes, shale, or other impurities.

2. The orders will be issued by the departments requiring the supplies; and the requirements shall be delivered as may be directed by the officer issuing the order. 6. If the board shall decide that the article is not of proper quality, it must be immediately replaced by the contractor, failing which it will be procured elsewhere, and the extra expense (if any) will be deducted from the contractor's account or the security money.

7. If from any cause injury would accrue to the public service by waiting for a board of survey, the head of the department, or officer in charge of station, will have the power to reject such supplies as are obviously of inferior quality, it being understood that he will be responsible to the Government for so doing; and the contractor must take back the rejected article, and supply good in its stead, failing which it will be procured elsewhere, and the extra expense (if any) will be charged as in condition 6.

8. The firewood for Yarra Bend is to be tendered for at per ton weight of 2,240 lbs.

Printed forms of tender, giving estimates of the probable requirements, may be obtained from the Secretary to the Tender Board, Melbourne, the Receiver and Paymaster at Geelong, and the Medical Superintendent, Sunbury Asylum, by whom also any information or explanation will be afforded to persons tendering.

Tenders must be accompanied by the preliminary deposit above mentioned in bank notes, or a bank draft payable to the order of the Secretary to the Tender Board (cheques will in no case be received), which will be returned within ten days to unsuccessful tenderers. Such deposit to be forfeited in the event of the successful tenderer failing to complete the security within the prescribed period.

The security must be completed and contract signed within ten days of acceptance of the tender, failing which the contract may be again advertised or another tender accepted.

Tenders must express the prices in words as well as in figures, and without alterations or erasures.

Tenderers failing to take up their accepted tenders will be disqualified from tendering for Government supplies for a period of twelve months.

The Government will not necessarily accept the lowest or any tender.

Tenders, enclosed in a separate envelope, and having the words "Tender for Firewood at" (as the case may be) written thereon, must be deposited in the Tender-box at the Pay Office, Treasury, Melbourne.

#### CONDITIONS OF CONTRACT.

1. The firewood must consist of box, sheoak, red or white gum, or peppermint, and must be dry, perfectly sound, and of good burning quality.

2. The orders will be issued by the departments requiring the supplies, and the firewood shall be delivered as may be directed by the officer ordering the supply. Should an order not be complied with within forty-eight hours, it will be competent for the department concerned to purchase the requirements or any like

supplies suitable for the service at the contractor's risk, and to deduct from the contractor's account or from the security money the extra expense (if any) over and above the contract price.

3. The contractor will be bound to place the firewood in stacks for measurement on such ground as may be pointed out. The stacks are to be two feet wide by five feet high, with space between each stack for measuring; and the billets are all to lie the same way, viz., crossways of the stacks in the form of a cord, and are to be laid as closely and solidly as possible in the stack, and to the satisfaction of the officer receiving the supply. In case the firewood for Yarra Bend is required to be supplied at per ton weight, the contractor will be bound to weigh the wood upon the Asylum weighbridge. Each load to be tared separately. The weighbridge ticket to be rendered in support of the account. Firewood, when ordered by weight, is not to be stacked by the contractor, but it must be deposited on such ground as may be pointed out.

4. The acceptance of the supplies shall be subject to the approval of the officer authorized to take delivery, or such other officer as shall be named in the conditions. If after the delivery of the supplies has been taken, any deficiency or defect is discovered therein, such supplies may be returned to the contractor. In case of the rejection or return of any supplies, the contractor shall bear the whole cost of replacing the supplies so rejected or returned.

5. As soon as the orders shall have been completed, the contractor will be required to furnish to the department supplied his account in the prescribed form, with the receipted delivery order attached thereto. Accounts will be payable at any Receipt and Pay Office that the contractor may desire.

6. In the event of a difference of opinion between the contractor and the officer receiving the supply as to the quality, the same is to be decided by a board of survey, composed of persons named by the head of the department, and the decision of the board is to be considered as final.

7. If the board shall decide that the article is not of proper quality, it must be immediately replaced by the contractor, failing which it will be procured elsewhere, and the extra expense (if any) will be deducted from the contractor's account or from the security money.

8. If from any cause injury would accrue to the public service by waiting for a board of survey, the head of the department, or officer in charge, will have the power to reject such articles as are obviously of inferior quality, it being understood that he will be responsible to the Government for so doing; and the contractor must take back the rejected article, and supply good in its stead, failing which it will be procured elsewhere, and the extra expense (if any) will be charged as in condition 7.

9. A refusal to execute orders, or a repetition of irregularity in the quality or quantity of the supplies, or of delay in delivering or replacing them when required, will subject the contractor to such mulct, not exceeding £50, as the Treasurer of the colony for the time being may direct, and the amount may be deducted as in condition 7. It will also be in the power of the said Treasurer, upon such refusal or repetition, to terminate the contract forthwith.

10. Contractors are not at liberty to transfer their contracts under cover of power-of-attorney, coupled with an interest or otherwise; and no such transfer will be recognised by the Government.

11. Under no circumstances will a contractor be permitted to abandon his contract. In the event of the contractor failing to carry on the contract, the contract security money will in that case be absolutely forfeited, and in addition the contractor will be held liable for any loss which the Government may sustain in consequence of such failure.

2. Tenderers are requested to describe by their numbers, as below, the mail services for which they tender.

3. The amount of the tender must be stated AT RATE PER ANNUM in words as well as figures.

4. Every tender must bear the *bona fide* signature and address of the tenderer, and bear the names of two responsible persons willing to become bound for the fulfilment of the contract in such sum as the Government may direct, not exceeding the gross amount of the contract.

5. Every tender must be accompanied by cash, bank cheque, bank draft, or a bank deposit-receipt to the credit of the Deputy Postmaster-General for a sum equal to TEN PER CENT. of the annual amount named in the tender; this deposit to be absolutely forfeited to the Government in case the person whose tender may be accepted shall fail to complete the usual bond and contract to the satisfaction of the Government within ten days of being notified that the documents are ready for execution. The notice of acceptance, if delivered at the address named in the tender, shall be deemed sufficient.

6. The money or other security deposited by successful tenderers will be returned to them upon application, on the bond and contract being duly signed.

7. The money or other security deposited by unsuccessful tenderers will be returned to them upon application, and on their signing receipts for the respective amounts.

8. In the event of a new line of railway, or a new railway station on an existing line being opened for traffic, and it being decided that the mails shall be conveyed by rail, the Postmaster-General shall have the power of cancelling the contract for any mail service running in the vicinity of the railway without compensation to the contractor, or shall have power to alter the points of arrival and departure of the mails; and, in the event of the travelling distance on any mail line being in such manner increased or diminished, all payments for the service subsequent to the alteration shall be computed on the basis of the average mileage-rate of the contract.

9. In the event of it being found necessary, from any cause, to absolutely cancel a contract, the Postmaster-General shall have full power to do so, provided that, unless the contract be cancelled on account of any fault on the part of the contractor, or on account of the opening of a railway line or a new railway station, payment shall be made to the contractor as compensation of a sum equal to ten per cent. of the moneys which would have become due on the unexpired period of the contract if the latter had been continued for the full term of three years.

Where tenders are invited for a service to and from a Post Office and Railway Station "as often as required," tenderers are required to name a lump sum per annum for the work, and such sum shall not be liable to alteration either through increase or diminution in the number of trips.

13. A separate *bona fide* tender must be sent in for each service.

The net weight or quantity only will be paid for. The value of all packages, cases, casks, &c., whether bulk be broken or not, must be included in the prices stated in the contractor's tender; all such packages, &c., to be considered the property of the Government, and no charges or expenses whatsoever beyond the price tendered and set out in the schedule will be allowed to the contractor for any articles or packages, cases, casks, &c.

The Government will not necessarily accept the lowest or any tender.

Persons failing to take up their contracts will be disqualified from tendering for Government supplies for a period of twelve months.

Tenders to be endorsed "Tender for ——" (as the case may be), and deposited in the Tender-box, General Post Office; or, if sent by post, to be addressed (prepaid) to the Honorable the Postmaster-General, Melbourne.

## CONDITIONS OF CONTRACT.

1. The Postmaster-General will not be bound to issue orders upon the contractors for all the articles enumerated in the schedules, but only for such articles and such quantities of those articles as the Postmaster-General may order from time to time; neither will the Postmaster-General be bound to take from the contractors any larger supply of any of the articles than may be shown upon the orders which have been issued during the year, nor will he be bound to take any of the articles enumerated in the schedules for which orders have not been issued. Should the Postmaster-General require a larger supply of any article than the quantity stated in the schedules, the contractor will be bound to supply the same at the contract rate.

2. The supplies are to be according to sample, and of the particular manufacture indicated in the schedule of tenders. In the case of different makers' goods, the contractor will be required to supply the kind ordered. In other cases the supplies are to be the best quality of their several kinds of manufacture. A preference will, however, be given to goods of Victorian manufacture, provided the quality be equal to the particular manufacture indicated in the schedule.

3. All orders must accompany the goods on delivery, otherwise the goods will not be received. Delivery, as a rule, is to be of the full quantity ordered.

4. Supplies ordered for delivery in Melbourne to be delivered free of all charges (whether cartage, freight, &c.) within a radius of six miles from the General Post Office.

5. Arrangements as to time of delivery and inspection of goods will be made by the Supervisor of Maintenance, General Post Office.

6. Orders must receive prompt execution; and in the event of the goods not being delivered within forty-eight hours after the contractor shall have received the order, or within such other time as the order may specify for delivery, it will be competent for the officer named in condition 5, or the head of the department, on giving the contractor twenty-four hours' notice, to purchase the supplies, or any like supplies that are suitable for the service, at the contractor's risk, and the extra expense incurred over and above the contract price (if any) will be deducted from the contractor's account.

7. The contractor will be required to furnish his account in the prescribed form simultaneously with delivery of the full quantities of goods ordered, the account being rendered with order to which it relates. The prices quoted in the orders cannot be increased.

8. The acceptance of the supplies shall be subject to the approval of the officer named in condition 5. The contractor may, however, claim a survey on any goods objected to; but in that case he must, within twenty-four hours after objection is made, give notice thereof in writing to the officer rejecting the goods.

9. Delivery will not be deemed to have been made until the goods have been approved of. All articles rejected must be immediately replaced by the contractor, otherwise purchases will be effected at the contractor's risk, and the extra expense deducted as in condition 6.

10. The members of boards of survey will be appointed by the Government, and the decision of the board is to be considered as final. If the board shall decide that the article is not of proper quality, it must be immediately replaced by the contractor, failing which it will be procured elsewhere, and the survey fees and extra expense (if any) will be charged as in condition 6.

11. A repetition of irregularity in the quantity or quality of the supplies, or of a delay in delivering or replacing them when required, will subject the contractor, upon report, to such mulct, not exceeding Fifty pounds, as the Postmaster-General may direct, and the amount may be deducted as in condition 6, or from the contractor's security. It will also be in the power of the Postmaster-General, upon such repetition, to terminate the contract forthwith.

12. Contractors are not at liberty to transfer their contracts, under cover of power-of-attorney, coupled with an interest or otherwise, and no such transfer will be recognised.

13. *Under no circumstances will a contractor be permitted to abandon his contract.* In the event of the contractor failing to carry on the contract, the contract security money will in that case be absolutely forfeited; and, in addition, the contractor will be held liable for any loss which the Government may sustain in consequence of such failure.

14. In the event of any alteration in the tariff affecting any of the items included in these contracts, the Postmaster-General will neither claim any decrease upon the contract price nor entertain any application from a contractor for any increase to it.

15. The contracts entered into under this notice are not to be considered as being broken, infringed, or violated by the importation of stores for the Electric Telegraph Service, or by any contracts made by the Imperial Commissariat or the Agent-General for Victoria, or by any contracts or agreements made for any works or supplies by the Department of Public Works or the Tender Board, or on account of other Governments; or by any article being made at and supplied for the use of any Government establishment; or by the consumption of the surplus stock of any Government establishment.

JAMES SMIBERT,

Deputy Postmaster-General.

Post Office and Telegraph Department  
(Stores Branch),  
Melbourne, 28th March, 1893.

## TENDERS FOR GRAZING LANDS.

**Tenders must be sent in on proper form, which can be obtained on application to the Lands Department, Melbourne, or any of the Survey Offices in the country.**

Tenders must be placed in the Crown Lands Office Tender-box not later than Twelve noon on Friday, 26th May, 1893.

**NOTE.**—The fee for the period from 1st June, 1893, to 31st December, 1893, and fee of Five shillings for Licence, must accompany each Tender.

TENDERS will be received by the Board of Land and Works up to Noon of Friday, the 26th May, 1893, for the occupation, for grazing purposes only, of the following unappropriated portions of land, subject to the Regulations approved by the Governor in Council and also the subjoined special conditions.

Every licence granted under section 123 of the *Land Act 1890* shall be subject to the conditions set forth in the schedule hereto and to such special conditions and payment in advance of such fee as the Minister may determine, and shall be issued by an officer of the Department of Lands and Survey duly authorized in that behalf.

Under section 7 of the *Vermin Destruction Act 1890*, all licensees under the section for which these licences will issue are liable for the destruction of rabbits within the boundaries of their licences.

## Conditions:

1. The issue of this licence shall not prevent the land comprised therein, or any part or parts thereof, being sold, leased, licensed, alienated, or dealt with under any of the provisions of the *Land Act 1890*, except under the 123rd section thereof, under which the licence is issued, or being resumed by order of the Governor or Administrator of the Government of Victoria, with the advice of the Executive Council, for any of the purposes for which land may be reserved under section 10 of the *Land Act 1890*, or for mining purposes.

2. In case the said land, or any part or parts thereof, shall be sold, leased, licensed, alienated, dealt with, or resumed as aforesaid, the licensee shall not be entitled to any compensation other than the return of such portion of his licence-fee paid by him as the responsible Minister of the Crown for the time being administering Division II. of the *Land Act 1890* may think fit. This licence is also subject to the rights of the holders of miners' rights or of mining leases now issued or hereafter to be issued to enter upon the allotment hereby licensed, and to search for gold, and to mine therein, and to erect and occupy mining plant and machinery, without making any compensation for surface or other damage.

3. Subject to these conditions, the licensee shall be entitled to use the land for the purposes for which the licence has been granted, until notice has been given in the *Government Gazette* that such land, or any part thereof, has been sold, leased, licensed, alienated, dealt with, or resumed as aforesaid; and immediately upon such notice being given, all the interest of the licensee in the licensed land described in such notice shall cease and be

determined, and any person entitled to occupy the licensed land, or any part thereof, may lawfully make entry upon and hold the same without the permission or sanction of the licensee or any one claiming under her, him, or them.

4. No land comprised in roads from time to time surveyed and marked out within the boundaries of the land comprised in this licence shall be deemed within its operation.

5. This licence entitles the holder thereof, during the period for which it is granted, to use the land therein comprised for depasturing purposes only, but does not confer any right to build thereon, or to cultivate or to fence any portion thereof.

6. If the licensee desires a renewal of this licence, notice to that effect must be given to the responsible Minister aforesaid one month prior to the expiration thereof, but nothing herein contained shall be deemed to confer the right to any renewal.

7. The interest in this licence may not be transferred without the consent of the Minister aforesaid and the payment of a fee of £1.

8. No claim whatever shall be made or entertained by reason of the licence not being renewed or transferred.

9. This licence is to be used under and in accordance with the regulations made or to be made under the provisions of the said Act and for the time being in force.

10. This licence may be forfeited if the licensee commit a breach of or neglect to comply with any of these conditions.

11. The publication of a notice in the *Government Gazette*, purporting to declare that the Governor or Administrator, with the advice aforesaid, has forfeited this licence, shall be conclusive evidence that the licence is forfeited.

12. The ring-barking of the timber upon the land by the licensee is expressly forbidden, nor is he entitled to destroy or cut and take away any such timber; and should he be found destroying, felling, or removing live or dead timber without a licence authorizing him so to do he will be prosecuted according to law.

#### Special Conditions:

1. The period of occupation will be from 1st June, 1893, to 31st December, 1893.

2. The licence-fee must be paid in advance. The fee for the period from 1st June, 1893, to 31st December, 1893, for which the licence will be issued—must accompany the tender, or be paid by the successful tenderer or his agent immediately on the declaration of the acceptance of the tender, otherwise the offer of the next highest tenderer who may be prepared to comply with this condition may be accepted.

3. Tenders to be for so much per lot and block per annum.

4. Separate tenders must be lodged for each block.

5. Tenders to be indorsed—"Tender for Lot 1, Block 235," or "Lot 2, Block 235," or "Lot 3, Block 2270," as the case may be.

6. The highest or any tender not necessarily accepted.

7. Tenderers must give their full name and ordinary postal address.

8. The areas are given as more or less, and all appropriated, alienated, or licensed land (if any) within the boundaries is excluded.
